Update Meeting with Dir. Nixon

Location: John's Office, Romney Bldg.

Agenda

1- Director Nixon's Discussion Items

2 - Updates and decisions

- **BYOD for IT contractors (DCH)**
  - It would be very cost effective to allow the contractors to do BYOD (instead of purchasing a state smart phone for them)
- **Data Center**
  - Need to schedule the next follow-up meeting with the executive team.
  - Briefing document is being updated with the latest information.
- **Cyber Summit Letter**
  - Would like to send it out (coming from John, to agency directors).
  - Draft has been created - ATTACHED
- **Major Projects updates**
  - ERP
    - The business case document is in your office for review
    - RFP will go out on 10/7
    - Still do not have agreement on the governance structure. Lynn working with Mike Moody on this.
  - UIA MIDAS
    - Changes went well over the weekend.
    - Conversions went fine.
    - Will open up the system to all of the citizens tomorrow.
  - Medicaid Compliance Program (MCP)
    - Feds changed requirements again.
    - Working to figure out how to test them.
  - MiSACWIS
    - Testing at multiple field offices starting today.
    - 96% as of today.
    - 10/21 roll-out date
- **Scorecard**
  - Latest version – ATTACHED
- **Employee Survey**
  - Tiziana contacted Fran to find out what the IT percentage is
- **Budget**
  - Working on projects for FY15
  - Data Governance briefing being updated
  - Radio system upgrade
- **Marquette Trip**
  - Working on agenda for next week's trip
  - Meeting with Universities, DTMB IT staff
- **Tabletop exercise on October 1st**
  - 160 registered to attend
  - 3 rounds of scenarios
  - Half of attendance will be from private sector
- **Code Michigan event**
  - Over 200 signed up
  - Rod, Robin, Lynn, Eric, and Tiziana will attend. Dan has family commitments.
  - Andris worked on the selection criteria
- **MPSCS**
  - Will need to brief the Governor on the topic. Latest version of the plan and recommendations - ATTACHED.

- **Education Website**
- **NASCIO attendance**
    - John Nixon
    - David Behen
    - Dan Lohrmann
    - Eric Swanson
    - James McFarlane
    - Steve Arwood and Clay Tierney
    - Andris Ozols
    - Lynn Draschil or Rod Davenport

Attendee		Slot	Transportation	Hotel	Meals	Registration	Total
David	Behen	CIO	$0.00	$0.00	$0.00	$0.00	$0.00
Dan	Lohrmann	Panel	$0.00	$416.72	$0.00	$0.00	$416.72
Eric	Swanson	Award (Dan)	$0.00	$416.72	$0.00	$0.00	$416.72
Andris	Ozols	Speaker (John)	$0.00	$416.72	$0.00	$0.00	$416.72
James	McFarlane	Panel	$0.00	$416.72	$0.00	$0.00	$416.72
Rod/Lynn	Davenport/Draschil		$500.00	$625.08	$0.00	$595.00	$1,720.08
		Totals	***$500.00***	***$2,291.96***	***$0.00***	***$595.00***	***$3,386.96***

- **MACPA**
    - Tiziana facilitated a meeting with the DTMB team & the MACPA group on 5/28 to discuss IT projects ROI
    - MACPA was quite impressed with what we are doing; they noted a couple of areas that could be further enhanced
    - Letter has been received
- **Letter to Sen. Papageorge on living wills and Win7 VS Win8 upgrade**
    - Tiziana has provided a draft to Chris Harkins
- **FYI - GM positions**
    - DHS

3 - Pending Items:

- **MiPage**
- **FirstNet**
- **Michigan.gov**

STATE OF MICHIGAN
RICK SNYDER
GOVERNOR

DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET
LANSING

JOHN NIXON
DIRECTOR

September 30, 2013

TO: Agency Directors

FROM: John Nixon

SUBJECT: 2013 Michigan Cyber Summit Invitation

As you may be aware, the 2013 Michigan Cyber Summit has been scheduled for October 25, 2013 at the Suburban Collection Showplace in Novi, Michigan. This event, hosted by Governor Rick Snyder, promises to be exciting and informational with many national-level speakers.

The Summit will bring together experts to address a variety of cyber security issues affecting business, education, information technology, economic development, law enforcement and personal use. The Summit is a partnership between several levels of local, state and federal governments, as well as many private-sector partners.

As an Agency Director, we would like to provide you with one complimentary VIP Pass for this event. Please contact Ms. Leslie Smith at lsmith@esd.org to reserve your pass.

Other interested staff may register on the event website at https://events.esd.org/MichiganCyberSummit2013.aspx for only $35.00.

Please continue to monitor the event website as the agenda is being developed.

If you have additional questions, please contact Dan Lohrmann, Chief Security Officer at 517-241-4090 or lohrmannd@michigan.gov.

I hope to see you there!

MiScorecard Performance Summary

Business Unit:	**Information Technology**
Executive/Director Name:	**David Behen**
Reporting Period:	**Aug 2013**
Date Approved:	**9/20/2013**

Green	>90% of target
Yellow	>= 75% - 90% of target
Red	<75% of target
Scorecard Status	**Final**

Metric		Status	Improving	Target	Current	Previous	Frequency	Data definition
GOAL 2 - Operational Efficiency								
IT 2A-2	Actual IT spending as a percentage of IT budget.	Green	👍	TBD	new measure	new measure	FY Annually	This metric will help the departments to hold DTMB accountable, for better workload, planning, and budgeting.
2-IT-1	IT investment fund projects completed on time, within budget and utilizing transparent reporting	Green	👍	90%	83%	75%	Quarterly	This metric tracks project status for those projects included in the $47 million of additional IT funding allocated to DTMB.
IT CS ALL 04	Percentage of customers indicating that they are very or somewhat satisfied with service provided by the IT Client Service Center.	Green	👍	90%	93.4%	91.5%	Quarterly	The DTMB Client Service Center (CSC) asks customers a series of questions after every service interaction. The survey provides important information about the quality of IT services provided. This metric indicates the percentage of clients who say they are very or somewhat satisfied with the service provided.
GOAL 1 - Customer Service Excellence								
IT 1D-3	Number of online transactions.	Green	👍	TBD	TBD		Quarterly	Count of the number of online transactions.
IT 1D-2	Number of citizen facing online services.	Green	👍	50%	TBD		Quarterly	This metric counts the number of citizen facing online services.
CIP 1	Percentage of workstations with malicious software related tickets	Red		1.50%	2.08%		Quarterly	This measure provides an indication or the effectiveness of DTMB's Office of Michigan Cyber Security malware prevention efforts. Although blocking malware before it is a problem is a part of this measure, state employees also play a role in the proper use of state equipment. Technology, education and understanding are the key factors in keeping this number low.
CIP 2	Percentage of mission critical applications with completed risk assessments	Red		90%	52%		Quarterly	Critical IT Systems are identified as systems that are vital to an agency conducting their mission. These systems are tracked by the IT on what is called the red card. A risk assessment is an analysis of the system to determine the potential loss and probability of loss that could occur as a results of cyber threats to the application.
GOAL 3 - Accountability and Performance								
3-IT-1	Deliver programs, services and operations within specified operating budget	Green	👍	90	new measure	new measure	Quarterly	This metric will gauge each area's compliance with their operating budget.
3-IT-2	Ensure all IT products and services are acquired by clients utilizing DTMB as the service provider	Green	👍	90	new measure	new measure	Quarterly	All state agencies are required to acquire all IT services and products through DTMB, per Executive Order 2001-3. This metric will gauge compliance with the Executive Order that centralized IT services in DTMB.
3-IT-3	Comply with audit recommendations by implementing required corrective action within agreed-to timelines	Green	👍	90	new measure	new measure	FY Annually	This metric will help ensure all audits and associated findings/recommendations are being addressed as appropriate.

3-IT-4	Percentage of Strategic Initiatives with designated resources	Green		TBD	new measure	new measure	FY Annually	Percentage of Strategic Initiatives with designated resources.
GOAL 4 - Expertise & Commitment								
IT 4B-3	Employee Engagement: Champions Percentage	Green		50%	47%		FY Annually	As reported in the 2012 Employee Engagement Survey, champions are employees that have strong identification with organizational objectives, a high level of loyalty to the organization, and a high level of willingness to cooperate and motivate colleagues. DTMB's goal is to increase the percentage of employees that are champions based on responses to engagement survey questions.
4-IT-1	Performance reviews complete within established timeframes	Green		90	new measure	new measure	Quarterly	Staff performance reviews are completed annually. Managers and supervisors meet with employee quarterly for a touchpoint.
GOAL 5 - Shared Services								
5-IT-1	Extend the adoption of shared services across all agencies.	Green		TBD	0	0	CY Annually	Shared Services would include: SharePoint, Business Objects/SAP/ BING Maps. Future Updates May include: Database as a Service
IT 5A-1	Savings and cost avoidance realized by existing shared solutions.	Green		$1721000	$1,721,000	$1721000	CY Annually	This metric shows the savings materialized or cost avoided resulting from shared services. It includes these shared services: - DTMB Financial Services - accounting consolidation - Bing Maps aerial imagery - SharePoint - Business Objects
IT 5B-1	Cycle time for shared services process review (# days).	Yellow		160	180	180	CY Annually	This metric includes the time it takes to evaluate potential shared services (days). This is the average time projects have been in "the system" before they have successfully completed the Shared Services Business process review. The time involved depends on the complexity and scale of the proposals. (successful completion of the process does not always result in a new shared service). The goal is to reduce the review time, to support innovation and shared services across the state.
IT 5C-1	Number of implemented partnership projects across government (with external partners).	Green		450	427	427	CY Annually	This metric shows the number of shared service agreements with external customers. It currently reflects two of DTMB's Offices that currently share many services outside of government. These include services such as mapping, GIS, vehicle repair and mail sorting.
GOAL 6 - Innovation and Leadership								
6-IT-1	Develop future leaders by implementing the 60 Change Leaders Program	Green		200	119	92	Twice a Year	The 60 change leaders are ambassadors for positive change and help drive the transformation across our DTMB-IT department. They are fundamental in our goal to move our organization toward great customer service in alignment with our ICT Roadmap.
IT 6A-2	Number of projects in the Innovation Fund pipeline.	Green		10	7	0	Quarterly	The number of projects under review for potential Innovation Funding.
IT 6B-1	The percentage of transformational projects in the portfolio of project candidates – as an indicator of long-term strategic ICT maturity	Green		55.00%	52.34%	52.34%	FY Annually	This metric indicates the balance between IT capital expenses and IT operational expenses. High RUN spending indicates a limited strategic focus for IT, while high GROW and TRANSFORM spending indicates a stronger strategic direction with a focus on ROI.
CIP 3	Percentage of SOM employees completing IT Security Awareness training	Green		85%	81%		Quarterly	This measure provides the percentage of state employees that have completed IT awareness training.

MICHIGAN'S PUBLIC SAFETY COMMUNICATION SYSTEM: LIFECYCLE REMEDIATION

A MICHIGAN SUCCESS STORY — AN INTERNATIONAL MODEL

An idea and concept that Michigan envisioned in the mid-1980's, and constructed in the late 1990's, has matured to an internationally recognized leader during the past fifteen years in shared public safety communications. The Michigan Public Safety Communication System (MPSCS) has grown to serve over 1,400 local, state, federal, tribal nation and private public safety agencies using over 64,000 radios providing shared services to support daily operations and mission critical disaster response communications. It is the primary means of daily and emergency radio communications for all branches of State government and with key State Agencies including MSP, MDOT, DTMB, Corrections, Military & Veterans Affairs, and also by the security for the legislature and the State Supreme court. Examples of local Public Safety (Law Enforcement, Fire, and EMS) agencies include City of Detroit, Washtenaw County, entire Upper Peninsula region, and majority of all population base in southeast Michigan is supported by agencies utilizing the MPSCS. Examples of federal agencies include Border Patrol, DEA, FBI, ATF, US Marshal Service, US Fish and Wildlife, National Park Service and many others. Examples of other key users represent K-12 school districts, colleges and universities such as Michigan, Eastern Michigan, Northern Michigan, Wayne State, Hospitals, Tribal Entities, Road Commissions, Transit Authorities, and public safety disaster response entities such as Red Cross and Salvation Army.

The MPSCS network is a State owned asset with additional integrated locally owned assets with an estimated net worth of over $500M. It is supported 24x7 with staff skilled and trained; many of the staff were hired with past military service which provided the skills and understanding of the job of supporting the mission of public safety. The staff is comprised of tower experts, RF engineers, radio technicians, network engineers, steeplejacks, and policy experts who have specialized expertise with past private sector, public safety, and military experience focused to supporting the system that was used as the model for more than 35 states and a number of other countries.

THE ISSUES

- Major components of the MPSCS are no longer manufactured and/or are not supported by the manufacturer.
- Last date of manufacture for the Connectivity Network was 2001 with its current service support level as "Best Effort" based on parts availability.
- Portions of the Connectivity Network are at capacity.
- Risk of mission critical communications failure.
- Portable radio coverage challenges in Flint and Pontiac. Trooper/Officer safety concern.

IF NOTHING IS DONE

- Probable system outages with potential system downtime (similar to the recent outages in Detroit).
- Best Effort for support on cancelled products; no parts availability for critical components.
- Limitations on adding future technology or system users (capacity).
- Officer Safety in high crime areas. User/Citizen Safety and response.
- Increased support costs and extended outages

THE SOLUTION

- Update critical infrastructure at end of life while re-using 80% of existing resources.
- Enhances interoperability and regionalization with Regional, State and Federal Agencies.
- Lifecycle management plan – Protect your assets and investment.
- Will continue with an APCO Project 25 (P25) standards based platform for voice interoperability.
- Enhances the ability to access more data and information from vehicles (Mobile Office).
- The State can leverage assets to create Real-Time Crime Centers (RTCC) in high crime areas.
- Improve coverage specifically in Flint and Pontiac
- Total appropriation increase to existing MPSCS budget per year is $20 million ($15 million for lifecycle and $5 million for annual Operations and Maintenance)

CONFIDENTIAL

REUSE OF SYSTEM COMPONENTS

The lifecycle refresh is not a total replacement of the MPSCS. There will be maximum reuse of system components, including:

- Master site zone controller equipment
- Routers and switches
- Console equipment and associated interfaces
- System alarm and control equipment
- System management applications and hardware
- Microwave system components as appropriate
- Channel bank equipment
- Legacy equipment such as Mutual aid system
- Existing Local user equipment
- Towers
- Antennas and lines
- Equipment Shelters
- Emergency Generators
- Existing Subscriber equipment

FUNDING

The Michigan Public Safety Communication System (MPSCS) was first authorized as the Michigan State Police (MSP) Statewide Two-Way Radio System and Microwave Backbone System in Public Act 253 of 1990. MPSCS was created to replace an antiquated communication system. Funding started in FY93 and the initial system finished in 2002, at a total cost of $215 million. The state has invested another $40 million in upgrades and local governments have spent another $150 million for infrastructure that is integrated into MPSCS. Previous mobile and portable radio investment of $200 million will continue to operate on the system as the Project 25 standard assures backwards compatibility.

As with any sophisticated system, the MPSCS staff continually monitors and performs extensive preventative maintenance on the tower, support structures and radio equipment, repairing equipment as needed and ensuring the system meets the up time tolerances expected by public safety. Even with this effort, components ultimately need replacement based on the equipment's "life cycle" which is determined by industry standards, manufacturer recommendations, and overall condition of the equipment. Lifecycle components include antennas, microwave systems, RF equipment, network devices, dispatch consoles, emergency generators, and the tower equipment shelters and supporting HVAC infrastructure. As the general scope of the lifecycle remediation has been identified, the next step is to identify funding strategies, while also addressing the annual operations and maintenance budget for the system. The requirements of the lifecycle remediation and the annual operations and maintenance may be addressed with the same long-term funding strategy.

When the system was constructed the State did not address long term funding for the lifecycle of RF equipment or an adequate annual budget to support s shared system of this size and maturity. Given the fact that there are two distinct funding opportunities 1) Lifecycle of statewide system equipment and 2) Operations and Maintenance funds for annual support for the system both have required adequate funding attention for a number of years. Two distinct lifecycle areas of the MPSCS are recognized; the RF and Microwave equipment that has been identified as reaching a critical status and is required to be addressed as a system wide replacement, and is identified within the lifecycle planning effort as separate phases within the lifecycle remediation plan in Motorola's proposal. The other area of lifecycle concern is the infrastructure of the system that is non-RF (Towers, shelters, emergency generators, and HVAC units.); this area will be handled in a time frame that does not coincide with the replacement time frame of the RF and Microwave equipment remediation. The lifecycle of the non-RF equipment will be addressed with annual budget increases to the Operations and Maintenance budget for the MPSCS over a span greater than ten years. Operating costs have increased over the past sixteen years and the growth of the system users has increased by 843%, yet annual allocation has been depreciating.

Examples that have been identified for funding the lifecycle remediation include both General Fund and Restricted Fund approaches in some cases an approach has been identified but may not be recommended based on existing funding shortfalls for public safety at the local level. The associated costs below in the funding ideas are

DRAFT

only identified for the lifecycle remediation of the RF equipment, the $149 million effort. Funding to address annual appropriation increases for operations and maintenance could come from any of the same sources, and is estimated to add between $3million and $4.5 million to the MPSCS current annual appropriation, but would be aggregated within the the funding numbers below.

GENERAL FUND

Existing general fund dollars –

- One time Earmark - Utilization of state surplus to set aside in a revolving dedicated account for the span of lifecycle remediation to cover the purchase and ongoing maintenance support. $14.9 million per year with annual spend for ten years.
- Increase in dedicated annual appropriation - Increase MPSCS appropriation in MSP budget for lifecycle from existing General Fund to cover the 7, 10 or 15 years of lease/purchase and ongoing maintenance support. The risk in this scenario could be new administrations or legislators are not supportive of the use and scope of the MPSCS by the statewide public safety community. The seven (7) year lease the annual payments are $18,678,791.00 for 7 years. The 10 year lease the annual payments are $13,855,603.00 for 10 years. The 15 year lease the annual payments are $10,219,564.00 for 15 years. The system assurance program is approximately $4,500,000.00 per year for 7 years.
- Charging State Agencies Subscriber Fees - All state agencies would be charged subscriber fees equal to what all non-state agencies pay. Only the Michigan Department of Transportation currently pays the subscriber fee. All three branches of Government and agencies under each utilizing the system may need additional appropriation to cover this new cost. Risk in this scenario is this money needs to be identified as new money. If all State agencies paid the current fee the revenue would be $2.3 million annually. There are currently 11,465 radios on the system.
- General Obligation Bonds - The purpose of the Bonds are to acquire, construct, furnish, equip and renovate buildings and equipment for the use of the State to purchase the system/lifecycle remediation. All existing bonds have been recently paid in full. The $118 million cost of the system could be bonded and the system assurance program for $4.5 million for 7 years would come from another funding source. The states still has $736.9 million in bond capacity.

RESTRICTED FUND

- Non-State Subscriber Fee charge – Currently most non-state subscribers are charged $200 annually per radio, net of credits. There are currently 53,000 non state radios on the system. This would increase the current subscriber fee for MPSCS usage for all non-state subscriber radios. The risk in this scenario is agencies not able to afford service.
- Revenue Sharing - Identify a quantifiable amount that all counties would fund as a function of revenue sharing. The MPSCS supports citizens in all eighty-three counties and has been leveraged often when existing systems have failed. The risk in this scenario is the County and State would have more conflict.
- State 911 Surcharge – Increase State 911 Surcharge (state's allocation on all phone bills) equal to an amount to fund the lifecycle remediation and would be identified as a restricted fund dedicated to the MPSCS. The risk in this scenario is delay/time and conflict at a local level. The increase would be for every $.01 of surcharge would equal $1.0m funding to the state. Recommended increase per phone is $.35. Adding the additional 35 cents to the existing statewide surcharge of 19 cents collected. Only the additional 35 cents funding would be identified as a restricted fund with carryover capability dedicated to the Office of the MPSCS. The funds would address the request of the additional $20 million to remediate the MPSCS RF and microwave lifecycle as well as increasing the Operations and Maintenance funds. The remaining $15 million that would be collected as a function of the 35 cent 911 surcharge, would replace the current annual general fund appropriation for the MPSCS. This funding approach would move the MPSCS funding to a restricted

DRAFT

model with the established carryover allowing adequate long term planning for lifecycle replacement, and support of the operations.

- Vehicle and Vessel Surcharge - Add surcharge on vehicle license plates and vessel registration that would be dedicated to MPSCS and would also be a new restricted fund. The risk in this scenario is time and conflict. Based on census data 9.2 million vehicles and vessels are registered in Michigan.
- Restricted funding for county libraries that are part of the commercial vehicle enforcement fee revenue stream – reassign the fees that the libraries collect to the radio system. Public Act 93-98 of 2000.
- MPSCS Tower Co-locations – Allow for non-public safety equipment co-locations on the MPSCS towers. The estimated initial revenue per year is $500,000 and sees projected annual increases based on the viability of the MPSCS towers to provide wireless coverage in areas of the state for customers in lieu of constructing new tower sites. The risk may be that fewer towers may be needed as technology advances or existing towers do not meet the need of prospective customers.

In research across the nation, Michigan is the mature leader in state-wide communication system implementation. Other states are very interested in a long term repeatable solution that addresses current and future lifecycle remediation and are interested in what Michigan identifies as that model they may also adopt. Other states have leveraged restricted funding sources such as State 911 surcharge, vehicle registration costs, transportation funds, expiring homeland security grant funds, release of government bonds and the majority utilizes general fund dollars for annual operations and maintenance but have in the process of identifying long term funding for lifecycle.

LEASE PURCHASE PAYMENT OPTIONS

Motorola has offered a lease/purchase option for the RF lifecycle Remediation project for a term of 7, 10 or 15 years. The advantage to this option is it does not count as debt for the State and the first payment is due one year from contract signing. The State would sign a contract in October 2013 (fiscal year 2014) and our first payment would not be due until October 2014 (fiscal year 2015).

- The seven (7) year lease the annual payments are $18,678,791.00 per year.
- The 10 year lease the annual payments are $13,855,603.00 per year.
- The 15 year lease the annual payments are $10,219,564.00 per year.

CONCLUSION

The State has continued to be at the forefront of public safety communications since the first public safety radio communications were developed in the early 20th century and has consistently been recognized for the enterprise approach of leading in this area through the different generations of public safety communications. States have adopted the technology and policy approaches of the value of statewide interoperable communications systems of "build once and reuse often" for which these models maximize the citizen support while promoting collaboration amongst public safety. The state stands once again to lead the nation in a funding strategy that ensures public safety communications is a priority while continuing to find ways of maximizing the citizen investments. The state is now faced with the opportunity to set in motion the funding to address the immediate need while creating sound funding approaches to ensure that these mature public safety communications are operational when the first responder uses the radio. The opportunity is to fund the lifecycle of the system, while also ensuring the annual operations and maintenance budget is defined to meet the needs of an operational system shared by public safety representing all of the first responder's disciplines in all areas of the State.

CONFIDENTIAL DRAFT

MICHIGAN'S PUBLIC SAFETY COMMUNICATION SYSTEM: LIFECYCLE REMEDIATION

Action items from the August 7th MPSCS discussion meeting

- Develop cost benefit analysis for Lifecycle Remediation versus Reactive Maintenance (risk summary)
- Outreach to customers to solicit feedback on:
    - Funding ideas for Michigan's Public Safety Communications System
    - Phase out of subscriber fees
    - Creation of an Interoperable grant program (much like CGAP or EVIP) for MPSCS interoperability
    - Movement of Office of MPSCS to Department of Military and Veterans Affairs

Situation Analysis

The State of Michigan has established a successful presence of a single statewide communications system that covers all eighty-three counties. The system has evolved over the past sixteen years and agencies utilize the system for interoperable communications to respond to events and serve the citizens of the state. This has established a trust and expectation that the system will support all of the users day-to-day activities combined with the spike in need during disasters and planned events.

The MPSCS system was deployed in 1997

- The microwave backbone equipment is now at least four years beyond its end of Life, this means no parts, or equipment support is available from the manufacturer. The MPSCS team uses a variety of creative approaches, including bench repairs on broken equipment, and ordering board components from companies in other countries and researched opportunities with online auction sites to maintain the equipment when parts fail. The approaches although not ideal, are what the staff supporting the system are faced with in light of the non-supported equipment.
- RF equipment is approaching end of life and is projected to be no longer available in 2017
- Local agencies have legacy console operator positions approaching manufacturer declared end of life timeframes declared by the vendor in 2014.

The implications of this situation include:

- Possibility of catastrophic failure of the backbone, eventually bench soldering and extra parts will be depleted such that the equipment cannot be fixed but would need to be replaced. Since this is obviously tower-based equipment, a critical component failure could result in a prolonged system backbone outage, impacting thousands of users.

- Project would require emergency funding and heroic efforts to bring back online

- RF equipment is now approaching 20 years of operational life, increased frequency of failures are expected; old stations have reduced capabilities compared to current platform.

- Console Op positions have reduced capability and will eventually become unusable and incompatible with current system version.

Implications:

- Catastrophic or prolonged failure of network would undermine confidence of user base, resulting in angry complaints, lack of ability to recruit new agencies and loss of existing customers.

- Failure of network resulting in loss of communications would result in loss of life or property and potential political backlash at State level

- Emergency replacement would be highly disruptive and require unplanned and higher expenditures to fix.

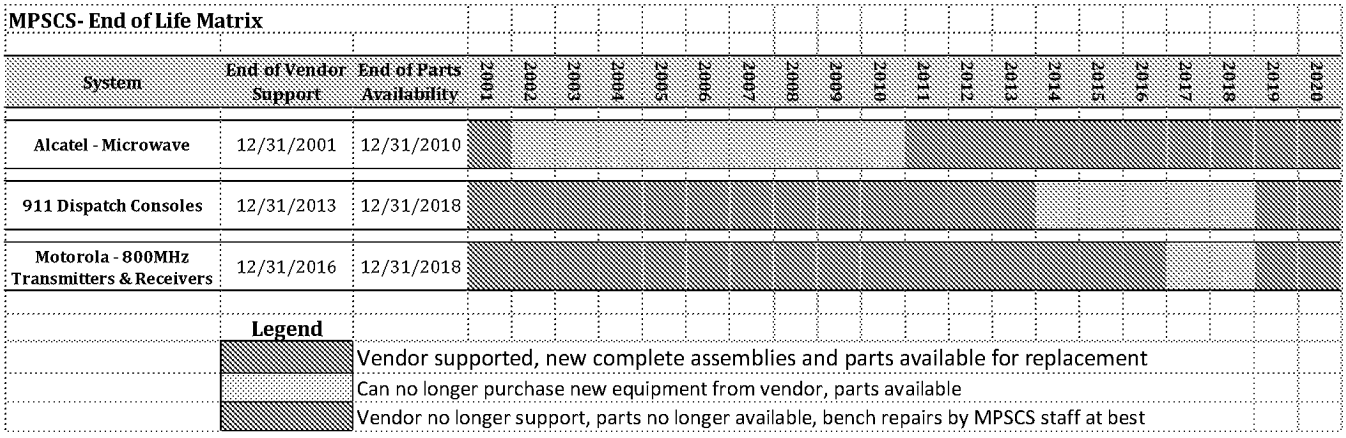

Figure 1 MPSCS End of Life Matrix

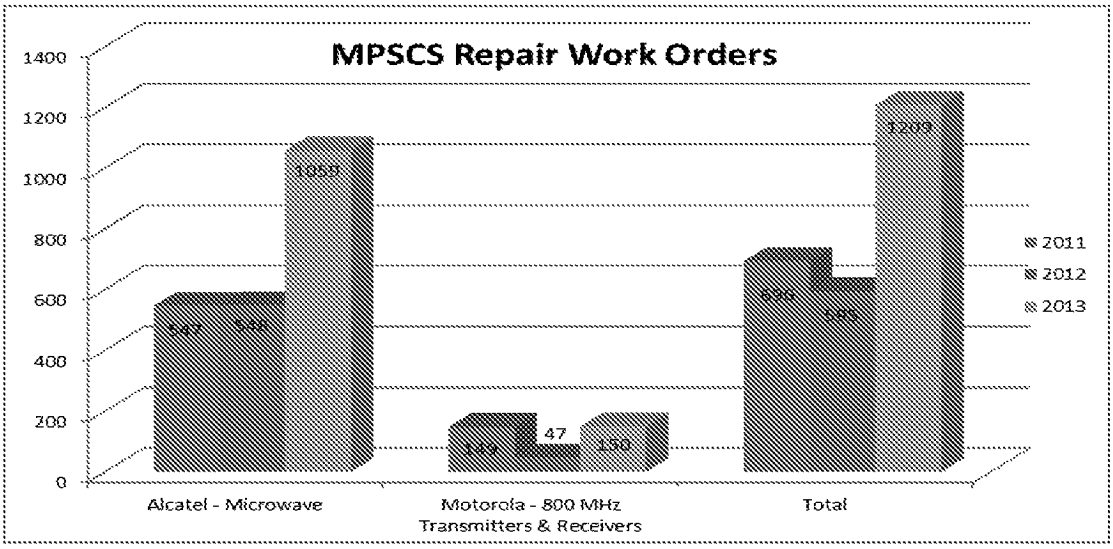

Figure 2 MPSCS Repair Work Orders

Cost Benefit Analysis - Lifecycle Remediation compared with Reactive Maintenance

The table below captures the costs for planned remediation versus a "do nothing model". Based on data collected with activities supporting the system projections can be made if nothing occurs on remediation, the growth of reactive maintenance will outpace preventative maintenance on the system as failures of electronic equipment will occur. Aspects that were difficult to capture is in the event the system fails on a significant scale, how long communications may be lost and for how many users in what communities will it impact. Although it can be identified as both a political ramification, but also a loss of faith in public safety to support citizen needs.

COST STRUCTURE - Remediation Plan - $20M per Year											
	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024	TOTAL
Microwave	9,100,000	9,100,000	9,600,000	6,600,000	6,500,000	5,000,000					43,000,000
800/700/VHF/RF	950,000	950,000	5,400,000	5,400,000	6,900,000	9,600,000	5,900,000	9,600,000	1,300,000	2,300,000	50,700,000

Figure 3 Cost Structure - Cost vs. Risk

Projected Near Term System Growth

Potential growth based on individual agencies, or regional systems leveraging the system can be quantified based on annual growth in the past year of new radios on the system was 7.62% (from 60,060 to 64,546.) Between the period of 2006-2008 36,000 radios were added by existing and new agency users at the time with the use of a federal Public Safety Interoperable Communications (PSIC) program that encouraged interoperability. Traditionally growth would have been identified only in users purchasing radios to leverage the MPSCS for, but dispatch centers that are also connected to the MPSCS for primary communications has grown from six dispatch centers with 38 console positions in 2002 to 51 dispatch centers and 215 console positions by July of 2103. An additional two dispatch centers and ten consoles are in process prior to the end of 2013 while projections in 2014 are to have a total of 64 dispatch centers and 262 console positions connected to the MPSCS. There are over 60 patched radio systems with the MPSCS, these are local systems that are parallel systems to the MPSCS but are connected to send traffic between the two disparate systems.

There are current talks with more than four counties and related communities that had been using parallel systems to the MPSCS and are in process to migrate or are in the process of considering migration to the MPSCS. There is still a continued growth of existing agencies purchasing additional radios to add to their existing counts for use on the system, and in most cases they purchased the additional radios once additional funding was allocated via grant dollars or local public funds.

Of the existing 51 dispatch centers connected, sixteen of those centers have ninety-two dispatch consoles that will no longer have parts available by the manufacturer in 2017.

Of the RF and microwave equipment at the sixty-five additional locally integrated sites to the base MPSCS statewide system

- Which accounts for a percentage of the overall microwave equipment that is no longer or will no longer be supported by the manufacturer now and within the next six years.
- Which accounts for a percentage of the overall RF equipment that is no longer or will no longer be supported by the manufacturer within the next 8 years.

There have been 741 multi-jurisdictional events planned or unplanned in 2013

Examples of unplanned events

- Outage with Detroit sub-system to MPSCS July 5, 2013
- Blackout of 2002 across eastern Michigan and eastern united states
- Benton Harbor riots 2003 – MPSCS used as the baseline communications system and cache of radios deployed to agencies supporting the event

- Enbridge Oil spill, Kalamazoo 2010 – MPSCS used as the baseline communications system and cache of radios deployed to agencies supporting the event
- Michigan 2012 Forest Fires in Upper Peninsula – MPSCS used as primary communications across multiple jurisdictional response
- School shooting in Wisconsin – utilized interoperable solution between Michigan and Wisconsin Department of Homeland Security, Office of Emergency Communications, developed position paper on cross state border interoperability models
- Minnesota Bridge Collapse 2007- Statewide P25 radio system touted as success to multi-agency response http://transition.fcc.gov/pshs/docs/clearinghouse/references/minneapolis-bridge-report.pdf

Examples of Major Planned Events

- World series 2006
- Superbowl 2006
- NCAA Men's 2009 final four
- Nascar Events – annually
- Stanley Cup 2002, 2008
- Presidential visits

Breakdown of agencies on the system is as follows:

Type Identifier	Number of Agencies	Number of Radios
State	27	12,570
Local	1236	48874
Federal	44	1433
Tribal	22	327
Private	116	320
Total	**1445**	**63524**

Table 1 Agency and Radio Count

Currently there are 1,445 Public Safety agencies on the MPSCS. This represents 40% for the 3,600 agencies identified in the Federal CASM database. Currently there are 50,954 billable radios on the MPSCS. Table 2, Potential MPSCS Radio Growth, identifies the possible additional radios that would be added to the system if all agencies were to come on the MPSCS.

Current Agencies on the MPSCS	1,445
Total Michigan Agencies	3,600
Percentage of Agencies on the MPSCS	40%
Current Local Radios on MPSCS	**50,954**
Working % of Future radios	60%
Approximate Future Radio Growth	**30,572**
Possible Total of Billable Radios	**81,526**
Current In-service State Radios	12,570
Total Possible Radios	**94,096**

Table 2 Potential MPSCS Radio Growth

Table 3, MPSCS Fee Structure Breakdown by Radio, shows the current breakdown of our fee structure in relationship to radios. Agencies have downgraded their radios to receive a lower annual rate when their Credits expire; if the annual rate is increased we forecast that 60% of the agencies will downgrade their radios to receive a lower annual rate.

MPSCS Radio Breakdown		
Local Radios	# /Radios	% of Total
$200 Annually	36,688	57.75%
$100 Annually	4,781	7.53%
$50 Annually	4,806	7.57%
$0.0 Annually	4,679	7.37%
Sub-Total	**50,954**	80.21%
State Radios	12,570	19.79%
Grand Total	**63,524**	

Table 3 MPSCS Fee Structure Breakdown by Radio

Table 4, State Agency Radios, lists all the radios that State Agencies have, MDOT is the only Agency that pays the Annual Radio Rate of $200.00. Listed also is the possible revenue that would be gained if all Agency paid their Annual rate.

State Agency	Radio Count	
MSP	6183	
DNR	2284	
MDOT	1450	$ 141,825.00
DOC	1158	
DMVA	663	
DTMB	378	
DCH	329	
DHS	115	
ATTORNEY-GEN	63	
DEQ	62	
MI-SUP-COURT	30	
DLEG	27	
MI-DEPT-OF-AG	26	
GOVERNOR-OFFICE	25	
HOUSE-OF-REP.	20	
MICHIGAN-SENATE	14	
MGCB	12	
Total	**12839**	
*Includes non-operating spares		
Possible Revenue		$ 1,269,100.00

Table 4 State Agency Radios

In table 5, MPSCS Billable Radio Analysis, rate increases were identified and projected revenue for each increase compared with current baseline radio numbers of MPSCS for state and non-state agency users. These scenarios assumed no decrease in agencies/radios utilizing the MPSCS.

Billable Radio Revenue Analysis						Projected Revenue	
	Rate	All System	Local	State		Local	State
LVL1	$0	5,242	4,791	451		$0	$0
LVL2	$50	4,768	4,612	156		$230,600	$7,800
LVL3	$100	4,617	4,593	24		$459,300	$2,400

Current Credits to Locals						(5,034,100)	
Projected Current Local Revenue						$6,762,725	
Variance						$4,008,325	$1,217,875
**assumes no agency reductions due to rate increase							

Table 5 MPSCS Billable Radio Analysis

In table 6, MPSCS Customer feedback, it summarized the feedback we received from the contact that was made to a select few customers representing many geographic, urban and rural factors, along with amount of usage of the MPSCS for operations. There is additional detail if requested that was collected from the contact with each agency representative.

What is your feedback on subscriber fees going away?	If Subscriber Fees didn't exist would it affect your use or planned use of the MPSCS?	Do you see that the subscriber fees are impediments of some of your peers using the system?	Remediation Funding ideas for MPSCS, now and long term?	If there were a state grant program (like EVIP / CGAP) that was dedicated to interoperability solutions with the MPSCS would you support it? Any opinions regarding the interoperable grant program?	If the MPSCS were associated with a different department, Dept. of Military and Veterans Affairs, would that pose any concerns?
Yes, as long as it doesn't disrupt MPSCS funding in the support of the system.	No, wasn't and wouldn't be an impediment. If fees went away monies saved could be used to support local infrastructure and the purchase of radios.	Yes, fees prevent them from coming on. If there were no fees, money could be invested into radios.	A 911 surcharge is the best idea. Agencies would like the State's support in developing an MPSCS User Group that would provide feedback to the MPSCS, and education to the Legislators.	Yes, interoperability would be determination. Work to get everyone on a basic level of interoperability before moving to the next level. There needs to be detailed planning of the Grant process.	The recurring theme is the priority of the MPSCS, Split both ways "no" and "uncertain." Other suggestions were made about autonomy.

Table 6MPSCS Customer feedback

Update Meeting with Dir. Nixon

Location: John's Office, Romney Bldg.

Agenda

1- Director Nixon's Discussion Items

2 - Updates and decisions

- **BYOD for IT contractors (DCH)**
  - It would be very cost effective to allow the contractors to do BYOD (instead of purchasing a state smart phone for them)
- **Data Center**
  - Need to schedule the next follow-up meeting with the executive team.
  - Briefing document is being updated with the latest information.
- **Cyber Summit Letter**
  - Would like to send it out (coming from John, to agency directors).
  - Draft has been created - ATTACHED
- **Major Projects updates**
  - ERP
    - The business case document is in your office for review
    - RFP will go out on 10/7
    - Still do not have agreement on the governance structure. Lynn working with Mike Moody on this.
  - UIA MIDAS
    - Changes went well over the weekend.
    - Conversions went fine.
    - Will open up the system to all of the citizens tomorrow.
  - Medicaid Compliance Program (MCP)
    - Feds changed requirements again.
    - Working to figure out how to test them.
  - MiSACWIS
    - Testing at multiple field offices starting today.
    - 96% as of today.
    - 10/21 roll-out date
- **Scorecard**
  - Latest version – ATTACHED
- **Employee Survey**
  - Tiziana contacted Fran to find out what the IT percentage is
- **Budget**
  - Working on projects for FY15
  - Data Governance briefing being updated
  - Radio system upgrade
- **Marquette Trip**
  - Working on agenda for next week's trip
  - Meeting with Universities, DTMB IT staff
- **Tabletop exercise on October 1st**
  - 160 registered to attend
  - 3 rounds of scenarios
  - Half of attendance will be from private sector
- **Code Michigan event**
  - Over 200 signed up
  - Rod, Robin, Lynn, Eric, and Tiziana will attend. Dan has family commitments.
  - Andris worked on the selection criteria
- **MPSCS**
  - Will need to brief the Governor on the topic. Latest version of the plan and recommendations - ATTACHED.

- **Education Website**
- **NASCIO attendance**
    - John Nixon
    - David Behen
    - Dan Lohrmann
    - Eric Swanson
    - James McFarlane
    - Steve Arwood and Clay Tierney
    - Andris Ozols
    - Lynn Draschil or Rod Davenport

Attendee		Slot	Transportation	Hotel	Meals	Registration	Total
David	Behen	CIO	$0.00	$0.00	$0.00	$0.00	$0.00
Dan	Lohrmann	Panel	$0.00	$416.72	$0.00	$0.00	$416.72
Eric	Swanson	Award (Dan)	$0.00	$416.72	$0.00	$0.00	$416.72
Andris	Ozols	Speaker (John)	$0.00	$416.72	$0.00	$0.00	$416.72
James	McFarlane	Panel	$0.00	$416.72	$0.00	$0.00	$416.72
Rod/Lynn	Davenport/Draschil		$500.00	$625.08	$0.00	$595.00	$1,720.08
		Totals	***$500.00***	***$2,291.96***	***$0.00***	***$595.00***	***$3,386.96***

- **MACPA**
    - Tiziana facilitated a meeting with the DTMB team & the MACPA group on 5/28 to discuss IT projects ROI
    - MACPA was quite impressed with what we are doing; they noted a couple of areas that could be further enhanced
    - Letter has been received
- **Letter to Sen. Papageorge on living wills and Win7 VS Win8 upgrade**
    - Tiziana has provided a draft to Chris Harkins
- **FYI - GM positions**
    - DHS

3 - Pending Items:

- **MiPage**
- **FirstNet**
- **Michigan.gov**

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

Subject: RE: DEQ-BYOD Pilot

Hi Nichole,

I spoke with someone on our team about this situation and they suggest you contact payroll with the same email address you sent the reimbursement information to, asking if they have received the request. This is a shared email account and they do not usually reply to reimbursement requests. The reimbursement is distributed once a month and I suspect the timing of your request may be so it displays on their next paycheck, if not they should reply with information on how to resolve the situation.

Let us know if you need any further assistance!

Thank you,

Jarrett R. Gregory

Jarrett,

DEQ would like to take the opportunity to extend the pilot for two months longer. As you probably are aware, as major focus of DEQ management at the moment is the Flint drinking water issue. We would like to engage their interest in expanding the BYOD option at a later date once we feel that some of the more immediate issues have been addressed.

Can you send me a reminder notice on March 21st?

Subject: RE: DEQ-BYOD Pilot

Hi Mike,

DEQ can extend the pilot if you feel you need a longer time to assess the program or we can schedule a meeting to fully-enroll DEQ in BYOD. This would mean all those in DEQ who you, the agency, chooses to participate, may participate. The rate at which we move forward is entirely up to you. We are here to assist you in whatever way you feel is best for your agency. There is no minimum number of employees required to participate in the BYOD program.

I hope this helps!

-Jarrett

Subject: RE: DEQ-BYOD Pilot

Jarrett,

What are our options to proceed? As I see it, we could

- allow the six pilot staff to carry on with the BYOD option assuming it works for them,
- advertise the fact that we now have a formal BYOD program and invite additional participants, etc.

Regardless, is that an agency minimum number of staff that constitutes an agency BYOD program? When do you want to know our intentions?

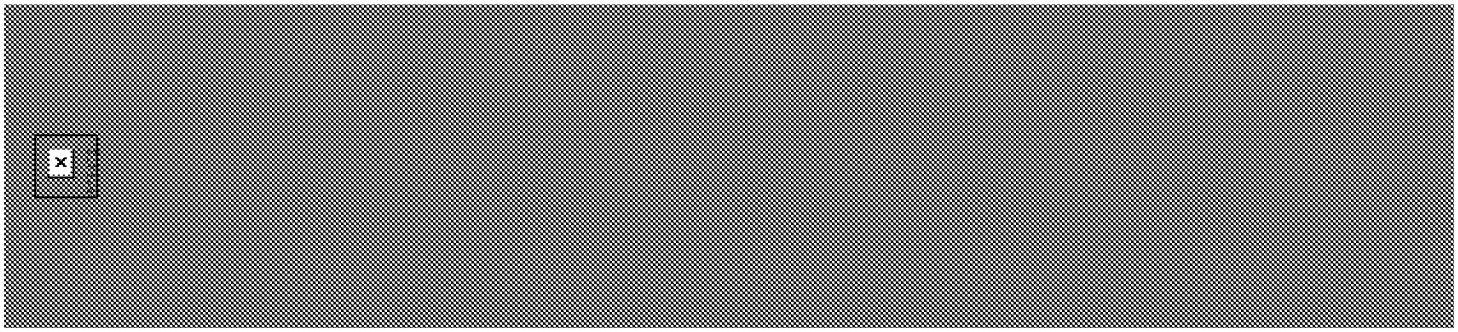
To: Galeazzi, Tiziana (DTMB)
Subject: Morning Consult Finance, Presented by the Electronic Payments Coalition: House Passes Operation Choke Point Bill; Citadel Calls on SEC to Finalize CDS Rules



By Ryan Rainey

Today's Washington Brief

- The House passed a bill aimed at blocking the Justice Department's Operation Choke Point. Republicans have assailed the program, which is aimed at preventing fraudulent banking activity, saying it's unlawful and an overextension of executive authority. (Morning Consult)

- Sen. Rob Portman (R-Ohio) said he doesn't support the current form of the 12-nation Trans-Pacific Partnership trade agreement. Portman, who served as the U.S. Trade Representative during the George W. Bush administration, highlighted the lack of strong measures against currency manipulation as a factor in his position, and said he'll work with the Obama administration to address his concerns going forward. (The Wall Street Journal)

- Sen. Ron Wyden (D-Ore.), the ranking member on the Senate Finance Committee, introduced a measure aimed at improving an existing tax credit for families that save for retirement. The bill would make refundable a "saver's credit" awarded to taxpayers who put money into IRAs or other retirement plans, and would place the credit in their retirement accounts. (The Hill)

Today's Business Brief

- The hedge fund Citadel asked the Securities and Exchange Commission to finalize regulations on credit-default swaps it says would jumpstart the CDS market. (Bloomberg News)

- U.S. government lawyers argued in a U.K. court that Navinder Sarao, a London-based trader, contributed to the 2010 "flash crash" by manipulating the Chicago Mercantile Exchange's market through an altered computer system. Sarao remains in London and faces extradition to the U.S. to face 22 criminal charges. (Reuters)

- Jeffrey Sprecher, who runs the New York Stock Exchange's parent company ICE, accused IEX of trying to create a "regulated monopoly" through its entrance into the market since IEX uses a

mechanism known as a speed bump that tries to keep high-frequency traders from getting an upper hand. The SEC is considering whether to approve IEX as a new exchange. (Business Insider)

Rob Portman Signals Concerns Over Pacific Trade Deal
Kristina Peterson, The Wall Street Journal

GOP Sen. Rob Portman of Ohio said Thursday he couldn't support the current version of a sweeping Pacific trade deal, highlighting the challenges the 12-nation trade pact faces clearing Congress in an election year.

Under Criticism, Clinton Struggles to Explain Wall Street Ties
Margaret Talev, Bloomberg News

Bernie Sanders defined Wall Street's business model as a "fraud" ripe for revolution. Hillary Clinton said the way to untangle a rigged economy is to work within the system. The final debate before next Tuesday's New Hampshire primary set the clearest battle lines yet in the contest for the Democratic nomination.

Clinton blasts Wall Street, but still draws millions in contributions
Matea Gold et al., The Washington Post

Even as Hillary Clinton has stepped up her rhetorical assault on Wall Street, her campaign and allied super PACs have continued to rake in millions from the financial sector, a sign of her deep and

lasting relationships with banking and investment titans.

U.S. watchdog finds CFTC violated accounting principles
Lisa Lambert and Sarah N. Lynch, Reuters

The federal government watchdog has determined that the U.S. Commodity Futures Trading Commission violated government accounting principles by understating its leasing liabilities, according to the results of a year-long investigation reviewed by Reuters.

NAIC to host AIG's Hancock, 9 other insurance CEOs at closed-door conference
Adam Cancryn and Elizabeth Festa, SNL

The nation's top state insurance regulators will meet with 10 insurance company CEOs, including the heads of American International Group Inc. and Aetna Inc., during the NAIC's annual closed-door commissioners' conference the weekend of Feb. 6, multiple sources familiar with the agenda told SNL.

Why the Biggest Power Player in Progressive Politics Is Withholding Her Endorsement
Tina Nguyen, Vanity Fair

As an intra-party debate over Wall Street reform has become a central question in the Democratic primary race, the eyes of America have turned to one woman, who has sat on a crucial endorsement for months and has the capital to continue withholding it: Massachusetts senator, Harvard Law professor, and anti-Big Bank crusader Elizabeth Warren.

Asian Stocks Fall as Japanese Shares Drop Amid Strengthening Yen
Jonathan Burgos and Toshiro Hasegawa, Bloomberg News

Asian stocks fell, with the regional benchmark index heading for a weekly loss, after Japanese shares declined as the strengthening yen pressured major exporters.E-mini futures of the Standard & Poor's 500 Index were little changed. The U.S. equity benchmark index rose 0.2 percent on Thursday amid a rally in raw-material and industrial shares, as the dollar's weakness boosted commodity prices and optimism for profits at multinational companies.

Banking

House GOP Describes DOJ Bank Operation as Nixonian
Gabe Rubin, Morning Consult

House Republicans didn't hold back Thursday in criticizing a Justice Department tool intended to hit at fraud through the banking system. House Financial Services Committee Chairman Jeb Hensarling (R-Texas) called it a "dirty trick." Largely on party lines, the House passed a bill to roll back Operation Choke Point, which clamps down on fraudulent banking activities by high-risk businesses such as payday lenders, pawn shops and gun sellers.

Banks Press EU to Drop `Arbitrary' Derivatives-Collateral Rule
Silla Brush, Bloomberg News

Banks and clearinghouses are lobbying European Union regulators to shelve a proposal setting

collateral requirements during the trading day, warning that it could upend broader efforts to reach a deal with the U.S. on oversight for the global derivatives market. The Futures Industry Association and International Swaps and Derivatives Association, two of the leading trade groups for the biggest dealers in derivatives, said in a joint letter released on Thursday that the plan for intra-day collateral requirements at clearinghouses will cause "major and disproportionate operational complexities" and is inconsistent with U.S. rules.

Most Banks Are Shrugging Off Regulators' CRE Warnings
Kristin Broughton, American Banker

A number of bankers used quarterly earnings calls to assure investors that they are carefully monitoring their exposure to commercial real estate at a time when regulators are expressed concern about eroding underwriting standards.

Financial Products and Investments

Citadel Pushes SEC to Fix Fractured Credit-Default Swaps Market
Sridhar Natarajan, Bloomberg News

Ken Griffin's Citadel is urging the U.S. Securities and Exchange Commission to finish writing rules that mandate central clearing of credit-default swaps — a move it says would help revive a shrinking portion of the $13 trillion market. The $25 billion hedge fund manager is pushing for rules that would require credit swaps trades linked to individual companies and countries to be settled through clearinghouses, according to a letter sent to the regulator.

U.S. accuses London trader of helping cause 2010 "flash crash"
Michael Holden, Reuters

A London-based trader's market manipulation helped cause the 2010 Wall Street "flash crash" which netted him some $878,000 profit, a prosecutor for U.S authorities seeking his extradition said on Thursday. Navinder Sarao, arrested by British police on a U.S. warrant last April, has been indicted by a U.S. federal grand jury on 22 criminal counts including wire fraud, commodities fraud and attempted price manipulation.

The hot debate on Wall Street has descended into an ugly war of words
Matt Turner, Business Insider

IEX — a trading venue made famous by Michael Lewis' "Flash Boys" —and the New York Stock Exchange have gotten into a messy war of words over IEX's exchange application. The latest installment of this back-and-forth battle arrived Thursday.

Kirk Introduces Senate Companion to House Fiduciary Bill
Ryan Rainey, Morning Consult

Sen. Mark Kirk (R-Ill.) today introduced a Senate companion bill to a House measure that would pre-empt the Department of Labor's pending fiduciary rule for retirement advisers. The bill, S. 2505, is also known as the SAVERS Act.

Risky derivatives trades face higher costs

Philip Stafford, Financial Times

Reform of derivatives enters its final phase this year and tougher rules for banks have aroused fears that other financial institutions will need billions of dollars to remain in the market. In mid-December US regulators finalised their version of global standards that will require users of highly-tailored and illiquid swaps to post margin, or insurance for trading, with their counterparties — usually global banks.

Housing & GSEs

Freddie Mac: Mortgage rates fall below expectations
Brena Swanson, HousingWire

Mortgage rates sank even further, marking the fifth consecutive week of declines amid ongoing market volatility, the latest Freddie Mac Primary Mortgage Market Survey said. The 30-year fixed-rate mortgage declined to 3.72% for the week ending Feb. 4, 2016, down from last week when it averaged 3.79%. In 2015, the 30-year FRM averaged 3.59%.

New Trouble Knocks Flint as Mortgage Firms Require Proof of Safe Water
Joe Light, The Wall Street Journal

Flint, Mich., residents have a new concern on top of lead in their drinking water: Some mortgage lenders say home buyers must prove there is no contamination at a property or they won't make a loan for its purchase.

Taxes

Julius Baer advisers admit helping Americans dodge taxes
Ben McLannahan and Kara Scannell, Financial Times

Two client advisers at Julius Baer, the Swiss private bank, pleaded guilty in a New York court on Thursday to helping Americans dodge taxes, as their employer paid $547m to end a long-running probe by the US Department of Justice. Daniela Casadei and Fabio Frazzetto, who were charged in 2011, entered guilty pleas in a Manhattan federal court to charges of defrauding the Internal Revenue Service, evading income taxes and filing false returns.

Dem bill offers tax credit to help retirement savings
Naomi Jagoda, The Hill

A group of Democrats on the Senate Finance Committee on Thursday offered a bill that would enhance a tax credit to help working families save for retirement. Senate Finance Committee ranking member Ron Wyden (D-Ore.), who introduced the Encouraging Americans to Save Act, touted it as a way to help level the playing field.

Groups Urge Passage of Internet Tax Ban Attached to Customs Bill
Kevin Carty, Morning Consult

A coalition of groups across the ideological spectrum are urging the Senate to pass a ban on internet

access taxes, but not attach it to a separate sales tax measure. The groups want the Senate to pass a ban on internet access taxes which is currently attached to H.R. 644, a customs enforcement bill.

Brady to Lead House GOP Task Force on Tax Policy
Ryan Rainey, Morning Consult

House GOP leadership today tapped Ways and Means Committee Chairman Kevin Brady to lead a task force on tax policy to come up with a leadership-backed reform proposal ahead of the elections. The task force's priorities are to come up with ideas that "create jobs, grow the economy, and raise wages by reducing rates, removing special interest carve-outs, and making our broken tax code simpler and fairer," Speaker Paul Ryan's office said.

Some IRS computer systems resume operation
Kevin McCoy, USA Today

Some IRS computer applications resumed operation Thursday, a day after a suspected hardware failure knocked them out of service, the nation's tax agency said. The "Where's My Refund" feature on the IRS.gov website that enables taxpayers to check on the status of their payment checks and other programs came back online, but the IRS tax-return processing system remained down as of Thursday afternoon, the agency said in a brief statement.

Banking Systems & Currencies

Why the banks that are going crazy for blockchain technology don't care about bitcoin's problems
Oscar Williams-Grut, Business Insider

Financial institutions like top banks and stock exchanges are hugely excited about blockchain technology, the databasing protocol that underpins bitcoin. But as the blockchain hype in mainstream finance has grown, bitcoin itself has faced more and more problems.

A Message from the Electronic Payments Coalition:

82% of voters say consumers should have a choice about what type of payment technology they want to use. Members of the Electronic Payments Coalition provide value, innovation, convenience, competition, security and choice to consumers in today's growing electronic payments system.

Opinions, Editorials & Perspectives

Clinton's Wall Street Hypocrisy
Editorial Board, Bloomberg View

It's nice work if you can get it: In 2013, after stepping down as secretary of state, Hillary Clinton earned $9.7 million in speaking fees — a lot of it from banks and investment firms, including $675,000 for three speeches to Goldman Sachs.

Hillary's Wall Street Reckoning

Editorial Board, The Wall Street Journal

President Obama has spent seven years denouncing Wall Street and persuading young progressives that the U.S. economy is rigged for the benefit of wealthy financiers. So how will he now persuade them to support Wall Street's favorite Democrat?

CFPB Ignores Complaint Data in Targeting Payday Lenders
Dennis Shaul, American Banker

When the Consumer Financial Protection Bureau started releasing monthly consumer complaint data last year, Director Richard Cordray hailed the move, saying that "[c]onsumer complaints are the CFPB's compass and play a central role in everything we do. They help us identify and prioritize problems for potential action." Given these comments, it is increasingly difficult to understand the CFPB's justification for the rulemaking process for payday lending currently underway.

Why it would be wise to prepare for the next recession
Martin Wolf, Financial Times

What might central banks do if the next recession hit while interest rates were still far below pre-2008 levels? As a paper from the London-based Resolution Foundation argues, this is highly likely. Central banks need to be prepared for this eventuality. The most important part of such preparation is to convince the public that they know what to do.

Tax reform gaining steam
William F. Shughart II, The Hill

News out of Capitol Hill recently serves as an indication that some type of tax reform could well be moving forward this year. While that prospect is a step in the right direction, Congress can, and should, do more to prioritize comprehensive tax reform to ensure the nation's economy continues on an upward trajectory.

A Message from the Electronic Payments Coalition:

82% of voters say consumers should have a choice about what type of payment technology they want to use. Members of the Electronic Payments Coalition provide value, innovation, convenience, competition, security and choice to consumers in today's growing electronic payments system.

Research Reports, Issue Briefs & Case Studies

Commodity Futures Trading Commission–Recording of Obligations for Multiple-Year Leases
Government Accountability Office

We conclude that CFTC had authority to enter into multiple-year contracts to lease real property. However, when CFTC entered into multiple-year leases, it failed to record an obligation equal to the government's total liability.

Positive and Normative Judgments Implicit in U.S. Tax Policy, and the Costs of Unequal Growth and Recessions

Benjamin B. Lockwood and Matthew C. Weinzierl, The National Bureau of Economic Research

Calculating the welfare implications of changes to economic policy or shocks requires economists to decide on a normative criterion. One approach is to elicit the relevant moral criteria from real-world policy choices, converting a normative decision into a positive inference, as in the recent surge of "inverse-optimum" research.

Foia Flint

2/10/16 4:04 PM

2/10/2016 meeting

Universal foia production including all agencies

DO NOT PRODUCE ANY DOCS RELATED TO FLINT WATER

- Depts should stop responding to individual foia requests - respond that it will take 60 days (over $50 threshold)

- Doc mgmt tool utilized by DEQ is available to use if you have many documents
- **Due by end of February**
- Need to look for attorney privileged docs but still load them into the tool

- **Travis webber** will need to know the people who are doing the searches and when it will be submitted BY **THE END of THE WEEK**

- **All DOCS AND EMAILS THAT EACH dept has about Flint Water**
- **Will share the cost for storing all docs approx $500k**

- **Gov office will produce the info on the website - end of March - NEW WEBSITE WITH ALL FOIA RESPONSES**

- Valerie brader braderv25@michigan.gov collecting all flint water requests

From: Simon, Jodi (DTMB)
Sent: Thursday, February 11, 2016 2:34 PM
To: Galeazzi, Tiziana (DTMB)
Subject: Flint FOIA requests - PLEASE READ

General Managers –

I wanted to provide this information to you as soon as possible. Tiziana attended a meeting with the Governor's office yesterday to discuss how the departments will comply with the Flint FOIA issues going forward. Some talking points from the meeting -

- Agencies should stop responding to individual FOIA requests immediately. The larger plan being discussed is that agencies will provide all email and documentation related to Flint to a central website and all FOIA requests will be routed to this site first.
- The agencies may be asking DTMB for help in searching for email/documents. If you're asked to help collect this information, please hold off until tomorrow due to conversations currently under way. More communication will be coming. (per Caleb)
- Each agency has been asked to identify one FOIA coordinator for this specific project. The DTMB Flint Water FOIA coordinator is Jean Ingersol.
- All requests should be routed through the Governor's Office (Valerie Brader) – not sure if we want to say this or not???
- The Governor's office will produce information on the website by the end of March (tentatively).

More information to come. Again, this is meant primarily as a heads-up at this point.

Thank you.

Subject: FOIA Project Updates to General Managers

Importance: High

Happy Friday All

As you're aware, the Governor's Office Legal Team is working with the agencies to gather email and documentation related to the Flint Water crisis. Each agency was invited to a meeting last Wednesday afternoon to discuss the details around this FOIA project.

Please note the following updated information:

· The Governor's Office has asked each agency to perform their own searches on their email/repositories for all information pertaining to the Flint Water crisis.
· While the agencies may approach DTMB for assistance, we are under a tight timeframe and can't possibly assist every agency and every employee.
o If the agency asks for DTMB assistance and you have internal resources available to assist (i.e. Client Specialist), please provide that assistance.
o If the agency needs assistance from OA (i.e. due to a large quantity of email/documents or a large group of people) please forward that request to Jodi Simon. Also, please let the agency know that requests will be prioritized by the Governor's Office and we will provide feedback on availability as soon as possible (so if DTMB cannot assist, it will still leave time for the agency to perform the searches).
· The Governor's Office will provide the keyword search terms today to the Agencies.
o The designated agency coordinators for this project will determine which employees from their agency will be the selected Custodians.

Please let me know if you have any questions.

Thank you,

Tiziana Galeazzi

SMT,

Jean Ingersoll is leading DTMB's effort to comply with document production requests related to freedom of information requests and certain lawsuits against the state.

At some point during the day tomorrow, Jean will share with you a list of standard "search terms" which we will use to compile documents related to this lawsuit.

Within 2 hours of receiving this email from Jean, you need to respond with a list of likely custodians from your work area. Jean may have more information on this tomorrow, but generally speaking a custodian will be a staff member who might reasonably be expected to have documents (electronic or otherwise) that correspond to the issues identified in the search terms.

If you have any questions, please call me or Jean. This is an important issue and I thank you in advance for your attention to this matter.

Hi Marsha,

I have put together a Flint Water Emergency Command Center update to ensure everyone is in the loop as to the progress of getting the Flint office space up and functional. The office area that will be used is located within the Flint State of Michigan Office Building

Printing
<!--[if !supportLists]-->· <!--[endif]-->The initial request for a Ricoh Aficio MP301 was cancelled and an HP 476DN has been procured for placement in the office area.
<!--[if !supportLists]-->o <!--[endif]-->Zachary Anthony will pick up the printer this afternoon and plans on having the printer on-site at approximately 3:00PM today.
<!--[if !supportLists]-->· <!--[endif]-->The network print queue will be finalized as soon as Zachary submits the network segment information to OA
<!--[if !supportLists]-->· <!--[endif]-->The printer should be sufficient to handle the printing and multifunction requirements for the office area.

Network
<!--[if !supportLists]-->· <!--[endif]-->The Flint State of Michigan Office Building recently completed a building renovation which included 1GB network connections.
<!--[if !supportLists]-->· <!--[endif]-->The office area has sufficient network connections to accommodate the planned activity there. Connections have been tested and are fully functional.
<!--[if !supportLists]-->· <!--[endif]-->Wireless access via SOMOTN issues have been worked out and wireless connectivity is available at this time. Wireless connectivity will be tested this afternoon but is expected to be fully functional based on the completion of remediation for the existing networking issues.
<!--[if !supportLists]-->· <!--[endif]-->The current network capabilities should be sufficient to handle the networking and internet requirements for the office area.

Telephony
<!--[if !supportLists]-->· <!--[endif]-->A conference room type IP phone is available for use in the office area. It has been tested and is fully functional.
<!--[if !supportLists]-->· <!--[endif]-->The telephony capabilities should be sufficient to handle the conferencing and meeting requirements for the office area.

Zachary Anthony will be on site this afternoon at approximately 3:00PM today to install and configure any ancillary setups (docking stations, cell chargers, work surfaces) and related collaboration devices. In speaking with Zachary earlier today he is confident that after he completes his activities on-site this afternoon the office area should be complete and functional.

Kudos to Zac for facilitating and acting as the "boots on the ground" in getting the Flint State of Michigan Office Building area configured and functional in a very short time frame!

If you have any questions or concerns please do not hesitate to contact me.

Thanks,

Carl Slemp, MBA
DTMB Client Specialist

Eric,

I spoke with Ben Geiger in the LG's office regarding some requests related to Flint.

<!--[if !supportLists]-->1. <!--[endif]-->They want to develop a website that functions like the performance budget dashboards. This will include a snapshot of the data set from Flint. They would like to be able to send the data regularly in an excel file and have it update the dashboards. He is supposed to be sending me a data set to get us started and I have inquired again this morning. They would like this to be up this week.

<!--[if !supportLists]-->2. <!--[endif]-->They want some help developing maps for the Flint website. They want to be able to integrate DEQ and DHHS data into one consistent map. Preferably broken down by census block, but if that level of detail would allow us to identify individuals, maybe we do it at a higher level (census group was the term they used). As with the dataset for #1, I should be receiving something shortly. But I wanted you to have a heads up on this.

On this same topic, David and I had a conversation with the Governor's office after our post-EMT meeting this morning. They have agreed that as a general rule, before we do work on anything, it must be approved by the SEOC.

Further, they have agreed that if there is something urgent that the Governor or LG's office needs to get done prior to (or in lieu of) the SEOC approving it, these requests should all come in through me. Beth Clement was going to share this message with Gov's office and LG's office staff.

Procurement should have the new form up today for vendors to use as well. We can share that with you once it is working.

Gov. Rick Snyder releases departmental emails produced regarding Flint water crisis LANSING, Mich. - Gov. Rick Snyder's office today posted emails and corresponding documents that have been made available to requesting entities from state departments regarding the Flint water crisis. The documentation represents requests fulfilled to date by the Department of Environmental Quality, Department of Health and Human Services, Department of Treasury, Department

of Technology, Management and Budget, and Department of Agriculture and Rural Development regarding Flint water.
"All levels of government failed the people of Flint," Snyder said. "This crisis should never have happened, but we are making progress each day to meet the needs of residents.
"By making the information easily accessible, everyone can review it and take what they need, and then we can all focus and work together on solutions, healing and moving Flint forward."
NOTE: All emails and attachments can be accessed using the below links. Documents are large and will take time to download. Viewing on a mobile device is not recommended.
LEGAL NOTICE
The release of these documents is not a waiver of any legal privilege. Because of the voluminous nature of these records, some documents that are subject to the attorney-client, attorney work product, and other privileges may have been inadvertently disclosed. Should this posting include such documents, their disclosure here does not constitute a waiver of the privilege.
Those seeking information as part of a legal proceeding or investigation should not rely solely upon the documents posted here to satisfy their request. Such requests should be directed to the appropriate state custodian.
The posting of these documents does not, is not intended to, and cannot be relied upon to, create any right or benefit, substantive or procedural, that is enforceable by any external party.

Happy Friday All!

As you're aware, the Governor's Office Legal Team is working with the agencies to gather email and documentation related to the Flint Water crisis. Each agency was invited to a meeting last Wednesday afternoon to discuss the details around this FOIA project.

Please note the following updated information:

<!--[if !supportLists]-->· <!--[endif]-->The Governor's Office has asked each agency to perform their own searches on their email/repositories for all information pertaining to the Flint Water crisis.
<!--[if !supportLists]-->· <!--[endif]-->While the agencies may approach DTMB for assistance, we are under a tight timeframe and can't possibly assist every agency and every employee.

<!--[if !supportLists]-->o <!--[endif]-->If the agency asks for DTMB assistance and you have internal resources available to assist (i.e. Client Specialist), please provide that assistance.
<!--[if !supportLists]-->o <!--[endif]-->If the agency needs assistance from OA (i.e. due to a large quantity of email/documents or a large group of people) please forward that request to Jodi Simon. Also, please let the agency know that requests will be prioritized by the Governor's Office and we will provide feedback on availability as soon as possible (so if DTMB cannot assist, it will still leave time for the agency to perform the searches).
<!--[if !supportLists]-->· <!--[endif]-->The Governor's Office will provide the keyword search terms today to the Agencies.
<!--[if !supportLists]-->o <!--[endif]-->The designated agency coordinators for this project will identify which employees from their agency will be the Custodians.

Please call me with any questions.

Thank you

James

I will be happy to fill you in on this new urgent project from the gov office anytime on or before Tuesday - feel free to call me at your convenience.

For the list of DTMB custodians from Agency Services, you may want to consider:
- James (Brom indicated that David's direct reports would be added by default)
- Linda P and her BRMs (DHHS support)
- Jim Hogan and his BRM (DEQ support)
- Tiziana (Gov office support)

Your list will be due to Jean by noon on Tuesday.

Thank you,

Subject: NEW DEADLINE - Time Sensitive Request

Senior Management Team,

We just received the search terms for the document production. (See below.) Given the lateness of this email, we are asking you send your list of custodians to Jean Ingersoll no later than noon on Tuesday, February 16.

We are not asking you to conduct any searches right now. Further directions will come from Jean.

Search terms:

Legionnaire
Legionella
"boil water order" & "Flint" (anywhere in document) "coli" & Flint (anywhere in document) "bacteria" & "Flint" (anywhere in document) "microb" & "Flint" (anywhere in document) "TTHM" & "Flint" (anywhere in document) "Lead" & "Flint" (anywhere in document) "emergency" & "Flint" (anywhere in document) Karegnondi "Genesee County Health Department"
"Flint" (within sentence) "utilities"
"Lead and Copper Rule"
"Detroit Water and Sewerage Department" & "Flint" (anywhere in document) "DWSD" & "Flint" (anywhere in document) "Flint River"
"Pb" & "water" (anywhere in document)
"KWA"

Please call me or Jean if you have any questions.

Subject: Time Sensitive Request

SMT,

Jean Ingersoll is leading DTMB's effort to comply with document production requests related to freedom of information requests and certain lawsuits against the state.

At some point during the day tomorrow, Jean will share with you a list of standard "search terms" which we will use to compile documents related to this lawsuit.

Within 2 hours of receiving this email from Jean, you need to respond with a list of likely custodians from your work area. Jean may have more information on this tomorrow, but generally speaking a custodian will be a staff member who might reasonably be expected to have documents (electronic or otherwise) that correspond to the issues identified in the search terms.

If you have any questions, please call me or Jean. This is an important issue and I thank you in advance for your attention to this matter.

Brom Stibitz
Chief Deputy Director

Update Meeting with Dir. Nixon

Location: John's Office, Romney Bldg.

Agenda

1- Director Nixon's Discussion Items

2 - Updates and decisions

- **BYOD for IT contractors (DCH)**
  - It would be very cost effective to allow the contractors to do BYOD (instead of purchasing a state smart phone for them)
- **Data Center**
  - Need to schedule the next follow-up meeting with the executive team.
  - Briefing document is being updated with the latest information.
- **Cyber Summit Letter**
  - Would like to send it out (coming from John, to agency directors).
  - Draft has been created - ATTACHED
- **Major Projects updates**
  - ERP
    - The business case document is in your office for review
    - RFP will go out on 10/7
    - Still do not have agreement on the governance structure. Lynn working with Mike Moody on this.
  - UIA MIDAS
    - Changes went well over the weekend.
    - Conversions went fine.
    - Will open up the system to all of the citizens tomorrow.
  - Medicaid Compliance Program (MCP)
    - Feds changed requirements again.
    - Working to figure out how to test them.
  - MiSACWIS
    - Testing at multiple field offices starting today.
    - 96% as of today.
    - 10/21 roll-out date
- **Scorecard**
  - Latest version – ATTACHED
- **Employee Survey**
  - Tiziana contacted Fran to find out what the IT percentage is
- **Budget**
  - Working on projects for FY15
  - Data Governance briefing being updated
  - Radio system upgrade
- **Marquette Trip**
  - Working on agenda for next week's trip
  - Meeting with Universities, DTMB IT staff
- **Tabletop exercise on October 1st**
  - 160 registered to attend
  - 3 rounds of scenarios
  - Half of attendance will be from private sector
- **Code Michigan event**
  - Over 200 signed up
  - Rod, Robin, Lynn, Eric, and Tiziana will attend. Dan has family commitments.
  - Andris worked on the selection criteria
- **MPSCS**
  - Will need to brief the Governor on the topic. Latest version of the plan and recommendations - ATTACHED.

- **Education Website**
- **NASCIO attendance**
    - John Nixon
    - David Behen
    - Dan Lohrmann
    - Eric Swanson
    - James McFarlane
    - Steve Arwood and Clay Tierney
    - Andris Ozols
    - Lynn Draschil or Rod Davenport

Attendee		Slot	Transportation	Hotel	Meals	Registration	Total
David	Behen	CIO	$0.00	$0.00	$0.00	$0.00	$0.00
Dan	Lohrmann	Panel	$0.00	$416.72	$0.00	$0.00	$416.72
Eric	Swanson	Award (Dan)	$0.00	$416.72	$0.00	$0.00	$416.72
Andris	Ozols	Speaker (John)	$0.00	$416.72	$0.00	$0.00	$416.72
James	McFarlane	Panel	$0.00	$416.72	$0.00	$0.00	$416.72
Rod/Lynn	Davenport/Draschil		$500.00	$625.08	$0.00	$595.00	$1,720.08
		Totals	***$500.00***	***$2,291.96***	***$0.00***	***$595.00***	***$3,386.96***

- **MACPA**
    - Tiziana facilitated a meeting with the DTMB team & the MACPA group on 5/28 to discuss IT projects ROI
    - MACPA was quite impressed with what we are doing; they noted a couple of areas that could be further enhanced
    - Letter has been received
- **Letter to Sen. Papageorge on living wills and Win7 VS Win8 upgrade**
    - Tiziana has provided a draft to Chris Harkins
- **FYI - GM positions**
    - DHS

3 - Pending Items:

- **MiPage**
- **FirstNet**
- **Michigan.gov**

STATE OF MICHIGAN
RICK SNYDER
GOVERNOR

DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET
LANSING

JOHN NIXON
DIRECTOR

September 30, 2013

TO: Agency Directors

FROM: John Nixon

SUBJECT: 2013 Michigan Cyber Summit Invitation

As you may be aware, the 2013 Michigan Cyber Summit has been scheduled for October 25, 2013 at the Suburban Collection Showplace in Novi, Michigan. This event, hosted by Governor Rick Snyder, promises to be exciting and informational with many national-level speakers.

The Summit will bring together experts to address a variety of cyber security issues affecting business, education, information technology, economic development, law enforcement and personal use. The Summit is a partnership between several levels of local, state and federal governments, as well as many private-sector partners.

As an Agency Director, we would like to provide you with one complimentary VIP Pass for this event. Please contact Ms. Leslie Smith at lsmith@esd.org to reserve your pass.

Other interested staff may register on the event website at https://events.esd.org/MichiganCyberSummit2013.aspx for only $35.00.

Please continue to monitor the event website as the agenda is being developed.

If you have additional questions, please contact Dan Lohrmann, Chief Security Officer at 517-241-4090 or lohrmannd@michigan.gov.

I hope to see you there!

MiScorecard Performance Summary

Business Unit:	**Information Technology**
Executive/Director Name:	**David Behen**
Reporting Period:	**Aug 2013**
Date Approved:	**9/20/2013**

Green	>90% of target
Yellow	>= 75% - 90% of target
Red	<75% of target
Scorecard Status	**Final**

Metric		Status	Improving	Target	Current	Previous	Frequency	Data definition
GOAL 2 - Operational Efficiency								
IT 2A-2	Actual IT spending as a percentage of IT budget.	Green	👍	TBD	new measure	new measure	FY Annually	This metric will help the departments to hold DTMB accountable, for better workload, planning, and budgeting.
2-IT-1	IT investment fund projects completed on time, within budget and utilizing transparent reporting	Green	👍	90%	83%	75%	Quarterly	This metric tracks project status for those projects included in the $47 million of additional IT funding allocated to DTMB.
IT CS ALL 04	Percentage of customers indicating that they are very or somewhat satisfied with service provided by the IT Client Service Center.	Green	👍	90%	93.4%	91.5%	Quarterly	The DTMB Client Service Center (CSC) asks customers a series of questions after every service interaction. The survey provides important information about the quality of IT services provided. This metric indicates the percentage of clients who say they are very or somewhat satisfied with the service provided.
GOAL 1 - Customer Service Excellence								
IT 1D-3	Number of online transactions.	Green	👍	TBD	TBD		Quarterly	Count of the number of online transactions.
IT 1D-2	Number of citizen facing online services.	Green	👍	50%	TBD		Quarterly	This metric counts the number of citizen facing online services.
CIP 1	Percentage of workstations with malicious software related tickets	Red		1.50%	2.08%		Quarterly	This measure provides an indication or the effectiveness of DTMB's Office of Michigan Cyber Security malware prevention efforts. Although blocking malware before it is a problem is a part of this measure, state employees also play a role in the proper use of state equipment. Technology, education and understanding are the key factors in keeping this number low.
CIP 2	Percentage of mission critical applications with completed risk assessments	Red		90%	52%		Quarterly	Critical IT Systems are identified as systems that are vital to an agency conducting their mission. These systems are tracked by the IT on what is called the red card. A risk assessment is an analysis of the system to determine the potential loss and probability of loss that could occur as a results of cyber threats to the application.
GOAL 3 - Accountability and Performance								
3-IT-1	Deliver programs, services and operations within specified operating budget	Green	👍	90	new measure	new measure	Quarterly	This metric will gauge each area's compliance with their operating budget.
3-IT-2	Ensure all IT products and services are acquired by clients utilizing DTMB as the service provider	Green	👍	90	new measure	new measure	Quarterly	All state agencies are required to acquire all IT services and products through DTMB, per Executive Order 2001-3. This metric will gauge compliance with the Executive Order that centralized IT services in DTMB.
3-IT-3	Comply with audit recommendations by implementing required corrective action within agreed-to timelines	Green	👍	90	new measure	new measure	FY Annually	This metric will help ensure all audits and associated findings/recommendations are being addressed as appropriate.

3-IT-4	Percentage of Strategic Initiatives with designated resources	Green		TBD	new measure	new measure	FY Annually	Percentage of Strategic Initiatives with designated resources.
GOAL 4 - Expertise & Commitment								
IT 4B-3	Employee Engagement: Champions Percentage	Green		50%	47%		FY Annually	As reported in the 2012 Employee Engagement Survey, champions are employees that have strong identification with organizational objectives, a high level of loyalty to the organization, and a high level of willingness to cooperate and motivate colleagues. DTMB's goal is to increase the percentage of employees that are champions based on responses to engagement survey questions.
4-IT-1	Performance reviews complete within established timeframes	Green		90	new measure	new measure	Quarterly	Staff performance reviews are completed annually. Managers and supervisors meet with employee quarterly for a touchpoint.
GOAL 5 - Shared Services								
5-IT-1	Extend the adoption of shared services across all agencies.	Green		TBD	0	0	CY Annually	Shared Services would include: SharePoint, Business Objects/SAP/ BING Maps. Future Updates May include: Database as a Service
IT 5A-1	Savings and cost avoidance realized by existing shared solutions.	Green		$1721000	$1,721,000	$1721000	CY Annually	This metric shows the savings materialized or cost avoided resulting from shared services. It includes these shared services: - DTMB Financial Services - accounting consolidation - Bing Maps aerial imagery - SharePoint - Business Objects
IT 5B-1	Cycle time for shared services process review (# days).	Yellow		160	180	180	CY Annually	This metric includes the time it takes to evaluate potential shared services (days). This is the average time projects have been in "the system" before they have successfully completed the Shared Services Business process review. The time involved depends on the complexity and scale of the proposals. (successful completion of the process does not always result in a new shared service). The goal is to reduce the review time, to support innovation and shared services across the state.
IT 5C-1	Number of implemented partnership projects across government (with external partners).	Green		450	427	427	CY Annually	This metric shows the number of shared service agreements with external customers. It currently reflects two of DTMB's Offices that currently share many services outside of government. These include services such as mapping, GIS, vehicle repair and mail sorting.
GOAL 6 - Innovation and Leadership								
6-IT-1	Develop future leaders by implementing the 60 Change Leaders Program	Green		200	119	92	Twice a Year	The 60 change leaders are ambassadors for positive change and help drive the transformation across our DTMB-IT department. They are fundamental in our goal to move our organization toward great customer service in alignment with our ICT Roadmap.
IT 6A-2	Number of projects in the Innovation Fund pipeline.	Green		10	7	0	Quarterly	The number of projects under review for potential Innovation Funding.
IT 6B-1	The percentage of transformational projects in the portfolio of project candidates – as an indicator of long-term strategic ICT maturity	Green		55.00%	52.34%	52.34%	FY Annually	This metric indicates the balance between IT capital expenses and IT operational expenses. High RUN spending indicates a limited strategic focus for IT, while high GROW and TRANSFORM spending indicates a stronger strategic direction with a focus on ROI.
CIP 3	Percentage of SOM employees completing IT Security Awareness training	Green		85%	81%		Quarterly	This measure provides the percentage of state employees that have completed IT awareness training.

MICHIGAN'S PUBLIC SAFETY COMMUNICATION SYSTEM: LIFECYCLE REMEDIATION

A MICHIGAN SUCCESS STORY — AN INTERNATIONAL MODEL

An idea and concept that Michigan envisioned in the mid-1980's, and constructed in the late 1990's, has matured to an internationally recognized leader during the past fifteen years in shared public safety communications. The Michigan Public Safety Communication System (MPSCS) has grown to serve over 1,400 local, state, federal, tribal nation and private public safety agencies using over 64,000 radios providing shared services to support daily operations and mission critical disaster response communications. It is the primary means of daily and emergency radio communications for all branches of State government and with key State Agencies including MSP, MDOT, DTMB, Corrections, Military & Veterans Affairs, and also by the security for the legislature and the State Supreme court. Examples of local Public Safety (Law Enforcement, Fire, and EMS) agencies include City of Detroit, Washtenaw County, entire Upper Peninsula region, and majority of all population base in southeast Michigan is supported by agencies utilizing the MPSCS. Examples of federal agencies include Border Patrol, DEA, FBI, ATF, US Marshal Service, US Fish and Wildlife, National Park Service and many others. Examples of other key users represent K-12 school districts, colleges and universities such as Michigan, Eastern Michigan, Northern Michigan, Wayne State, Hospitals, Tribal Entities, Road Commissions, Transit Authorities, and public safety disaster response entities such as Red Cross and Salvation Army.

The MPSCS network is a State owned asset with additional integrated locally owned assets with an estimated net worth of over $500M. It is supported 24x7 with staff skilled and trained; many of the staff were hired with past military service which provided the skills and understanding of the job of supporting the mission of public safety. The staff is comprised of tower experts, RF engineers, radio technicians, network engineers, steeplejacks, and policy experts who have specialized expertise with past private sector, public safety, and military experience focused to supporting the system that was used as the model for more than 35 states and a number of other countries.

THE ISSUES

- Major components of the MPSCS are no longer manufactured and/or are not supported by the manufacturer.
- Last date of manufacture for the Connectivity Network was 2001 with its current service support level as "Best Effort" based on parts availability.
- Portions of the Connectivity Network are at capacity.
- Risk of mission critical communications failure.
- Portable radio coverage challenges in Flint and Pontiac. Trooper/Officer safety concern.

IF NOTHING IS DONE

- Probable system outages with potential system downtime (similar to the recent outages in Detroit).
- Best Effort for support on cancelled products; no parts availability for critical components.
- Limitations on adding future technology or system users (capacity).
- Officer Safety in high crime areas. User/Citizen Safety and response.
- Increased support costs and extended outages

THE SOLUTION

- Update critical infrastructure at end of life while re-using 80% of existing resources.
- Enhances interoperability and regionalization with Regional, State and Federal Agencies.
- Lifecycle management plan – Protect your assets and investment.
- Will continue with an APCO Project 25 (P25) standards based platform for voice interoperability.
- Enhances the ability to access more data and information from vehicles (Mobile Office).
- The State can leverage assets to create Real-Time Crime Centers (RTCC) in high crime areas.
- Improve coverage specifically in Flint and Pontiac
- Total appropriation increase to existing MPSCS budget per year is $20 million ($15 million for lifecycle and $5 million for annual Operations and Maintenance)

CONFIDENTIAL

REUSE OF SYSTEM COMPONENTS

The lifecycle refresh is not a total replacement of the MPSCS. There will be maximum reuse of system components, including:

- Master site zone controller equipment
- Routers and switches
- Console equipment and associated interfaces
- System alarm and control equipment
- System management applications and hardware
- Microwave system components as appropriate
- Channel bank equipment
- Legacy equipment such as Mutual aid system
- Existing Local user equipment
- Towers
- Antennas and lines
- Equipment Shelters
- Emergency Generators
- Existing Subscriber equipment

FUNDING

The Michigan Public Safety Communication System (MPSCS) was first authorized as the Michigan State Police (MSP) Statewide Two-Way Radio System and Microwave Backbone System in Public Act 253 of 1990. MPSCS was created to replace an antiquated communication system. Funding started in FY93 and the initial system finished in 2002, at a total cost of $215 million. The state has invested another $40 million in upgrades and local governments have spent another $150 million for infrastructure that is integrated into MPSCS. Previous mobile and portable radio investment of $200 million will continue to operate on the system as the Project 25 standard assures backwards compatibility.

As with any sophisticated system, the MPSCS staff continually monitors and performs extensive preventative maintenance on the tower, support structures and radio equipment, repairing equipment as needed and ensuring the system meets the up time tolerances expected by public safety. Even with this effort, components ultimately need replacement based on the equipment's "life cycle" which is determined by industry standards, manufacturer recommendations, and overall condition of the equipment. Lifecycle components include antennas, microwave systems, RF equipment, network devices, dispatch consoles, emergency generators, and the tower equipment shelters and supporting HVAC infrastructure. As the general scope of the lifecycle remediation has been identified, the next step is to identify funding strategies, while also addressing the annual operations and maintenance budget for the system. The requirements of the lifecycle remediation and the annual operations and maintenance may be addressed with the same long-term funding strategy.

When the system was constructed the State did not address long term funding for the lifecycle of RF equipment or an adequate annual budget to support s shared system of this size and maturity. Given the fact that there are two distinct funding opportunities 1) Lifecycle of statewide system equipment and 2) Operations and Maintenance funds for annual support for the system both have required adequate funding attention for a number of years. Two distinct lifecycle areas of the MPSCS are recognized; the RF and Microwave equipment that has been identified as reaching a critical status and is required to be addressed as a system wide replacement, and is identified within the lifecycle planning effort as separate phases within the lifecycle remediation plan in Motorola's proposal. The other area of lifecycle concern is the infrastructure of the system that is non-RF (Towers, shelters, emergency generators, and HVAC units.); this area will be handled in a time frame that does not coincide with the replacement time frame of the RF and Microwave equipment remediation. The lifecycle of the non-RF equipment will be addressed with annual budget increases to the Operations and Maintenance budget for the MPSCS over a span greater than ten years. Operating costs have increased over the past sixteen years and the growth of the system users has increased by 843%, yet annual allocation has been depreciating.

Examples that have been identified for funding the lifecycle remediation include both General Fund and Restricted Fund approaches in some cases an approach has been identified but may not be recommended based on existing funding shortfalls for public safety at the local level. The associated costs below in the funding ideas are

DRAFT

only identified for the lifecycle remediation of the RF equipment, the $149 million effort. Funding to address annual appropriation increases for operations and maintenance could come from any of the same sources, and is estimated to add between $3million and $4.5 million to the MPSCS current annual appropriation, but would be aggregated within the the funding numbers below.

GENERAL FUND

Existing general fund dollars –

- One time Earmark - Utilization of state surplus to set aside in a revolving dedicated account for the span of lifecycle remediation to cover the purchase and ongoing maintenance support. $14.9 million per year with annual spend for ten years.
- Increase in dedicated annual appropriation - Increase MPSCS appropriation in MSP budget for lifecycle from existing General Fund to cover the 7, 10 or 15 years of lease/purchase and ongoing maintenance support. The risk in this scenario could be new administrations or legislators are not supportive of the use and scope of the MPSCS by the statewide public safety community. The seven (7) year lease the annual payments are $18,678,791.00 for 7 years. The 10 year lease the annual payments are $13,855,603.00 for 10 years. The 15 year lease the annual payments are $10,219,564.00 for 15 years. The system assurance program is approximately $4,500,000.00 per year for 7 years.
- Charging State Agencies Subscriber Fees - All state agencies would be charged subscriber fees equal to what all non-state agencies pay. Only the Michigan Department of Transportation currently pays the subscriber fee. All three branches of Government and agencies under each utilizing the system may need additional appropriation to cover this new cost. Risk in this scenario is this money needs to be identified as new money. If all State agencies paid the current fee the revenue would be $2.3 million annually. There are currently 11,465 radios on the system.
- General Obligation Bonds - The purpose of the Bonds are to acquire, construct, furnish, equip and renovate buildings and equipment for the use of the State to purchase the system/lifecycle remediation. All existing bonds have been recently paid in full. The $118 million cost of the system could be bonded and the system assurance program for $4.5 million for 7 years would come from another funding source. The states still has $736.9 million in bond capacity.

RESTRICTED FUND

- Non-State Subscriber Fee charge – Currently most non-state subscribers are charged $200 annually per radio, net of credits. There are currently 53,000 non state radios on the system. This would increase the current subscriber fee for MPSCS usage for all non-state subscriber radios. The risk in this scenario is agencies not able to afford service.
- Revenue Sharing - Identify a quantifiable amount that all counties would fund as a function of revenue sharing. The MPSCS supports citizens in all eighty-three counties and has been leveraged often when existing systems have failed. The risk in this scenario is the County and State would have more conflict.
- State 911 Surcharge – Increase State 911 Surcharge (state's allocation on all phone bills) equal to an amount to fund the lifecycle remediation and would be identified as a restricted fund dedicated to the MPSCS. The risk in this scenario is delay/time and conflict at a local level. The increase would be for every $.01 of surcharge would equal $1.0m funding to the state. Recommended increase per phone is $.35. Adding the additional 35 cents to the existing statewide surcharge of 19 cents collected. Only the additional 35 cents funding would be identified as a restricted fund with carryover capability dedicated to the Office of the MPSCS. The funds would address the request of the additional $20 million to remediate the MPSCS RF and microwave lifecycle as well as increasing the Operations and Maintenance funds. The remaining $15 million that would be collected as a function of the 35 cent 911 surcharge, would replace the current annual general fund appropriation for the MPSCS. This funding approach would move the MPSCS funding to a restricted

DRAFT

model with the established carryover allowing adequate long term planning for lifecycle replacement, and support of the operations.

- Vehicle and Vessel Surcharge - Add surcharge on vehicle license plates and vessel registration that would be dedicated to MPSCS and would also be a new restricted fund. The risk in this scenario is time and conflict. Based on census data 9.2 million vehicles and vessels are registered in Michigan.
- Restricted funding for county libraries that are part of the commercial vehicle enforcement fee revenue stream – reassign the fees that the libraries collect to the radio system. Public Act 93-98 of 2000.
- MPSCS Tower Co-locations – Allow for non-public safety equipment co-locations on the MPSCS towers. The estimated initial revenue per year is $500,000 and sees projected annual increases based on the viability of the MPSCS towers to provide wireless coverage in areas of the state for customers in lieu of constructing new tower sites. The risk may be that fewer towers may be needed as technology advances or existing towers do not meet the need of prospective customers.

In research across the nation, Michigan is the mature leader in state-wide communication system implementation. Other states are very interested in a long term repeatable solution that addresses current and future lifecycle remediation and are interested in what Michigan identifies as that model they may also adopt. Other states have leveraged restricted funding sources such as State 911 surcharge, vehicle registration costs, transportation funds, expiring homeland security grant funds, release of government bonds and the majority utilizes general fund dollars for annual operations and maintenance but have in the process of identifying long term funding for lifecycle.

LEASE PURCHASE PAYMENT OPTIONS

Motorola has offered a lease/purchase option for the RF lifecycle Remediation project for a term of 7, 10 or 15 years. The advantage to this option is it does not count as debt for the State and the first payment is due one year from contract signing. The State would sign a contract in October 2013 (fiscal year 2014) and our first payment would not be due until October 2014 (fiscal year 2015).

- The seven (7) year lease the annual payments are $18,678,791.00 per year.
- The 10 year lease the annual payments are $13,855,603.00 per year.
- The 15 year lease the annual payments are $10,219,564.00 per year.

CONCLUSION

The State has continued to be at the forefront of public safety communications since the first public safety radio communications were developed in the early 20th century and has consistently been recognized for the enterprise approach of leading in this area through the different generations of public safety communications. States have adopted the technology and policy approaches of the value of statewide interoperable communications systems of "build once and reuse often" for which these models maximize the citizen support while promoting collaboration amongst public safety. The state stands once again to lead the nation in a funding strategy that ensures public safety communications is a priority while continuing to find ways of maximizing the citizen investments. The state is now faced with the opportunity to set in motion the funding to address the immediate need while creating sound funding approaches to ensure that these mature public safety communications are operational when the first responder uses the radio. The opportunity is to fund the lifecycle of the system, while also ensuring the annual operations and maintenance budget is defined to meet the needs of an operational system shared by public safety representing all of the first responder's disciplines in all areas of the State.

CONFIDENTIAL DRAFT

MICHIGAN'S PUBLIC SAFETY COMMUNICATION SYSTEM: LIFECYCLE REMEDIATION

Action items from the August 7th MPSCS discussion meeting

- Develop cost benefit analysis for Lifecycle Remediation versus Reactive Maintenance (risk summary)
- Outreach to customers to solicit feedback on:
    - Funding ideas for Michigan's Public Safety Communications System
    - Phase out of subscriber fees
    - Creation of an Interoperable grant program (much like CGAP or EVIP) for MPSCS interoperability
    - Movement of Office of MPSCS to Department of Military and Veterans Affairs

Situation Analysis

The State of Michigan has established a successful presence of a single statewide communications system that covers all eighty-three counties. The system has evolved over the past sixteen years and agencies utilize the system for interoperable communications to respond to events and serve the citizens of the state. This has established a trust and expectation that the system will support all of the users day-to-day activities combined with the spike in need during disasters and planned events.

The MPSCS system was deployed in 1997

- The microwave backbone equipment is now at least four years beyond its end of Life, this means no parts, or equipment support is available from the manufacturer. The MPSCS team uses a variety of creative approaches, including bench repairs on broken equipment, and ordering board components from companies in other countries and researched opportunities with online auction sites to maintain the equipment when parts fail. The approaches although not ideal, are what the staff supporting the system are faced with in light of the non-supported equipment.
- RF equipment is approaching end of life and is projected to be no longer available in 2017
- Local agencies have legacy console operator positions approaching manufacturer declared end of life timeframes declared by the vendor in 2014.

The implications of this situation include:

- Possibility of catastrophic failure of the backbone, eventually bench soldering and extra parts will be depleted such that the equipment cannot be fixed but would need to be replaced. Since this is obviously tower-based equipment, a critical component failure could result in a prolonged system backbone outage, impacting thousands of users.

- Project would require emergency funding and heroic efforts to bring back online

- RF equipment is now approaching 20 years of operational life, increased frequency of failures are expected; old stations have reduced capabilities compared to current platform.

- Console Op positions have reduced capability and will eventually become unusable and incompatible with current system version.

Implications:

- Catastrophic or prolonged failure of network would undermine confidence of user base, resulting in angry complaints, lack of ability to recruit new agencies and loss of existing customers.

- Failure of network resulting in loss of communications would result in loss of life or property and potential political backlash at State level

- Emergency replacement would be highly disruptive and require unplanned and higher expenditures to fix.

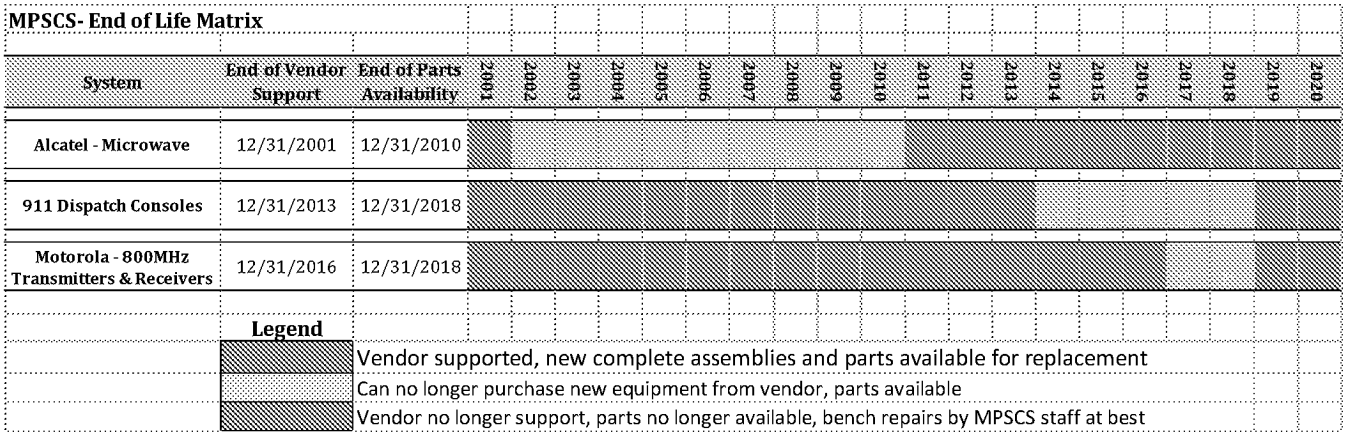

Figure 1 MPSCS End of Life Matrix

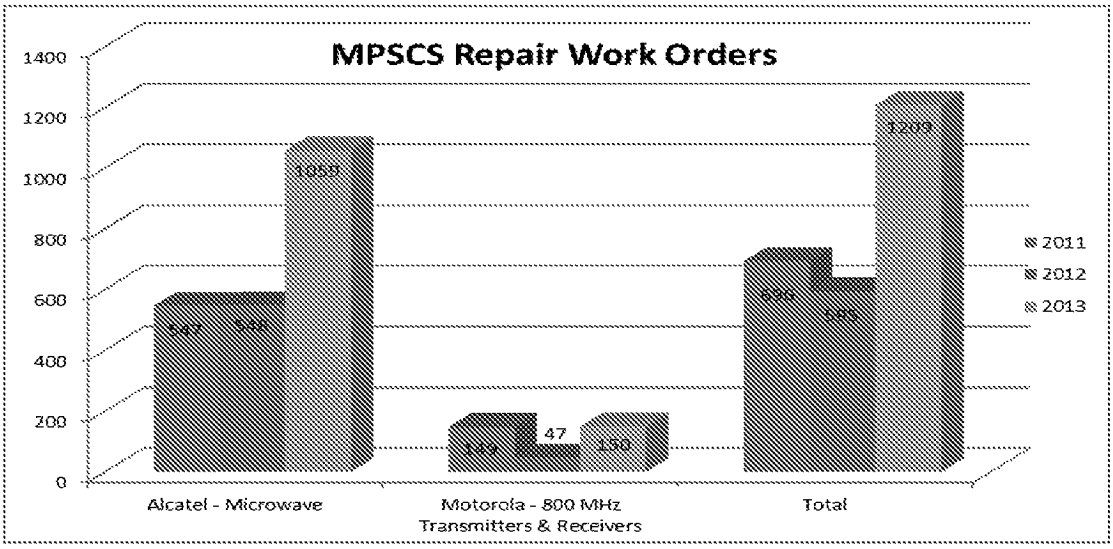

Figure 2 MPSCS Repair Work Orders

Cost Benefit Analysis - Lifecycle Remediation compared with Reactive Maintenance

The table below captures the costs for planned remediation versus a "do nothing model". Based on data collected with activities supporting the system projections can be made if nothing occurs on remediation, the growth of reactive maintenance will outpace preventative maintenance on the system as failures of electronic equipment will occur. Aspects that were difficult to capture is in the event the system fails on a significant scale, how long communications may be lost and for how many users in what communities will it impact. Although it can be identified as both a political ramification, but also a loss of faith in public safety to support citizen needs.

COST STRUCTURE - Remediation Plan - $20M per Year											
	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024	TOTAL

Figure 3 Cost Structure - Cost vs. Risk

Projected Near Term System Growth

Potential growth based on individual agencies, or regional systems leveraging the system can be quantified based on annual growth in the past year of new radios on the system was 7.62% (from 60,060 to 64,546.) Between the period of 2006-2008 36,000 radios were added by existing and new agency users at the time with the use of a federal Public Safety Interoperable Communications (PSIC) program that encouraged interoperability. Traditionally growth would have been identified only in users purchasing radios to leverage the MPSCS for, but dispatch centers that are also connected to the MPSCS for primary communications has grown from six dispatch centers with 38 console positions in 2002 to 51 dispatch centers and 215 console positions by July of 2103. An additional two dispatch centers and ten consoles are in process prior to the end of 2013 while projections in 2014 are to have a total of 64 dispatch centers and 262 console positions connected to the MPSCS. There are over 60 patched radio systems with the MPSCS, these are local systems that are parallel systems to the MPSCS but are connected to send traffic between the two disparate systems.

There are current talks with more than four counties and related communities that had been using parallel systems to the MPSCS and are in process to migrate or are in the process of considering migration to the MPSCS. There is still a continued growth of existing agencies purchasing additional radios to add to their existing counts for use on the system, and in most cases they purchased the additional radios once additional funding was allocated via grant dollars or local public funds.

Of the existing 51 dispatch centers connected, sixteen of those centers have ninety-two dispatch consoles that will no longer have parts available by the manufacturer in 2017.

Of the RF and microwave equipment at the sixty-five additional locally integrated sites to the base MPSCS statewide system

- Which accounts for a percentage of the overall microwave equipment that is no longer or will no longer be supported by the manufacturer now and within the next six years.
- Which accounts for a percentage of the overall RF equipment that is no longer or will no longer be supported by the manufacturer within the next 8 years.

There have been 741 multi-jurisdictional events planned or unplanned in 2013

Examples of unplanned events

- Outage with Detroit sub-system to MPSCS July 5, 2013
- Blackout of 2002 across eastern Michigan and eastern united states
- Benton Harbor riots 2003 – MPSCS used as the baseline communications system and cache of radios deployed to agencies supporting the event

- Enbridge Oil spill, Kalamazoo 2010 – MPSCS used as the baseline communications system and cache of radios deployed to agencies supporting the event
- Michigan 2012 Forest Fires in Upper Peninsula – MPSCS used as primary communications across multiple jurisdictional response
- School shooting in Wisconsin – utilized interoperable solution between Michigan and Wisconsin Department of Homeland Security, Office of Emergency Communications, developed position paper on cross state border interoperability models
- Minnesota Bridge Collapse 2007- Statewide P25 radio system touted as success to multi-agency response http://transition.fcc.gov/pshs/docs/clearinghouse/references/minneapolis-bridge-report.pdf

Examples of Major Planned Events

- World series 2006
- Superbowl 2006
- NCAA Men's 2009 final four
- Nascar Events – annually
- Stanley Cup 2002, 2008
- Presidential visits

Breakdown of agencies on the system is as follows:

Type Identifier	Number of Agencies	Number of Radios
State	27	12,570
Local	1236	48874
Federal	44	1433
Tribal	22	327
Private	116	320
Total	**1445**	**63524**

Table 1 Agency and Radio Count

Currently there are 1,445 Public Safety agencies on the MPSCS. This represents 40% for the 3,600 agencies identified in the Federal CASM database. Currently there are 50,954 billable radios on the MPSCS. Table 2, Potential MPSCS Radio Growth, identifies the possible additional radios that would be added to the system if all agencies were to come on the MPSCS.

Current Agencies on the MPSCS	1,445
Total Michigan Agencies	3,600
Percentage of Agencies on the MPSCS	40%
Current Local Radios on MPSCS	**50,954**
Working % of Future radios	60%
Approximate Future Radio Growth	**30,572**
Possible Total of Billable Radios	**81,526**
Current In-service State Radios	12,570
Total Possible Radios	**94,096**

Table 2 Potential MPSCS Radio Growth

Table 3, MPSCS Fee Structure Breakdown by Radio, shows the current breakdown of our fee structure in relationship to radios. Agencies have downgraded their radios to receive a lower annual rate when their Credits expire; if the annual rate is increased we forecast that 60% of the agencies will downgrade their radios to receive a lower annual rate.

MPSCS Radio Breakdown		
Local Radios	# /Radios	% of Total
$200 Annually	36,688	57.75%
$100 Annually	4,781	7.53%
$50 Annually	4,806	7.57%
$0.0 Annually	4,679	7.37%
Sub-Total	**50,954**	80.21%
State Radios	12,570	19.79%
Grand Total	**63,524**	

Table 3 MPSCS Fee Structure Breakdown by Radio

Table 4, State Agency Radios, lists all the radios that State Agencies have, MDOT is the only Agency that pays the Annual Radio Rate of $200.00. Listed also is the possible revenue that would be gained if all Agency paid their Annual rate.

State Agency	Radio Count	
MSP	6183	
DNR	2284	
MDOT	1450	$ 141,825.00
DOC	1158	
DMVA	663	
DTMB	378	
DCH	329	
DHS	115	
ATTORNEY-GEN	63	
DEQ	62	
MI-SUP-COURT	30	
DLEG	27	
MI-DEPT-OF-AG	26	
GOVERNOR-OFFICE	25	
HOUSE-OF-REP.	20	
MICHIGAN-SENATE	14	
MGCB	12	
Total	**12839**	
*Includes non-operating spares		
Possible Revenue		$ 1,269,100.00

Table 4 State Agency Radios

In table 5, MPSCS Billable Radio Analysis, rate increases were identified and projected revenue for each increase compared with current baseline radio numbers of MPSCS for state and non-state agency users. These scenarios assumed no decrease in agencies/radios utilizing the MPSCS.

Billable Radio Revenue Analysis						Projected Revenue	
	Rate	All System	Local	State		Local	State
LVL1	$0	5,242	4,791	451		$0	$0
LVL2	$50	4,768	4,612	156		$230,600	$7,800
LVL3	$100	4,617	4,593	24		$459,300	$2,400
FULL	$200	47,451	35,436	12,015		$7,087,200	$2,403,000
DATA4	$600	235	19	216		$11,400	$129,600
Totals		62,313	49,451	12,862		$7,788,500	$2,542,800
Current Credits to Locals						(5,034,100)	
Projected Current Local Revenue						$2,754,400	
50% increase in rates plus Level 1 at $25						Projected Revenue	
	Rate	All System	Local	State		Local	State
LVL1	$25	5,242	4,791	451		$119,775	$11,275
LVL2	$75	4,768	4,612	156		$345,900	$11,700
LVL3	$150	4,617	4,593	24		$688,950	$3,600
FULL	$300	47,451	35,436	12,015		$10,630,800	$3,604,500
DATA4	$600	235	19	216		$11,400	$129,600
Totals		62,313	49,451	12,862		$11,796,825	$3,760,675
Current Credits to Locals						(5,034,100)	
Projected Current Local Revenue						$6,762,725	
Variance						$4,008,325	$1,217,875
**assumes no agency reductions due to rate increase							

Table 5 MPSCS Billable Radio Analysis

In table 6, MPSCS Customer feedback, it summarized the feedback we received from the contact that was made to a select few customers representing many geographic, urban and rural factors, along with amount of usage of the MPSCS for operations. There is additional detail if requested that was collected from the contact with each agency representative.

What is your feedback on subscriber fees going away?	If Subscriber Fees didn't exist would it affect your use or planned use of the MPSCS?	Do you see that the subscriber fees are impediments of some of your peers using the system?	Remediation Funding ideas for MPSCS, now and long term?	If there were a state grant program (like EVIP / CGAP) that was dedicated to interoperability solutions with the MPSCS would you support it? Any opinions regarding the interoperable grant program?	If the MPSCS were associated with a different department, Dept. of Military and Veterans Affairs, would that pose any concerns?
Yes, as long as it doesn't disrupt MPSCS funding in the support of the system.	No, wasn't and wouldn't be an impediment. If fees went away monies saved could be used to support local infrastructure and the purchase of radios.	Yes, fees prevent them from coming on. If there were no fees, money could be invested into radios.	A 911 surcharge is the best idea. Agencies would like the State's support in developing an MPSCS User Group that would provide feedback to the MPSCS, and education to the Legislators.	Yes, interoperability would be determination. Work to get everyone on a basic level of interoperability before moving to the next level. There needs to be detailed planning of the Grant process.	The recurring theme is the priority of the MPSCS, Split both ways "no" and "uncertain." Other suggestions were made about autonomy.

	C	D
1	**Description**	**Point of Contact**
2	Legal case matter management system tracking all data regarding cases, people, meetings, etc. - Vendor owned, no source code available	Linda Meyer
3	Administrative tool used to track human resources activities, training, etc. - FileMaker Pro	Linda Meyer
4	Tool for discovery in civil litigation or government investigations which deals with the exchange of information in electronic format - Initiative	Linda Meyer
5	Create an Internet Web Site to allow the public to submit complaints about Charitable Trust Organizations.	Linda Meyer
6	Convert/Migrate AG Opinion data from Filemaker to LegalFiles.	Linda Meyer
7	Create Intranet site to allow AG to search Library Book data stored in LegalFiles Database	Linda Meyer
8	Create Intranet site to allow AG to search AG Opinion data stored in LegalFiles Database.	Linda Meyer
9	Upgrade of the SQL server	Cleavon Redwine
10	Replace 25% of PCs per year to maintain State PCs in warranty	John McQuaid
11	Upgrade msSQL servers that are at end of life (EOL).	
12	Upgrade of SAS (dev, QA, prod) to version 9.3	
13	Agency Services (CEPI) Testing. Child - Sub 4. Parent Project Manager: Howard Boyer CEPI - Generate a centralized education data repository that links data from disparate State systems and enables the creation of analysis of education metrics to meet SFSF Indicators and Descriptors and America Competes Act SLDS compliance reporting requirements.	Howard Boyer
14	Agency Services (CEPI) Testing. Child-Sub 5. Parent Project Manager: Howard Boyer. Plan and implement a 3 year project to create a longitudinal workforce data base for Michigan. Establish a system to link WIA, WP, TAA, TANF, and Food Stamp data with UI Wage Record and UI Benefit data. Link workforce data to student data through the CEPI-administered Statewide Longitudinal Data System. Integrate aggregated LMI data about employment outcomes. Utilize longitudinal data to inform consumer choice decisions and policy making decisions. CEPI - Ensure quality in meeting the business and technical requirements identified for the project.	Howard Boyer
15	The Center for CEPI's mission is to become the single source for the most comprehensive, accurate and useful information about the performance of Michigan's PK-12 public schools, postsecondary institutions, and their students. To that end, Michigan's Statewide Longitudinal Data System (SLDS) project will provide the foundation for Michigan's connected education data sources.	Karen Buckwalter
16	FY 14 - Enterprise Data Loss - Data loss/leak prevention solution is a system that is designed to detect potential data breach incidents in timely manner. A comprehensive solution does this by monitoring data at rest, while it is in motion as data travels across the network and while it is being used on end points (PC, laptop, etc.).	
17	FY 14 - Enterprise Digital and Incident Response - There are too many vulnerabilities and malicious threats to assume that the state is never going to be compromised. No system is 100% secure. How fast the state reacts and how fast it can contain a compromise depends on the ability to scope the compromise, as well as remediate the threat which can prevent a compromise from leading to a breach and loss of sensitive data. The state will look to procure a set of tools that is designed by and for incident responders to collect evidence from possibly compromised machines anywhere in the state's network.	
18	Vendor hosted Cyber Security Awareness Program to be delivered to each State of Michigan Employee's desktop via Internet Explorer. A total of 12 lessons delivered bi-monthly with full metrics tracked by Agency.	Rock Rakowski
19	Phase 2.5 adds the new flow for "Hiring Manager". This flow is needed to give the Hiring Manager the ability to have an Employee Access Card. available for an employee on their first day of work. Verbiage (emails, welcome page) in the application will be updated to reflect this new process. This flow is part of the SOM new Pre-Boarding process.	Glenda Lyon

20	Independent Risk Assessment as suggested by Gartner study. Michigan Department of Technology Management and Budget will request proposals from third-party, independent professional-services firms to conduct a thorough enterprise assessment, in accordance with all applicable Federal, State and industry information processing security standards, in order to transform the IT enterprise. The desired end-state shall deliver optimized, secure services that satisfy our agency clients and their need for quality and speed of delivery. Risks shall be managed in a manner that is both cost-effective and empowering to our agency clients.	Rock Rakowski
21	The Office of Michigan Cyber Security Initiative will improve the Cyber Defense Response Rediness as well as expanded capibilties in protection, detection, and remediation of cyber attacks.	Rock Rakowski
22	The Office of Michigan Cyber Security Initiative will improve the Cyber Defense Response Rediness as well as expanded capibilties in protection, detection, and remediation of cyber attacks.	Rock Rakowski
23	The Michigan Cyber Initiative Projects includes a project for creation of a Cyber Range. The Cyber Range is where IT professionals from the State of Michigan, private industry, as well as City and County can train in a safe environment on how to defend, detect, and remediate from cyber attacks.	Rock Rakowski
24	The Office of Michigan Cyber Security Initiative will improve the Security Operations Center of the office to 24x7x365 coverage as well as expanded capibilties in protection, detection, and remediation of cyber attacks.	Rock Rakowski
25	Objectives include: - Clearly define the roles and responsibilities within DTMB's customer relationship model - Establish a role that allows DTMB to understand the business needs of its customers Deliverables include: - RACI model that defines customer relationship management roles and responsibilties - Revised organization chart that describes new customer relationship management model	Virginia Hambric
26	Objectives include: - Clearly define the roles and responsibilities wthin DTMB's service management model - this includes the Service Portfolio Manager and Service Managers - Define Operating Level Agreements (OLA) between service management and other areas of the DTMB-IT organization Deliverables include: - RACI model that defines service management roles and responsibilities - Revised organization chart that describes the new service management model	Virginia Hambric
27	Objective of this project is to better leverage the skill sets of DTMB employees across the State. Deliverables include: - RACI model that defines the new pooled resources - Revised organization chart that describes the new pooled resources - Transition plan to pooled resources	Virginia Hambric
28	Objectives include: -Enable the ePMO to lead the prioritization of projects across the enterprise and to efficiently allocate State staff resources - Ensure consistent application of project management processes across all projects. Deliverables include: - RACI model that defines ePMO roles and responsibilities - Revised organization chart that show the ePMO reporting to the Solutions Portfolio Manager	Virginia Hambric

141	Families receiving TANF/FIP should first be required to demonstrate their willingness and ability to pursue all avenues of income before receiving public assistance; one of those potential income avenues is child and medical support from noncustodial parents. However, currently Michigan grants public assistance to families before they have fully cooperated in initiating a child support case. By granting benefits before requiring cooperation with the child support program, families are not incentivized to cooperate. This leaves families to rely solely on public funds rather than helping them help themselves toward a future of self-sufficiency. Solution: Require family cooperation with child support mandates before the family begins receiving public assistance. Within 30 days of application, an applicant (grantee and other household members, as appropriate) must complete an on-line electronic interview, providing all information necessary for the child support program to open a child support case and to take the next appropriate action on the case.	
142	This maintenance Candidate is for DHS Leveraged Services Data Warehouse (DW). This will cover all break/fix requests, hardware/software upgrades, operational support, change management and enhancements.	David Zink
143	This Maintenance Candidate for DHS Leveraged Services Enterprise Support will cover break/fix requests, hardware/software upgrades, operational support, change management and enhancements.	David Zink
144	Project to replace two current Learning Management Systems with one COTS solution.	Nathan Buckwalter
145	The Departments of Human Services and Community Health desire to have a single case management system for adult services. DHS will use this system to manage intake and treatment of vulnerable adults. DCH will use this system to ensure timely and accurate payments to providers. The system will be web-based to support DHS' mobile worker initiative.	Jeff Beasley
146	New Project to replace current JJOLT system with a new Juvenile Justice Information Management System (JJIMS)	Jeff Beasley

158	This is to migrate all MSP outstate sites to a minimum 10 MB Connection to the network	Casey Wyzlic
159	This is to install infrastructure to supoprt a Veterans Training Facility at Camp Grayling	Casey Wyzlic
160	This is to migrate the EMR System to a current suported version	Ralph Borucki
161	This is to migrate the Veterans Portal to a current supported version	Vaughn Bennett
162	Establish an enterprise approach to electronic document management with a goal to make it easy for the public to locate and see DNR-held documents	Roger Parsons
163	DNR-Law Enforcement Division Applications initiated from menu page/items include reporting/domain maintenance: + Citizen Complaint Tracking System + Program Information Criminal Record + Program Information Fur Dealer + Program Information Recreation Education Class Record, Instructor, Student, Scanner Sheets + Program Information Class Schedules + Program Information Directory with Pass Schedule, Call Out List and Bi-weekly + Program Information Training Entry + Program Information Inventory	Sara Raja
164	Create a user friendly database used to develop the division's annual budget by location. The division has over 100 units each with its own unique budget. Budgets are heavily weighted with S&W and benefits. Database needs to be able to calculate individual employee payroll expense by pay period and account for non-payroll items such as travel, VTS, CSS&M, etc. It must be flexible to adjust for mid-year changes, e.g. retirement rate, pay/step increases, fuel surcharge, etc.	Doug Sharp
165	Ad-hoc query, search and reporting functions against existing data in Engineering Projects and DNRMIDB information that is downloaded from MAIN producing reports of expenditures and encumbrances against development projects in the DNR.	Doug Sharp
166	Migration of existing Captive Cervid application from ArcIMS to ArcGIS Server platform.	Scott Reynolds
167	Expand the Electronic Journal Voucher System used by DNR, DEQ, MDARD and the MDOT Accounting Service Center as an enterprise solution for recording, tracking and reporting journal voucher financial transactions.	Lee Sayles (MDOT), Chris Larson (DNR)
168	The Fish Collection System is a legacy system developed in in the mid 1990's in the "sunset" technology PowerBuilder. This system must be re-written in current technology (.NET) while redesigned to meet the current needs of the Michigan DNR. Since this system in its present form is running on old technology the risk of system failure is high and the options for recoverability and sustainability are low.	Kevin Wehrly, Todd Wills
169	The Interstate Wildlife Violator Compact is a national effort to revoke hunting and fishing licenses of convicted poachers in all states that are members of the compact if they are revoked in their home state. This request is to create a system to interface with the International Wildlife Violator Compact database and manage license revocation processes for Michigan.	Jim Dubbs
170	Migration of existing Parks IMA application from ArcIMS to ArcGIS Server platform. Also impacts data associated with MrBIS.	Scott Reynolds
171	This project seeks to revise a previously requested LED IT project to include development of a secure web-based portal application to allow holders of WRPs to submit their mandatory annual activities reports on-line. It would capture these data into an electronic database, allowing records to be compiled, sorted, queried, and exported for further analysis.	Philip Bernardi / Casey Reitz (Wildlife Division)
172	The PRD IMA system is used for collecting and storing data about the different objects maintained at the State Parks. Currently data collection is done on manual forms throughout the parks and then this data is taken to a terminal for entry. PRD would like to develop a mobile system for this data collection and for a few other forms used by the parks, for collection of sefty and conditional information.	Greg Bird / Dan Lord
173	Develop new IT solution to integrate with the federal Tracking and Reporting Actions for the Conservation of Species (TRACS). Annual strategic program objectives, work plans, budget, accomplishments and outcomes will be tracked and reported to comply with new requirements for fedreal grants administered by the U.S. Fish and Wildlife Service.	Ann LeClaire Mitchell, Patrick Lederle
174	Wildlife hunter surveys are individual web pages that need modified each hunting season by DTMB. Wildlife would like to redo these individual systems to be one dynamic system so Wildlife can modify surveys based on data entered into a modified survey management system.	Greg Bird \ Brian Frawley
175	Move DNR DB2 databases to the SQL Server 2008 platform .Land Ownership and Tracking System (LOTS) keeps track of all the land owned by DNR and also some of the land owned by other state agencies.	Julie Manson

	C	D
176	DNR grants Management adminsters the Michigan Natural resources trust fund ,Land and water conservation fund ,Recreation bond program, Clean Michigan initiative and Recreation Passport(new program approved 2010) . The rewrite includes efficient tracking of statuses and achievements of all grants, adminstration of active projects , to provide reports to Legislature , Natural resources trust fund board and local units of Government and scoring of new application .The new system will provide reporting functionality required for Natural resources trust fund ,Land and water programs and also new reporting features associated with the latest addition of the new Recreation Passport program .	Jule Stafford
177	Work with primarily internal DTMB staff to complete the ArcGIS 10 enhancements and continue this work to complete update the IFMAP System.	David Forstat
178	The new CRS solution will leverage the RSS application. The integration of these two solutions will reduce operational costs	IO: Linda Pung PM: John Baer
179	This project leverages the existing and future networks between the state and local governments, libraries, and schools. It provides redundancy, increased capacity and cost savings to all involved agencies.	Lucy Pline
180	DNR will implement Motorola's 'Records Management System' to enhance the efficiency of conservation officers who currently use manual systems to record data. This new Record Management System will provide real-time collecting, sharing and reporting of documents specific to investigation. This system will replace several legacy systems including Report All Poaching(RAP) Complaint form, few modules of the LEDAPPS and the Warrant Management system.	Jim Dubbs
181	Data relative to state fish hatchery operations are divided among the Fish Production System (a legacy system supported by DTMB) and local databases developed by non-IT DNR staff. This project would combine all hatchery operations data into one solution using current technology in order to standardize data collection, reduce input errors, provide long-term storage of data, and improve access.	Gary Whelan, Martha Wolgamood
182	DTMB-Customer Services maintains eight separate information technology systems written in PowerBuilder which support DNR-Fisheries Division management programs. This project replaces existing systems with new applications build on current and/or emerging technology software and infrastructure platforms. The most vital and program-critical application is the Fish Production System. This system collects, manages, and reports information related to hatchery incubation and fish rearing activities performed by the DNR-Fisheries Division at six state-operated fish hatcheries, five egg take facilities and 30-50 extensive rearing ponds across the state. Hatching, rearing and transporting fish are essential to the management of both Great Lake and inland fisheries. Approximately 30 million fish are raised on an annual basis and stocked in public fishing waters to support Michigan's recreational fishery, valued at $2.4 to 4.0 billion annually.	Theresa Pohl (DNR), Chris Larson (DTMB)
183	Several hundred Michigan Department of Natural Resources employees work at remote locations. With much of their work dependent on being "in the field" serving the citizens of Michigan it is important that workers have the opportunity to work from any location, at any time, and access the information that they need to get the job done. DNR mobile workers do often have access to state offices to work from, but still insufficient mobile connectivity and workforce solutions could still be improved upon to provide a more productive work environemnt. DTMB organized a team of internal IT architects, IT specialists, and technology subject matter experts to examine the current business environment and technology capabilities needed to improve mobility solutions for DNR agency field staff. This strategy paper has been prepared to outline a long term direction that will vault DNR field staff beyond the current cumbersome and somewhat confining systems to a technology optimized organization. DNR and DTMB can then work together to decide which, if any, recommendations will be adopted and how those will come to bear. Costs and savings are predicted on this Return on Investment, but actual costs and savings will vary depending on the	Greg Bird / David Borzenski
184	LOTS is a land ownership system that tracks all DNR state land ownership records and other land records for Department of Environment Quality(DEQ), Michigan Land Bank Fast Track Authority (MLBFTA), Department of Military & Veteran Affairs, Department of Treasury, and mineral ownership records for all state land subject to mineral leasing. LOTS is the Registry of DNR deeds and the abstract of title for most state-owned lands. It is used for the determination and graphical display of certain land management activities and facilitates the generation of revenue through the sale of lands and mineral leasing.	Joseph Frick (Agency)

	C	D
185	The Log Letter Database is used by the Michigan Department of Natural Resources (DNR) to log, assign, and track correspondence received from the Governor's office, elected officials, governmental agencies, businesses/facilities regulated by the DNR, and citizens of Michigan. It is also used to log, assign, and track requests received from members of the United States and Michigan Legislatures. Users of this system are DNR Executive Division staff, select individuals in each of the DNR Divisions/Offices, and limited use by the DEQ-- approximately 30 individuals in total. This system is used on a daily basis and is crucial to daily operations. Hundreds of documents and telephone calls per year are tracked using this database, which was originally developed for the DNR in the mid-1990s, overhauled in 2002, modified when the DEQ and DNR were merged, and modified again when the two Departments were split. Data exists in the system back to 2002, with approximately 8,000 attached files in Portable Document Format (PDF) ranging from 2007 through 2012 for a total of 4 gigabytes of data. This legacy solution exists in a "sunset" technology making it costly and difficult to maintain and enhance. It is also at increasing risk of failure as technology changes and evolves. While this system generally meets the basic correspondence tracking needs of the DNR significant opportunities exist for improvement. The system does not have adequate workflow functionality, and much of the workflow surrounding correspondence tracking is a manual process which is labor intensive and inefficient. Other functionality such as due	Lucy Pline
186	The purpose of the Michigan Department of Natural Resources (DNR) TSale Replacement and VMS Completion Project is to replace the TSale legacy program, written in 1992, with VMS, and to streamline, improve and re-engineer our timber sale business and operational practices. The most profound effect of the TSale replacement by VMS will be the efficiencies gained. VMS will not only replace all the current functionality of T-Sale, but also will improve, upgrade and streamline our processes. Michigan's 4 million acres of world-class state forest land provide more than 800,000 cords per year of certified wood - a resource vital to the forest products industry. The forest products industry annually generates $14 billion and directly employs 26,000 people in Michigan. The State forest provides about 20% of the industrial timber supply. All State timber sale proposals and subsequent contracts go through the TSale computer program. Annually, we deal with about 2,000 timber sale contracts per year on the State forest as well as on State Game Areas and Parks & Recreation lands. Most counties with forested land have had a DNR timber sale contract. Within the State forest, about 650 timber sale contracts are issued each year. At any one time, there are approximately 1,300 open contracts worth about $80 million. On average, these contracts return $35 million per year to the State. There are approximately 250 logging contractors and many forest product mills that rely on State timber. In addition, there are thousands of forest users who benefit from the wildlife habitat created by the forest treatments. The current application (TSale) is a legacy application and each year there are new hurdles to overcome to keep the application running. It is also deficient in producing required reports, data analysis and data management.	Lou Ann Fedewa
187	Wildlife hunter surveys are individual web pages that need modified each hunting season by DTMB. Wildlife would like to setup and use the Lime Survey software to generate and provide these surveys to the public. The data would be integrated with existing data using a modified management system.	Chris Larson/Brian Frawley
188	This is the next in a series of projects to update and improve the mobile computing technology used by the DNR Law Enforcement Division officers. This phase will focus on replacing an outdated and difficult to support system for tracking the physical location of the LED officers as they perform their jobs across the whole state. A reliable locator system is an important safety system for the officers who often are working alone in remote locations. The Automated Resource Locator (ARL) product from Motorola will replace a system that is over 15 years old and difficult to support. Many officers can no longer use the old system because of equipment failures for which there are not working replacements. The LED will be following the lead of the Michigan State Police in the use of this product. The MSP is starting to deploy this solution to the troopers in the 4th quarter of FY13. The LED deployment to ~160 officers can start in the 2nd Quarter of FY14 and finish by the end of FY14. The work required is updating each LED officer's vehicle with GPS capabilities in the radio and installing a GPS antennae. Distribution of any vehicle resident ARL software will be	Michael Mulholland / Steve Burton

	C	D
189	One Time Funding Options: Purchase Android Tablets • Increase Post-Secondary Education opportunities for prisoners • Deliver Academic Curricula to prisoners working toward a GED • Assist prisoners with transition to the Community • Improve the ability to provide diversified curricula academically and vocationally Estimated one time COST: $1,000,000 Educational Software and Curriculum • Career Scope = $400,000 for 5 years	
190	Compliance with ADA and Department of Justive mandated implementation of software and distribution of devices to allow text messaging notification to hearing impaired prisoners and visitors within MDOC facilities of announcements over loud speakers.	Paul Knapp (DTMB - Infrastructure Services)
191	Implementation of automated pastage system within the prison facilities for postage metering.	Paul Knapp (DTMB- Infrastructure Services)
192	Replacement of existing electronic medical record system. Joint request for proposal for a shared solution for electronic medical record, referred to as EMBRS or EMR.	Atif Iqbal (DTMB)
193	Creation of a middleware dashboard which will encompass multiple eletronic monitoring technologies (RF, GPS, alcohol monitoring) for agents to process and monitor "alerts" of potential violations. Replaces legacy reporting methodology of faxing violations or requiring a person contact the agent for action. Proposed predecessor for the EM technology RFP.	Jeffrey LaBean (DTMB)
194	Expansion of the existing file tracking system utilized at MDOC's Central Office. This system will allow scanning and location of prisoner physical files at Central Records Computation Unit (CTCU) which maintains closed files.	Atif Iqbal (DTMB)
195	This EASA is related to SXR12-072 an exception request to implement this solution. The solution is a standard County-State LGnet solution giving MDOC Probation and Parole staff access to the Muskegon County's Records Management System (RMS). The RMS system provides full access to police reports, incident searches, alerts, gang info, court info, and jail booking/bonds/charges.	Kimberly Koppsch-Woods (DTMB) / Jason Carlson (MDOC)
196	Upgrade Microsoft products to Office 2010 version across the MDOC.	C.J. Willoughby (DTMB)
197	Provide an interface between the Offender Management Network Information system (OMNI) and the risk and needs assessment system - COMPAS (Correctional Offender Management Profiling for Alternative Sanctions). The interface will allow prisoner programming prioritization (e.g. sex offender treatment, substance abuse treatment, education) so that the offenders have completed their critical programming prior to their Earliest Release Date (ERD). This project is aimed at preparing offenders for re-entry into the community with the programming identified to reduce the risk of recidivism.	Jeffrey LaBean (DTMB)
198	Rewrite of the Personnel Action Tracking System (PATS) functionality into the Litigation Tracking System (LTS) so the investigation is tied directly to the discipline imposed.	David Enslin (DTMB)
199	Provide a VPN connection between MDOC workstations and the vendor's Prepaid Calling Service (PCS) server so MDOC employees can monitor prisoner telephone calls and copy recorded calls for investigative purposes.	Kimberly Koppsch-Woods (DTMB) / Sheila WIlson (MDOC)
200	Implement an electronic records management system (RMS) to store documents necessary for the prisoners. The documents would be accessible over the WAN to approved users and connected to the offender management system.	David Enslin (DTMB)
201	MDOC received grant funding supported by the Michigan Public Health Institute (MPHI) to install fiber connections to support health care needs within correctional facilities in rural areas. The fiber connectivity is aimed to support remote activities such as telemedicine. Specialists will be able to connect to the facility and conduct a patient encounter remotely.	Steve McMahon (DTMB)
202	Provide an educational network in the MDOC schools which will be used to present course study applications and information as well as Electronic Law Library and GED testing programs. This network solution is to provide for centralized resources to provide educational course study as well as connection to a vendor supported Electronic Law Library and avenue to report GED testing back to a Federal Government mandated delivery point. We will be using Citrix servers and thin client terminals throughout the network for delivery of all materials. There will only be PCs or Laptops used on this network with the strictest of controls and an exception process used to allow their use.	Sheryl Groves (DTMB) / Paul Knapp (MDOC)

203	MDOC purchased Tasers and Tasers with Cameras for use in the prisons. There is a software component that must be installed on user workstations for downloading and viewing evidence from the devices. Videos from the camera device will be stored on SharePoint. Tasers and Tasers with Cameras have already been purchased by MDOC. They must install the device software provided by the vendor in order to view evidence gathered during use.	Kim Koppsch-Woods (DTMB) / Sheila Wilson (MDOC)
204	This project will move MDOC's UltraFile application from an end of life remote server (CORRGVPAS01) to existing servers in the hosting centers (HCT472COMPPD001 and HCS472TIMEPW901). UltraFile is an application that allows the MDOC's Central Records Office to track physical prisoner files within Grandview Plaza (GVP). Files are barcoded and scanned into the system using handheld RF scanners. The remote server currently hosts the polling software, a SQL Server 2000 database and a website frontend for administration and running reports. The server is currently located in the basement of GVP. This project will upgrade the database from SQL Server 2000 to 2005 and move it to an existing SQL Server DB server. The website will move to an existing web server in zone 2. Both existing servers currently host the vendor's Ultra Time system. An existing M1 PC will host the polling software. The vendor has successfully tested scanning of files between the polling software and a test instance of SQL Server in the hosting center. Server holds data on the physical location of offender files. No personal information is recorded.	Kimberly Koppsch-Woods (DTMB) / Sherry Kutt (MDOC)
205	All MDOC Sybase databases are on an end of life E25K Sun Solaris server shared with LARA and Agriculture. This project is to move all Sybase instances to the new M9000 Sun Solaris server already purchased and being stood up by LARA.	Kimberly Koppsch-Woods (DTMB) / Sheila Wilson (MDOC)
206	Refreshing the video surveillance infrastructure within the DOC correctional facilities. DOC has modified business processes to reduce or remove correctional facility perimeter patrols and intends to rely on new video surveillance systems to monitor perimeter activities. Additionally, the DOC intends to refresh and standarize the video surveillance equipment within the facilities.	Jason Nairns
207	This server hosts the HVAC controls for the MDOC's Women's Huron Valley Correction Facility (WHV) site. The current server (HVC472HVACPA001) is onsite and experiencing hardware failures. The new server will be a VM hosted in the LSHC hosting center. Bass Software controls HVAC system throughout the WHV site. MDOC will administer the application controls via remote console connection. Application also has a web interface hosted on the same server.	Kimberly Koppsch-Woods (DTMB) / Steve Olson (MDOC)
208	This "project" functions at a program level for multiple legacy modernization projects. Deliverables include: - Documented application portfolio management process and evaluation model - Execution of initial rationalization and business cases for replacement/migration candidates	Virginia Hambric
209	This "project" functions at a program level for multiple agency projects that will receive a portion of the $47M allocated to DTMB. Deliverables include: - Business case for increased funding (complete) - Short-, medium-, and long-term investment plan - Business metrics for ongoing investment performance measurements	Virginia Hambric
210	Objectives include: - Elevate importance and enforce Enterprise Architecture as an essential function for customer satisfaction and managing TCO. - Increase the EA scope to include coverage of data/information, integration, solution and business architecture. - Align the EA program to a standard industry EA methodology or EA framework. Deliverables include: - EA future state roadmap	Virginia Hambric

215	DOC - Department of Corrections	DOCE – ICT – B7 Create Pooled Resources
216	DOC - Department of Corrections	DOCE – ICT – B8 Enhance Responsibilities and Capabilities of ePMO

	C	D
211	This "project" functions at a program level for multiple cost-saving and value-add opportunities. Examples include: - Conduct analyses to capitalize on investment decisions that will lower costs or provide added value to the State - Conduct feasibility study for citizen-centric portal for all State agency public data - Further investigate data center sourcing options for best value - Conduct call center analysis to ascertain optimization, consolidation and other cost-saving opportunities - Perform network/broadband growth study to determine if future requirements require additional investment.	Virginia Hambric
212	Objectives include: - Identify resource and skills gaps in the service management organizational model and close those gaps by: - Training existing staff resources - Attracting new staff resources - Attract and retain staff by better defining the job titles and career paths for ICT resources	Virginia Hambric
213	Objectives include: - Clearly define the roles and responsibilities within DTMB's customer relationship model - Establish a role that allows DTMB to understand the business needs of its customers Deliverables include: - RACI model that defines customer relationship management roles and responsibilties - Revised organization chart that describes new customer relationship management model	Virginia Hambric
214	Objectives include: - Clearly define the roles and responsibilities wthin DTMB's service management model - this includes the Service Portfolio Manager and Service Managers - Define Operating Level Agreements (OLA) between service management and other areas of the DTMB-IT organization Deliverables include: - RACI model that defines service management roles and responsibilities - Revised organization chart that describes the new service management model	Virginia Hambric
215	Objective of this project is to better leverage the skill sets of DTMB employees across the State. Deliverables include: - RACI model that defines the new pooled resources - Revised organization chart that describes the new pooled resources - Transition plan to pooled resources	Virginia Hambric
216	Objectives include: -Enable the ePMO to lead the prioritization of projects across the enterprise and to efficiently allocate State staff resources - Ensure consistent application of project management processes across all projects. Deliverables include: - RACI model that defines ePMO roles and responsibilities - Revised organization chart that show the ePMO reporting to the Solutions Portfolio Manager	Virginia Hambric

	A	B
217	DOC - Department of Corrections	DOCE – ICT – B9 Establish CTO Organization
218	DOC - Department of Corrections	DOCE – ICT – C11 Enhance Current Client Relationships
219	DOC - Department of Corrections	DOCE – ICT – C12 Explore New Customer Partnerships
220	DOC - Department of Corrections	DOCE – ICT – C13 Address Unfulfilled Customer Requirements

	C	D
217	Objectives include: -Clearly define the roles and responsibilities of the CTO -Evaluate the importance of enterprise architecture (EA) -Formalize processes to transition innovative solutions into the enterprise service catalog Deliverables include: - RACI model that defines CTO and EA roles and responsibilities - Revised organization chart that shows EA reporting to the CTO (complete)	Virginia Hambric
218	Objectives include: - Position General Managers as the strategic partners of DTMB customers - Develop IT strategic plans for customers that align with IT direction of the State - Measure customer satisfaction and maintain high satisfaction levels Deliverables include: - IT strategic plans for all customers	Virginia Hambric
219	Objectives include: - Develop a strategy and processes for marketing services and solutions to potential partners - Develop partnerships where local governments and State, federal and commercial organizations use DTMB services because services are high-quality and price-competitive Deliverables include: - Formal DTMB service and solution marketing strategy - Market asssessment of potential DTMB partners that documents potential partner business needs and a market pricing anlaysis for possible shared solutions - Signed partnership agreements with new partners	Virginia Hambric
220	Objectives include: - Develop a strategy and processes for marketing and solutions to potential partners Deliverables include: - Service offerings in the service catalog for mobile and BI solutions	Virginia Hambric

	A	B
221	DOC - Department of Corrections	DOCE – ICT – D14 Implement Procurement Fundamentals
222	DOC - Department of Corrections	DOCE – ICT – D15 Develop Vendor Management Discipline
223	DOC - Department of Corrections	DOCE – ICT – D16 Prepare and Plan for the Procurement of an eProcurement

	C	D
221	Objectives include: - Align procurement function with best practices and adapt processes and procedures - Create a future operationg model for Procurement and standardize all procurement processes - Identify procurement documents that can be standardized to improve efficiency and effectiveness of the procurement process - Delegate agency-specific, requirements-driven procurements to agency purchasing staff and/or GMs to allow DTMB procurement staff to focus on more strategic procurement efforts Deliverables include: - Documented procurement future operating model - Documentation for re-engineered business processes - Procurement manual(s) - Standardized procurement templates - Procurement training charter and plan	Vic Mankowski
222	Objectives include: - Establish vendor management function and grow project oversight capabilities to reduce rist and costs - Develop standard contract management tools and processes - Identify and assign Legal Counsel for vendor management support Deliverables include: - Vendor management charter, organization model and staffing plan - Contract management tracking tool - Contract portfolio scorecard - Renegotiation target matrix	Vic Mankowski
223	Objectives include: - Perform preparatory work; procure and implement an automated eProcurement system that meets the State's minimum requirements - Research and establish a future state revenue model to assist in supporting the procurement functions, including both appropriate staffing and deployment of the eProcurement system Deliverables include: - eProcurement business case (complete) - Documented revenue strategy/funding model	Vic Mankowski

	A	B
224	DOC - Department of Corrections	DOCE – ICT – E17 Institute ICT Investment Management
225	DOC - Department of Corrections	DOCE – ICT – E18 Improve Project Portfolio Management
226	DOC - Department of Corrections	DOCE – ICT – E19 Enhance Project Management
227	DOC - Department of Corrections	DOCE – ICT – F20 Define Enterprise Service Catalog

	C	D
224	Objectives include: - Establish a process for reviewing and approving funding requests for new and ongoing ICT projects. - Have ICT projects become individual line-items inthe DTMB budget Deliverables include: - RACI for investment review processes	Virginia Hambric
225	Objectives include: - Improve the call for projects process so that DTMB can allocate resource against a defined list of priorities - Allow customers to communicate the importance of their projects during the prioritization process Deliverables include: - RACI for ICT project prioritization across the enterprise - Implementation of the Project Portfolio Management (PPM) tool (recommendation on approach is approved)	Virginia Hambric
226	Objectives: - Manage ICT projects against defined scope, schedule and budget - Appropriately manage client change requests to project scope, schedule or budget - Facilitate communication between customers and DTMB on ICT project status Deliverables include: - Documented project management standards and templates	Virginia Hambric
227	Objectives include: - Normalize different services and provide end user with single service catalog with end-user-oriented services. - Provide standard service definitions and performance criteria in the enterprise service catalog - Develop a rate card that articulates the price for services and is transparent about what is included in the rate. - Accomodate tiered-pricing of services as required Deliverables include: - Enterprise Service Catalog	Virginia Hambric

	A	B
228	DOC - Department of Corrections	DOCE – ICT – F21 Define and Implement Sourcing Strategy
229	DOC - Department of Corrections	DOCE – ICT – G22 Increase I/O Maturity and Automation
230	DOC - Department of Corrections	DOCE – ICT – G23 Enhance Security Discipline
231	DOC - Department of Corrections	DOCE – IS – DCO – Great Lakes Information Technology Center
232	DOC - Department of Corrections	DOCE – IS – DCO – TBHC Risk Reduction

	C	D
228	Objectives include: - Determine which services DTMB should deliver internally and which services it should outsource - Contract services that should be outsourced - Develop a process to periodically review the sourcing business case for each service Deliverables include: - Sourcing strategy document - Business case for each service to determine immediate sourcing decisions and model for future decisions	VIrginia Hambric
229	Objectives include: - Improve ICT operations through automation of manual processes within Infrastructure that focus on customer-facing processes around incident, problem management, provisioning, etc. - Capitalize on usage of tools such as run book automation, provisioning, event management, status monitoring, performance monitoring and alerting - Improve ICT process maturity by implementing a comprehensive ITSM road map across the ICT towers for foundational ITIL processes such as incident, change, and asset management - Map out and automate interfaces, handoffs and trigger points between core processes; integrate (or adopt single) configuration management databse (CMDB) across the core ICT towers Deliverables include: - Business case for tool acquisitions - Implementation of ICT operations tools - ITSM road map and updated documentation	Virginia Hambric
230	Objectives include: - Build on current strengths and continue to adapt to new threats - Conduct a comprehensive security audit and risk assessment, and implement corrective measures - Consolidate all security monitoring operations into one organization and stand up a true 24/7 SOC function with proactive monitoring skills - Set up a process to perform vulnerability scanning and compliance across all areas of ICT infrastructure to include servers, network devices, desktops and mobile platforms; improve vulnerability management by patching desktops to application level Deliverables include: - Completed security audit/risk assessment - Implementation plan for 24/7 SOC operations - Establishment of 24/7 SOC operations	Virginia Hambric
231	Addresses audit findings. Replacement of the existing aging facility. Direction on the GL-ITC will provide answers on the future of the three existing facilities.	Dick Novello
232	TBHC is over subscribed for electrical, cooling and backup capacity. This project will work with the General Managers to determine candidates for virtualization or migration and complete the migration to lower TBHC resource requirements.	Bob Weldon

233	Federal mandate to migrate MPSCS radio system to narrow band frequencies. Vendor managed and funded, fixed cost project. MPSCS is refunded for hours applied to this project.	Gerald Leach
234	Microsoft Office 2003 is the current State standard. The State's Microsoft Enterprise Agreement provides the software licenses to upgrade the State's desktops to Office 2010.	Jon Seeger
235	1) Upgrading Communictaion Manager on the Avaya swtiches.SOM is 3 versions behind, "best effort" support only, and does not provide the funcationality required for current and on-going technologies. 2) Implement Dial Plan which will allow the merging on the switches without telephone number issues. 3) Merging from Saginaw, Detroit and Grand Rapids swichted into the Captial and Secondary switches	Kristen Furseth
236	Project to migrate storage array from outdated DMX-4 Technology to new VMAX to modernize and update the storage infrastructure. Replaces aging infrastructure, provides more functionality and services, with less complex administration, and maintain or lower service rates.	Rick Hoffman
237	Implement new Host On Demand 3270 Emulation Software with Encryption	Linda Dunn
238	Required to remediate findings found in the 2009 OAG Report and establish the IT control requirements, some of which were incorporated into the new MAIN Hosting contract effective 1/2012.	Dave Gabler
239	Enhance the Time and Expense (MiTES) web application by including rule based functionality and improved accessibility.	Lisa Schroeder
240	Enhancement of current time and attendance/labor distribution system (DCDS). The system will leverage the existing DCDS system as an enhancement using current and available technologies.	Lisa Schroeder
241	Break the tie bar between time and distributions (allow for distinct processing between time entry and labor distribution), and provide reporting and automation for equipment.	Lisa Schroeder
242	Convert Business Objects Desktop Intelligence reports to Business Objects Web Intelligence reports. After this migration, this will allow the next version of Business Objects to be installed and pushed. Last year this project was called: Business Objects Web Intelligenc converserion (Complete with original typos)	Neil Miros
243	Convert Business Objects from BOE XI 3.1 SP3/SP4 to either Business Objects from BOE XI 3.1 SP5 or Business Objects from BOE XI 4 .x	Neil Miros
244	Convert Business Objects Xcelsius dashboard to newer version with additional functionality.	Neil Miros
245	Convert exisiting office written and supported application that extracts all data to MIDB to use standard ETL tool.	Neil. Miros
246	As part of the new e-Procurement RFP, there are requirements for real time data exchanges between MAIN and the new e-Procurement system. Additionally, the vendor file registry contained within MAIN will be the record source for e-Procurement and will therefore send updates to the new e-Procurement system. A data conversion for all ADPICS data within MAIN is also a requirement of the e-Procurement RFP. Please note: Financial projections through FY 2023 are on template candidate in Sharepoint. Changepoint data entry limit is FY 2017	Vic Mankowski
247	This project entails replacement of Michigan Administrative Information Network Financial Administration and Control System (MAIN FACS). MAIN FACS consists of a suite of applications, which are Relational Standard Accounting and Reporting System (R*STARS) mainframe application, Report Management and Distribution System (RMDS) mainframe application, Contract & Payment Express (C&PE) web application, and Electronic Transaction Processing (ETP) web application.	Sharmila Patke
248	MDOC has their critical, red card applications using MS SQL database software. This project it to migrate to the current supported version.	Darlene Smith
249	MDOC has their critical, red card applications using MS SQL database software. This project it to migrate to the current supported version.	Darlene Smith
250	MDOC has their critical, red card applications using MS SQL database software. This project it to migrate to the current supported version.	Darlene Smith
251	Replace MS SQL server end of life Development, QA and Production server environments	Darlene Smith
252	This is to test and migrate to currently supported versions of server operating system software in the Development, QA & Production environments	Darlene Smith
253	Replace end of life Development, QA and Production server hardware environments	Darlene Smith
254	Updgrade development tools to current technology	Darlene Smith
255	Updgrade development tools to current technology	Darlene Smith
256	Upgrade desktop environment to current operating system, office suite and web browser software	Darlene Smith

	C	D
287	Selection and installation of COTS Case Management software for the Traffic Safety Division (replace the 25 yr. old DAAD Informix system) and rewrite of the MS Access database used by the Bureau of Information Security.	Tom Cantrell
288	Vendor services to provide cash dropboxes (safes), armored car pickup/deposit of cash, and check scanning/instant ACH processing.	Tom Cantrell
289	Enhancements to the CDL self & medical certification web app to enable requesters to view/validate their information online in order to reduce the number of phone calls/inquiries received by the department.	Tim Triscari
290	MDOS is seeking vendor services to provide a Commercial Off The Shelf (COTS) customer flow management solution to improve customer service, create a better working and waiting environment, reduce real and perceived wait times, and improve workflow at the Branch offices.	Tom Cantrell
291	Conversion of FTP file transfers with external partners to utilize the Data Exchange Gateway (DEG). This would include, but not limited to items such as: NDR CleanFile with AAMVA National Driver Registry (NDR) Several BAM FTPs	Chuck Reck / Linda Clarke
292	Reengineer the dealer plate issuance process in order to automate manual steps so that it is more efficient in terms of cost, resources, and time.	Chuck Reck
293	Implementation of a cost-effective, enterprise solution that will electronically capture, index, and store MDOS images for: - Bureau of Driver & Vehicle Programs and Licensing & Regulation Division (SR 2013-0035) - Enterprise Solution - UCC FileNet	Dan Klodt
294	Create a mobile version of ExpressSOS to enable citizen access via the MiPage portal.	Tom Cantrell
295	Fraud Prevention - strategic goal to radically improve the way fraud is handled by going to a proactive approach. Insurance Fraud Prevention - reduce fraud during vehicle registration renewals by verifying paper insurance certificates.	Tom Cantrell
296	Identify and plan for interfaces to the new ERP system to exchange MDOS Revenue data.	Chuck Reck
297	The database servers for QVF are end of life and need to be updated. The Primary Oracle database for QVF needs to be updated from 10g to 11g and install the Oracle Security Suite tools. The 473 replicas need to be updated from 10g to 11g and converted from XP to Windows 7.	Dan Klodt
298	Enhancements to enable customers renewing a Drivers License/ID Card via Renewal By Mail to add their name to MI Organ Donor registry.	Brenda Feldpausch
299	This project is a placeholder for all FY14 PCI Compliance activities. Credit card data is collected for several MDOS applications (BAM Web, BOS, UCC Online, Web Renew, ARS/RLU, SSTs, Renew By Mail, Online Business Licensing). MDOS needs to ensure that all applications that accept credit cards meet the current PCI standards.	Tom Cantrell
300	Add a credit card processing fee to the Renewal By Mail system. MDOS currently pays over $4 million/year in credit card fees. This will allow MDOS to re-coup some of those costs.	Dan Klodt
301	This project is a place holder in the event the MI Legislature passes legislation that would increase registration fees for passenger vehicles in Michigan in order to increase road funding.	Mitch Montgomery
302	Upgrade to the newest version of the Serena Suite and partner with MDOT in hosting and shared services. Suuport ends for the current version of Serena in use at MDOS on 9/30/13.	Mike Ouendag
303	Purchase and installation of 10 Self Service Terminal (SST) devices that accept cash payments.	Brenda Feldpausch
304	Enhancements to the Mainframe Order of Action system to make creation/editing more efficient and less time consuming for Traffic Safety Division staff.	Jody Andrades
305	This project includes the migration of several applications to Virtual Servers to refresh antiquated hardware. - Web (SR 2008-0056) - LRSA Business Licenses (SR 2009-0044) - UCC (SR 2008-0052)	
306	MDOS has re-bid the contract for vendor services for Campaign Finance Reporting and is renewing the current vendor (NIC) contract.	Dan Klodt

307	Following implementation of the BAM project, approximately 50% of today's functionality will still exist on the Unisys Mainframe platform. This project's objective is to move all remaining functions off of the Mainframe into a modernized platform and/or the BAM system. The largest/complex modules are the Driver Activity and Revenue systems. Additionally, there are many smaller functions, such as List Sales, Subscriptions, Group1/Street Index (address standardization), COMS/GEMCOS, Workflow Language, etc.	Dan Klodt / Hau Huynh
308	Re-write the internal Uniform Commercial Code (UCC) application and document scanning solution used by MDOS to handle documents related to Public Notice of Financial Filings.	Dan Klodt
309	The current Unisys CS690 hardware will reach end-of-life and need to be replaced.	
310	Establish an interface to the American Association of Motor Vehicle Administrator's (AAMVA) Commercial Skills Testing Information Management System (CSTIMS) to exchange CDL test results data.	Tim Triscari
311	Enhancements to the Mainframe Driver system: Sobriety Court Cleanup (SR 2013-0039) - processing of Sobriety Court restricted licenses. HBAC Program Changes (SR 2013-0031) - processing of High Blood Alcohol restrictions.	Jody Andrades
312	Creation of State of Michigan Health Insurance Exchange portal, as required by the Federal Government.	
313	There are currently 3 distinct instances of the Tidal scheduling solution in use by the SoM today. (MDOS, Treasury and DTMB-DMB) In addition, these separate instances are operating on a version that will be unsupported within 18 months. The intent is to migrate, upgrade and consolidate these instances and include DCO's Enterprise Data Warehouse environment into a single enterprise instance.	Jonay Morehouse
314	Deploy IE-10 to all SOM Clients	Jason Frost
315	Deploy Office 2013 to all SOM clients	Jason Frost
316	Server replacement for EOL systems deployed to sites outside of Lansing area.	Jason Frost
317	Establish a Process Management Service to perform Business Process Redesign and Validation for Client Agencies prior to launching IT projects to solve business problems.	Scott Thompson
318	Replace database,web and application physical servers at end of life with virtual servers.	David Borzenski
319	Replacement software for Printing Services Logic Print Management software. Logic has reached its end of life and will only be supported at its current state. A replacement software will allow connection between PS' digital equipment and the software, as well as additional integration with DSF.	Anne Brys
320	Effort to use the latest technologies for Clarety sustainability.	Mike Bilek
321		
322	This tool will allow for delivery services to better schedule freight and delivery runs to maximize the use of equipment and staff and reduce expenses associated with non-profitable runs.	Kristi Thompson

324	This includes - Multiple departments in search - Multiple agencies in search (agency search is new) - Sort in code maintenance sections - Add bargaining unit to search results/make sortable - Additional filter on search (search within search) - Multiple grievants in search - Export 'log' of all arbitrations to excel/printable format - Export search results to excel/printable format (for all users) - Sign off process o Add column or indicator so MA users can see what needs sign off o Send email to review/sign off individual - List of latest # TBD arbitrations - List of arbitrations that need sign off - Full list of arbitrations	Teresa Mears
325	Replacement software for Printing Services Logic Print Management software. Logic has reached its end of life and will only be supported at its current state. A replacement software will allow connection between PS' digital equipment and the software, as well as additional integration with DSF.	Anne Brys
326		Dave Ancell
327	The purpose of this RFP is to obtain bids for a financial institution (bank) to serve as Originating Depository Financial Institution (ODFI) for both the State's ACH payments and certain ACH revenue programs. There are five types of ACH payments and two ACH Revenue Programs; ACH payments include Vendor, Income Tax Refunds, Payroll, and Retirement, and Department of Human Services.	Christopher Mitchell
328	The Design and Construction Division (DCD) of the Department of Technology, Management and Budget has a business need to manage information associated with State of Michigan capital outlay projects, including major and minor projects, and with miscellaneous operating projects. This information is utilized for reporting to DCD management and for tracking project budgets, contracts, contract change orders and contract payments. The information also generates documents required to demonstrate compliance with statutes, codes, standards and budgets in accordance with the records retention schedule. This project will include business requirements, design, development and implementation, software and hardware, training, and maintenance & support. The DTMB-MB Design and Construction team has requested the current Project Information Mangement System (PIMS) be replaced with a product developed in DNR called ENGPROJ. The project includes data migration. Selected functions from the PIMS application will be added to the ENGPROJ application. Citrix will provide remote access	Anne Brys
329	Three to Five year project to "restack" offices and cubicles in Constitution Hall and the Mason building. The Mason building will require extensive work including a full renovation and new wiring. The project is led by the Facilities & Business Services Administration. The restacking of Constitution Hall will consume FY13. Mason requires much more work and time. Con Hall currently has approximately 1000 occupied workstations, 1475 total workstations and will gain 700 to 900 more.	Steve Urban
330	Provide a tool for DTMB to manage the State's software license inventory to include: 1. License procurement data collection / record utilization 2. Software installation data collection 3. Integration of procurement data vs. installation data 4. Reporting 5. Inventory Assignment/Procurement (tracking movement and transfer of licenses) 6. Software audit policy & procedure 7. Common software desk reference to provide information on SOM purchased and developed software.	Kristen Furseth
331	Expand and upgrade our 24x7 monitoring of networks and cyber infrastructure	Dan Lohrmann

335	Multiple state agencies are interested in the development of a document management solution. DTMB has an enterprise FileNet and all capture capability. We currently lack a process for engaging our enterprise team in requirements gathering, a standard rate for operational support, defined service catalog, and operational support team. This project will develop a process map and operational readiness capability that can be published in rate catalog.	Mary Caruso
336	The Enterprise Security Project is to protect the State's data accomplished by encryption of data at rest and in flight and database auditing to be implemented.	Tess Layman
337	Purpose As identified in State of Michigan technical standard 1340.00.07 Electronic Data Encryption. http://inside.michigan.gov/dtmb/wr/psp/Documents/1340.00.07%20%20Electronic%20Data%20Encryption.pdf; the purpose of this program is to identify and implement Database Security Best practices for all State of Michigan Databases that store personal identifiable information (PII) and / or Federal Tax Information (FTI) as defined in IRS Pub 1075 http://www.irs.gov/pub/irs-pdf/p1075.pdf. High Level Program Description The Enterprise Security Program will establish a robust and reliable database security methodology and practice which meets the current and future needs of all SOM agency databases, to be in alignment with COBIT/NIST guidelines and complying with the appropriately applicable requirements of HIPAA HITECH, PCI-DSS, IRS, CJIS, and local laws for protection of personal identification information stored within SOM databases. Measurable Program Objectives The overall program objective is to achieve complete DB security for all participating agencies no later than 10/31/2015. DB encryption has been addressed under an earlier project	Michele Schilling
338	The project will involve the ability to electronically submit key metrics that will roll up to higher level of metrics and allow drill down capability into the detail level metrics. The vision involves allowing approximately 48,900 Employee Scorecards into as many as 3,585 Programs up into as many as 463 Divisions, then roll up to as many as 136 Bureaus, then to 16 Departments, 6 Executive Groups and then finally up to 1 SOM Scorecard and Dashboard.	IO: Scott Thompson, PM: Lori Pelleran
339	Upgrade all OA managed servers to Windows 2008 or higher.	Jason Frost
340	Multiple state agencies are interested in the development of a document management solution. DTMB has an enterprise FileNet and all capture capability. We currently lack a process for engaging our enterprise team in requirements gathering, a standard rate for operational support, defined service catalog, and operational support team. This project will develop a process map and operational readiness capability that can be published in rate catalog.	Mary Caruso
341	Evaluate Windows 8 Tablet & Ultrabook convertible devices for use by mobile and field workers at the State.	Tiziana Galiazzi
342	DTMB is developing a comprehensive mobility strategy, which will include a framework and roadmap for mobility. The strategy will incorporate mobility life cycle while focusing on government employee needs, citizen access and engagement, local government and business to business outreach.	Tiziana Galeazzi
343	The objective is to obtain timely Changepoint support from Compuware to support the rollout of Changepoint functionality to the Network & Telecommunications Services Division (NTSD). This will enable NTS to implement the State of Michigan Enterprise project management functionality in Changepoint, including resource management, schedule management, time tracking, issue/change/risk management, and budget/cost management.	Linda Hunt
344	TBHC is over subscribed for electrical, cooling and backup capacity. This project will work with the General Managers to determine candidates for virtualization or migration and complete the migration to lower TBHC resource requirements.	Bob Weldon
345	Microsoft Office XP version (version 2002) has been the State standard for the past 8 years. Office XP is at end-of-life and targeted to have support discontinued. The State's Microsoft Enterprise Agreement provides the software licenses to upgrade the State's desktops to the current version of MS Office. The migration to Office 2003 will in the short term mitigate support issues, security issues and provide enhanced features for Outlook 2003 (included with Office 2003) fior users migrating to Exchange. The long term strategy is to upgrade to Office 2007, which will require the conversion of 6500+ forms/templates, end user training due to the change in user interface, and in-depth integration testing with applications that interface to the Office product set.	Judy Odett
346	Upgrade of the CSC phone system to add integration to the Remedy system for incoming calls.	Dan Conlin
347	The trouble ticketing and change request system used by DTMB is out of support and past end of life. As part of our support contract we own the current supported version of the product. The current version of the product also includes asset management, knowledge base, and CMDB. The upgrade will allow us to retire two legacy systems and add ITIL recommended knowledge base capability.	Judy Odett

350	Improve the accuracy and completeness of information in its UNIX server inventory located in the CMDB.	Darlene Dawley
351	Unix LDAP authentication	Girish Salpekar
352	In order to provide a scalable and interoperable, best in class collaboration resource to the State of Michigan, upgrades will be required to the existing communications infrastructure. The current implementation of Cisco's Communications Manager (CUCM) is at End of Life and will no longer have further patches or bug fixes developed. Furthermore, the ongoing necessities of supplementary support for call processing, routing, end user features, and third party integrations, demand an expanded feature set and stability	Lisa Moye
353	This project will consist of multiple phases and work streams to implement the Critical and High priority recommendations from the Cisco CASA Network Assessment Detail Report. DTMB staff working with external contractors will plan, architect, design, configure, implement, test and document the solutions and sub-projects required.	David Bates
354	DTMB Infrastructure and Operations' Network and Telecommunications Services (NTS) will upgrade the DMZ and Internet infrastructure to provide for the expanding access needs and add additional connections to the Internet for access	
355	Telecommunications staff will migrate from current WiSM 1 with WiSM 2 controllers along with 4400 series anchor controllers with new 5500 series, and upgrade IOS code to version 7.2.	
356	Establish a Database as a Service for LARA based applications. This project will move, over time, all of LARA Oracle databases from the current physical servers to the internal database cloud. The Oracle M9000s will reach capacity, so new systems will move to the cloud as it becomes available. As the M9000s reach end of life, the current systems will be move to the cloud. 2014: Establish Strategic Direction. Conduct Feasibility and Collaboration study with the Oracle cloud service center. 2015: Begin using the Oracle cloud for new systems in order to lessen the impact to the current Oracle M9000s. 2017 - 2020: Move current systems to the Oracle cloud	Steve Wensko
357	This project wil establish enterprise reporting and document managemet as a service for LARA. Included MAY be a data warehouse or "Big Memory" solution. It will also allow for transparent access to back end document management solutions. 2015: Strategic Planning and Feasibility. Requirements, Design and Construction 2016: QA, Testing, Modification, Implementation	Steve Wensko
358	replace the legacy L2K systems	
359	Siebel is a robust Customer Relationship Management confugrable COTS package that can be used at the basis for enterprise licensing and enforcement systems within LARA. Currently, there are several projects in progress and several more planned. This project will collaborate and consolidate the platform, development and support of on-going Siebel opportunities.	Celeste Sickles, Pat Willet and Steve Wensko
360	Case Management systems are used by a variety of program areas with LARA. This project will consolidate development and support for all current and future modernizations efforts	Celeste Sickles, Pat Willet and Steve Wensko
361	Modernize the Corporations system 2014: Conduct requirements verification and project readiness 2015: Design and Build new Corps system	Celeste Sickles, Pat Willet and Steve Wensko
362	replace the legacy C3 system	Celeste Sickles, Pat Willet and Steve Wensko
363	Full Maintenance, Operations and Enhancements of all LARA Business systems	Celeste Sickles, Pat Willet and Steve Wensko
364	This project is to replace the legacy Oracle Forms application currently in use by the Bureau of Employment Relations with a modernized system using Siebel.	Ruth Anne Okun
365	The purpose of this project is to convert existing FileMaker Pro applications to web-based .NET applications.	Leslie Christy (LARA-Finance)
366	Plan, procure and implement a replacement for the Bureau of Fire Services Legacy systems. This will include o Permitting for regulated facilities o Underground storage o Fireworks permitting (currently in L2k) o Firefighters Training

	C	D
367	Define scope and develop content for a SOW to replace existing legacy system supporting Bureau of Fire Services Fireworks Permitting using a two-phased approach.	
368	LARA - Bureau of Fires Services is considering implementing a COTS solution for their Plan Review processes.	Richard Miller (BFS), Randy Lankford (BFS) / Toby Pittman (DTMB)
369	Replace aging FAIS system	
370	LARA Bureau of Health Systems is considering a Request For Proposal for upgrading the Radiation Safety application to a web-based application.	Bruce Matkovich (BHS) / Anila Francis (DTMB)
371	develop disaster recovery plans for applications within LARA	
372	Extended project to handle data masking for test PII information	
373	Enterprise Electronic Plan Review and Permitting System - Allow the building industry to file plans electronically for Fire Services and Health Services along with Bureau of Construction Codes. Develop a web based system for submission and approval of plan reviews	
374	Replace Foxpro legacy systems with new, supported applications - this may be done via rewrite or COTS solutions.	
375	Replace Oracle forms applications with newer, supported technology. This project is needed as the older version of Oracle forms is becoming harder to support and utilize on the newer technologies.	
376	Incorporate a Quality Control Monitoring System to improve customer service and to document conversation for further follow up or evidence.	
377	Need to split the C3 processing for DIFS away from the rest of the LARA processing as part of the DIFS Transition	
378	LARA portion of the MAIN replacement project	
379	Formerly known as MiPage. Major components could be partially supported with enhanced Federal funds (90 / 10 match). These components can be utilized as enterprise solutions - identity management, Master client index. Other components would be funded 50/50.	Tom Weston
380	This "project" functions at a program level for multiple legacy modernization projects. Deliverables include: - Documented application portfolio management process and evaluation model - Execution of initial rationalization and business cases for replacement/migration candidates	Virginia Hambric
381	This "project" functions at a program level for multiple agency projects that will receive a portion of the $47M allocated to DTMB. Deliverables include: - Business case for increased funding (complete) - Short-, medium-, and long-term investment plan - Business metrics for ongoing investment performance measurements	Virginia Hambric
382	Objectives include: - Elevate importance and enforce Enterprise Architecture as an essential function for customer satisfaction and managing TCO. - Increase the EA scope to include coverage of data/information, integration, solution and business architecture. - Align the EA program to a standard industry EA methodology or EA framework. Deliverables include: - EA future state roadmap	Virginia Hambric

29	MDCR - Department of Civil Rights	MDCRE – ICT – B9 Establish CTO Organization
30	MDCR - Department of Civil Rights	MDCRE – ICT – C11 Enhance Current Client Relationships
31	MDCR - Department of Civil Rights	MDCRE – ICT – C12 Explore New Customer Partnerships
32	MDCR - Department of Civil Rights	MDCRE – ICT – C13 Address Unfulfilled Customer Requirements

	C	D
29	Objectives include: -Clearly define the roles and responsibilities of the CTO -Evaluate the importance of enterprise architecture (EA) -Formalize processes to transition innovative solutions into the enterprise service catalog Deliverables include: - RACI model that defines CTO and EA roles and responsibilities - Revised organization chart that shows EA reporting to the CTO (complete)	Virginia Hambric
30	Objectives include: - Position General Managers as the strategic partners of DTMB customers - Develop IT strategic plans for customers that align with IT direction of the State - Measure customer satisfaction and maintain high satisfaction levels Deliverables include: - IT strategic plans for all customers	Virginia Hambric
31	Objectives include: - Develop a strategy and processes for marketing services and solutions to potential partners - Develop partnerships where local governments and State, federal and commercial organizations use DTMB services because services are high-quality and price-competitive Deliverables include: - Formal DTMB service and solution marketing strategy - Market asssessment of potential DTMB partners that documents potential partner business needs and a market pricing anlaysis for possible shared solutions - Signed partnership agreements with new partners	Virginia Hambric
32	Objectives include: - Develop a strategy and processes for marketing and solutions to potential partners Deliverables include: - Service offerings in the service catalog for mobile and BI solutions	Virginia Hambric

	A	B
33	MDCR - Department of Civil Rights	MDCRE – ICT – D14 Implement Procurement Fundamentals
34	MDCR - Department of Civil Rights	MDCRE – ICT – D15 Develop Vendor Management Discipline
35	MDCR - Department of Civil Rights	MDCRE – ICT – D16 Prepare and Plan for the Procurement of an eProcurement

	C	D
33	Objectives include: - Align procurement function with best practices and adapt processes and procedures - Create a future operationg model for Procurement and standardize all procurement processes - Identify procurement documents that can be standardized to improve efficiency and effectiveness of the procurement process - Delegate agency-specific, requirements-driven procurements to agency purchasing staff and/or GMs to allow DTMB procurement staff to focus on more strategic procurement efforts Deliverables include: - Documented procurement future operating model - Documentation for re-engineered business processes - Procurement manual(s) - Standardized procurement templates - Procurement training charter and plan	Vic Mankowski
34	Objectives include: - Establish vendor management function and grow project oversight capabilities to reduce risk and costs - Develop standard contract management tools and processes - Identify and assign Legal Counsel for vendor management support Deliverables include: - Vendor management charter, organization model and staffing plan - Contract management tracking tool - Contract portfolio scorecard - Renegotiation target matrix	Vic Mankowski
35	Objectives include: - Perform preparatory work; procure and implement an automated eProcurement system that meets the State's minimum requirements - Research and establish a future state revenue model to assist in supporting the procurement functions, including both appropriate staffing and deployment of the eProcurement system Deliverables include: - eProcurement business case (complete) - Documented revenue strategy/funding model	Vic Mankowski

	A	B
36	MDCR - Department of Civil Rights	MDCRE – ICT – E17 Institute ICT Investment Management
37	MDCR - Department of Civil Rights	MDCRE – ICT – E18 Improve Project Portfolio Management
38	MDCR - Department of Civil Rights	MDCRE – ICT – E19 Enhance Project Management
39	MDCR - Department of Civil Rights	MDCRE – ICT – F20 Define Enterprise Service Catalog

	C	D
36	Objectives include: - Establish a process for reviewing and approving funding requests for new and ongoing ICT projects. - Have ICT projects become individual line-items inthe DTMB budget Deliverables include: - RACI for investment review processes	Virginia Hambric
37	Objectives include: - Improve the call for projects process so that DTMB can allocate resource against a defined list of priorities - Allow customers to communicate the importance of their projects during the prioritization process Deliverables include: - RACI for ICT project prioritization across the enterprise - Implementation of the Project Portfolio Management (PPM) tool (recommendation on approach is approved)	Virginia Hambric
38	Objectives: - Manage ICT projects against defined scope, schedule and budget - Appropriately manage client change requests to project scope, schedule or budget - Facilitate communication between customers and DTMB on ICT project status Deliverables include: - Documented project management standards and templates	Virginia Hambric
39	Objectives include: - Normalize different services and provide end user with single service catalog with end-user-oriented services. - Provide standard service definitions and performance criteria in the enterprise service catalog - Develop a rate card that articulates the price for services and is transparent about what is included in the rate. - Accomodate tiered-pricing of services as required Deliverables include: - Enterprise Service Catalog	Virginia Hambric

	A	B
383	LARA - Licensing and Regulatory Affairs	LARAE – ICT – A4 Explore Cost-Saving and Value-Add Opportunities
384	LARA - Licensing and Regulatory Affairs	LARAE – ICT – B10 Improve Capabilities to Retain and Attract Talented Resources
385	LARA - Licensing and Regulatory Affairs	LARAE – ICT – B5 Redefine Customer Relationship Model
386	LARA - Licensing and Regulatory Affairs	LARAE – ICT – B6 Establish Service Management Model
387	LARA - Licensing and Regulatory Affairs	LARAE – ICT – B7 Create Pooled Resources
388	LARA - Licensing and Regulatory Affairs	LARAE – ICT – B8 Enhance Responsibilities and Capabilities of ePMO

	C	D
383	This "project" functions at a program level for multiple cost-saving and value-add opportunities. Examples include: - Conduct analyses to capitalize on investment decisions that will lower costs or provide added value to the State - Conduct feasibility study for citizen-centric portal for all State agency public data - Further investigate data center sourcing options for best value - Conduct call center analysis to ascertain optimization, consolidation and other cost-saving opportunities - Perform network/broadband growth study to determine if future requirements require additional investment.	Virginia Hambric
384	Objectives include: - Identify resource and skills gaps in the service management organizational model and close those gaps by: - Training existing staff resources - Attracting new staff resources - Attract and retain staff by better defining the job titles and career paths for ICT resources	Virginia Hambric
385	Objectives include: - Clearly define the roles and responsibilities within DTMB's customer relationship model - Establish a role that allows DTMB to understand the business needs of its customers Deliverables include: - RACI model that defines customer relationship management roles and responsibilties - Revised organization chart that describes new customer relationship management model	Virginia Hambric
386	Objectives include: - Clearly define the roles and responsibilities wthin DTMB's service management model - this includes the Service Portfolio Manager and Service Managers - Define Operating Level Agreements (OLA) between service management and other areas of the DTMB-IT organization Deliverables include: - RACI model that defines service management roles and responsibilities - Revised organization chart that describes the new service management model	Virginia Hambric
387	Objective of this project is to better leverage the skill sets of DTMB employees across the State. Deliverables include: - RACI model that defines the new pooled resources - Revised organization chart that describes the new pooled resources - Transition plan to pooled resources	Virginia Hambric
388	Objectives include: -Enable the ePMO to lead the prioritization of projects across the enterprise and to efficiently allocate State staff resources - Ensure consistent application of project management processes across all projects. Deliverables include: - RACI model that defines ePMO roles and responsibilities - Revised organization chart that show the ePMO reporting to the Solutions Portfolio Manager	Virginia Hambric

	A	B

45	Microsoft Office 2003 is the current State standard. The State's Microsoft Enterprise Agreement provides the software licenses to upgrade the State's desktops to Office 2010.	Jon Seeger
46	1) Upgrading Communictaion Manager on the Avaya swtiches.SOM is 3 versions behind, "best effort" support only, and does not provide the funcationality required for current and on-going technologies. 2) Implement Dial Plan which will allow the merging on the switches without telephone number issues. 3) Merging from Saginaw, Detroit and Grand Rapids swichted into the Captial and Secondary switches	Kristen Furseth
47	Project to migrate storage array from outdated DMX-4 Technology to new VMAX to modernize and update the storage infrastructure. Replaces aging infrastructure, provides more functionality and services, with less complex administration, and maintain or lower service rates.	Rick Hoffman
48	Implement new Host On Demand 3270 Emulation Software with Encryption	Linda Dunn
49	Enhance the Time and Expense (MiTES) web application by including rule based functionality and improved accessibility.	Lisa Schroeder
50	Enhancement of current time and attendance/labor distribution system (DCDS). The system will leverage the existing DCDS system as an enhancement using current and available technologies.	Lisa Schroeder
51	Break the tie bar between time and distributions (allow for distinct processing between time entry and labor distribution), and provide reporting and automation for equipment.	Lisa Schroeder
52	Convert Business Objects Desktop Intelligence reports to Business Objects Web Intelligence reports. After this migration, this will allow the next version of Business Objects to be installed and pushed. Last year this project was called: Business Objects Web Intelligenc converserion (Complete with original typos)	Neil Miros
53	Convert Business Objects from BOE XI 3.1 SP3/SP4 to either Business Objects from BOE XI 3.1 SP5 or Business Objects from BOE XI 4 .x	Neil Miros
54	Convert Business Objects Xcelsius dashboard to newer version with additional functionality.	Neil Miros
55	Convert exisiting office written and supported application that extracts all data to MIDB to use standard ETL tool.	Neil. Miros
56	As part of the new e-Procurement RFP, there are requirements for real time data exchanges between MAIN and the new e-Procurement system. Additionally, the vendor file registry contained within MAIN will be the record source for e-Procurement and will therefore send updates to the new e-Procurement system. A data conversion for all ADPICS data within MAIN is also a requirement of the e-Procurement RFP. Please note: Financial projections through FY 2023 are on template candidate in Sharepoint. Changepoint data entry limit is FY 2017	Vic Mankowski
57	This project entails replacement of Michigan Administrative Information Network Financial Administration and Control System (MAIN FACS). MAIN FACS consists of a suite of applications, which are Relational Standard Accounting and Reporting System (R*STARS) mainframe application, Report Management and Distribution System (RMDS) mainframe application, Contract & Payment Express (C&PE) web application, and Electronic Transaction Processing (ETP) web application.	Sharmila Patke
58	Required to remediate findings found in the 2009 OAG Report and establish the IT control requirements, some of which were incorporated into the new MAIN Hosting contract effective 1/2012.	Dave Gabler
59	Project to refresh the software and hardware server infrastructure for the department's Contact Management System. This system is comprised of Oracle Sun database and application servers. Initial Estimates based on DTMB Server Support costs (4 servers @$1600/month) and Oracle Licenses and Maintenance costs ($80,000/year).	John Walker
60	FY14 CSB Request - This project involves the start-up strategy for the development of an Enterprise Information Management (EIM) environment . Initially, a readiness assessment will be conducted to determine where agencies stand in data maturity, followed by a data mapping excercise. Data governance will also be defined as a final aspect of the startup effort, with administration eventually rolling into the on-going EIM environment or program area. It is important to note that the future of the MiPage, Fraud, and ERP (Enterprise Resource Planning) projects rely on this effort moving forward in early 2014 in order to be successful. It is critical that the data governance is defined at the Agency level to ensure implementation at the Enterprise level	Virginia Hambric / Rob Surber
61	FY14 CSB Request - This project involves the start-up strategy for the development of an Enterprise Information Management (EIM) environment . Initially, a readiness assessment will be conducted to determine where agencies stand in data maturity, followed by a data mapping excercise. Data governance will also be defined as a final aspect of the startup effort, with administration eventually rolling into the on-going EIM environment or program area. It is important to note that the future of the MiPage, Fraud, and ERP (Enterprise Resource Planning) projects rely on this effort moving forward in early 2014 in order to be successful. It is critical that the data governance is defined at the Agency level to ensure implementation at the Enterprise level	Virginia Hambric / Rob Surber
62	The vision is to develop a customer centric portal through which citizens have the ability to conduct business and seamlessly interact with the State of Michigan (SOM) agencies. To achieve this vision, Michigan.gov, Data Governance, MiPage, and Michigan Business One Stop (MBOS) must be enhanced, developed, and streamlined in order to provide a consistent and intuitive user experience	Eric Swanson

63	This proposal is to request funding to provide for the replacement of equipment based on the equipment's "life cycle" which is determined by industry standards, manufacturer recommendations, and overall condition of the equipment. Lifecycle components include antennas, microwave systems, quantar intellirepeaters, network devices, dispatch consoles and the on-site shelters and supporting HVAC infrasturcture. The majority of the equipment have the following issues: - Major components of the MPSCS are no longer manufactured and/or are not supported by the manufacturer. - Last date of manufacture for the Connectivity Network was 2011 with its current service support level as "Best Effort" based on parts availability. - Portions of the Connectivity Network are at capacity - Risk of mission critical communications failure - Portable radio coverage challenges in Flint and Pontiac. Trooper/Officer safety concern	Buzz Leach
64	Upgrade of the Drinking Water GIS (DWGIS) application to use CSS templates.	
65	The MiWaters project will consolidate and replace, in whole or in part, a number of core applications utilized by the Michigan Department of Environmental Quality's (MDEQ) Water Resources Division (WRD).	Mike Masterson
66		
67	The primary goal of this project is to develop a freight interactive database and mapping application. The final product will include a single source location of data and information for freight facilities, activities, and proejcts at the statewide level. This includes fully customizable and user-friendly interactive mapping application viewer, providing all users the ability to easily control both the extent of the mapping window and the combination of selected freight informational layers. The database and application will be developed using a GIS platform, and made accessible to users and the general public via a website	Lina Chapman
68	Migration of the MiRec Locator mobile application to supported platform.	Suzanne Pauley
69	To prepare the enterprise for the implementation of Windows 7 for all managed SOM workstations. The State will need to be in a position to implement Windows 7 prior to the end of service of Windows XP which is targeted for April 2014.	Krisanne McConnell
70	Migrate multile FileNet installations into a single Enterprise installations to allow resources (hardware and staff) to be leveraged. Additional funds would be used to help further deploy EDM within the State agencies to facilitate more efficient business operations	Richard Demello
71	Individual patient scan data is collected from every clinical magnet in the state. Data are submitted quarterly. All data is submitted electronically. These data are used to produce bi-annual reports. The reports are required for MRI Certificate of Need applications. Rewrite to new technology. CON E-Serve is a web-based application and mangement information system developed by DIT in an Oracle database. The system currently provides for online submissions of Letters of Intent (first stage of the application process) and internally is used to track papr application processing and follow up. By 2007, the application and fee payment modules should be operational. Rewrite to new technology	George Hamel
72	Call Center data interface providing 24/7 automated notification of prisoner status changes from MDOC custody file and county jail booking system data to crime victims and other citizens who have registered to receive the notifications (phone calls). System also provides court appearance schedule information to crime victims through the PAAM case tracking system, and current prisoner status and other data to interested citizens. The system is capable of providing a significant share of statutory notifications required by PA 87 of 1985, the Crime Victims Rights Act, including those that impact the personal safety of crime victims such as prisoner escape or release from custody. Rewrite to new technology.	George Hamel
73	Replacement of end of life hardware	George Hamel
74	System collects and stores client data for those in substance abuse treatment. Admission (4823) and discharge(4824) records are submitted via the DEG by Coordinating Agencies (CAs) and batch processed each morning as needed. Data is reported to SAMHSA semi-annually. System tracks all errors and requires that 100% of them be fixed prior to acceptance. Rewrite to new technology.	George Hamel
75	Web based system for use by hospitals and local registrars to file birth facts for newborns. Replaces existing DOS software. Rewrite to new technology	George Hamel

	C	D
76	Note: This Candidate contains the information provided by the DCH requestor (see attachment). It has not yet been vetted and will need more research, but we have entered all the information currently available to us. Implement the "Network of Care" tool to provide a searchable Online Behavioral Health Resource System to help both people seeking services and service providers to find needed resources and information. The system uses existing data sets which are continuously and automatically updated, as well as direct links to all counties in a state in order to keep information up to date. The “Network of Care” was specifically recommended to all states and counties by the President's New Freedom Commission on Mental Health. The system was developed with public input and investment, working closely with Substance Abuse and Mental Health Administration (SAMSHA), This unique and successful program has served tens of millions of consumers during the past decade. It can be easily replicated and customized for any county and state in the nation. MDCH Behavioral Health and Developmental Disabilities Administration and Department of Military and Veteran’s Affairs both viewed this tool together. It is unclear at this time whether MVAA will be moving	George Hamel
77	This candidate is to implement the Billing and Patient Accounts modules for the EMBRS solution. Adding these modules would move DCH closer to having a fully integrated Electronic Health Records system for the five (5) State-operated Mental Health. It would also allow DCH to eliminate non-integrated legacy systems and 3rd party billing service costs.	Joe Old
78	This candidate is to implement the Avatar RxConnect module for the EMBRS solution. Adding this module would fully integrate medication dispensing and management into the Electronic Health Records system for the five (5) State-operated Mental Health. It would also allow DCH to eliminate their current medication management systems that uses non-SOM standard technologies.	Joe Old
79	No consistent or centralized access auditing system makes it difficult to detect and monitor inappropriate access, & high expense of conducting audits.	
80	Create a documented Disaster Recovery Plan for each DCH red card application. This plan will include contact information, database server recovery plans, application server recovery plan, and other application specific documents. The Local Disaster Recovery Plan System (LDRPS) application will be used to create the Disaster Recovery Plan for each red card application.	Bob Baker
81	Rewrite of DCH File Transfer System	
82	Need a replacement system for the current Mail tracking system used be the DCH Directors office. They are intrested in getting a new Correspondence Tracking System.	
83	MDCH proposes the development of information technology infrastructure which includes: 1. An enterprise service bus/messaging service 2. A master person index 3. Master provider index which is a database of entities such as health care providers, health plans, organizations, businesses and program specific entities. 4. The Michigan Identity, Credential, and Access Management (MICAM) which is a state-of-the-art system that will assure secure and confidential access to State information systems. 5. Interfaces from Medicaid to the other State public health systems so that Medicaid can obtain comprehensive health data on its enrolled members and use it to promote the health of those members; and the extensive infrastructure that underlies the enumerated key components 6. Repositories, shared services and interfaces between the State and the state-wide health information exchange (MiHIN) and other qualified organizations 7. Interfaces between MiHIN and Beacon which is a health information exchange developed for diabetes in Southeast Michigan for which expansion is planned by private parties.	Joe Old
84	Establishment of the Lead Safe Housing Registry (LSHR) is per state statute. Planning for LSHR began in 2004. The database and public facing website went live in 2007. The first components of the internally utilized application, which allowed for direct data entry by state staff, went live in February of 2008. This project would allow for the resolution of numerous issues within the existing application. Provide functionality allowing for direct data entry into the LSHR by Certified Lead Professionals & Contractors. Create a real time address verification (if not cost prohibitive). Improve timeliness, accuracy and comprehensive of Lead Safe Housing information available via the LSHR Public Facing Website. Implement multi-tiered, role based security and bring the application into compliance with the latest MDCH technology standards. Which opens the application up to the public eliminating the need for the submission of documents to the SOM for entry into the LSHR. The rewrite addreses additional functional changes and the need to upgrade from Oracle 10.2 to JBoss. "Establishment of the Lead Safe Housing Registry (LSHR) is per state statute. Planning for LSHR began in 2004. The database and public facing website went live in 2007. The first	Jeff Haskell
85	To enhance the MIHP Maternal Risk Identifier to allow Medicaid Health Plans View Only access to the maternal Risk Identifier of Medicaid Pregnant women and infants	George Hamel
86	Create an interface with WIC to pull risks identified on the WIC nutritional health summary and put it into the comment section of the Maternal Risk Identifier	George Hamel
87	This a a replacement of Patient accounts to a new platform. This is a banking system for the clients in the state psychiatric hospitals.	Joe Old

88	The Crime Victims Service Commission (CVSC) application was implemented in early 1999 utilizing the development tool Oracle Forms and Reports. It is used to register for, monitor status and report reimbursement expenses paid out to residents of the State who are victims of a crime that results in a physical injury. Over the past 13 years, the application has functioned as intended; however, the software development tool utilized does not meet current technology standards and is nearing End of Life (EOL) as the vendor (Oracle) has announced that the product will no longer be supported after 6/30/2014. There are three high level goals for this project: • Upgrade the software utilized to develop the application to current technology standards o By utilizing a JAVA based framework for software development. • Create a web-based application with all current functionality of the CVSC application. o By converting / upgrading existing programs to the new framework • 53 application online screens • 40 application on demand reports • Increase functionality by integrating an Online-Application process within the new web-based application. o By developing the capability for victims to apply for compensation benefits online via webpages. • 10 application online screens • 5 application on demand reports	Jeff Haskell
89	Database storage amounts are increasing rapidly leading to higher operational costs. As a result we need to compress data.	Gideon Francis
90	Unaltered sensitive data is used for development, test, and QA activities, resulting in risk of compromised sensitive data and failed audits.	Gideon Francis
91	Databases are at risk to perimeter security attacks (SQL Injection), resulting in potential lost business continuity or compromised sensitive data.	
92	Inappropriate or unnecessary DBA levels of access to sensitive information resulting in failed audits (RBAC/Separation of Duties).	
93	Inability to automatically control access to data by classification of user or data type, resulting in possible failed audits or accidental inappropriate data access level.	
94	On hold until the completion of EMBERS project. The Patients Accounts system and the State Hospital Billing system will be going away when EMBERS adds the billing module to the system. We need to purge the old data from the mainframe and creat a storage area off of the mainframe that can still be accessed when needed. This will save us from having large storage cost from the mainframe.	
95	This project plans and implements a State of Michigan Health Information Exchange capble of interfacing with the State of Michigan systems containing health information as well as the Health Information Network (MiHIN).	Milan Talreja
96	This project will take all of the Maternal Infant Health Program (MIHP) system (Maternal Risk Identifier (MRI), Infant Risk Identifier (IRI), Maternal Discharge Summary (MDS) and Infant Discharge Summary (IDS) and make it compatible other browsers not just MS.	
97	On hold until I have a resource BA. To enhance the MIHP Maternal Discharge Summary to make is compatible with the new rewritten Maternal Risk Identifier.	
98	On hold until I can hire a resource BA. This project will take all of the Maternal Infant Health Program (MIHP) system (Materna Risk Identifier (MRI), Infant risk Identifier (IRI),Maternal Discharge Summary (MDS) and Infant Discharge Summary (IDS) and allow for a better print solution.	
99	This project is either a re-write or re-procurement of the current Medicaid Financial Review application. The current application relies on some manual processes, and duplication of data that is available from other sources. A re-write or re-procurement will also advance the State of Michigan's Medicaid program on the Federally mandated MITA Roadmap	Kim Crawford
100	Known upcoming Federal Initiatives include: HIPAA 6020, the next EDI version, and ICD-11. Based upon past experience Medicaid will be faced with at least one major Federal Initiative approximately every 5 years.	Brian Gallup
101	The goal of this project is to modernize MDCH CHAMPS system and more closely align with Medicaid Information Technology Architecture (MITA) and CMS 7 Conditions and Standards, especially in areas of Modularity, Interoperability and leverage conditions. A Cloud model of the MMIS (CHAMPS) is a part of this, allowing the State of Michigan to provide Medicaid IT functionality to other States.	Brian Gallup

102	The goal of this project is to transition and expand the CRM (Seibel) functionality utilized by DCH, and its Medicaid Management Information System (MMIS) into the State of Michigan Enterprise CRM (Seibel) Service offering. This would allow the State of Michigan's Medicaid program to advance on the Federally Mandated MITA Roadmap and more closely align with Center for Medicare/Medicaid Services 7 Conditions and Standards.	Brian Gallup
103	This project would cover both Technical components and Business re-engineering. The goal is to expand DCH participation in the EDM offering, expand DCH utilization of EDM, and advance the State of Michigan's Medicaid program along the Federally mandated MITA roadmap.	Brian Gallup
104	This project is to either develop or procure an IT application to improve the delivery and funding of Medicaid Home Care Services. This is also allow the State of Michigan's Medicaid program to advance along the Federally Mandated MITA Roadmap.	Brian Gallup
105	This candidate represents the DTMB effort to assist the Cost Settlement Program area with generating a Request For Proposal to replace HCRD's existing application. The effort also includes the JEC process.	Kim Crawford
106	FD800 Series. Past claims for reimbursement. Identify past claims and move forward with processing by year. (Delay in processing usually due to court ruling) Run automatically instead of manual request. CSR-2013-000046.	
107	To better enable the Office of Inspector General to increasse tracking and enforcement of Medicaid fraud.	
108	Application Life Cycle Management Tool to be used by the technical team for tracking code from various environment and allows clients to enter defects. To be released to Medicaid area with a goal to release throughout DCH.	
109	Tool to track Medicaid Fraud.	
110	To take Oracle Discover Reports to a business objects reporting environment.	
111	Upgrade Adult Services Authorized Services (ASAP) from outdated technologies to current industry standard technologies.	
112	Source Control Versioning Tool upgrade to release on technology roadmap. Consolidate Public Health source code into the same repository as Medicaid source code. TRB currently exists.	
113	CANDIDATE WILL BE COMPLETED WHEN MORE INFORMATION IS AVAILABLE. Centers for Medicare and Medicaid Services (CMS) is requiring that states develop an eligibility platform that is capable of determining multi-program eligibility that is modular in nature so that any one component or all could be taken and used by another program; and that on a “clean” application the eligibility and enrollment process be fully automated requiring no human intervention to process. Bridges is a multi-program eligibility platform however it will need to be modified to allow for the modularization of the various programs and to remove any logic currently in place that would require worker review or approval of “clean” application. Additional benefits of separating the programs is when one has a need to make changes due to regulatory changes it will minimize the impact on the other areas. The support team	Diane Wimberly
114	DCH - Office of Health Services Inspector General has contracted with Michigan Peer Review Organizaton (MPRO) to conduct audits on Medicaid Inpatient Health Care Claims.	Brian Gallup
115	Migrate 12 permitting and inspection programs to a new, enterprise software system (?Accela?)" Included are: + Medical Waste + Operator Training and Certification Tracking + Drinking Water +	Lori Franz
116	Rewrite/upgrade/integrate applications that collect, store, analyze and report on water usage and quality in the State	Sara Raja
117	Develop IT solutions in support of DEQ transformational change project to reinvent the remediation and redevelopment programs.	Chris Larson
118	Develop IT solutions in support of DEQ transformational change project for implementation of the 77 recommendations in the Office of Regulatory Reinvention Report, dated 12/23/11	Chris Larson
119	Optimize the use of central office staff space for the DEQ Lansing Team to eliminate unused and underutilized space in the building, including technology upgrades and reduction of paper files cabinets to free up floor space.	Chris Larson

	C	D
120	Redesign of the DEQ web site. As with any commercial entity, web sites need to be redesigned and reorganized periodically to keep up with changing web design technologies and the changing needs of the customers that it serves. The DEQ wishes to improve the customer experience on its public-facing presence, improving information quality, delivery, and engagement with and for the citizens of Michigan. Expected intangible benefits of a redesigned web site include: - efficiencies and time savings for the users - improved information quality and delivery - improved accessibility for persons with disabilities - improved customer engagement and customer satisfaction - reinforced positive reputation and credibility - better scalability for future growth Expected tangible benefits include a reduction in FOIA request processing which is an undercompensated expense to the DEQ, and a reduction in load on the Environmental Assistance Center call center. Both of these will realize cost savings for the DEQ.	Rajender Razdan, PMO
121	The Michigan Interactive Groundwater for Wellhead Protection (MIGWWP) program was placed on an accelerated project schedule that included testing and functionality evaluations. MSU's team will be providing ongoing technical support to MIGWWP through the remainder of the contract. For the remainder of the contract there is an emphasis on development and deployment of the Map Image Viewer (MIV) replacement as a web-based upgrade using ESRI's ArcGIS Server® (AGS) software. Project Objectives 1. A primary objective is to finalize construction of MIGWWP and complete debugging of the program to provide a real-time, interactive tool for managing and protecting Michigan's ground water resources. 2. Continue in the development of a replacement for MIV that is web-based, client server oriented and active server pages technology (ASP.NET) compliant. 3. Provide outreach, education and facilitation services to small community and non-community public water supply sytstems. 4. Assist the DNRE and local health departments in management of Michigan's ground water resources.	Brant Fisher
122	The project includes: 1) ongoing maintenance and support of DEQ applications, databases, and supporting software, hardware, and network infrastructure, 2) specific application enhancements of 200 hours or less effort, and 3) any and all troubleshooting for Break/Fix Problems.	IO: Linda Pung
123	Produce a new internal application for DEQ staff to use in tracking notifications, contractor activities, inspector activities, generating reports, and improving internal business processes. Design and deliver a public facing Notification Search page. The search page will allow any citizen to search for notifications. Design and deliver a public facing contractor portal. The portal will allow contractors to submit notifications and revise existing notifications from the internet. The current AQD database, NESHAP – Asbestos Compliance Monitoring, is a DOS Clipper database that was developed in 1990. The Clipper software is not officially supported by DIT, so program issues are difficult to resolve. There are also issues that stem from the dated technology, for example: extremely slow data entry and archiving; limited data integrity; no ability to make changes to the screens, fields or reports as AQD's needs change; required reporting to the USEPA is cumbersome and cannot be accomplished	Karen Kajiya-Mills
124	This project leverages the existing and future networks between the state and local governments, libraries, and schools. It provides redundancy, increased capacity and cost savings to all involved agencies.	Lucy Pline
125	This will include ongoing maintenance of the existing Site Registry software along with enhancements to the existing web based facility data integration application and data pool. Also there will be the creation of a data flow from DNRE to the Environmental Protection Agency (EPA) using the existing Exchange Network.	Michael Beaulac
126	Work with a technical contractor who will interact with the project team gathering business requirements to design and develop of a SID version 2. This phase is only for the RFP Article 1, no design or development.	Mohammad Yusaf

127	Several hundred Michigan Department of Environmental Quality employees work at remote locations. With much of their work dependent on being "in the field" serving the citizens of Michigan it is important that workers have the opportunity to work from any location, at any time, and access the information that they need to get the job done. DEQ mobile workers do often have access to state offices to work from, but still insufficient mobile connectivity and workforce solutions could still be improved upon to provide a more productive work environemnt. DTMB organized a team of internal IT architects, IT specialists, and technology subject matter experts to examine the current business environment and technology capabilities needed to improve mobility solutions for DEQ agency field staff. This strategy paper has been prepared to outline a long term direction that will vault DEQ field staff beyond the current cumbersome and somewhat confining systems to a technology optimized organization. DEQ and DTMB can then work together to decide which, if any, recommendations will be adopted and how those will come to bear. Costs and savings are predicted on this Return on Investment, but actual costs and savings will vary depending on the	Greg Bird / David Borzenski
128	The RD Laboratory serves as a scientific environmental testing program for health, criminal, and civil investigations within the DEQ. Analytical services (physical, chemical, microbiological testing) are provided for a variety of environmental programs throughout the state, including drinking water, Brownfield redevelopments, Superfund sites, air quality, hazardous waste management, land and water management, geological survey, rivers and lakes water quality, bathing beaches, public swimming pools, legal services, and many others. Historically the DEQ Laboratory was provided $200,000.00 per year for the replacement of analytical equipment. This was paid for by the various Divisions within DEQ to partially fund the operation of the Lab in exchange for analytical services. This funding was stopped approximately 10 years ago when the DEQ lost all of its general fund dollars and went to a strictly fee based system for funding lab operations. As the economy worsened the revenue stream shrank to the point where staff that were lost through attrition were not replaced and the Lab was forced to lay off staff on two occasions. During this time virtually all instrumentation replacements were placed on indefinite deferral	George Krisztian
129	The Log Letter Database is used by the Michigan Department of Environmental Quality (DEQ) to log, assign, and track correspondence received from the Governor's office, elected officials, governmental agencies, businesses/facilities regulated by the DEQ, and citizens of Michigan. It is also used to log, assign, and track requests received from members of the United States and Michigan Legislatures. Users of this system are DEQ Executive Division staff, select individuals in each of the DEQ Divisions/Offices, and limited use by the DNR -- approximately 30 individuals in total. This system is used on a daily basis and is crucial to daily operations. Hundreds of documents and telephone calls per year are tracked using this database, which was originally developed for the DNR in the mid-1990s, overhauled in 2002, modified when the DEQ and DNR were merged, and modified again when the two Departments were split. Data exists in the system back to 2002, with approximately 8,000 attached files in Portable Document Format (PDF) ranging from 2007 through 2012 for a total of 4 gigabytes of data. This legacy solution exists in a "sunset" technology making it costly and difficult to maintain and enhance. It is also at increasing risk of failure as technology changes and evolves. While this system generally meets the basic correspondence tracking needs of the DEQ significant opportunities exist for improvement. The system does not have adequate workflow functionality, and much of the workflow surrounding correspondence tracking is a manual process which is labor intensive and inefficient. Other functionality such as due	Lucy Pline
130	The purpose of this project is to move the current MIR (Michigan Implementation of RBDMS [Risk Based Data Management System]) from a client server environment to web based technology and implement other enhancements to support DEQ OOGM business needs.	Srini Yerukola
131	Develop a consolidated Freedon of Information Act (FOIA) Database to improve the efficiency of DEQ FOIA tracking process and fullfillment of FOIA requests by the general public. Rewrite the legacy Pollution Emergency Alerting System (PEAS) application to address the current issues. Both these applications will be integrated with existing Site Registry application.	Michael Beaulac
132	The Non-community Water Supply Program regulates close to 10,000 Public Noncommunmity Water Supplies within State of Michigan. The WaterTrack application assists MDEQ staff and Local Health Department personnel to monitor the facilities, track water sampling results and generate operation and violations reports. The current legacy application will be replaced by EPA developed application.	Daniel Dettweiler(DEQ), Lori Franz(DTMB)
133	Database storage amounts are increasing rapidly leading to higher operational costs. As a result we need to compress data. (Candidate is incomplete pending gathering of costs).	Gideon Francis

134	The existing Office of Criminal Investigations (OCI) case tracking database was developed by the Michigan DEQ to track criminal, civil, and administrative investigations into suspected violations of Michigan's environment statutes. This office, now referred to as the Environmental Investigation Section (EIS), maintains data relevant to such investigations back to 2001. Since its inception, the database has undergone break/fixes and enhancements with the assistance of the Michigan Dept. of Technology, Management and Budget. There is also a separate related MS Access database used by this section to track equipment. The Environmental Investigation Section serves as the investigative and law enforcement specialist for the DEQ. It is comprised of specially trained Conservation Officers who determine appropriate regulations, initiate legal actions, and represent the department in negotiations for restitution, penalties, and damages. This OCI case tracking database is critical to its operation, and allows the section to track cases from initial contact with the complainant, case number assignment, officer and supervisor notes and monitoring of daily activities on a case, and witness interviews/statements. It also provides reports used by the Prosecutor to obtain warrants, and tracks evidence, court actions, and penalties through closure of each case. Approximately 50 to 100 cases are processed and tracked annually by this section.	
135	The Online Forms Database is used by the Michigan Department of Environmental Quality (DEQ) to serve numerous forms and instructions to the citizens of Michigan in order to streamline the collection of data for permitting, reporting, planning, and recordkeeping. The Online Publications Database is also used to serve several hundred educational publications such as fact sheets and frequently asked questions that help the regulated communities to improve their understanding of DEQ regulations. These public-facing systems have similiar interfaces, and rely on outdated and "sunset" technologies both for the system interfaces and the databases that serve them. Users of these systems are DEQ Executive Office staff, staff in other DEQ Divisions, members of the regulated communities, and the general public. These systems are used on a daily basis and are crucial to daily operations. They are also an important part of helping the DEQ to fulfill its mission of working in partnership with others and communicating with all interests while protecting public health and promoting the appropriate use of, limit the aderse effects on, and restore the quality of the environment. While these systems generally meet the forms and publication service needs of the Department today opportunities exist for improvement to make them easier to use and easier for the public to find the information that they need. They exist in a "sunset" technology making them slow to respond, and costly and difficult to maintain and enhance. They are also at increasing risk of failure as technology changes and evolves.	
136	Since the spring of 2001 the Remediation Division (RD) of the Department of Environmental Quality (DEQ) has utilized the Environmental Response Network Information Exchange (ERNIE) application to support the functions of the Part 201 (Part 201, Environmental Remediation, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended) program. ERNIE is a legacy application developed with a technology that is no longer supported by the Department of Technology Management & Budget (DTMB). RD desires to replace the ERNIE application with a new application that would utilize the same data/database (ERNIE). Amendments to Part 201 became effective December 14th, 2010. As a result, the RD is mandated to track and report to the legislature and public new statutorily required submittals from the regulated community which requires functionality that ERNIE does not provide. Among the significant changes include modifications to the current Baseline Environmental Assessment program (BEA) and the tracking of Response Activity Plans, Land and Resource Use Restrictions and no further action reports with associated elements not required under the previous statute and posting of an	Bob Reisner

404	LARA - Licensing and Regulatory Affairs	LARAE – IS – DCO – TBHC Risk Reduction

	C	D
400	Objectives include: - Determine which services DTMB should deliver internally and which services it should outsource - Contract services that should be outsourced - Develop a process to periodically review the sourcing business case for each service Deliverables include: - Sourcing strategy document - Business case for each service to determine immediate sourcing decisions and model for future decisions	VIrginia Hambric
401	Objectives include: - Improve ICT operations through automation of manual processes within Infrastructure that focus on customer-facing processes around incident, problem management, provisioning, etc. - Capitalize on usage of tools such as run book automation, provisioning, event management, status monitoring, performance monitoring and alerting - Improve ICT process maturity by implementing a comprehensive ITSM road map across the ICT towers for foundational ITIL processes such as incident, change, and asset management - Map out and automate interfaces, handoffs and trigger points between core processes; integrate (or adopt single) configuration management databse (CMDB) across the core ICT towers Deliverables include: - Business case for tool acquisitions - Implementation of ICT operations tools - ITSM road map and updated documentation	Virginia Hambric
402	Objectives include: - Build on current strengths and continue to adapt to new threats - Conduct a comprehensive security audit and risk assessment, and implement corrective measures - Consolidate all security monitoring operations into one organization and stand up a true 24/7 SOC function with proactive monitoring skills - Set up a process to perform vulnerability scanning and compliance across all areas of ICT infrastructure to include servers, network devices, desktops and mobile platforms; improve vulnerability management by patching desktops to application level Deliverables include: - Completed security audit/risk assessment - Implementation plan for 24/7 SOC operations - Establishment of 24/7 SOC operations	Virginia Hambric
403	Addresses audit findings. Replacement of the existing aging facility. Direction on the GL-ITC will provide answers on the future of the three existing facilities.	Dick Novello
404	TBHC is over subscribed for electrical, cooling and backup capacity. This project will work with the General Managers to determine candidates for virtualization or migration and complete the migration to lower TBHC resource requirements.	Bob Weldon

	C	D
405	Microsoft Office 2003 is the current State standard. The State's Microsoft Enterprise Agreement provides the software licenses to upgrade the State's desktops to Office 2010.	Jon Seeger
406	1) Upgrading Communictaion Manager on the Avaya swtiches.SOM is 3 versions behind, "best effort" support only, and does not provide the funcationality required for current and on-going technologies. 2) Implement Dial Plan which will allow the merging on the switches without telephone number issues. 3) Merging from Saginaw, Detroit and Grand Rapids swichted into the Captial and Secondary switches	Kristen Furseth
407	Project to migrate storage array from outdated DMX-4 Technology to new VMAX to modernize and update the storage infrastructure. Replaces aging infrastructure, provides more functionality and services, with less complex administration, and maintain or lower service rates.	Rick Hoffman
408	Required to remediate findings found in the 2009 OAG Report and establish the IT control requirements, some of which were incorporated into the new MAIN Hosting contract effective 1/2012.	Dave Gabler
409	Implement new Host On Demand 3270 Emulation Software with Encryption	Linda Dunn
410	Enhance the Time and Expense (MiTES) web application by including rule based functionality and improved accessibility.	Lisa Schroeder
411	Enhancement of current time and attendance/labor distribution system (DCDS). The system will leverage the existing DCDS system as an enhancement using current and available technologies.	Lisa Schroeder
412	Break the tie bar between time and distributions (allow for distinct processing between time entry and labor distribution), and provide reporting and automation for equipment.	Lisa Schroeder
413	Convert Business Objects Desktop Intelligence reports to Business Objects Web Intelligence reports. After this migration, this will allow the next version of Business Objects to be installed and pushed. Last year this project was called: Business Objects Web Intelligenc converserion (Complete with original typos)	Neil Miros
414	Convert Business Objects from BOE XI 3.1 SP3/SP4 to either Business Objects from BOE XI 3.1 SP5 or Business Objects from BOE XI 4 .x	Neil Miros
415	Convert Business Objects Xcelsius dashboard to newer version with additional functionality.	Neil Miros
416	Convert exisiting office written and supported application that extracts all data to MIDB to use standard ETL tool.	Neil. Miros
417	As part of the new e-Procurement RFP, there are requirements for real time data exchanges between MAIN and the new e-Procurement system. Additionally, the vendor file registry contained within MAIN will be the record source for e-Procurement and will therefore send updates to the new e-Procurement system. A data conversion for all ADPICS data within MAIN is also a requirement of the e-Procurement RFP. Please note: Financial projections through FY 2023 are on template candidate in Sharepoint. Changepoint data entry limit is FY 2017	Vic Mankowski
418	This project entails replacement of Michigan Administrative Information Network Financial Administration and Control System (MAIN FACS). MAIN FACS consists of a suite of applications, which are Relational Standard Accounting and Reporting System (R*STARS) mainframe application, Report Management and Distribution System (RMDS) mainframe application, Contract & Payment Express (C&PE) web application, and Electronic Transaction Processing (ETP) web application.	Sharmila Patke
419	Replace asbestos management system - possible SIEBEL app.	
420	Rewrite CET application - possible COTS solution	
421	Replace Wage and Hour application with newer technology.	
422	Replace legacy application with COTS solution - possible leverage of either SIEBEL or myCaseLoad.	
423	Develop a web based system for submission and approval of motor carrier licenses.	
424	Increase the Compensation Supplement Fund by $1,000,000 in General Funds and shift current $820,000 state restricted funding to General Fund for a total of $1,820,000 in General Fund funding. The Compensation Supplement Fund Appropriation needs to be increased by $1,000,000 in General Funds due to an increase in claims. The Compensation Supplement Fund is currently funded by Corporation and Securities Fees. Legislation states that it should be funded from the general fund.

437	Michigan Department of Agriculture and Rural Development (MDARD) Animal Industry Division (AID) has an existing software application called USAHerds. This application is to help AID manage and monitor the presence of Bovine Tuberculosis within selected areas of the State's cattle herds. One of the main functions of the USAHerds application is to generate permits allowing movement of all cattle that is traceable from birth to final disposition – including relocations of each animal to other premises within Michigan. The USAHerds application is used by MDARD staff to generate permits for herd producer when there is a need to move their herds. This project is to create a public facing application that allows only public users to create intrastate movement permits at any time. The new application is to be designed utilizing the movement permit function of the USAHerds application. The first portion of the project, creating the public interface and allowing producer use of currently populated data is in the final stages of completion. The second stage of the	Dan Sellepack
438	MDARD-PPPM needs to eliminate bubble sheet processing for seminar attendance (900 seminars per year) and has requested a smart phone solution for scanning applicator credentials at seminar sites (9,000 attendance records per year). Because the current IMPACT system is written in VB6 and is Oracle-based, the project must also consider options for moving to a new interface and consideration of moving to SQL server.	Thomas Benner
439	The project includes: 1) ongoing maintenance and support of MDA applications, databases, and supporting software, hardware, and network infrastructure, 2) specific application enhancements of 200 hours or less effort, and 3) any and all troubleshooting for Break/Fix Problems.	IO: Linda Pung
440	This project is to upgrade LARA to the latest version of License 2000 (now called My License Office), enhance it to include all of the current workarounds in place, and add Michigan Department of Agriculture and Michigan Gaming Control Board to the product. Interface with Michigan Business One-Stop application.	Diane Alexander/Greg Hopkins
441	This project leverages the existing and future networks between the state and local governments, libraries, and schools. It provides redundancy, increased capacity and cost savings to all involved agencies.	Lucy Pline
442	The Michigan Department of Agriculture and Rural Development (MDARD) issues more than 40 different types of licenses to more than 100,000 businesses around the State, including food establishments, pesticide dealers, nursery stock owners and retail gas stations accounting for $x revenue annually. The Department completes 80,000 inspections of these businesses annually during which serious violations are discovered annually. Data sharing related to the food supply is a critical component to ensuring public safety. Multiple legacy systems are currently utilized by the regulatory divisions to compile and house this data. The Department of Management Technology and Budget has identified many of these systems as unsupportable and therefore vulnerable to failure. The workflow of a regulatory program requires its licensed population feed into the inspection schedule. Coordination and data sharing information is vital to administering effective and efficient licensing and inspection programs. This is important for field staff, who often have only electronic data to rely on when entering a licensed establishment, as	Kalpana Kumar
443	Rewrite the application that tracks and reports on Cattle and Cervid populations and their health and permits their movements off premesis	Christine Larson
444	As we move testing online, we plan to move the reporting online. The Dynamic Reporting System will enable instant access for students and parent. Facilitating existing reporting systems to provide access in ways that are impractical with paper/pencil reports.Replace existing costly paper reports by creating a secure, online reporting system and making it available to parents, educators, and all other stakeholders. The Michigan Online Assessment Reporting System (MOARS) will provide dynamic reporting tools and the ability for teachers and school and district adminstrators to access student-level and aggregate data in easy to access and use formats. This system will interface with contractor's online and summative assessment systems to quickly make available this data and information for educator decision making. This system will provide current year data reporting and will integrate with the State Longitudinal Reporting System (SLDS) so that all data is stored and accessed efficiently.	David Judd
445	The OPPS currently would like to build an accountability system that accurately calculates and coordinates a performance score for educator preparation institutions. The calculated score will be determined by using various statewide systems to include data on various criteria determined by the OPPS. These systems include but are not limited to the Registry of educational personnel (REP), the Michigan Online Educator Certification System (MOECS), the Michigan Test for Teacher Certification (MTTC). Also, the OPPS uses data from several surveys that gather data about student teachers and from novice teachers about the quality of their preparation as classroom teachers. This survey data is compiled and included in the performance score.	Glenn Gorton
446	Development of system for tracking and maintaining different types of audits.	
447	Upgrade msSQL servers that are at EOL	
448	Technology upgrade or removal/archive	
449	The Michigan Department of Education (MDE) is requesting an increase of the GF/GP appropriation to provide the staff resources needed to provide a system of support--including materials and services for statewide implementation of the Michigan Educator Evaluation—beginning in the 2014-15 school year. This need is based on Michigan's initial educator evaluation legislation (MCL 380.1249) and the recent recommendations from the Michigan Council on Educator Evaluation (MCEE). These staff will provide the subject matter expertise necessary to conduct adequate oversight of significant new contracts providing services, training, technical assistance, and support to local districts in support of educator evaluations.	Jane Schultz

450	For MEGS+, produce: DIT 170, COTS System Documentation for Grant Builder, Requirements and Design documents for all grant applications, Project Change requests created and signed for all changes to application, Training materials. For CMS, produce DIT 170, any other necessary documentation not in place.	Vic Mankowski
451	Refresh the current architecture, hardware, and software platforms (Delphi) to supported technology standards and update the user interface.	Dan Klodt
452	Re-write the internal Uniform Commercial Code application and document scanning solution used by MDOS to process Public Notice of Financial Filings.	Tom Cantrell
453	Following implementation of BAM, approximately 50% of today's functionality will still exist on the Unisys Mainframe platform and needs to be moved to a modern platform and/or the BAM system.	Hau Huynh
454	Implementation of a cost effective means to automate FOIA requests. This would allow MDOS external customers to acquire information in a timely manner without enlisting time and assistance from DTMB.	Brenda Feldpausch
455	A modernized repacement for this system used to broadcast news releases as well as fax customer documents for review to validate a Drivers License or ID Card can be issued.	Dan Klodt
456	Refresh the internal system used to monitor the daily activities of Branch Offices.	Hau Huynh
457	Modernize the applications used to extract driver/vehicle data for resale to 3rd parties.	Hau Huynh
458	Replace applications used for address standardization.	Dan Klodt
459	The current Unisys CS 690 hardware will reach end-of-life and need to be replaced in Dec. 2014.	Hau Huynh
460	MDOS has several websites that would contribute to and benefit the State's mobile strategy w/ MiPage links: ExpressSOS, Branch Office Locator, Election Results, Plate Fee Calculator, Organ Donor, MDOS FAQs, Contact SOS, How Do I...	Tom Cantrell
461	MDOS is interested in participating in this enterprise network upgrade effort to ensure their 131 Branch Offices have adequate connectivity/bandwidth to efficiently provide services into the future.	Jennifer Poirier
462	Deployment of an enterprise Virtual Desktop environment. In the near-term, this would benefit current applications such as UCC and Administrative Hearing Informix to enable these work areas to proceed with Microsoft upgrades to Office 2010, Office 365, and Windows 7 (there are currently incompatibilities preventing these upgrades).	Dan Klodt
463	MDOS has 4 interfaces to MAIN that will need to be re-established to the new ERP system.	Tom Cantrell
464	MDOS utilizes the current L2K system for Mechanics Testing and Assembled Vehicle Inspections processing as well as licensing for vehicle dealers, repair facilities, mechanics, driver education instructors, driver education providers and must maintain a viable platform for these services.	Tom Cantrell
465	Implementation of a cost-effective, enterprise solution to electronically capture, index, store, and retrieve MDOS images.	Dan Klodt
466	DTMB will have a significant effort in decommissioning legacy systems (BOS, Mainframe, UCC, etc.) following their replacement to ensure data, code, and other artifacts are dispositioned appropriately.	Hau Huynh
467	DTMB @ MDOT support required for implementation/integration of new ERP Solution	Scott Wager
468		Scott Wager
469	Implement small, new technology projects	Scott Wager
470	Maintain over 250 applications in the MDOT portfolio	Scott Wager

	C	D
531	The proposed system will replace Real Estate Management Information System (REMIS) and Real Estate Sale and Leasing (ReSale) which are stand-alone client/server applications that share linked fields in their respective databases. The proposed system will: • Enhance integration and availability of data to reduce unnecessary effort, increase efficiency, provide greater flexibility and improve data integrity. • Consolidate or link databases to support the availability of data between systems and enhance data consistency. • Create a web-based interface to increase productivity and allow users improved access to data. • Integrate forms and databases to support a single-step process for data entry and document preparation	Debbi Simon
532	Software will be used to manage, process, and track State of Michigan's road, bridge, airport, and railroad construction program.	John Kalanquin
533	Analyze, design, code, and implement functionality to use modernize posting to correclty bill both federal and local agencies. Federal billing is currently processed through a Fujitsu Cobol application, local billing is processed through PowerBuilder in PAB.	Nathan Buckwalter
534	Move connectMDOT to SharePoint	Nathan Buckwalter
535	Annual application expenses for MDOT.	Scott Wager
536	This project will bring MDOT onto the Enterprise cloud environment which will satisfy added security requirements and high availability needs.	Nathan Buckwalter
537	Select and implement a new Toll Bridge system for Michigan's three big bridges (modernization of legacy FoxPro system)	Nathan Buckwalter
538	Automate approval process for certain FieldManager reports to include the Construction Pay Estimate Report, Contract Modification and Contractor Performance. National Pollutant Elimination System (NPDES) Inspection Report (MDOT form 1126) in addition to significant user suggested enhancements. Also replaces MDOT's MTS (Materials Testing System).	Nathan Buckwalter
539	Implement the WT PreConstruction system and retire the current PES and LAS systems. This includes migrating data in PES and LAS as part of the transition to PreConstruction.	Nathan Buckwalter
540	Agency-wide case management tool to track all licensing & regulatory activities handled by the Michigan Gaming Control Board. This tool would replace the applications and the functionality described for each. Applications to be included listed below.	Linda Meyer
541	Solution to replace all the applications supporting the administrative activities internal to the MGCB. Applications to be included listed below.	Linda Meyer
542	Solution to replace Opentext Livelink and the supplemental applications used to create document cover sheets, scan documents, and track & report on Records Section metrics. Applications to be included listed below.	Linda Meyer
543	Project Descrption	Buzz Leach
544	Addresses audit findings. Deploy wireless enterprise services that will reduce MPSCS operational costs and tech time in the field. Hot Spot may be used by any of the 12,000 agencies on the MPSCS. MPSCS mobile data users will access wireless at selected state locations and public WY Fi networks allowing DNR and MSP to upload down load CJIC, antivirus, fixes and other public safety data. Currently, this project fills the gap where there is no solution to meet client needs. This project offers self-service environment for MPSCS mobile data users. Hot Spot will enable MSP to close posts and reduce resources	Buzz Leach
545	Replace Microwave and DACS equipemnt only. MPSCS microwave backbone network (180 Hops) is at end of life and experiencing failures with limited to no vendor support for parts and technical support. This project will support the federally mandated LTE broadband project.	Gerald Leach
546	Application maintenance for MSHDA: MiPIE - Michigan Preservation Information Exchange PeachTree Qualified Allocation Plan SHPO - State Historic Preservation Office Complaince application

553	MSF - WDA - Michigan Strategic Fund/Workforce Development Authority	MSF - WDA - OSMIS Reports

	C	D
547	Rewrite of the Workforce Development Authority (WDA) [a/k/a the Bureau of Workforce Transformation (BWT)] General Education Development (GED) Application.	
548	JET Process Improvement project that will include significant system changes (OSMIS screens, OSMIS reports, State Reports, Interfaces) Major Subject Areas: 21-Day Eligibility Test; FIP/FAP Deeming; Deeming for 18/19 Year Old High School participants; Non-Compliance Warning Tracking (MWA Side); Instrument Panel; System Interfaces; Referral rejections; Reporting (OSMIS, Federal); Support Services (clothing, auto insurance); Automation of the 2444 - Triage Notice; QG Report modification (through Data Warehouse)	Howard Boyer (DTMB)
549	Design and develop a process that would export MAERS data into a .CSV or some other file format readable by Excel and other spreadsheet applications. This export would include key Participant data that would be used by local programs for ad hoc reporting and longitudinal analysis of Participant outcomes from one year to the next.	Howard Boyer (DTMB)
550	• Design and develop a data exchange system between MAERS and the Center for Education Performance Information's (CEPI) State Longitudinal Data System (SLDS). This project is required in a grant from USDOE that Michigan sought and was awarded. The grant requires designing and developing a data export/import process that will extract data from MAERS. This data will be electronically transferred to CEPI using secure transfer technology. CEPI will assign a Unique Identification Code (UIC) to each record not already possessing one. They will then add this data to their SLDS system. They will return a file containing records that did not have a UIC. These records will be updated in MAERS with this UIC code. • Design and develop a module to collect and report State School Aid Act payment data. Ninety percent of these funds is a direct allocation based on Participants present in class on the State's school count day. Ten percent of these funds are allocated based on performance outcomes that the Participants achieved at the end of the program year. This new	Howard Boyer (DTMB)
551	• Complete the first phase of mandated changes from USDOE for Adult Education data collection and reporting. Because of very tight time constraints for implementation, critical functionality will be implemented in the first phase of the project. Less critical (screen design, labels, navigation, etc.) will be implemented in a second development phase. This first phase includes modifying several of the yearly reports required by USDOE to retain federal Adult Education funding for Michigan. Specific changes require that performance outcome reporting be changed from User selected goals to Participant status at entry demographic data. This requires additions and changes to business rules, data items rules, reports and screens. • Complete the second phase of mandated changes from USDOE for Adult Education data collection and reporting. This includes modifying screens, which includes label changes,	Howard Boyer (DTMB)
552	Includes review of all Trade Adjustment Act (TAA), Workforce Investment Act (WIA_, Welfare Reform and Wagner-Peyser screens to update any applicable fields and improve screen design and flow Removal of outdated fields on all screens Modification of various fields to align with policy	Howard Boyer (DTMB)
553	Includes the following sections: Welfare Reform, Job Training Partnership Act (JTPA), Mediated Services, Report System Admin, Workforce Investment Act (WIA), Trade Adjustment Act (TAA), Individual Service Strategy (ISS), Fast Break, Participant Reporting System, No Worker Left Behind Check report coding for accuracy Update programming as needed Delete outdated reports Develop an updated Report Guide for MWAs (Michigan Works! Agencies)	Howard Boyer (DTMB)

554	Create an improved Tracking System for the One Stop Management Informatino System (OSMIS) service requests that includes modifications to the Service Request Status system w/enhanced documentation and communication tracking.	Howard Boyer (DTMB)
555	Creation of performance reports through the OSMIS Reports section and/or Application Express (APEX) that will allow Michigan Works! Agencies (MWAs) to run performance reports on demand Includes Workforce Investment Act (WIA), Trade Adjustment Act (TAA), possibly Wagner-Peyser (WP)	Howard Boyer (DTMB)
556	Modernization of Case Management in One Stop Management Information System (OSMIS) Includes revamp of the Individual Service Strategy, Case Notes and Tickler sections Will improve interactions between OSMIS sections Will improve case management efficiency	Howard Boyer (DTMB)
557	Revamp of Trade Adjustment Act (TAA) Quarterly Outcomes Report Change to reporting periods/timeframes Will align TAA report with Workforce Investment Act (WIA) report Includes request for TAA Performance reports that list customer cohorts (similar to WIA)	Howard Boyer (DTMB)
558	Plan and implement a 3 year project to create a longitudinal workforce data base for Michigan. Establish a system to link WIA, WP, TAA, TANF, and Food Stamp data with UI Wage Record and UI Benefit data. Link workforce data to student data through the CEPI-administered Statewide Longitudinal Data System. Integrate aggregated LMI data about employment outcomes. Utilize longitudinal data to inform consumer choice decisions and policy making decisions.	Howard Boyer (DTMB)
559	Accounts Payable (AP) Accounts Receivable (AR) Bank Book (BB) General Ledger (GL) Elite - financial Elite System Family Self-Sufficiency (FSS) Housing Choice Vouchers (HCV) Inspections (IN) Operating System (OS)	Michael Weiszbrod
560	Tenant and Financhial data integrated System for Assisted Housing. This is a cots package being customized for MSHDA and is vendor hosted.	Michael Weiszbrod
561	SF is an exception based reporting system from Emphasys Software that tracks loans through maturity, payoff or foreclosure. Each processing cycle, the system generates billing statements and trial balances to your servicers, and the servicers can send a report on exceptions electronically to SF. SF can integrate with Loan Tracking (LT), Underwriting (UW), Foreclosure (FR) &REO and the Lender On-line (LOL) Systems or work in a standalone mode within the CGI Federal Citrix product. SF is maintained to comply with all federal regulatory guidelines	Michael Weiszbrod
562		Michael Weiszbrod
563	Reports Credit history of Companies, Executives and Industries.	Michael Weiszbrod
564		Michael Weiszbrod
565	To track MOR review process, access MOR documents, set up work plans for MOR reviews and validate required documents. Process voucher and certification navigation, and special claims. Call center calls are logged into system, updated, resolved, and viewed by Asset Managers/Managers.	Michael Weiszbrod
566		Michael Weiszbrod
567	Foreclosure (FR) is an exception based reporting system from Emphasys Software that the Finance Division uses to track MSHDA mortgage loans through the foreclosure process.	Michael Weiszbrod
568		Michael Weiszbrod
569	Multi-family Tenant Data and HUD reporting (TRACS) system for assisted housing. Software includes HUD billing process.	Michael Weiszbrod

	C	D
591	Sends HAP from HUD to developments for Project Based Contract Administration (PBCA) and Traditional Contract Administration (TCA) on a monthly basis.	Michael Weiszbrod
592	Provides connectivity to Emphasys/AOD products - LT, SF, FR, Lender Portal. Also direct access to the servers (MSHDA3-CTX1CEA6 - Citrix XenApp Plugins for Hosted Apps) for the Administrator to post pages and documents to the Lender Portal.	Michael Weiszbrod
593	TRACS is a HUD computer system developed to help improve financial controls over assisted housing programs by automating manual procedures and incorporating automated controls. TRACS provides information on the Voucher Query application, Certification Query application, and the Tenant Unit Address Query application.	Michael Weiszbrod
594	iMAX is a web-based communication system that provides Contract Administrators (CAs), Owners, Management Agents, and Service Bureaus who have subsidy contracts with HUD to transmit to HUD tenant data and voucher files.	Michael Weiszbrod
595	The LOCCS is the HUD's primary disbursement and cash management system, currently managing disbursements for the majority of HUD Programs, including Section 8 Contract Adminstrators (CA). LOCCS automates many recipient payment decisions, providing cash management savings using electronic funds transfer, and ensures payments are made in a timely manner but not in excess of the recipients cash needs.	Michael Weiszbrod
596	Measures the physical condition of HUD properties through an inspection process to determine whether the property is meeting the standard of decent, safe, sanitary, and is in good repair.	Michael Weiszbrod
597	APPS is an automated management tool that utilizes the advantages of internet technology so that HUD may improve communication on policy and procedural matters throughout the Departments, increases its management and oversight activities with its Industry business partners, and serves as a clearinghouse for Participant information.	Michael Weiszbrod
598	MSHDA staff run credit reports on homeowners applying for PIP loans and StepForward monies.	Michael Weiszbrod
599	Provides MSHDA/State of Michigan a place to put current events, announcments, items for sale. This was created to stop the "allmshda" emails that wer occurring.	Michael Weiszbrod
600	Provides a way to notify MSHDA staff when an incomming package is ready for pickup	Michael Weiszbrod
601	This service provides an immediate solution for the Government and Media Affairs division and the internal stakeholders they interface with.	Michael Weiszbrod
602	This service would provide MSHDA with an automated means of housing and sharing stakeholder contact information and contact engagements. It would allow the agency to share this data with appropriate internal stakeholders, and stakeholder partner agencies such as MEDC and MDOT.	Michael Weiszbrod
603	This service develops encrypted environments for MSHDA and all State of Michigan data. It encrypts data at rest and in transit.	Michael Weiszbrod
604	This service would provide MSHDA with an automated means of housing and reporting data related to environmental requests and concerns tied to MSHDA projects. It would provide workflow capabilities to ensure that appropriate tasks are completed for each environmental concern. MSHDA currently has an MS Access database that provides some of this functionality. This service would be moved to a more robust database platform and improve known functional deficiencies.	Michael Weiszbrod
605	This service would provide the MSHDA Housing Choice Voucher Program (HCVP) staff and contracted stakeholders with a secure automated means of storing and retrieving documents related to this program. These documents are currently filed in paper format in various locations throughout the State of Michigan.	Michael Weiszbrod
606	This service would provide the MSHDA agency with automated storing and retrieving of documents. Virtually all documents entering the building would be scanned and delivered into division folders. This would allow MSHDA to become largely paperless in its processing.	Michael Weiszbrod
607	This service would provide the MSHDA HCVP staff with an automated tool to improve performance and reduce errors related to tenant application and recertification processes.	Michael Weiszbrod
608	This service would provide MSHDA with the ability to deliver online training to internal and external agency stakeholders via secured online Internet-based access. This service will provide training resources to assist MSHDA with the development of online training, as well as providing an automated means to track training compliance and testing data.	Michael Weiszbrod
609	This service would provide online access to MSHDA investments. This tool will allow agency stakeholders to list selected investments from selected locations within the State. This service is currently in BETA form, and is in review to determine additional needs before rolling out to the agency for production use.	Michael Weiszbrod
610	This service consolidates a large number of historical and new CSV loan files into a database. It allows for workflow processing of data, and regulatory reporting that is not possible in the flat-file environment today. Forms and letters will also be an offshoot of this initiative.	Michael Weiszbrod
611	This service would add to existing services used primarily by the Multi-Family Compliance division in the Compliance Information Application (CIA). This is a custom-built application written, supported, and hosted by DTMB.	Michael Weiszbrod
612	This service replaces the antiquated ARGUS Information Management system. There are key improvements requested for: better analysis and management of historic sites, automated workflow capability to track projects through completion, and secured third-party access to data.	Michael Weiszbrod

613	This service would provide automated tools to determine who has security access to what within our IT applications. It will also allow MSHDA to determine what access was made by individuals prior to severing from MSHDA employment. This will likely start with our major systems (Emphasys & Agate) and then expand to other systems as needed.	Michael Weiszbrod
614	This service provides an application and online interface into user application security information, and interfaces applications with the database.	Michael Weiszbrod
615	Mapping software	Michael Weiszbrod
616	Several tables, stored procs, and views to provide a place to monitor the Funding Round.	Michael Weiszbrod
617	Interal password protected data base containing Project Based Contract Administration (PBCA) properties information.	Michael Weiszbrod
618	Webservice to build drivetime polygons for spatial queries	Michael Weiszbrod
619	Webservice to validate and locate Michigan addresses and provide latitude and longitude	Michael Weiszbrod
620	Webservice to support geographic searches. Send point or polygon and list of tables to search and returns spatial data.	Michael Weiszbrod
621	Back-end system to manage data for the Homeownership Counseling Agency Search	Michael Weiszbrod
622	Front-end web search for end users to find counseling agencies by county	Michael Weiszbrod
623	Webservice to locate subsidized housing info geographically	Michael Weiszbrod
624	This website is a collection of preservation data infrastructure consists of the collection by multiple organizations (HUD, USDA-RD, MSHDA, PHA) of a standard set of variables on assisted properties for the purpose of analyzing/maintaining preservation needs. Internal/External users will have access to search/query data and run reports. Comphrensive listing of affordable housing in Michigan (rental subsidies availability for low income - data base would include entire state of Michigan).	Michael Weiszbrod
625	This application allows us to upload data from our partners to display on the MIPIE website. The importer allows records to be merged, updated, added, deleted. The importer will compare current data to new uploaded data for discrepancies/additions/changes.	Michael Weiszbrod
626	Search site for grants, loans, services related to the Cool Cities Initiative.	Michael Weiszbrod
627	Used to manage data viewed in the Michigan Resourse Toolbox	Michael Weiszbrod
628	Search by address for State House and Senate Districts, US House District, Census Tract, and County	Michael Weiszbrod
629	Provides Compliance department with data/editing/reports and a basis for other applications such as MPI, OPIC and others	Michael Weiszbrod
630	Calculates Point score at a selected location. this is part of the LIHTC application and is related to the Qualified Allocation Plan.	Michael Weiszbrod
631	Provides property owners the ability to respond to findings found during a physical inspeciton using MPI data collected on violations is responded to through this app	Michael Weiszbrod
632	This application allows collection of inspection data from contractors and then they can upload the data to the CIA system. This system is a client side application that communicates with the state (CIA) through a web service.	Michael Weiszbrod
633	Search tool for finding subsidized housing within a geographic region	Michael Weiszbrod
634	Allows agencies to input data for NSP funds analysis and Weatherization Stimulas assistance. SHPO then analyzes the data and makes a recommendation to whether it is approved for funding.	Michael Weiszbrod
635	Webservice to make to GIF map given a bounding rectangle and a scale.	Michael Weiszbrod
636	Access database created within SOM network to tract lender and county information.	Michael Weiszbrod
637	This is to test and migrate to supported servers for the Message Switch's and LEIN Archive	Gordon Mayes
638	This is to test and migrate to supported servers for the Oracle Databases	Ramesh Deveran

648	Upgrade JBOSS Production Environment to current supported version	Rick Ludy
649	This is to migrate all MSP outstate sites to a minimum 10 MB Connection to the network	Casey Wyzlic
650	The goal is to update to XML between the National Crime Information Center (NCIC) and National Law Enforcement Telecommunications System (NLETS) to allow for transactions that are not currently available as well as ensure continued availability to existing transactions in the future. Therefore, programming is needed to transform the Law Enforcement Information Network (LEIN) messages into an XML format. The XML format allows LEIN messages to be in a common language allowing information to be shared easily and more efficiently among our criminal justice partners. NCIC and NLETS continue to move to XML and away from their 30 plus year old "tagged format transactions". Michigan needs to modernize to ensure continued access to data outside of our state only available through these systems (NCIC/NLETS).	
651	The purpose of this project is to develop a state-wide information exchange system to eliminate the redundant entry of information required to request, approve, and issue warrants for arrest, as well as the subsequent criminal justice processes (i.e. jail booking, adjudication, criminal history reporting). Those processes include information exchanged with prosecutors, courts, LEIN, Criminal History Database, the State Forensic Laboratory, and the State Court Administrative Office. The first step of this project is to design a system and establish protocols and standards for exchanging information among criminal justice agencies from the time that the criminal complaint is taken by the law enforcement agency. This design will be based around the National Information Exchange Model (NIEM), which is the global standard, allowing for ease of design and communication by other jurisdictions. Once the business requirements and technical design is created, we can then begin programming towards a solution.	
652	This proposal is to request funding to provide for the replacement of equipment based on the equipment's "life cycle" which is determined by industry standards, manufacturer recommendations, and overall condition of the equipment. Lifecycle components include antennas, microwave systems, RF quantar intellirepeaters, network devices, dispatch consoles and the on-site shelters and supporting HVAC infrastructure. The majority of the equipment has the following issues: • Major components of the MPSCS are no longer manufactured and/or are not supported by the manufacturer. • Last date of manufacture for the Connectivity Network was 2001 with its current service support level as "Best Effort" based on parts availability as parts are no longer available from manufacturer. • Portions of the Connectivity Network are at capacity. • Risk of mission critical communications failure. • Portable radio coverage challenges in Flint and Pontiac. Trooper/Officer safety concern.	
653	The Michigan State Police (MSP) has been approached by the Saginaw County Sheriff's Office (SCSO) to take over support of their records management system called Area Records Management System (ARMS). SCSO has been operating on the ARMS system for over six years and has expanded it from a single agency program to a multiagency system that currently encompasses 10 counties and approximately 50 law enforcement agencies. Saginaw is no longer in a position to support the system. They can no longer continue to provide the vision and capabilities to further this system to other users as the system has grown too large for them. They would like to return the system to the state and allow MSP to continue to expand the footprint of the ARMS system throughout the state.

654	The purpose of this project is to build central tool that can be used to collect information for assets and utilize these in an Executive Information System (EIS) environment. Existing asset management systems will then be integrated with this central system.	Suzanne Pauley
655	Provide a tool for DTMB to manage the State's software license inventory to include: 1. License procurement data collection / record utilization 2. Software installation data collection 3. Integration of procurement data vs. installation data 4. Reporting 5. Inventory Assignment/Procurement (tracking movement and transfer of licenses) 6. Software audit policy & procedure 7. Common software desk reference to provide information on SOM purchased and developed software.	Lisa Evani
656	This "project" functions at a program level for multiple legacy modernization projects. Deliverables include: - Documented application portfolio management process and evaluation model - Execution of initial rationalization and business cases for replacement/migration candidates	Virginia Hambric
657	This "project" functions at a program level for multiple agency projects that will receive a portion of the $47M allocated to DTMB. Deliverables include: - Business case for increased funding (complete) - Short-, medium-, and long-term investment plan - Business metrics for ongoing investment performance measurements	Virginia Hambric
658	Objectives include: - Elevate importance and enforce Enterprise Architecture as an essential function for customer satisfaction and managing TCO. - Increase the EA scope to include coverage of data/information, integration, solution and business architecture. - Align the EA program to a standard industry EA methodology or EA framework. Deliverables include: - EA future state roadmap	Virginia Hambric
659	This "project" functions at a program level for multiple cost-saving and value-add opportunities. Examples include: - Conduct analyses to capitalize on investment decisions that will lower costs or provide added value to the State - Conduct feasibility study for citizen-centric portal for all State agency public data - Further investigate data center sourcing options for best value - Conduct call center analysis to ascertain optimization, consolidation and other cost-saving opportunities - Perform network/broadband growth study to determine if future requirements require additional investment.	Virginia Hambric
660	Objectives include: - Identify resource and skills gaps in the service management organizational model and close those gaps by: - Training existing staff resources - Attracting new staff resources - Attract and retain staff by better defining the job titles and career paths for ICT resources	Virginia Hambric

662	MSP - Michigan State Police	MSPE – ICT – B6 Establish Service Management Model
663	MSP - Michigan State Police	MSPE – ICT – B7 Create Pooled Resources
664	MSP - Michigan State Police	MSPE – ICT – B8 Enhance Responsibilities and Capabilities of ePMO
665	MSP - Michigan State Police	MSPE – ICT – B9 Establish CTO Organization

	C	D
661	Objectives include: - Clearly define the roles and responsibilities within DTMB's customer relationship model - Establish a role that allows DTMB to understand the business needs of its customers Deliverables include: - RACI model that defines customer relationship management roles and responsibilties - Revised organization chart that describes new customer relationship management model	Virginia Hambric
662	Objectives include: - Clearly define the roles and responsibilities wthin DTMB's service management model - this includes the Service Portfolio Manager and Service Managers - Define Operating Level Agreements (OLA) between service management and other areas of the DTMB-IT organization Deliverables include: - RACI model that defines service management roles and responsibilities - Revised organization chart that describes the new service management model	Virginia Hambric
663	Objective of this project is to better leverage the skill sets of DTMB employees across the State. Deliverables include: - RACI model that defines the new pooled resources - Revised organization chart that describes the new pooled resources - Transition plan to pooled resources	Virginia Hambric
664	Objectives include: -Enable the ePMO to lead the prioritization of projects across the enterprise and to efficiently allocate State staff resources - Ensure consistent application of project management processes across all projects. Deliverables include: - RACI model that defines ePMO roles and responsibilities - Revised organization chart that show the ePMO reporting to the Solutions Portfolio Manager	Virginia Hambric
665	Objectives include: -Clearly define the roles and responsibilities of the CTO -Evaluate the importance of enterprise architecture (EA) -Formalize processes to transition innovative solutions into the enterprise service catalog Deliverables include: - RACI model that defines CTO and EA roles and responsibilities - Revised organization chart that shows EA reporting to the CTO (complete)	Virginia Hambric

	A	B
666	MSP - Michigan State Police	MSPE – ICT – C11 Enhance Current Client Relationships
667	MSP - Michigan State Police	MSPE – ICT – C12 Explore New Customer Partnerships
668	MSP - Michigan State Police	MSPE – ICT – C13 Address Unfulfilled Customer Requirements
669	MSP - Michigan State Police	MSPE – ICT – D14 Implement Procurement Fundamentals

	C	D
666	Objectives include: - Position General Managers as the strategic partners of DTMB customers - Develop IT strategic plans for customers that align with IT direction of the State - Measure customer satisfaction and maintain high satisfaction levels Deliverables include: - IT strategic plans for all customers	Virginia Hambric
667	Objectives include: - Develop a strategy and processes for marketing services and solutions to potential partners - Develop partnerships where local governments and State, federal and commercial organizations use DTMB services because services are high-quality and price-competitive Deliverables include: - Formal DTMB service and solution marketing strategy - Market asssessment of potential DTMB partners that documents potential partner business needs and a market pricing anlaysis for possible shared solutions - Signed partnership agreements with new partners	Virginia Hambric
668	Objectives include: - Develop a strategy and processes for marketing and solutions to potential partners Deliverables include: - Service offerings in the service catalog for mobile and BI solutions	Virginia Hambric
669	Objectives include: - Align procurement function with best practices and adapt processes and procedures - Create a future operationg model for Procurement and standardize all procurement processes - Identify procurement documents that can be standardized to improve efficiency and effectiveness of the procurement process - Delegate agency-specific, requirements-driven procurements to agency purchasing staff and/or GMs to allow DTMB procurement staff to focus on more strategic procurement efforts Deliverables include: - Documented procurement future operating model - Documentation for re-engineered business processes - Procurement manual(s) - Standardized procurement templates - Procurement training charter and plan	Vic Mankowski

	A	B
670	MSP - Michigan State Police	MSPE – ICT – D15 Develop Vendor Management Discipline
671	MSP - Michigan State Police	MSPE – ICT – D16 Prepare and Plan for the Procurement of an eProcurement
672	MSP - Michigan State Police	MSPE – ICT – E17 Institute ICT Investment Management
673	MSP - Michigan State Police	MSPE – ICT – E18 Improve Project Portfolio Management

	C	D
670	Objectives include: - Establish vendor management function and grow project oversight capabilities to reduce rist and costs - Develop standard contract management tools and processes - Identify and assign Legal Counsel for vendor management support Deliverables include: - Vendor management charter, organization model and staffing plan - Contract management tracking tool - Contract portfolio scorecard - Renegotiation target matrix	Vic Mankowski
671	Objectives include: - Perform preparatory work; procure and implement an automated eProcurement system that meets the State's minimum requirements - Research and establish a future state revenue model to assist in supporting the procurement functions, including both appropriate staffing and deployment of the eProcurement system Deliverables include: - eProcurement business case (complete) - Documented revenue strategy/funding model	Vic Mankowski
672	Objectives include: - Establish a process for reviewing and approving funding requests for new and ongoing ICT projects. - Have ICT projects become individual line-items inthe DTMB budget Deliverables include: - RACI for investment review processes	Virginia Hambric
673	Objectives include: - Improve the call for projects process so that DTMB can allocate resource against a defined list of priorities - Allow customers to communicate the importance of their projects during the prioritization process Deliverables include: - RACI for ICT project prioritization across the enterprise - Implementation of the Project Portfolio Management (PPM) tool (recommendation on approach is approved)	Virginia Hambric

	A	B
674	MSP - Michigan State Police	MSPE – ICT – E19 Enhance Project Management
675	MSP - Michigan State Police	MSPE – ICT – F20 Define Enterprise Service Catalog
676	MSP - Michigan State Police	MSPE – ICT – F21 Define and Implement Sourcing Strategy

	C	D
674	Objectives: - Manage ICT projects against defined scope, schedule and budget - Appropriately manage client change requests to project scope, schedule or budget - Facilitate communication between customers and DTMB on ICT project status Deliverables include: - Documented project management standards and templates	Virginia Hambric
675	Objectives include: - Normalize different services and provide end user with single service catalog with end-user-oriented services. - Provide standard service definitions and performance criteria in the enterprise service catalog - Develop a rate card that articulates the price for services and is transparent about what is included in the rate. - Accomodate tiered-pricing of services as required Deliverables include: - Enterprise Service Catalog	Virginia Hambric
676	Objectives include: - Determine which services DTMB should deliver internally and which services it should outsource - Contract services that should be outsourced - Develop a process to periodically review the sourcing business case for each service Deliverables include: - Sourcing strategy document - Business case for each service to determine immediate sourcing decisions and model for future decisions	VIrginia Hambric

	A	B
677	MSP - Michigan State Police	MSPE – ICT – G22 Increase I/O Maturity and Automation
678	MSP - Michigan State Police	MSPE – ICT – G23 Enhance Security Discipline
679	MSP - Michigan State Police	MSPE – IS – DCO – Great Lakes Information Technology Center
680	MSP - Michigan State Police	MSPE – IS – DCO – SunGard CMS Server Refresh
681	MSP - Michigan State Police	MSPE – IS – DCO – TBHC Risk Reduction
682	MSP - Michigan State Police	MSPE – IS – MPSCS – Rebanding
683	MSP - Michigan State Police	MSPE – IS – OA – MS Desktop Upgrades – Office 2010
684	MSP - Michigan State Police	MSPE – IS – Telecom – Avaya Upgrade Switch Consolidation
685	MSP - Michigan State Police	MSPE – IS – TS – DMX-4 to VMAX Migration
686	MSP - Michigan State Police	MSPE – SBO – FY13 – MAIN Audit Remediation

	C	D
677	Objectives include: - Improve ICT operations through automation of manual processes within Infrastructure that focus on customer-facing processes around incident, problem management, provisioning, etc. - Capitalize on usage of tools such as run book automation, provisioning, event management, status monitoring, performance monitoring and alerting - Improve ICT process maturity by implementing a comprehensive ITSM road map across the ICT towers for foundational ITIL processes such as incident, change, and asset management - Map out and automate interfaces, handoffs and trigger points between core processes; integrate (or adopt single) configuration management databse (CMDB) across the core ICT towers Deliverables include: - Business case for tool acquisitions - Implementation of ICT operations tools - ITSM road map and updated documentation	Virginia Hambric
678	Objectives include: - Build on current strengths and continue to adapt to new threats - Conduct a comprehensive security audit and risk assessment, and implement corrective measures - Consolidate all security monitoring operations into one organization and stand up a true 24/7 SOC function with proactive monitoring skills - Set up a process to perform vulnerability scanning and compliance across all areas of ICT infrastructure to include servers, network devices, desktops and mobile platforms; improve vulnerability management by patching desktops to application level Deliverables include: - Completed security audit/risk assessment - Implementation plan for 24/7 SOC operations - Establishment of 24/7 SOC operations	Virginia Hambric
679	Addresses audit findings. Replacement of the existing aging facility. Direction on the GL-ITC will provide answers on the future of the three existing facilities.	Dick Novello
680	Hardware refresh of 6 servers for the Sungard CMS application. The 3 servers in the Production environment are located in the Lake Superior Hosting Center and the other 3 are the Disaster Recovery Servers located in the Traverse Bay Hosting Center.	Matt Caterino
681	TBHC is over subscribed for electrical, cooling and backup capacity. This project will work with the General Managers to determine candidates for virtualization or migration and complete the migration to lower TBHC resource requirements.	Bob Weldon
682	Federal mandate to migrate MPSCS radio system to narrow band frequencies. Vendor managed and funded, fixed cost project. MPSCS is refunded for hours applied to this project.	Gerald Leach
683	Microsoft Office 2003 is the current State standard. The State's Microsoft Enterprise Agreement provides the software licenses to upgrade the State's desktops to Office 2010.	Jon Seeger
684	1) Upgrading Communictaion Manager on the Avaya swtiches.SOM is 3 versions behind, "best effort" support only, and does not provide the funcationality required for current and on-going technologies. 2) Implement Dial Plan which will allow the merging on the switches without telephone number issues. 3) Merging from Saginaw, Detroit and Grand Rapids swichted into the Captial and Secondary switches	Kristen Furseth
685	Project to migrate storage array from outdated DMX-4 Technology to new VMAX to modernize and update the storage infrastructure. Replaces aging infrastructure, provides more functionality and services, with less complex administration, and maintain or lower service rates.	Rick Hoffman
686	Required to remediate findings found in the 2009 OAG Report and establish the IT control requirements, some of which were incorporated into the new MAIN Hosting contract effective 1/2012.	Dave Gabler

701	MVA - Military and Veterans Affairs	MVAE – ICT – A3 Enforce Enterprise Architecture

	C	D
687	Implement new Host On Demand 3270 Emulation Software with Encryption	Linda Dunn
688	Enhance the Time and Expense (MiTES) web application by including rule based functionality and improved accessibility.	Lisa Schroeder
689	Enhancement of current time and attendance/labor distribution system (DCDS). The system will leverage the existing DCDS system as an enhancement using current and available technologies.	Lisa Schroeder
690	Break the tie bar between time and distributions (allow for distinct processing between time entry and labor distribution), and provide reporting and automation for equipment.	Lisa Schroeder
691	Convert Business Objects Desktop Intelligence reports to Business Objects Web Intelligence reports. After this migration, this will allow the next version of Business Objects to be installed and pushed. Last year this project was called: Business Objects Web Intelligenc converserion (Complete with original typos)	Neil Miros
692	Convert Business Objects from BOE XI 3.1 SP3/SP4 to either Business Objects from BOE XI 3.1 SP5 or Business Objects from BOE XI 4 .x	Neil Miros
693	Convert Business Objects Xcelsius dashboard to newer version with additional functionality.	Neil Miros
694	Convert exisiting office written and supported application that extracts all data to MIDB to use standard ETL tool.	Neil. Miros
695	As part of the new e-Procurement RFP, there are requirements for real time data exchanges between MAIN and the new e-Procurement system. Additionally, the vendor file registry contained within MAIN will be the record source for e-Procurement and will therefore send updates to the new e-Procurement system. A data conversion for all ADPICS data within MAIN is also a requirement of the e-Procurement RFP. Please note: Financial projections through FY 2023 are on template candidate in Sharepoint. Changepoint data entry limit is FY 2017	Vic Mankowski
696	This project entails replacement of Michigan Administrative Information Network Financial Administration and Control System (MAIN FACS). MAIN FACS consists of a suite of applications, which are Relational Standard Accounting and Reporting System (R*STARS) mainframe application, Report Management and Distribution System (RMDS) mainframe application, Contract & Payment Express (C&PE) web application, and Electronic Transaction Processing (ETP) web application.	Sharmila Patke
697	Replacement of existing electronic medical record system. Joint request for proposal for a shared solution for electronic medical record, referred to as EMBRS or EMR.	Atif Iqbal (DTMB)
698	Migration of the MVA Desktop Environment to the Enterprise M1 Standard. Currently working with DMVA to determine a schedule for delivery of the currently supported version of the Office Product suite.	
699	This "project" functions at a program level for multiple legacy modernization projects. Deliverables include: - Documented application portfolio management process and evaluation model - Execution of initial rationalization and business cases for replacement/migration candidates	Virginia Hambric
700	This "project" functions at a program level for multiple agency projects that will receive a portion of the $47M allocated to DTMB. Deliverables include: - Business case for increased funding (complete) - Short-, medium-, and long-term investment plan - Business metrics for ongoing investment performance measurements	Virginia Hambric
701	Objectives include: - Elevate importance and enforce Enterprise Architecture as an essential function for customer satisfaction and managing TCO. - Increase the EA scope to include coverage of data/information, integration, solution and business architecture. - Align the EA program to a standard industry EA methodology or EA framework. Deliverables include: - EA future state roadmap	Virginia Hambric

706	MVA - Military and Veterans Affairs	MVAE – ICT – B7 Create Pooled Resources
707	MVA - Military and Veterans Affairs	MVAE – ICT – B8 Enhance Responsibilities and Capabilities of ePMO

	C	D
702	This "project" functions at a program level for multiple cost-saving and value-add opportunities. Examples include: - Conduct analyses to capitalize on investment decisions that will lower costs or provide added value to the State - Conduct feasibility study for citizen-centric portal for all State agency public data - Further investigate data center sourcing options for best value - Conduct call center analysis to ascertain optimization, consolidation and other cost-saving opportunities - Perform network/broadband growth study to determine if future requirements require additional investment.	Virginia Hambric
703	Objectives include: - Identify resource and skills gaps in the service management organizational model and close those gaps by: - Training existing staff resources - Attracting new staff resources - Attract and retain staff by better defining the job titles and career paths for ICT resources	Virginia Hambric
704	Objectives include: - Clearly define the roles and responsibilities within DTMB's customer relationship model - Establish a role that allows DTMB to understand the business needs of its customers Deliverables include: - RACI model that defines customer relationship management roles and responsibilties - Revised organization chart that describes new customer relationship management model	Virginia Hambric
705	Objectives include: - Clearly define the roles and responsibilities wthin DTMB's service management model - this includes the Service Portfolio Manager and Service Managers - Define Operating Level Agreements (OLA) between service management and other areas of the DTMB-IT organization Deliverables include: - RACI model that defines service management roles and responsibilities - Revised organization chart that describes the new service management model	Virginia Hambric
706	Objective of this project is to better leverage the skill sets of DTMB employees across the State. Deliverables include: - RACI model that defines the new pooled resources - Revised organization chart that describes the new pooled resources - Transition plan to pooled resources	Virginia Hambric
707	Objectives include: -Enable the ePMO to lead the prioritization of projects across the enterprise and to efficiently allocate State staff resources - Ensure consistent application of project management processes across all projects. Deliverables include: - RACI model that defines ePMO roles and responsibilities - Revised organization chart that show the ePMO reporting to the Solutions Portfolio Manager	Virginia Hambric

Begin offering MBOS as a Local Agency L&P solution	Steve Wensko
760	Establish a stable operational funding source for the Michigan Business One Stop application. Allow for normal maintenance and enhancement activities on an Enterprise basis.	Steve Wensko
761	Move the existing legacy STAR and MARCS systems into the integrated tax system in SAP. The State Treasury Accounts Receivable (STAR) was implemented in 1988. STAR records receivable data that is sent both electronically and via paper from Treasury tax divisions and over 30 state agencies. The system contains over 1,000,000 active accounts totaling more than $3 billion in receivables. STAR has 72 interfaces to various departments and agencies within the State of Michigan, as well as, vendors, courts, counties, and universities. The Michigan Accounts Receivable Collections System (MARCS) went into production in 1999. MARCS annually processes over 26.5 million transactions totaling more than 7 billion. STAR is the master of the financial accounting components. The MARCS system is used to document debtor interaction and administer the collections process and is used by both Treasury staff and Treasury's third party collections partner. This project will be split into two phases for implementation: Phase I - Business Tax Collections and Agency Debt, and Phase II Individual Tax Accounts	Sue Stephens
762		Susan Stephens
763	Data entry currenlty uses DCR software to manually key payments, tax returns, non-obligated spouse (NOS) forms, garnishments and other various forms. Once keyed the data is batched for processing to various systems including TC02 STAR, TC03 SUW, TC06 IIT, TC10 FID, TC17 SBT, TC35 Motorfuel, TC43 Estate, TC76 Bottle, TC86 Supplemental and TM01 GAL. The DCR software is no longer supported and needs to be replaced. The various systems that use the DCR have different needs that require different solutions. For TC02 STAR the DCR software is used to process a high volument of payments. Based on a previous feasability study it has been determined that IBM DataCap software can replace the funcationality of the DCR related to STAR payment batching	Ann Good
764	Data entry currenlty uses DCR software to manually key payments, tax returns, non-obligated spouse (NOS) forms, garnishments and other various forms. Once keyed the data is batched for processing to various systems including TC02 STAR, TC03 SUW, TC06 IIT, TC10 FID, TC17 SBT, TC35 Motorfuel, TC43 Estate, TC76 Bottle, TC86 Supplemental and TM01 GAL. The DCR software is no longer supported and needs to be replaced. The various systems that use the DCR have different needs that require different solutions. For TM01 GAL the DCR software is used to process a high volument of garnishments. Based on a previous feasability study it has been determined that IBM DataCap software can replace the funcationality of the DCR related to GAL garnishment batching	Ann Good
765	Modify the year end report programs to correct issues found during the audit of the STAR	Susan Stephens

767	The Treasury Offset Program is an IRS program that allows states to send their outstanding income tax debts to the IRS in order to receive payments for those debts from IRS refunds. This will require at least the system changes listed below: • Create a STAR program to select the IIT assessments from STAR that are eligible for IRS offset and FTP them to the IRS in a text file. Add a parameter(s) for the selection of IIT assessments with date ranges and the dollar amount of assessments. Minimum requirements are that the total of all IIT assessments on an account is greater than $25 and the IIT assessments are not more than 10 years old (need to determine if this is based on final demand?). • Create a STAR program to pick up the IRS offset payment file via FTP/Gateway • Create a MAIN program or utility to pick up the IRS monies and place them in a fund in MAIN possibly something similar to the GAL SITLIP process, only in reverse. • Create a STAR program to convert the IRS offset payment file to a file suitable for STAR that can be posted in the STAR daily posting run. The program must convert the IRS payments to PSAs to only be applied against IIT assessments, potentially based on certain amounts and % of pay off calculations. • Change STAR IDA posting to write an inteface file to the IRS when an IDAFRC is done to the IRS (an new fund code can be setup for the IRS). The interface file will need to contain the SSN number and refund amount (this is to refund overpayments back to the IRS). • Create a program or utility to send the refunds of overpayments to the IRS.	Ann Good
768	GAL System - Currently the GAL System issues an electronic file to UIA as a report or "remittance advise" on the monies that were offset for the UIA debts on the GAL System. This report serves as an accounting for the paper warrant that is sent to UIA for the refunds offset by Third Party for their debts. We are requesting that these paper warrant payments be sent via Electronic Funds Transfer (EFT) to UIA at the same time that the electronic remittance information is sent. This will allow for better accounting and internal controls of the money being transferred between agencies.	Ann Good
769	A disaster recovery test needs to be completed annually. Complete a disaster recovery (DR) test of the Treasury Contact Center DATABASE servers. A test of our DATABASE backup systems needs to be conducted on an annual basis to ensure that installed DATABASE hardware and software, in the case of an outage or disaster, provides sufficient redundant resources for continued operations. The DR test will be conducted only for the new Enterprise Unix/Oracle/Siebel database servers, Prod servers HCS271ORACPD001 & 002 in LSHC failover to Test/Devl HCT271ORACTD001 & 002 servers in TBHC. This is not a full-blown DR test of the entire Treasury Call Center System; it does not include any Siebel or Genesys servers (there are no redundant backup servers for these), or the SOM computer network or phone system, or any other non-DB components	Larry Steckelberg
770	Genesys is an existing platform used in Customer Contact, both in conjunction with Siebel and as the platform for the Interactive Voice Response (IVR) applications. This request would primarily require MiECC time, limited DTMB time and additional server costs. The intent is to start with one tax type (Individual Income Tax) and then move to other areas. These three additional applications would be implemented over time and across the Tax Processing Bureau to accomplish the following: 1. Skills Assessor - a testing tool that could be utlized to measure learning achievement objectively vs current subjective measures. The results of the testing used in establishing skill levels for use in skills based routing of work items as well as need for further training and testing/evaluation of work. 2. iWD - a system that would interact with our existing systems (Siebel, FileNet, Bridge, SAP, etc.) to "push" work items to the appropriately skilled individual based on service level goals and other business rules. While accomplishing the distribution of work, the system will also gather information on the time it takes to process work items (returns, correspondence, etc. by error code or reason for contact depending on work item). iWD would provide Treasury with objective insight into work time required to accomplish tasks vs. the current self-report system as well as eliminate and automate the current manual routing and distribution of errored returns, error lists reporting etc.	Scott Lonberger
771	Print2Web Pilot The project requested would provide a mechanism and process to convert Treasury mainframe reports to PDF documents and write them to a secured server rather than print them. The pilot would determine security requirements for use throughout Treasury for all mainframe reports at various levels of sensitivity. The pilot will include only security compensating control reports. After the proof of concept, the various business clients would be made aware of the capability and be able to determine whether they would want to request changes to the work flow jobs to print as PDF to a server.	Shannon Priest
772	Project to migrate storage array from outdated DMX-4 Technology to new VMAX to modernize and update the storage infrastructure. Replaces aging infrastructure, provides more functionality and services, with less complex administration, and maintain or lower service rates.	
773	Consolidate agency call centers to leverage call center agent staff across agencies. Further leverage enterprise call center IT infrastructure and provide cloud service offering.	Jeanne Irwin
774	1) Upgrading Communictaion Manager on the Avaya swtiches.SOM is 3 versions behind, "best effort" support only, and does not provide the funcationality required for current and on-going technologies. 2) Implement Dial Plan which will allow the merging on the switches without telephone number issues. 3) Merging from Saginaw, Detroit and Grand Rapids swichted into the Captial and Secondary switches	
775	Project to identify all servers Enterprise-wide with Windows2003 Operating Systems and remediate/upgrade to Windows2008 Operating System. Windows2003 is no longer the standard OS and will no longer be supported after July 2015.

776	A Serena Test Environment is needed to test future versions of Serena products without affecting the Production environment.	Vanessa Pugh
777	This request is to update the TL56 EVIP revenue sharing system payments for the FY2014 fiscal year law changes. A new payment distribution type is needed for the new FY2014 EVIP payment category, Unfunded Accrued Liability Plan (UALP). The UALP payments will be paid in two equal payments in June and August.	Bruce Colf
778	This request will allow Unclaimed Property to image inquiries, claims and supportin claim documents via FileNet.	Bruce Colf
779	To approve hours for DTMB to conduct a feasability study to 1) Consolidate the databases used by the Disclosure office to increase efficiency and quality of data. 2) Incorporate the MSExcel worksheets containing existing agreement, contacts and revenue information into the databases. 3) Evaluate the database needs of the Disclosure Office and recommend a long term database solution that DTMB will support..	Jill Stigall
780	Please update the TA12 Income Tax Report System for the 2013 tax year. The TA12 reports provide totals for the various income tax credits (e.g. homestead property tax credit, community foundation etc.) and are used to support a variety of accounting adjustments during book-closing as well as providing statistical information such as credit costs. The TA12 reports also provide a check on the accuracy of the income tax PC simulation program. It is possible that a new credit or voluntary donation might be added for the 2013 tax year but at this time it is unclear.	Jay Wortley
781	Posting tax forms to the Internet	Darron Birchmeier
782	RPD would like to find alternatives to paper storage of large reports. Storing this data on a secure website is a potential alternative. Reports must be easily retrievable for up to ten years after they are produced. Data must be stored securely with access allowed only by Treasury authorized employees. Designated staff should be able to search the text, download or export data to State files and print needed information. 1) Set up secured share site, 2) Modify WFL to use Print2Web, 4) Research the potential to change WFLs of reports not needed 3) Add security to TreasLan, 3) Train RPD staff, 4) Test, 5) Move WFL to Production	Tom Sharpe
783	Based on results of FS-88 Feasibility Study RPD would like to implement recommended CEPAS process improvements. Explore options for improving efficiency of CEPAS process for retrieving files from vendor and processing posting files for agencies. Streamline current TIDAL jobs. Create a resend program for failed posting file pushes that requires entry of date and allows option to re-push entire file or a single application file. Improve process of getting posting file information to agencies. Explore option of web services where agencies retrieve files themselves when they are ready. DTMB/Treasury pull file from FDGS and split by application or transaction level and leave information in database. Internal agencies and external vendors must have access to their application data. They must not be able to retrieve data of others.	Brenda Vincent
784	Based on results of FS-75 Feasibility Study RPD would like to implement alternatives to storage of warrant data currently saved on microfiche. We now have a warrant register that gives details of printed vendor warrants and an edited paid microfiche that provides information on the remitted warrants. The microfiche process is becoming obsolete and is not a secure method of saving confidential payment information. Microfiche must be kept in a locked and secured area with access only by authorized staff and machines to read the microfiche must be maintained. There is risk of obsolescence of this process and if that occurs historic data will be lost. The vendor that produces the microfiche is the only one in the State of Michigan who still handles that form of media. An alternative solution must have warrant information easily retrievable for up to ten years after it is produced. Data must be stored securely with access allowed only by Treasury authorized employees. Designated staff should be able to search the text and print needed information. Also provide options of converting last ten years of microfiche to alternative	Tom Sharpe
785	The Property Service Division is in the process of redesigning its forms in a manner that will produce an XML file from a PDF file. Capturing data from the forms in this manner will allow us to automatically load this information directly into the Bureau's Centralized database, ELITE. The Local Audit and Finance Division is currently processing data in this manner and we are requesting that a loader be created for each of the following PSD forms related to seven different tax exemption programs being redesigned: 1012; 4775; 3828; 891; 3674; 4507; 3427. In addition we wish to have a grader and generator developed for the following forms (1012; 4775; 3828; 891; 3674; 4507; 3427) which capture information that is used to determine eligibility and final certificate approval.	Jim Williams
786	PA 437 of 2012, amendments to the School Bond Qualification, Approval and Loan Act. DTMB hours to make fixes and enhancements to the School Bond Loan Qualification system and also complete a DIT-170.	Mary Martin

787	The Discovery Division of Treasury currently detects fraudulent tax returns through a manual system that utilizes some queries that are written in house by Treasury staff. We wanted to review other options for fraud detection that would provide us with a more analytically robust electronic solution. The Department of Management and Budget completed a state wide competitive bid RFP process to find a solution for fraud detection. SAS Enterprise Fraud Detection System was selected as the state wide standard solution for fraud detection. A contract is in place to provide services for the Michigan Unemployment Insurance Agency (UIA) to detect overpayments of benefits. It is being used to detect fraud in the Dept. Human Services (DHS) Food Assistance Program. There is also provision in the contract for other agencies to use this software (e.g.the Dept.of Community Health (DCH) to detect Medicaid provider fraud and abuse). The Treasury Tax Compliance Bureau (TCB), Discovery, and Tax Enforcement Division would like to use this software for detecting fraudulent tax returns. Currently a system is being	Dave Mefford
788	To better align with ESKORT Quarterly Releases movement of hours from 2011 T2 and T3 to 2012 T1, T2 and T3. Adding 175.5 hours to 2012 T3 to better align with the last deployment. This request is to establish quarterly updates for the ESKORT system for the three quarters of 2012 fiscal year. The quarterly releases will include all necessary updates and improvements for ESKORTS Selection, Audit and Knowledge Base applications. These releases will include implementing the MBT changes into the system, the addition of new MBT Financial and Insurance workbooks, updates to the ESKORT knowledge base for MBT, interest rate updates and ESKORT maintenance releases.	John Migaldi
789	This request is for DTMB hours, Trimesters 1, 2 and 3 2012 to work with Ingenix to implement the following improvements: improve data loads, data integrity, audit trails, user interfaces between DW and ESKORT, make Data Warehouse MBT data useable for TCB including views and calculated fields, XML Resource. Ingenix time and material services have been extended at least through the first two trmesters of 2012 and MDTMB is needed as a technology partner	John Migaldi
790	International Fuel Tax Agreement (IFTA) returns are obtained from flat files produced by the Treasury Special Taxes division. These returns need to be uploaded to the data warehouse so the information can be used by audit selection in support of the IFTA field audit team . IFTA return information is currently a part manual and part audtomated upload and this process needs to be automated more and ETL validation proceedures put in place. The DTMB Center for Shared Solutions will be writing the computer code to validate the data files being loaded to the data warehouse. Index # 24710	John Migaldi
791	I. Create new ETL job to extract the data from the Annual 1099-Misc Extract file received from the IRS and load it into the datawarehouse. II. Create new 1099-Misc table in the datawarehouse incorporating all fields from the IRS file, save for the filler fields.	Stan Weber
792	1. Add fields and appropriate mappings for the following 3 fields: a) 1099-R Dist Code - positions 15-16 b) Direct Sales Indicator - position 599 c) Item Description - positions 600-638	Stan Weber
793	The IRS is beginning a new extract distribution that will be sent monthly to MI Department of Treasury. This file will contain individuals who are likely to be at a higher risk of ID Theft and/or have reported ID Theft in the past. We need to setup a table in the DataWarehouse that will contain this extract. Index # 24750	Kathy McCarthy
794	Change TC06/W12 to replace the text reading format currently in place witha standardized XML format. This change would allow Certified Service Providers (CSPs) and Certified Automated System (CAS) to utilize Michigan's web service as it was intended with the functional application to application transmission of SERs to Michigan without incident.	
795	This RSS is to accommodate changes to the 2012 Tax Year Individual Income Tax by House Bill 4361. Changes eliminate most credits and make substantive changes to Pension Subtraction, Exemption Deduction and Homestead Property Tax Credit calculation. To accommodate these changes it is necessary to increase the error code directory from two characters up to three characters to accommodate the additional errors. The current 99 available errors are almost all used at this time. Further it is necessary to establish a number of new error conditions and implement auto-correction for the majority of these new error conditions. Lastly, it will be necessary to rewrite a number of the existing error conditions. Update the error code directory, update the auto-correction process and update mainframe screens in preperation for 2012 tax year changes per House Bill 4361. We anticipate 300,000 additional errors of which we expect to autocorrect 173,500 of them. In 2010 we had a total of 400,000 errors worked by hand. Increasing the error code directory would be Phase I, and we would like to be completed during the Summer of 2011. Phase II would consist of the Auto-Correcting of errors and the 2012 tax year changes. Phase II would not start until January 2012 due to most of the 2012 tax year changes will not be known until June 2011. Auto-Correcting of errors will consist of Auto-Correcting new errors and Auto-Correcting multiple errors on the same return. For possible 2012 tax year changes, please see attached word document: Provisions of Income Tax Plan.	Terry Wood

796	Registration: House Bill 4361 establishes a new tax liability call Corporate Income Tax (CIT) for Corporations doing business with Michigan. These businesses must be indentified and registered in order to collect payments for this liability. Modify the current Registration System and related processes to autmatically register current businesses plus allow the entry of new businesses. Implementation of Tax System: This request is to secure DTMB Resources for the implementation of the new Corporate Income Tax (CIT). Work on CIT is scheduled to begin in July of 2011 and end in July of 2013. Hours are included for DTMB to work along side our contrator to develop CIT in SAP, make changes to the Legacy side interfaces for the Return load, Payments, STAR and MAIN, attend training on Enhancement Pack 5 and for BASIS Support for this Project. Registration changes will be handled in a separate RSS.	David Gilliand
797	This request is for the 4th phase of system changes needed to the SST payments program to remain compliant with the requirements set-forth by the national SST Governing Board. Effective 1/1/2013 the Simplified Electronic Return (SER) must be made available to all accounts in the TACS Registration database that are registered for Sales and/or Use (SER availability will no longer be restricted to only SST registered accounts). To be included in an attached document to follow: 1. Modify current SER process to allow submission by filers not registered for SST. a. Current SER validations restrict successful transmissions to only accounts registered for SST and existing in the TACS Registration database. 2. Create new rejection acknowledgement for non-SST accounts that are not in the TACS Registration database and attempt to file an SER. 3. MIPC modifications as required to minimize account processing and posting errors for SER filings. 4. Modify display listing of SER data errors at the time a business enters SER data. 5. Update existing SER hover language and error messages as a result of SER availability to non-SST SER filers.	Shannon Priest
798	The purpose of this RSS is to create a stand alone e-file system for Individual Income Tax. It would provide the ability for taxpayers to log into michigan.gov (using shared secrets, MIECC, password and authentication process), and e-file a 1040 income tax return (including the Schedule W and potentially other schedules), a property tax return and/or a home heating credit return. Each of these three lead forms would have; basic calculations, formatting, and required fields. Forms would also have a watermark as copy only or other printing restrictions. After submission, we would have the ability to extract the e-filed data to XML that can be subjected to existing business rules and loaded into JELF and TC06. We would also like to have an acknowledgement process in place, to notify taxpayers their submission was accepted. Finally, we want to provide taxpayers the ability to pay any tax due using the e-pay/CEPAS service. Other forms and schedules would be added in future years.	Scott Lonberger
799	Place holder for Basis team for various SAP projects	
800	This request is to secure DTMB Resources for the MBT, CIT and FTW 2014 Year End form and rule changes. Planning for this project begins in February 2014.. The scheduled Go-Live date is early December, 2014. At this point the hours requested are based on DTMB and Deloitte work on past yearends. A more detailed estimate and Change Request will be submitted after the forms have been developed for 2014. This request covers DTMB hours for changes to the following SAP business taxes: MBT, CIT and FTW along with any Data Warehouse changes due to the 2014 tax forms changing. Changes to Siebel will be handled by the Accenture team.	
801	This RSS will be similar to other year end transitions, the scope of this RSS is not known as of yet. There will be a change to the calculation of the Pension and Schedule 1 for 2013 income tax year. Other changes will be necessary. Updating all of the 90 errors, to bypass the skip a year rule	
802	Establish process to automate the printing and mailing of the approved EFT Filer Enrollment Letter for accounts registered to begin EFT payments. This letter is to be personalized with address information and other variable data from a standardized spreadsheet maintained in Data Management. Once data is transferred to letter, we need the letter to be mailed and a copy of the letter sent to Filenet and a corresponding contact log created in Siebel. This process will likely need to be completed daily - no less than once a week (to be determined). This should be an auto-scheduled with the standard control options for the Business Schedulers

803	Print2Web - Currently the Income Tax system prints reports after each run, weekly, annual, and other ad hoc reports. These reports are printed at the CPC and distributed to Document Control for further sorting and distribution. Print to web would allow our daily balancing and processing reports to be viewed immediately online and avoid printing of reports for increased cost savings. They could also be archived electronically rather than boxed and stored at Records Center. Reports requested for this project are limited to TC06 and TC07.	
804	House Bill 4362. The Governor has proposed changes to MBT for tax year 2012 that will allow it to work with the new Corporate Income Tax (CIT) system. This project will implement those changes in the fall of 2012.	Randy Leyrer
805	Return Processing has taken over from Discovery the processing of property tax credits for taxpayers receiving MSHDA housing rental payments. Taxpayers often fail to exclude the portion of rent paid by MSHDA. Currently these returns stop on a Discovery error. Discovery then runs reports and forwards to Return Processing to work. If this change is implemented returns would stop on an IIT error and auto-correct. Rental amounts will be in a mainframe table. The amount will be display on IITPTC next to rent. Lease agreement dates are in the data base. The date indicates the beginning of the lease period which is 12 months in duration. If there is a lease for the year prior to the return year and a lease for the year of the return, then the taxpayer was under a MSHDA lease for the entire tax period. If the taxpayer only has one lease agreement, again either for the year prior to tax year or of the tax year, the return will error and the taxpayer will be contacted and asked to provide proof of amounts paid. This will put us in position to implement auto-correction for this error next year. If not done at year end hours increase from 104 to 164.	Scott Lonberger
806	Updating four income tax screens: IITSTA - Display new categories of returns and remove obsolete ones. The latest dates of different types of returns processed- refunds, credits, paids etc... display on IITSTA. The breakdown is also done by E-file, 2-D and paper filed returns. Latest receive dates for the different categories of error returns worked by Return Processing is also displayed. A more specific breakdown could be given because new categories of returns and errors that now exist. See TP-132 IITPND - Allow CID access to the IITPND screen. This would allow staff to enter a taxpayer's CID number directly on the IITPND to pull up a taxpayer's account. Currently, the clerk would have to enter this number on a different screen and then go to IITPND. IITHST - Access to the IITHST screen. For the 2012 project we took access away from all screens to go to the IITHST screen. Currently you have to go to IITRTN to go to IITRTN. We have received negative feedback from staff on this and we would like to restore the access from other screens to IITHST.	
807	This request would expand the Income Tax refund approval levels from 7 to 8. Currently TREAS has a table called REFAPPV on IITUPD that has 7 levels and has the refund amount that each level can approve. These levels coincide with the IITEMP data set, and on this data set is every employee and the refund level that they can approve. With the expansion of staff and the different levels of staff, we would like to have the ability to have an 8th level so refunds can be processed more accurately and at an accelerated rate.	
808	Due to legislative changes, as specified under 1937 PA 94, MCL 205.96 (effective beginning January 1, 2014), the following changes are being requested to accommodate the revised accelerated payment requirements. Will need to change how the system calculates sales and use tax liablitly for Accelerated Sales and Use Tax filers. This will also include changes to the sales and use prepayment calculation worksheet. (Forms 2367 & 2449) By the 20th day of the month, accelerated sales and use filers will now make a payment amount equal to 75% of their liability in the immediately preceding month or 75% of their liability for the same month in the immediately preceding year, whichever is less, plus a reconciliation payment equal to the difference between the tax liabiltiy determined for the immediately preceding month minus the the amount of tax previously paid for that month. Changes to following programs include but are not limited to: * Accelerated Sales & Use Deliquency Program - TC03/415

809	Based on the results of TP 273 Feasibility Study for DCR replacement would like to recommend DCR replacement. The feasibility study to replacement DCR System due to age and security vulnerabilities as sited by the IRS. A feasibility study is needed to research and recommend the approperate replacement for the current system. Treasury's DCR system is a crucial part of Treasury's information technology systems. There are over 800 programs written in the DCR proprietary language. These programs have been developed and maintained by Treasury DIT staff over the past 20 years. Atlantic Computer Technology is the only company that supports these DCR programs. The current system is considered a security risk by the IRS. DCR is a COTS package with a proprietary language (called DCR) used to develop screens and screen behaviors, functions, edits, and file maintenance tasks associated with Data Entry system.	
810	1) Upgrading Communictaion Manager on the Avaya swtiches.SOM is 3 versions behind, "best effort" support only, and does not provide the funcationality required for current and on-going technologies. 2) Implement Dial Plan which will allow the merging on the switches without telephone number issues. 3) Merging from Saginaw, Detroit and Grand Rapids swichted into the Captial and Secondary switches	Abhijit Sarkar
811	This project leverages the existing and future networks between the state and local governments, libraries, and schools. It provides redundancy, increased capacity and cost savings to all involved agencies.	Randy Leyrer

813	Integration of the following legacy applications into SAP: **1. Registration** (Business Taxpayer Registration System), **2. Registration application licensing** (Interface between Unemployment Insurance Agency's (UIA) Registration application (now MIBOS) and Treasury's mainframe business taxpayer registration system), **3. Sales/Use/Withholding** (Processing and case management of Sales, Use and Withholding payments & tax returns.), and **4. Sales, Use & Withholding - Streamlined Sales Tax (SST)** (Streamlined Sales Tax processing; Web service interface from national data sources.)	Neil Slagle
814	Integration of the following legacy applications into SAP: **1. Customer Financials** (Payment/billing processes and case management for Motor Fuel, Tobacco and Health Insurance Claims Assessment Act (HICA) taxpayers.) **2. Motor Fuel Tax** (Statutory Refund, International Fuel Tax Agreement (IFTA) Licensing and Returns Processing.) **3. Cigarette Tax** (Application processing and license issuance of Tobacco Products Tax Licenses.) **4. Health Insurance Claims Assessment Act (HICAA)** (Assesses tax on health insurance companies based off the claims they pay. **5. Bottle Deposit Refund** (Processing and case management of bottle deposit refund requests.) **6. Estate Tax** (Processing and case management of Estate Tax returns.) **7. Centralized Correspondence** (Application serving multiple processing systems to issue outbound correspondence.) **and 8. Single Business Tax** (Processing and case management of Single Business Tax returns.)	Neil Slagle
815	Integration of the following legacy applications into SAP: **1. State Treasury Accounts Receivable System (STAR)** (Accounts receivable debts from taxes, driver's responsibility fees, debts owed other state agencies and courts are tracked and collected.) **and 2. Garnishment and Levies** (Enforcement of court ordered and IRS payment offsets.)	Neil Slagle
816	Integration of the following legacy applications into SAP: **1. Receipts Processing Banking Database** (Batch balancing and batch control of receipting documents incoming to Treasury from other agencies.) **2. Cash Reconciliation Support** (Off-the-shelf software Check Free to reconcile bank deposits/balances with the amounts in MAIN.) **3. Warrant Writing** (Quality control and reporting on warrant (check) transactions from the Michigan Administrative Information System (MAIN) and the Consolidated Print Center. Treasury issues and controls the printing of all paper warrants.) **4. Warrant Reconciliation** (Reconciliation of the State's checkbook: issued against redeemed warrants.) **and 5. Michigan Administrative Information System (MAIN)** (Single interface between Treasury systems and MI Administrative Information System (MAIN). Multiple programs with multiple feedback loops.)	Neil Slagle
817	Integration of the following legacy applications into SAP: **1. Income Tax** (Processing and case management of Individual Income Tax returns.) **2. Individual Income Tax (IIT) Fiduciary** (Processing and case management of Individual Income Tax Fiduciary returns from Financial Institutions.) **3. Individual Income Tax (IIT) Energy Assistance** (Processing of home heating credits.) **4. Revenue Sharing** (Data and processes used to calculate payments to local units of government.) **5. State Treasury Accounts Receivable System (STAR)** (Accounts receivable debts from taxes, driver's responsibility fees, debts owed other state agencies and courts are tracked and collected.) **6. Garnishment and Levies** (Enforcement of court ordered and IRS payment offsets.) **and 7. Affidavits (Principal Residence Exemption case management. MF program that generates letters for denial of multiple principal residence exmptions and starts collection process through STAR.)**	Neil Slagle
818	Body of Paradox applications developed and used to identify and track potential tax non-filers.	Neil Slagle

820	This project will replace the following legacy systems: **1. Tuition Incentive Program (TIP) (**Processing and case management of requests for student financial aid under the Tuition Incentive Program (TIP) which is for student aid for students who have been on Medicaid for at least 24 months. **2. Michigan Scholarships Online (MISO)** (Processing and case management of requests for student financial aid and for payments to colleges and universities based on Free Application for Federal Student Aid (FAFSA) and American College Testing (ACT). **3. Adult Campus Based Programs** (Body of MS-Access applications used to track small scholarship programs, e.g. nursing, children of veterans tuition grant, etc.)	Neil Slagle
821	Administrative Tax Hearings tracking, scheduling and reporting.	Neil Slagle
822	Single secure sign-on for 15 Treasury application systems.	Neil Slagle
823	Electronic document Storage with off-the-shelf software: tax returns, taxpayer correspondence, tax audit reports and redeemed warrants.	Neil Slagle
824	Produce files to feed into Mainframe and other databases from multiple sources. Manual data entry for documents that can not be handled in an automated process.	Neil Slagle
825	On-line application for Lottery agents to look up debts before paying Lottery winners.	Neil Slagle
826	Collection of Local Government data and verifies audits that are submitted by local governments through the web. Severs as a collection of audits from these local governments. Project in process to replace this functionality in Electronic Local Government Information and Tax Evaluation (ELITE) system.	Neil Slagle
827	Repository of Treasury employee files, including FileNet images	Neil Slagle
828	DTMB/Agency Services/Treasury developer time keeping	Neil Slagle
829	Audit Selection and Compliance	Neil Slagle
830		Neil Slagle
831	Statistical reporting on behalf of Treasury's Office of Revenue & Tax Analysis (OTRA).	Neil Slagle
832	Unisys Mainframe to Siebel (Customer Relationship Management {CRM}) interfaces for the call / contact center will be replaced as systems move to SAP	Neil Slagle
833	Develop an RFP, select a vendor, and implement a new system to accommodate all Student Scholarships & Grants programs. Staff needs a reliable way to hold student data and make timely payments that are essential to continued functioning of critical process.	Neil Slagle
834	Genesys is an existing platform used in Customer Contact, both in conjunction with Siebel and as the platform for the Interactive Voice Response (IVR) applications. These three additional applications would be implemented over time and across the Tax Processing Bureau to accomplish the following: 1. Skills Assessor - a testing tool that could be utlized to measure learning achievement objectively vs current subjective measures. 2. iWD - a system that would interact with our existing systems (Siebel, FileNet, Bridge, SAP, etc.) to "push" work items to the appropriately skilled individual based on service level goals and other business rules. 3. WFM - a system used for scheduling workers and work states (calls vs. correspondence for example) and then measuring worker adherence to scheduled worktime and performance in conjunction with iWD	Neil Slagle
835	The Discovery Division of Treasury currently detects fraudulent tax returns through a manual system that utilizes some queries that are written in house by Treasury staff. Review other options for fraud detection that would provide Treasury with a more analytically robust electronic solution.	Neil Slagle
836	The creation and implementation of an access point through the MiDAS MiWAM portal for UIA's advocates, claimants, employers and Michigan Works Agency partners to facilitate more self-service access.	
837	Chase is implementing system changes. UIA is currently using a manual method to submit checks to Chase. This solution will establish a Chase lockbox for payments to go directly to Chase.	
838	Create a new UIA data model and populate with UIA data from MiDAS in order to create views and share data with other parties. This will simplify interfaces between MiDAS and other agencies.	
839	Identify all UIA servers and applications which can be decommissioned (due to MiDAS tax/benefits rollout), create the decommission plan and execute, including analyzing and archiving data as needed and following up.	Ben Lewis
840	Modifications to MiDAS Registration function and the interface between UIA MiDAS and Treasury to support the Treasury System Rewrite.	
841	LARA Enterprise Wide Mobile Application System - Follow up to Michigan's new Unemployment database.	
842	All Windows servers need to be migrated from 2003 to 2008 as Windows 2003 is approaching an unsupported status. Review of the UIA server inventory will be conducted and the creation and execution of migration plans will be done.

843	The purpose of this project is to build central tool that can be used to collect information for assets and utilize these in an Executive Information System (EIS) environment. Existing asset management systems will then be integrated with this central system.	Suzanne Pauley
844	The project effort will involve the abiity to electornicaly submit key metrics that will roll up to higher levels of metrics and allow drill down capability into the detail level metrics. The vision involves allowing approximately 48,900 Employee Scorecards into as many as 3,585 programs up into as many as 463 divisions, then roll up to as many as 136 bureaus, then to 16 departments, 6 executive groups and then finally up to 1 SOM scorecard and dashboard. There is also a function related to the Governor's initiatives. Release IV is intended to complete enhancements to the scorecards and initiatives functions, to automate the creation of the SOM dashboard, and to create Group Exceutive scorecards.	Cathy Pelham
845	Provide a tool for DTMB to manage the State's software license inventory to include: 1. License procurement data collection / record utilization 2. Software installation data collection 3. Integration of procurement data vs. installation data 4. Reporting 5. Inventory Assignment/Procurement (tracking movement and transfer of licenses) 6. Software audit policy & procedure 7. Common software desk reference to provide information on SOM purchased and developed software.	Lisa Evani
846	Formerly known as MiPage. Major components could be partially supported with enhanced Federal funds (90 / 10 match). These components can be utilized as enterprise solutions - identity management, Master client index. Other components would be funded 50/50.	Tom Weston
847	Effort to continue migrating State agencies currently on the Vignette platform to the Sharepoint Intranet platform.	Tom Weston / Suzanne Pauley
848	Effort to migrate the Mi.Gov environment from Vignette to new, supported platform.	Tom Weston
849		Tom Weston
850	This "project" functions at a program level for multiple legacy modernization projects. Deliverables include: - Documented application portfolio management process and evaluation model - Execution of initial rationalization and business cases for replacement/migration candidates	Virginia Hambric
851	This "project" functions at a program level for multiple agency projects that will receive a portion of the $47M allocated to DTMB. Deliverables include: - Business case for increased funding (complete) - Short-, medium-, and long-term investment plan - Business metrics for ongoing investment performance measurements	Virginia Hambric
852	Objectives include: - Elevate importance and enforce Enterprise Architecture as an essential function for customer satisfaction and managing TCO. - Increase the EA scope to include coverage of data/information, integration, solution and business architecture. - Align the EA program to a standard industry EA methodology or EA framework. Deliverables include: - EA future state roadmap	Virginia Hambric

853	UIA - Unemployment Insurance Agency	UIAE – ICT – A4 Explore Cost-Saving and Value-Add Opportunities
854	UIA - Unemployment Insurance Agency	UIAE – ICT – B10 Improve Capabilities to Retain and Attract Talented Resources
855	UIA - Unemployment Insurance Agency	UIAE – ICT – B5 Redefine Customer Relationship Model
856	UIA - Unemployment Insurance Agency	UIAE – ICT – B6 Establish Service Management Model
857	UIA - Unemployment Insurance Agency	UIAE – ICT – B7 Create Pooled Resources
858	UIA - Unemployment Insurance Agency	UIAE – ICT – B8 Enhance Responsibilities and Capabilities of ePMO

	C	D
853	This "project" functions at a program level for multiple cost-saving and value-add opportunities. Examples include: - Conduct analyses to capitalize on investment decisions that will lower costs or provide added value to the State - Conduct feasibility study for citizen-centric portal for all State agency public data - Further investigate data center sourcing options for best value - Conduct call center analysis to ascertain optimization, consolidation and other cost-saving opportunities - Perform network/broadband growth study to determine if future requirements require additional investment.	Virginia Hambric
854	Objectives include: - Identify resource and skills gaps in the service management organizational model and close those gaps by: - Training existing staff resources - Attracting new staff resources - Attract and retain staff by better defining the job titles and career paths for ICT resources	Virginia Hambric
855	Objectives include: - Clearly define the roles and responsibilities within DTMB's customer relationship model - Establish a role that allows DTMB to understand the business needs of its customers Deliverables include: - RACI model that defines customer relationship management roles and responsibilties - Revised organization chart that describes new customer relationship management model	Virginia Hambric
856	Objectives include: - Clearly define the roles and responsibilities wthin DTMB's service management model - this includes the Service Portfolio Manager and Service Managers - Define Operating Level Agreements (OLA) between service management and other areas of the DTMB-IT organization Deliverables include: - RACI model that defines service management roles and responsibilities - Revised organization chart that describes the new service management model	Virginia Hambric
857	Objective of this project is to better leverage the skill sets of DTMB employees across the State. Deliverables include: - RACI model that defines the new pooled resources - Revised organization chart that describes the new pooled resources - Transition plan to pooled resources	Virginia Hambric
858	Objectives include: -Enable the ePMO to lead the prioritization of projects across the enterprise and to efficiently allocate State staff resources - Ensure consistent application of project management processes across all projects. Deliverables include: - RACI model that defines ePMO roles and responsibilities - Revised organization chart that show the ePMO reporting to the Solutions Portfolio Manager	Virginia Hambric

	A	B
859	UIA - Unemployment Insurance Agency	UIAE – ICT – B9 Establish CTO Organization
860	UIA - Unemployment Insurance Agency	UIAE – ICT – C11 Enhance Current Client Relationships
861	UIA - Unemployment Insurance Agency	UIAE – ICT – C12 Explore New Customer Partnerships
862	UIA - Unemployment Insurance Agency	UIAE – ICT – C13 Address Unfulfilled Customer Requirements

	C	D
859	Objectives include: -Clearly define the roles and responsibilities of the CTO -Evaluate the importance of enterprise architecture (EA) -Formalize processes to transition innovative solutions into the enterprise service catalog Deliverables include: - RACI model that defines CTO and EA roles and responsibilities - Revised organization chart that shows EA reporting to the CTO (complete)	Virginia Hambric
860	Objectives include: - Position General Managers as the strategic partners of DTMB customers - Develop IT strategic plans for customers that align with IT direction of the State - Measure customer satisfaction and maintain high satisfaction levels Deliverables include: - IT strategic plans for all customers	Virginia Hambric
861	Objectives include: - Develop a strategy and processes for marketing services and solutions to potential partners - Develop partnerships where local governments and State, federal and commercial organizations use DTMB services because services are high-quality and price-competitive Deliverables include: - Formal DTMB service and solution marketing strategy - Market asssessment of potential DTMB partners that documents potential partner business needs and a market pricing anlaysis for possible shared solutions - Signed partnership agreements with new partners	Virginia Hambric
862	Objectives include: - Develop a strategy and processes for marketing and solutions to potential partners Deliverables include: - Service offerings in the service catalog for mobile and BI solutions	Virginia Hambric

	A	B
863	UIA - Unemployment Insurance Agency	UIAE – ICT – D14 Implement Procurement Fundamentals
864	UIA - Unemployment Insurance Agency	UIAE – ICT – D15 Develop Vendor Management Discipline
865	UIA - Unemployment Insurance Agency	UIAE – ICT – D16 Prepare and Plan for the Procurement of an eProcurement

	C	D
863	Objectives include: - Align procurement function with best practices and adapt processes and procedures - Create a future operationg model for Procurement and standardize all procurement processes - Identify procurement documents that can be standardized to improve efficiency and effectiveness of the procurement process - Delegate agency-specific, requirements-driven procurements to agency purchasing staff and/or GMs to allow DTMB procurement staff to focus on more strategic procurement efforts Deliverables include: - Documented procurement future operating model - Documentation for re-engineered business processes - Procurement manual(s) - Standardized procurement templates - Procurement training charter and plan	Vic Mankowski
864	Objectives include: - Establish vendor management function and grow project oversight capabilities to reduce rist and costs - Develop standard contract management tools and processes - Identify and assign Legal Counsel for vendor management support Deliverables include: - Vendor management charter, organization model and staffing plan - Contract management tracking tool - Contract portfolio scorecard - Renegotiation target matrix	Vic Mankowski
865	Objectives include: - Perform preparatory work; procure and implement an automated eProcurement system that meets the State's minimum requirements - Research and establish a future state revenue model to assist in supporting the procurement functions, including both appropriate staffing and deployment of the eProcurement system Deliverables include: - eProcurement business case (complete) - Documented revenue strategy/funding model	Vic Mankowski

	A	B
866	UIA - Unemployment Insurance Agency	UIAE – ICT – E17 Institute ICT Investment Management
867	UIA - Unemployment Insurance Agency	UIAE – ICT – E18 Improve Project Portfolio Management
868	UIA - Unemployment Insurance Agency	UIAE – ICT – E19 Enhance Project Management
869	UIA - Unemployment Insurance Agency	UIAE – ICT – F20 Define Enterprise Service Catalog

	C	D
866	Objectives include: - Establish a process for reviewing and approving funding requests for new and ongoing ICT projects. - Have ICT projects become individual line-items inthe DTMB budget Deliverables include: - RACI for investment review processes	Virginia Hambric
867	Objectives include: - Improve the call for projects process so that DTMB can allocate resource against a defined list of priorities - Allow customers to communicate the importance of their projects during the prioritization process Deliverables include: - RACI for ICT project prioritization across the enterprise - Implementation of the Project Portfolio Management (PPM) tool (recommendation on approach is approved)	Virginia Hambric
868	Objectives: - Manage ICT projects against defined scope, schedule and budget - Appropriately manage client change requests to project scope, schedule or budget - Facilitate communication between customers and DTMB on ICT project status Deliverables include: - Documented project management standards and templates	Virginia Hambric
869	Objectives include: - Normalize different services and provide end user with single service catalog with end-user-oriented services. - Provide standard service definitions and performance criteria in the enterprise service catalog - Develop a rate card that articulates the price for services and is transparent about what is included in the rate. - Accomodate tiered-pricing of services as required Deliverables include: - Enterprise Service Catalog	Virginia Hambric

	A	B
870	UIA - Unemployment Insurance Agency	UIAE – ICT – F21 Define and Implement Sourcing Strategy
871	UIA - Unemployment Insurance Agency	UIAE – ICT – G22 Increase I/O Maturity and Automation
872	UIA - Unemployment Insurance Agency	UIAE – ICT – G23 Enhance Security Discipline
873	UIA - Unemployment Insurance Agency	UIAE – IS – DCO – Great Lakes Information Technology Center
874	UIA - Unemployment Insurance Agency	UIAE – IS – DCO – TBHC Risk Reduction

	C	D
870	Objectives include: - Determine which services DTMB should deliver internally and which services it should outsource - Contract services that should be outsourced - Develop a process to periodically review the sourcing business case for each service Deliverables include: - Sourcing strategy document - Business case for each service to determine immediate sourcing decisions and model for future decisions	VIrginia Hambric
871	Objectives include: - Improve ICT operations through automation of manual processes within Infrastructure that focus on customer-facing processes around incident, problem management, provisioning, etc. - Capitalize on usage of tools such as run book automation, provisioning, event management, status monitoring, performance monitoring and alerting - Improve ICT process maturity by implementing a comprehensive ITSM road map across the ICT towers for foundational ITIL processes such as incident, change, and asset management - Map out and automate interfaces, handoffs and trigger points between core processes; integrate (or adopt single) configuration management databse (CMDB) across the core ICT towers Deliverables include: - Business case for tool acquisitions - Implementation of ICT operations tools - ITSM road map and updated documentation	Virginia Hambric
872	Objectives include: - Build on current strengths and continue to adapt to new threats - Conduct a comprehensive security audit and risk assessment, and implement corrective measures - Consolidate all security monitoring operations into one organization and stand up a true 24/7 SOC function with proactive monitoring skills - Set up a process to perform vulnerability scanning and compliance across all areas of ICT infrastructure to include servers, network devices, desktops and mobile platforms; improve vulnerability management by patching desktops to application level Deliverables include: - Completed security audit/risk assessment - Implementation plan for 24/7 SOC operations - Establishment of 24/7 SOC operations	Virginia Hambric
873	Addresses audit findings. Replacement of the existing aging facility. Direction on the GL-ITC will provide answers on the future of the three existing facilities.	Dick Novello
874	TBHC is over subscribed for electrical, cooling and backup capacity. This project will work with the General Managers to determine candidates for virtualization or migration and complete the migration to lower TBHC resource requirements.	Bob Weldon

875	Microsoft Office 2003 is the current State standard. The State's Microsoft Enterprise Agreement provides the software licenses to upgrade the State's desktops to Office 2010.	Jon Seeger
876	1) Upgrading Communictaion Manager on the Avaya swtiches.SOM is 3 versions behind, "best effort" support only, and does not provide the funcationality required for current and on-going technologies. 2) Implement Dial Plan which will allow the merging on the switches without telephone number issues. 3) Merging from Saginaw, Detroit and Grand Rapids swichted into the Captial and Secondary switches	Kristen Furseth
877	Project to migrate storage array from outdated DMX-4 Technology to new VMAX to modernize and update the storage infrastructure. Replaces aging infrastructure, provides more functionality and services, with less complex administration, and maintain or lower service rates.	Rick Hoffman
878	Implement new Host On Demand 3270 Emulation Software with Encryption	Linda Dunn
879	Required to remediate findings found in the 2009 OAG Report and establish the IT control requirements, some of which were incorporated into the new MAIN Hosting contract effective 1/2012.	Dave Gabler
880	Enhance the Time and Expense (MiTES) web application by including rule based functionality and improved accessibility.	Lisa Schroeder
881	Enhancement of current time and attendance/labor distribution system (DCDS). The system will leverage the existing DCDS system as an enhancement using current and available technologies.	Lisa Schroeder
882	Break the tie bar between time and distributions (allow for distinct processing between time entry and labor distribution), and provide reporting and automation for equipment.	Lisa Schroeder
883	Convert Business Objects Desktop Intelligence reports to Business Objects Web Intelligence reports. After this migration, this will allow the next version of Business Objects to be installed and pushed. Last year this project was called: Business Objects Web Intelligenc converserion (Complete with original typos)	Neil Miros
884	Convert Business Objects from BOE XI 3.1 SP3/SP4 to either Business Objects from BOE XI 3.1 SP5 or Business Objects from BOE XI 4 .x	Neil Miros
885	Convert Business Objects Xcelsius dashboard to newer version with additional functionality.	Neil Miros
886	Convert exisiting office written and supported application that extracts all data to MIDB to use standard ETL tool.	Neil. Miros
887	As part of the new e-Procurement RFP, there are requirements for real time data exchanges between MAIN and the new e-Procurement system. Additionally, the vendor file registry contained within MAIN will be the record source for e-Procurement and will therefore send updates to the new e-Procurement system. A data conversion for all ADPICS data within MAIN is also a requirement of the e-Procurement RFP. Please note: Financial projections through FY 2023 are on template candidate in Sharepoint. Changepoint data entry limit is FY 2017	Vic Mankowski
888	This project entails replacement of Michigan Administrative Information Network Financial Administration and Control System (MAIN FACS). MAIN FACS consists of a suite of applications, which are Relational Standard Accounting and Reporting System (R*STARS) mainframe application, Report Management and Distribution System (RMDS) mainframe application, Contract & Payment Express (C&PE) web application, and Electronic Transaction Processing (ETP) web application.	Sharmila Patke
889	Project to refresh the department's PC desktop and laptop systems. Initial estimates based on 130 desktop/laptops @$1000.00 each	John Walker
890	Project to develop a mobile application for use with smart devices by MDCR customers. This solution will offer MDCR services to customers via multiple channels. Initial estimates are based on project development phases: Planning $100,000.00; Devleopment/Implementation 4 developers @$250,000; Support Maintenance 1 SOM FTE $150,000/year DTMB Server support costs 2 servers@$1600.00/month)	John Walker

1	**Client**	**Candidate Name**	**Description**
2	AG - Attorney General	AG - FY13 - Charitable Trust Complaint Internet Page	Create an Internet Web Site to allow the public to submit complaints about Charitable Trust Organizations.
3	AG - Attorney General	AG - FY13 - Filemaker to LegalFiles Data Migration	Convert/Migrate AG Opinion data from Filemaker to LegalFiles.
4	AG - Attorney General	AG - FY13 - Library Book Data Intranet	Create Intranet site to allow AG to search Library Book data stored in LegalFiles Database
5	AG - Attorney General	AG - FY13 - Opinion Data Intranet Site	Create Intranet site to allow AG to search AG Opinion data stored in LegalFiles Database.
6	AG - Attorney General	AG - FY13 - SQL Server Upgrade	Upgrade of the SQL server
7	All Agencies	PC Refresh Project	Replace 25% of PCs per year to maintain State PCs in warranty
8	CIP - Cybersecurity & Infrastructure Protection	CIP - Data Loss Prevention	FY 14 - Enterprise Data Loss - Data loss/leak prevention solution is a system that is designed to detect potential data breach incidents in timely manner. A comprehensive solution does this by monitoring data at rest, while it is in motion as data travels across the network and while it is being used on end points (PC, laptop, etc.).
9	CIP - Cybersecurity & Infrastructure Protection	CIP - Digital and Incident Response	FY 14 - Enterprise Digital and Incident Response - There are too many vulnerabilities and malicious threats to assume that the state is never going to be compromised. No system is 100% secure. How fast the state reacts and how fast it can contain a compromise depends on the ability to scope the compromise, as well as remediate the threat which can prevent a compromise from leading to a breach and loss of sensitive data. The state will look to procure a set of tools that is designed by and for incident responders to collect evidence from possibly compromised machines anywhere in the state's network.
10	CIP - Cybersecurity & Infrastructure Protection	Michigan Cyber Initiative - Cyber Command Center	The Office of Michigan Cyber Security Initiative will improve the Cyber Defense Response Rediness as well as expanded capibilties in protection, detection, and remediation of cyber attacks.
11	CIP - Cybersecurity & Infrastructure Protection	Michigan Cyber Initiative - Cyber Defense Response Team	The Office of Michigan Cyber Security Initiative will improve the Cyber Defense Response Rediness as well as expanded capibilties in protection, detection, and remediation of cyber attacks.
12	CSS - Center for Shared Solutions	DEQ (CSS) - FY13 - MiWaters	The MiWaters project will consolidate and replace, in whole or in part, a number of core applications utilized by the Michigan Department of Environmental Quality's (MDEQ) Water Resources Division (WRD).
13	CSS - Center for Shared Solutions	MDOT - FY14 - Interactive Freight Mapping Application	The primary goal of this project is to develop a freight interactive database and mapping application. The final product will include a single source location of data and information for freight facilities, activities, and proejcts at the statewide level. This includes fully customizable and user-friendly interactive mapping application viewer, providing all users the ability to easily control both the extent of the mapping window and the combination of selected freight informational layers. The database and application will be developed using a GIS platform, and made accessible to users and the general public via a website.
14	DEQ - Department of Environmental Quality	DEQ - FY12 - Storage Tank Information Database (SID) Requirements Gathering	Work with a technical contractor who will interact with the project team gathering business requirements to design and develop of a SID version 2. This phase is only for the RFP Article 1, no design or development.
15	DHS - Infrastructure	DHS FY13 Leverage Services DW Projects & Maint	This maintenance Candidate is for DHS Leveraged Services Data Warehouse (DW). This will cover all break/fix requests, hardware/software upgrades, operational support, change management and enhancements.
16	DHS - Infrastructure	DHS FY13 Leverage Services ETS Projects & Maint	This Maintenance Candidate for DHS Leveraged Services Enterprise Support will cover break/fix requests, hardware/software upgrades, operational support, change management and enhancements.
17	DHS - Services	DHS FY13 Services Projects & Maintenance	This candidate is set up to handle DHS Services needs. It includes maintenance projects including break/fix requests, hardware/software upgrades, operational support, change management, and enhancements.
18	DIFS - Department of Insurance and Financial Services	DIFS - Technology System Modernization	The DIFS Technology Systems (DTS) Modernization Project goal is to provide a modernized system for the State's newest Department; maximizing the benefit of common data, tools and current technology to more effectively support the needs of the Department's nine separate offices. Implementation of Evans myCaseload and HP Trim will provide improved tools to support the mission, vision and values of DIFS; transforming how work is done achieving greater efficiency, quality, responsiveness and accountability. The DTS project supports creating a regulatory climate that promotes consumer protection, education and ensures the financial services industry is safe, sound, and entitled to the public trust.

20	DNR - Department of Natural Resources	DNR - FY12 - DB2 to SQL 2008 LOTS database migration	Move DNR DB2 databases to the SQL Server 2008 platform .Land Ownership and Tracking System (LOTS) keeps track of all the land owned by DNR and also some of the land owned by other state agencies.
21	DNR - Department of Natural Resources	DNR - FY12 - Grants Management System- Rewrite	DNR grants Management adminsters the Michigan Natural resources trust fund ,Land and water conservation fund ,Recreation bond program, Clean Michigan initiative and Recreation Passport(new program approved 2010) . The rewrite includes efficient tracking of statuses and achievements of all grants, adminstration of active projects , to provide reports to Legislature , Natural resources trust fund board and local units of Government and scoring of new application .The new system will provide reporting functionality required for Natural resources trust fund ,Land and water programs and also new reporting features associated with the latest addition of the new Recreation Passport program .
22	DNR - Department of Natural Resources	DNR - FY12 - IFMAP ArcGIS 10 Business Case FY12	Work with primarily internal DTMB staff to complete the ArcGIS 10 enhancements and continue this work to complete update the IFMAP System.
23	DNR - Department of Natural Resources	DNR - FY12 - Planning for CRS Solution Integration with RSS	The new CRS solution will leverage the RSS application. The integration of these two solutions will reduce operational costs
24	DNR - Department of Natural Resources	DNR - FY12 - Shared Network Integration Project	This project leverages the existing and future networks between the state and local governments, libraries, and schools. It provides redundancy, increased capacity and cost savings to all involved agencies.
25	DOC - Department of Corrections	DOC - Office 2010 migration	Upgrade Microsoft products to Office 2010 version across the MDOC.
26	DOC - Department of Corrections	DOC - OMNI COMPAS interface	Provide an interface between the Offender Management Network Information system (OMNI) and the risk and needs assessment system - COMPAS (Correctional Offender Management Profiling for Alternative Sanctions). The interface will allow prisoner programming prioritization (e.g. sex offender treatment, substance abuse treatment, education) so that the offenders have completed their critical programming prior to their Earliest Release Date (ERD). This project is aimed at preparing offenders for re-entry into the community with the programming identified to reduce the risk of recidivism.
27	DOC - Department of Corrections	DOC - Prepaid Calling Service (PCS) Prisoner telephone system	Provide a VPN connection between MDOC workstations and the vendor's Prepaid Calling Service (PCS) server so MDOC employees can monitor prisoner telephone calls and copy recorded calls for investigative purposes.
28	DOC - Department of Corrections	DOC - Records Management System	Implement an electronic records management system (RMS) to store documents necessary for the prisoners. The documents would be accessible over the WAN to approved users and connected to the offender management system.

TIZIANA,

High Incident: On Friday, January 8 at 2:22 P.M. OA is currently experiencing problems sending mail from Office 365 / Exchange online mailboxes to on premise mailboxes (such as GOV and MSP). OA is opening a case with Microsoft to help work the situation. This is particular concern due to the activation of the SEOC, which is responding to the Flint State of Emergency. OA is investigating.

It seems to be sporadic. I was notified only this afternoon about one issue from yesterday and just a moment ago with someone else having trouble sending email. I sent this information over to OA and the case was just created from that I believe.

Marsha has been forwarded the MS case information. She is off today.

Jibu,

In the lists under "Select State Department" and "Subject" under the Share your Opinion and Request Assistance pages under the Contacts pages for both the Governor and Lt. Governor websites should have *Flint Water at the top of the list.

Please let your staff know to report the change to me as soon as it is available on the website.

Thank you,

Zachary L. Anthony

> - Wireless access via SOMOTN issues have been worked out and wireless connectivity is available at this time. Wireless connectivity will be tested this afternoon but is expected to be fully functional based on the completion of remediation for the existing networking issues.
> - The current network capabilities should be sufficient to handle the networking and internet requirements for the office area.

Telephony

- A conference room type IP phone is available for use in the office area. It has been tested and is fully functional.
- The telephony capabilities should be sufficient to handle the conferencing and meeting requirements for the office area.

Zachary Anthony will be on site this afternoon at approximately 3:00PM today to install and configure any ancillary setups (docking stations, cell chargers, work surfaces) and related collaboration devices. In speaking with Zachary earlier today he is confident that after he completes his activities on-site this afternoon the office area should be complete and functional.

Kudos to Zac for facilitating and acting as the "boots on the ground" in getting the Flint State of Michigan Office Building area configured and functional in a very short time frame!

If you have any questions or concerns please do not hesitate to contact me.

Good Morning Marsha,

Since user testing hasn't completed yet, we won't be going live this Wednesday. Planning on February 3rd release instead.

Thanks
Jibu John

Thank you Marsha!

We will plan on January 27th 5:30 pm to 7:30 pm tentative for now, provided user testing completes successfully by the end of the day 1/25/16. But, if there are any issues we identify that prevents us from meeting this date, could you please suggest an alternate date and time the following week (February 1 – 5)?

Thanks
Jibu John

Subject: Application Outage

Good Afternoon Marsha,

As part of our server refresh project, we needed to bring down the following applications to switch over to the new servers.

1. GOV Board and Commission website (https://somgovweb.state.mi.us/GovernorsBoard/Instructions.aspx)

2. GOV CRM forms website (https://somgovweb.state.mi.us/GovRelations/ShareOpinion.aspx https://somgovweb.state.mi.us/GovCommunication/EagleScoutAchieve.aspx ,etc.)

3. MiResults (https://somgovweb.state.mi.us/GovMiResults/login.aspx)

4. CTS (old: http://gov000appspa001.migov.state.mi.us:8082/CTSLogin.aspx new: https://govintranet.migov.state.mi.us/GovCTS/CTSLogin.aspx)

The expected maximum outage is 120 minutes for all four applications.

The individual applications are currently being tested by governor's office staff, and we are expecting to go live by the end of next week.

Is there a preferred date and timeframe you would like us to do this?

Thanks
Jibu John

Hi Nichole,

I spoke with someone on our team about this situation and they suggest you contact payroll with the same email address you sent the reimbursement information to, asking if they have received the request. This is a shared email account and they do not usually reply to reimbursement requests. The reimbursement is distributed once a month and I suspect the timing of your request may be so it displays on their next paycheck, if not they should reply with information on how to resolve the situation.

Let us know if you need any further assistance!

Thank you,

Jarrett R. Gregory

Subject: RE: DEQ-BYOD Pilot

Jarrett,

DEQ would like to take the opportunity to extend the pilot for two months longer. As you probably are aware, as major focus of DEQ management at the moment is the Flint drinking water issue. We would like to engage their interest in expanding the BYOD option at a later date once we feel that some of the more immediate issues have been addressed.

Can you send me a reminder notice on March 21st?

Subject: RE: DEQ-BYOD Pilot

Hi Mike,

DEQ can extend the pilot if you feel you need a longer time to assess the program or we can schedule a meeting to fully-enroll DEQ in BYOD. This would mean all those in DEQ who you, the agency, chooses to participate, may participate. The rate at which we move forward is entirely up to you. We are here to assist you in whatever way you feel is best for your agency. There is no minimum number of employees required to participate in the BYOD program.

I hope this helps!

-Jarrett

Subject: RE: DEQ-BYOD Pilot

Jarrett,

What are our options to proceed? As I see it, we could

- allow the six pilot staff to carry on with the BYOD option assuming it works for them,
- advertise the fact that we now have a formal BYOD program and invite additional participants, etc.

Regardless, is that an agency minimum number of staff that constitutes an agency BYOD program? When do you want to know our intentions?

Subject: FW: GOV Forms - Testing

Hi Tiziana,

This is the culmination of many emails between me, Chris and Jibu. I reached out to Zach after I got the scoop and again offered assistance, presenting a couple of options at the bottom of my email to him.

Zach feels that under the circumstances that a delay in the project is appropriate. I would agree. Chris and Jibu are chomping at the bit to get this project completed per their schedule but I have no issue telling them that it will have to wait. They do not seem to realize the gravity of the situation with the Flint Water Emergency and the potential risk this implementation may cause to CRM system stability. Chris communicated that it is really a very simple upgrade but I have been down that road before.

Is it appropriate for me to communicate to Chris and Jibu, in light of the Flint Water Emergency and the criticality of ensuring that CRM remain stable during this crisis, that the project must be placed on hold? I could also schedule a meeting Monday for all involved to discuss and communicate the decision at that time.

Thanks,

Carl

Subject: FW: GOV Forms - Testing

Good Morning Zach,

I have exchanged emails with Chris and Jibu this morning and have offered my assistance in performing the system testing. They have not shared with me much beyond the basics of clicking the links, filling out the test forms and checking in CRM to see if the data has been captured properly. I do not have access to CRM so I would not have a way to verify that, after filling in and submitting the forms, it was captured properly.

I would like to help in any way I can. Would adding me to CRM to verify the form data be the answer. Or, based on the activities in Flint, should the final testing be delayed to no ensure no issues are created due to the testing and/or upgrade project activities?

Thanks,

Carl

FOR IMMEDIATE RELEASE
Friday, Feb. 12, 2016

Gov. Rick Snyder releases departmental emails produced regarding Flint water crisis

LANSING, Mich. - Gov. Rick Snyder's office today posted emails and corresponding documents that have been made available to requesting entities from state departments regarding the Flint water crisis. The documentation represents requests fulfilled to date by the Department of Environmental Quality, Department of Health and Human Services, Department of Treasury, Department of Technology, Management and Budget, and Department of Agriculture and Rural Development regarding Flint water.

"All levels of government failed the people of Flint," Snyder said. "This crisis should never have happened, but we are making progress each day to meet the needs of residents.

"By making the information easily accessible, everyone can review it and take what they need, and then we can all focus and work together on solutions, healing and moving Flint forward."

NOTE: All emails and attachments can be accessed using the below links. Documents are large and will take time to download. Viewing on a mobile device is not recommended.

LEGAL NOTICE

- The release of these documents is not a waiver of any legal privilege. Because of the voluminous nature of these records, some documents that are subject to the attorney-client, attorney work product, and other privileges may have been inadvertently disclosed. Should this posting include such documents, their disclosure here does not constitute a waiver of the privilege.
- Those seeking information as part of a legal proceeding or investigation should not rely solely upon the documents posted here to satisfy their request. Such requests should be directed to the appropriate state custodian.
- The posting of these documents does not, is not intended to, and cannot be relied upon to, create any right or benefit, substantive or procedural, that is enforceable by any external party.

Subject: FOIA Project Updates to General Managers
Importance: High

Happy Friday All!

As you're aware, the Governor's Office Legal Team is working with the agencies to gather email and documentation related to the Flint Water crisis. Each agency was invited to a meeting last Wednesday afternoon to discuss the details around this FOIA project.

Please note the following updated information:

- The Governor's Office has asked each agency to perform their own searches on their email/repositories for all information pertaining to the Flint Water crisis.
- While the agencies may approach DTMB for assistance, we are under a tight timeframe and can't possibly assist every agency and every employee.
    - If the agency asks for DTMB assistance and you have internal resources available to assist (i.e. Client Specialist), please provide that assistance.
    - **If the agency needs assistance from OA** (i.e. due to a large quantity of email/documents or a large group of people) **please forward that request to Jodi Simon.** Also, please let the agency know that requests will be prioritized by the Governor's Office and we will provide feedback on availability as soon as possible (so if DTMB cannot assist, it will still leave time for the agency to perform the searches).

- The Governor's Office will provide the keyword search terms today to the Agencies.
    - The designated agency coordinators for this project will identify which employees from their agency will be the Custodians.

Please call me with any questions.

Thank you

All

Please note below the email below with additional information and guidelines that were provided from the Gov office to the Agencies today.

Key points:
- The agencies are being asked to conduct their own searches: please let Jodi know if any agencies request assistance from DTMB/OA or if any other questions arise regarding what OA is able to assist them with.
- Due date for the agencies to notify the Gov office of when their searches will be completed is Tuesday
- DTMB is currently working to identify the custodians for our own searches - more information will be available on Tuesday.

Thank you for your time, please call with any questions. Have a great weekend.

Subject: RE: FOIA Project Updates to General Managers

Hi everyone –

I talked to John McQuaid earlier this afternoon. As Tiziana stated, the agencies should be doing their own searches. With the Legal Discovery OA is conducting outside of this FOIA request, they don't have the resources to conduct the agency searches as well.

Here's what I know they CAN provide though -

- OA can provide an eDiscovery mailbox and additional fileshare space to place identified mail/documents.

  To accomplish this you should submit a remedy ticket with the details needed and then send the ticket number to John McQuaid (cc Joe Hyrman and myself) with 'FOIA-Flint' in the subject line and they will escalate the request.

- I also know that Greg Mears (DTMB Client Specialist) is putting together instructions on how to do effective searches in Outlook for Laurie Westfall's area. I can share this with the GMs when complete as well.

If your agencies are requesting additional assistance, please let me know. The reason requests are being funneled through me initially is so James can get an idea of the assistance needed and can have that discussion with OA and the Governor's Office to set priorities if needed.

Thanks,
Jodi

All

Please note below the email below with additional information and guidelines that were provided from the Gov office to the Agencies today.

Key points:
- The agencies are being asked to conduct their own searches: please let Jodi know if any agencies request assistance from DTMB/OA or if any other questions arise regarding what OA is able to assist them with.
- Due date for the agencies to notify the Gov office of when their searches will be completed is Tuesday
- DTMB is currently working to identify the custodians for our own searches - more information will be available on Tuesday.

Thank you for your time, please call with any questions. Have a great weekend.

Hi Stephanie

Great talking to you today! Quick re-cap of our discussion:

- The agencies have been asked by the Gov office to conduct their own searches (email, shared drive, PC hard drive etc).
  - If agencies need to request assistance from DTMB to run the email searches due to a large number of custodians, the Gov office asked DTMB to work with them to prioritize these requests.

- Agencies were asked to identify their Custodians (these are the individuals who will need to do searches) so that you would only need to run searched on selected individuals within your department.

- Additional info:
  - If needed, DTMB can provide an eDiscovery mailbox and additional fileshare space where staff can place identified emails/documents. Please let us know if you need this set up.
  - DTMB is putting together instructions on how to do effective searches in Outlook – we are happy to share this info when complete.

Thank you, please call me with any additional questions you may have.

Subject: Flint FOIA - DTMB assistance

Hi, Tiziana: We need DTMB's assistance to search all TIA emails with the Flint search terms identified from the Governor's legal office. I understand from Jeremy that DTMB can do the email search for us (and employees will have to search their own hard drives.)

Please let me know what you need from us to proceed with this request.

Thanks, Tiziana.

FOIA Keyword Search Tips

Step 1.

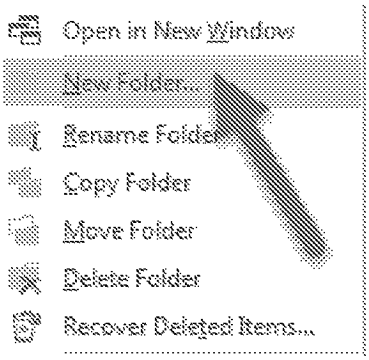
Preparation

In order to comply with the many recent FOIA requests, we wanted to give everyone an easy to follow set of instructions for conducting these searches. We at DTMB are still working through the process of setting up a central collection site for each agency. In the interim, we advise each of you take the following steps to prepare for collection.

- Create a folder in your Outlook mailbox called FOIA
- Use the method outlined below to retrieve the affected emails
- Drag and drop the emails you have identified into the FOIA folder you have created
- Await instructions as to how these will be collected

Step 2. Create your FOIA Folder

Create a new folder by **right clicking** on your cabinet, or your mailbox (your @michigan.gov account). Click on the "New Folder" icon. Call the new Folder FOIA, and press Enter.



The new folder should now be created in your account

This is the folder that you will drag and drop the relevant emails to when you conduct your search. In our next section we'll give you some tips to assist you in searching your mailbox for relevant items

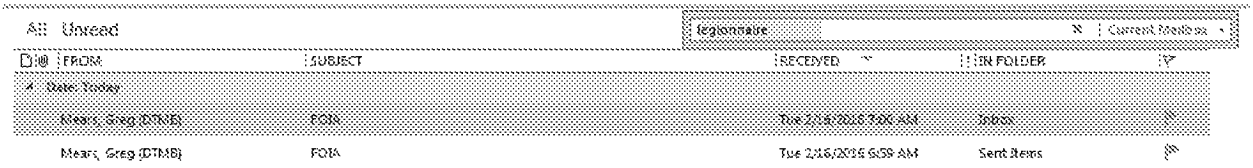
Step 3. Identifying emails using keyword search

The first step in preparing for your FOIA keyword search is to make sure you have the keyword list available. This list should have been provided to you by the AG, or your management. In the screenshots below we will walk you through the process of identifying the emails, and in later steps how to move them to a special storage folder. Your screens may not look identical to mine, but the methodology is the same for Office 201, and 2013.

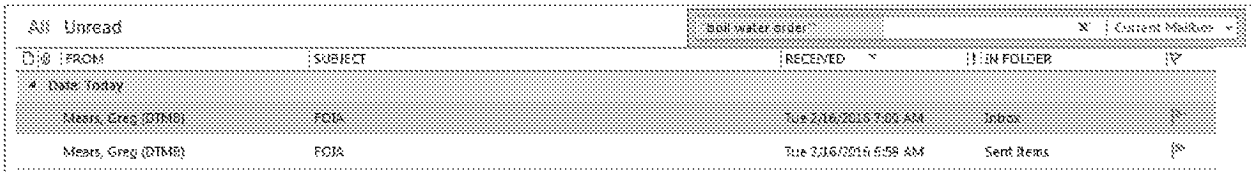
First off, locate the search box in Outlook (typically in the upper right hand corner). Make sure that your search is set to "Current mailbox" as seen here. The reason we ask you to do the searches in this manner is that it will search your entire mailbox (received and sent items) including Lync/Skype conversations.

In the examples were going to show we will be doing the word searches one at a time. In testing we found that trying to do multiple word searches, did not give the results we were looking for.

Let's start with a simple one from the keyword search I was provided. In this instance I entered the word legionnaire, and received these results.



Let's try another using a search term in "quotes". By placing an item in quotes it will limit your search to those exact words.



NOTE: By design Microsoft limits the number of items that can be retrieved in a single search to 250. This means that if your search results in more than 250 items you will have to repeat the search process until you have identified all of the emails you wish to address.

As you complete each key word search, you will need to copy those emails to your FOIA folder for retrieval at a later time. We will go over those steps in the next section.

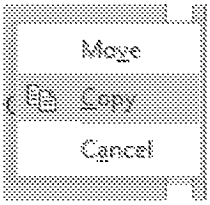
Step 4. Copying your messages to the designated FOIA area

Now that you have identified the emails that meet the search criteria, you'll want to save them off to your newly created "FOIA" folder.

NOTE: Your agency may have you save these items to an alternately designated space. That space can take the form of a network drive, USB flash or portable hard drive. Where ever you choose to store them, the "mechanics" of doing so will not change.

Once you have identified the emails that you want to save, highlight all of them by clicking on the first message, then holding down the Control Key, followed by the letter "a". Next, open up the folder or drive where you wish to save these messages. Using our example above I have created a folder in my Outlook account called FOIA and will save the messages there.

Move your mouse to all of the highlighted message and do a RIGHT CLICK, and then while holding down the right mouse button drag all the messages to where you want to store them. When your mouse pointer arrives in the area you want to save them, release the button and select "copy" from the pop up menu (See illustration)



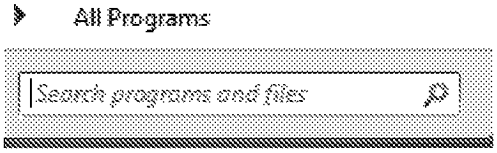
Depending on the amount of messages you're copying and where you are copying them to, the process can take a few seconds, or many minutes if they include attachments. Once the copy process has completed, you will see the emails you moved appear in the area you stored them.

Step 5. Doing a hard drive keyword search for documents and other items

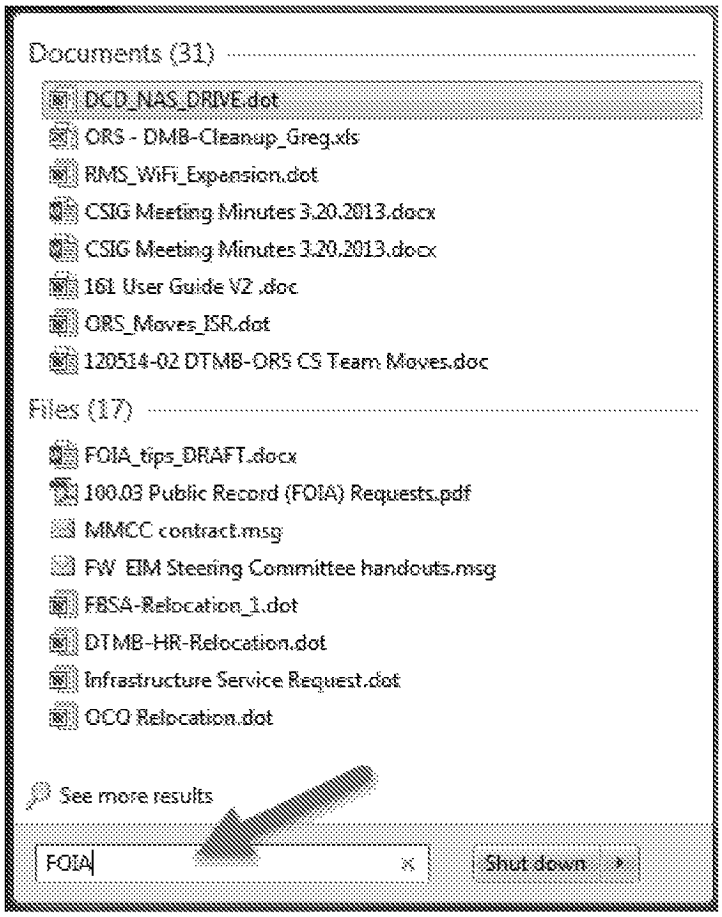
Conducting a hard drive search is fairly simple. Regardless of what version of Windows you're using, each of them has a search feature built in called "Windows Explorer", you see it every time you open up a folder on a network drive, or on your own computer. Before conducting your searches, we would suggest that you create a special folder on your desktop called FOIA where you may copy the items you find until final instructions are issued as to their disposition.

Using the search function in windows 7

Since the majority of DTMB is on Windows 7, the examples I'll be showing are on that operating system. If you click on windows Start button, you'll see the search box right next to it

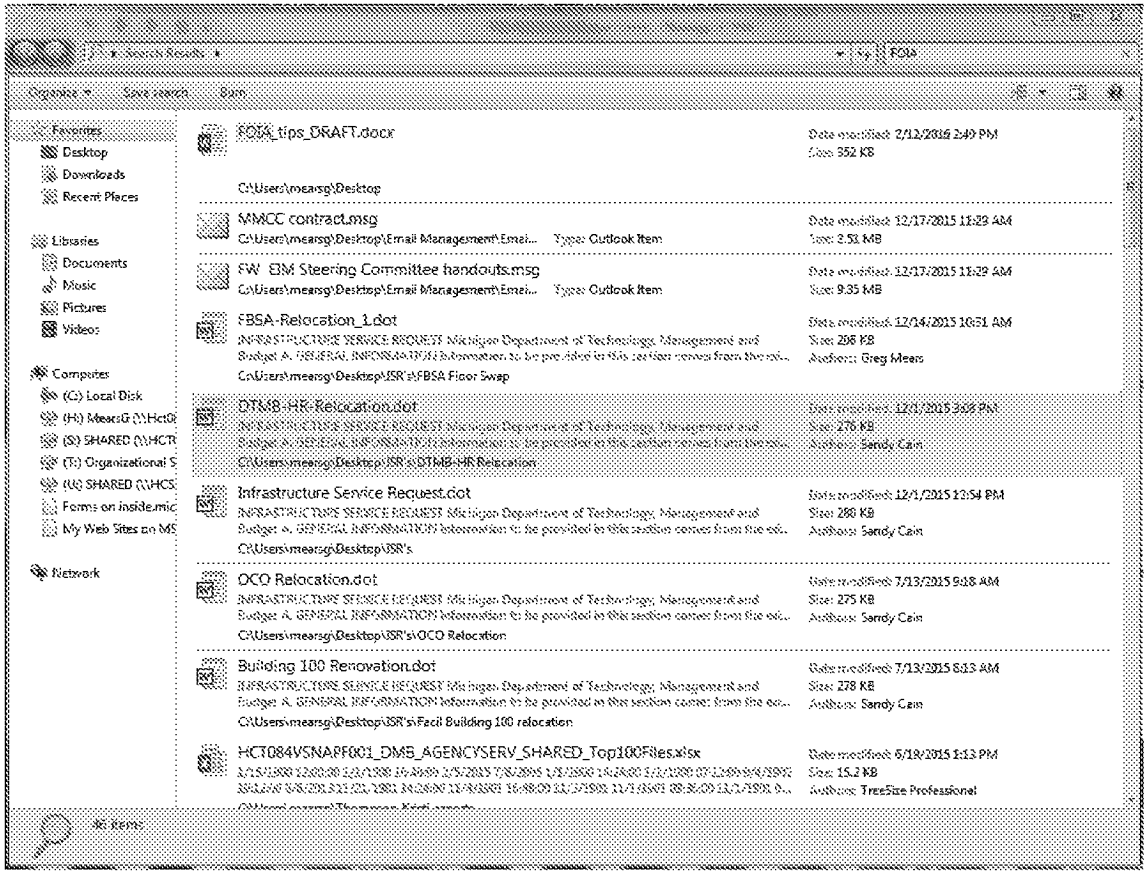


In this example I'm going to search my computer for the word FOIA. As you can see my search yielded numerous documents including emails. Since I've already saved off all of the relevant emails, we'll focus on just the documents.



This part can be a bit time consuming but we suggest you open each document to make sure that it's relevant. In this instance my search brought up a DTMB Move form, but only because it has the word FOIA in the form. (*Your agency may have slightly different guidelines, please follow them and use this example search as a training tool*)

You'll notice that the words "See more results" appears at the bottom of the list. This means that my search turned up a lot more documents than what can easily be displayed. If I click on the link, it will open Windows Explorer and reveal a comprehensive list, along with their locations.



As you can see from this example my search found 46 items. We can now select them all using the "Ctrl-A method" that we used for the emails, and copy them to our newly created FOIA folder.

Conclusion

This is the simplest, we could devise to help those of you conducting the FOIA searches. We hope that this will make the task a bit easier

What If I have questions?

If you have any questions please contact your Agency FOIA Coordinator, or your Client Specialist.

FOIA Keyword Search Tips

Step 1.

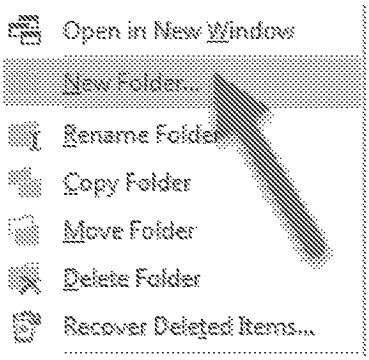
Preparation

In order to comply with the many recent FOIA requests, we wanted to give everyone an easy to follow set of instructions for conducting these searches. We at DTMB are still working through the process of setting up a central collection site for each agency. In the interim, we advise each of you take the following steps to prepare for collection.

- Create a folder in your Outlook mailbox called FOIA
- Use the method outlined below to retrieve the affected emails
- Drag and drop the emails you have identified into the FOIA folder you have created
- Await instructions as to how these will be collected

Step 2. Create your FOIA Folder

Create a new folder by **right clicking** on your cabinet, or your mailbox (your @michigan.gov account). Click on the "New Folder" icon. Call the new Folder FOIA, and press Enter.



The new folder should now be created in your account

This is the folder that you will drag and drop the relevant emails to when you conduct your search. In our next section we'll give you some tips to assist you in searching your mailbox for relevant items

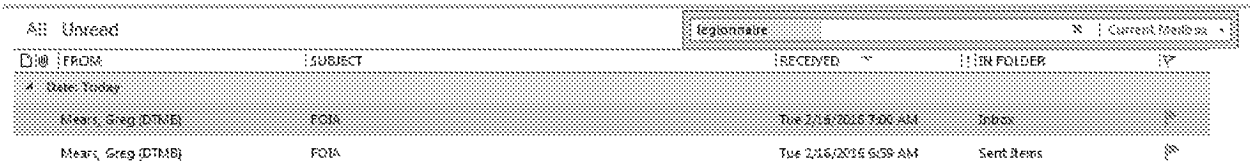
Step 3. Identifying emails using keyword search

The first step in preparing for your FOIA keyword search is to make sure you have the keyword list available. This list should have been provided to you by the AG, or your management. In the screenshots below we will walk you through the process of identifying the emails, and in later steps how to move them to a special storage folder. Your screens may not look identical to mine, but the methodology is the same for Office 201, and 2013.

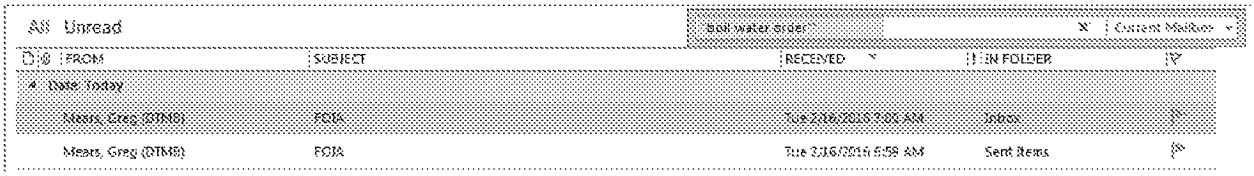
First off, locate the search box in Outlook (typically in the upper right hand corner). Make sure that your search is set to "Current mailbox" as seen here. The reason we ask you to do the searches in this manner is that it will search your entire mailbox (received and sent items) including Lync/Skype conversations.

In the examples were going to show we will be doing the word searches one at a time. In testing we found that trying to do multiple word searches, did not give the results we were looking for.

Let's start with a simple one from the keyword search I was provided. In this instance I entered the word legionnaire, and received these results.



Let's try another using a search term in "quotes". By placing an item in quotes it will limit your search to those exact words.



NOTE: By design Microsoft limits the number of items that can be retrieved in a single search to 250. This means that if your search results in more than 250 items you will have to repeat the search process until you have identified all of the emails you wish to address.

As you complete each key word search, you will need to copy those emails to your FOIA folder for retrieval at a later time. We will go over those steps in the next section.

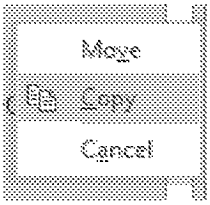
Step 4. Copying your messages to the designated FOIA area

Now that you have identified the emails that meet the search criteria, you'll want to save them off to your newly created "FOIA" folder.

NOTE: Your agency may have you save these items to an alternately designated space. That space can take the form of a network drive, USB flash or portable hard drive. Where ever you choose to store them, the "mechanics" of doing so will not change.

Once you have identified the emails that you want to save, highlight all of them by clicking on the first message, then holding down the Control Key, followed by the letter "a". Next, open up the folder or drive where you wish to save these messages. Using our example above I have created a folder in my Outlook account called FOIA and will save the messages there.

Move your mouse to all of the highlighted message and do a RIGHT CLICK, and then while holding down the right mouse button drag all the messages to where you want to store them. When your mouse pointer arrives in the area you want to save them, release the button and select "copy" from the pop up menu (See illustration)



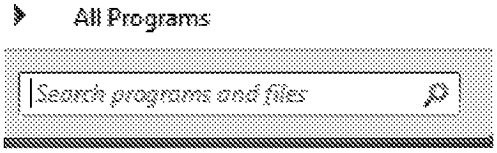
Depending on the amount of messages you're copying and where you are copying them to, the process can take a few seconds, or many minutes if they include attachments. Once the copy process has completed, you will see the emails you moved appear in the area you stored them.

Step 5. Doing a hard drive keyword search for documents and other items

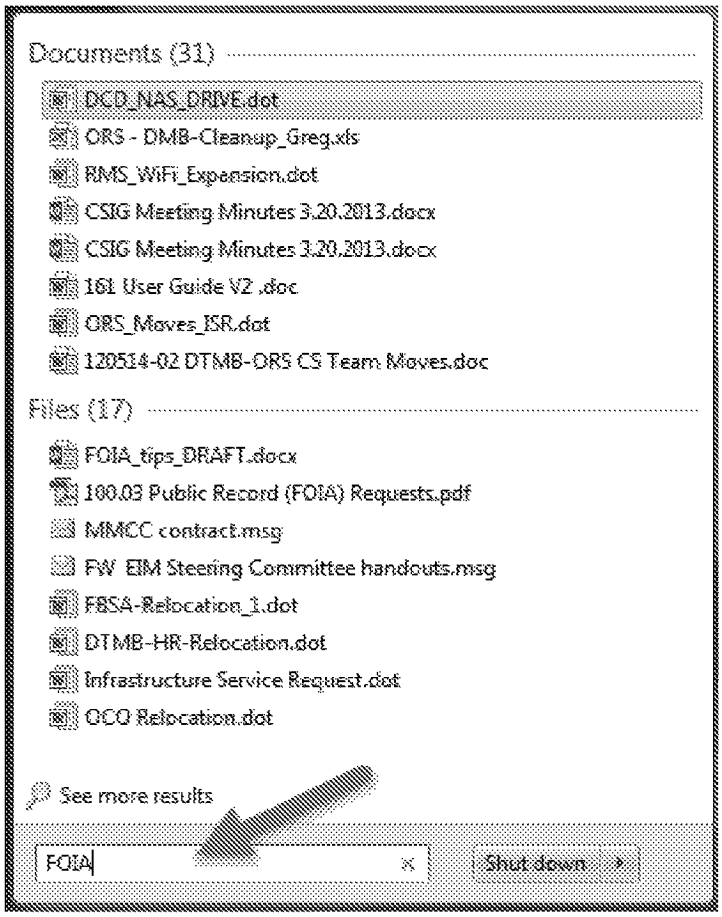
Conducting a hard drive search is fairly simple. Regardless of what version of Windows you're using, each of them has a search feature built in called "Windows Explorer", you see it every time you open up a folder on a network drive, or on your own computer. Before conducting your searches, we would suggest that you create a special folder on your desktop called FOIA where you may copy the items you find until final instructions are issued as to their disposition.

Using the search function in windows 7

Since the majority of DTMB is on Windows 7, the examples I'll be showing are on that operating system. If you click on windows Start button, you'll see the search box right next to it

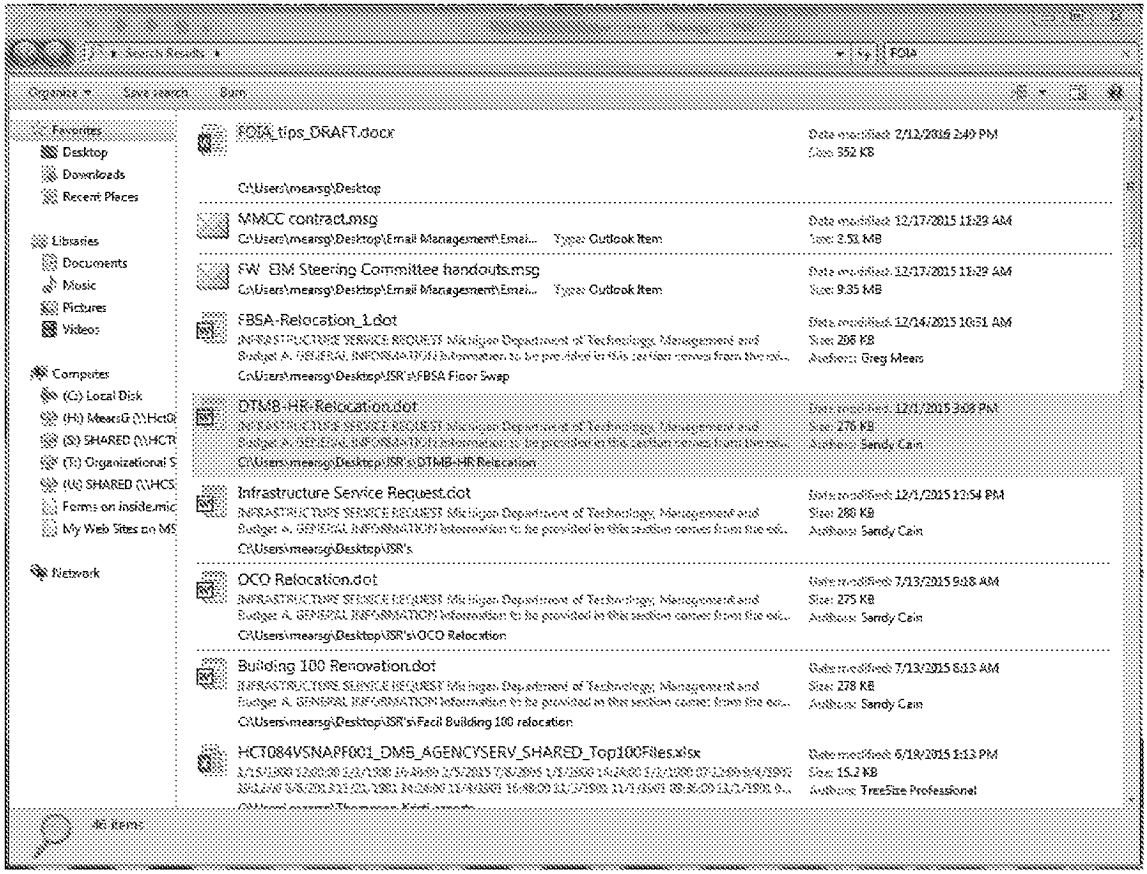


In this example I'm going to search my computer for the word FOIA. As you can see my search yielded numerous documents including emails. Since I've already saved off all of the relevant emails, we'll focus on just the documents.



This part can be a bit time consuming but we suggest you open each document to make sure that it's relevant. In this instance my search brought up a DTMB Move form, but only because it has the word FOIA in the form. (*Your agency may have slightly different guidelines, please follow them and use this example search as a training tool*)

You'll notice that the words "See more results" appears at the bottom of the list. This means that my search turned up a lot more documents than what can easily be displayed. If I click on the link, it will open Windows Explorer and reveal a comprehensive list, along with their locations.



As you can see from this example my search found 46 items. We can now select them all using the "Ctrl-A method" that we used for the emails, and copy them to our newly created FOIA folder.

Conclusion

This is the simplest, we could devise to help those of you conducting the FOIA searches. We hope that this will make the task a bit easier

Subject: Flint Water Search Terms

All – below are the list of searches we would like you to use in order to try to find the most relevant documents related to the Flint water crisis. Thank you again for your assistance. Because of the late timing for getting you this list, you may wait until Tuesday to send Travis Weber your estimates of time it takes to search this. Please remember that employees should search their hard drives as well as their e-mails, and that means DTMB cannot perform this search for you; your own folks who may have documents will have to do so from their machines. Thank you again for all your assistance and efforts.

Legionnaire
Legionella
"boil water order" & "Flint" (anywhere in document)
"coli" & Flint (anywhere in document)
"bacteria" & "Flint" (anywhere in document)

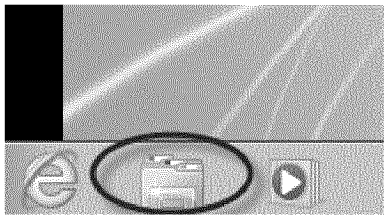
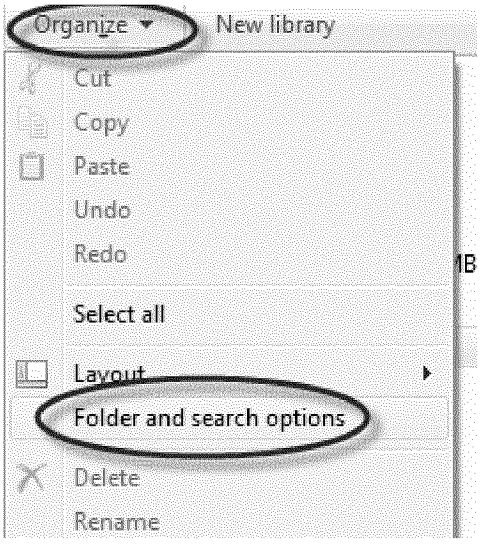
Searching for Files in Windows 7

When you are looking for files that contain certain words either in the filename or in the file text, the Windows search feature will help you do that.

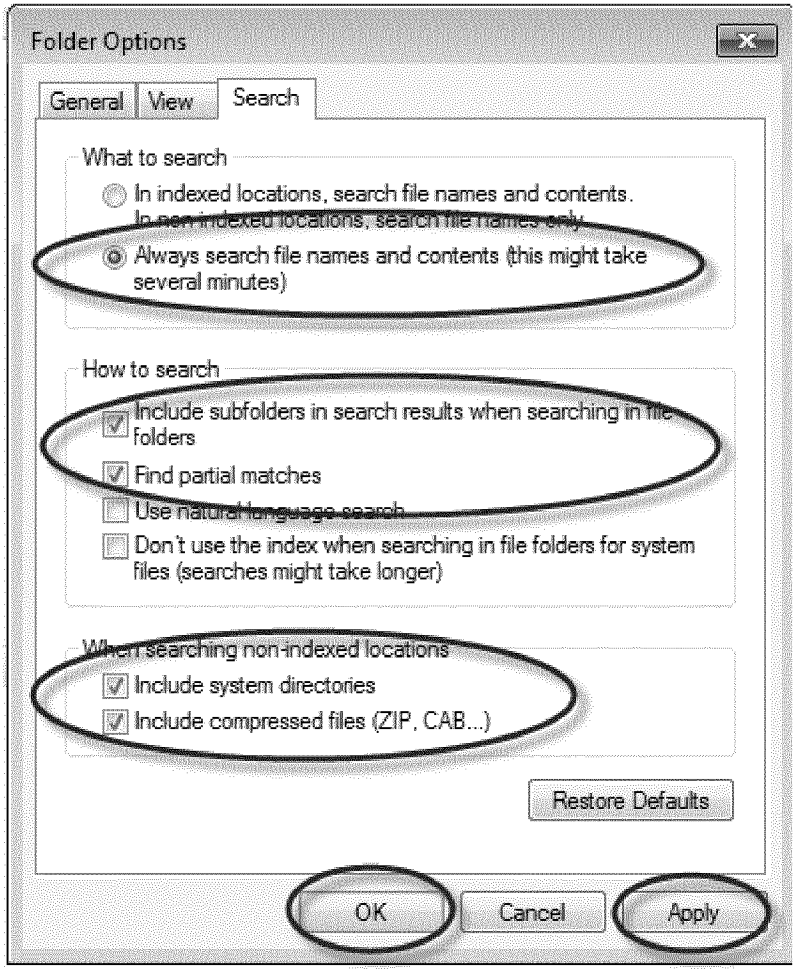
1. First, open Windows Explorer by clicking the **folder** icon on your taskbar.



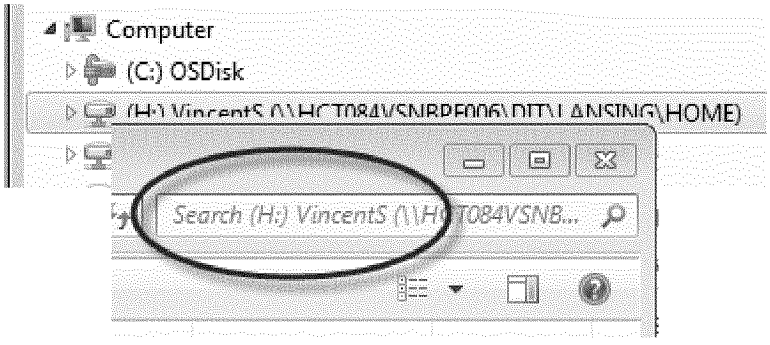
2. Click the **Organize** button, then click **Folder and search options**.



3. On the window that opens, select the **Search** tab. Compare your window to the picture below, and make your settings match.
   When your settings match, click the **Apply** button, then click the **OK** button.
   (You only have to do this part **once**. Windows 7 will remember it for your next search.)



4. Select (click) the **drive** or **folder** you want to search. In this example, we are searching the H: drive. By selecting a drive or a folder, all folders inside that drive or folder will be searched as well.

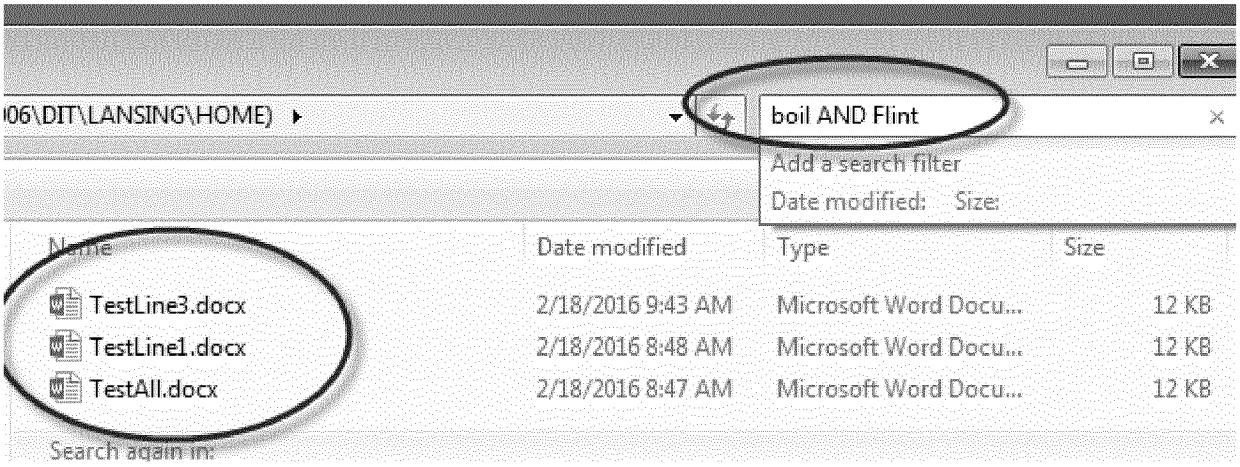


5. In the upper right corner of your Windows 7 Explorer window, the **Search field** will change to show the **selected drive**.

6. If you are searching for two specific words, and only want files that have **both** words, such as boil AND Flint, that's exactly what you enter in the Search field: boil AND Flint.
(The capital letters on the AND are required.)

   In the example below, we copied these words from this document, pasted them into the Search field, and Windows Search found the files that contain both words.

   boil AND Flint

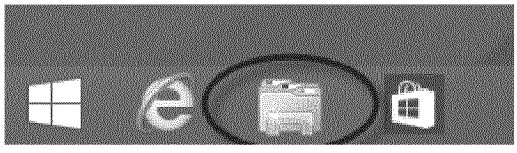


7. It is a little more complicated when you want several words in a specific order, so here are some search phrases you can copy and use. Be aware that Windows 7 Search **is** case sensitive. It will only find matches for the case you enter.

emergency AND Flint	DWSD AND Flint
Legionnaire	Karegnondi
Legionella	"Genesee County Health Department"
"boil water order" AND Flint	Flint AND utilities
coli AND Flint	"Lead and Copper Rule"
bacteria AND Flint	"Detroit Water and Sewerage Department" AND Flint
microb AND Flint	"Flint River"
TTHM AND Flint	Pb AND water
Lead AND Flint	KWA

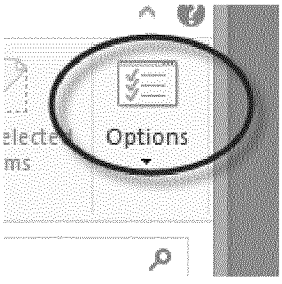
Searching for Files in Windows 8

1. Open Windows Explorer

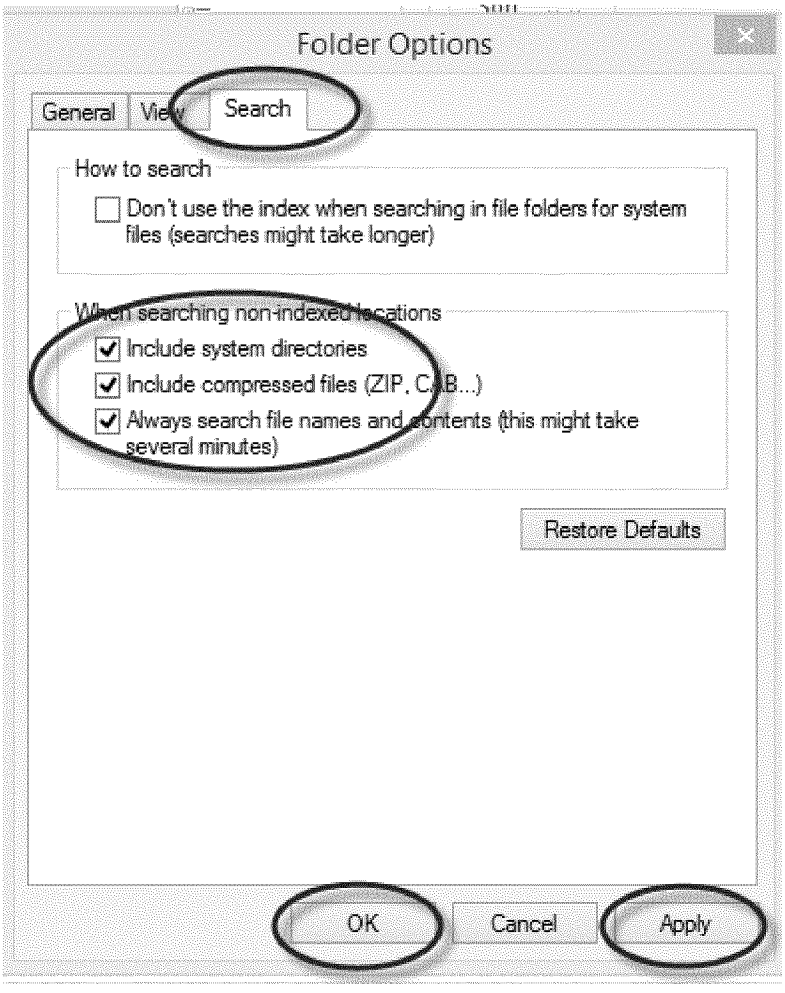


2. Click **View** tab.

3. Click **Options** button.
   A menu will open. Find the choice that says **Change folder and search options**, and click on it.

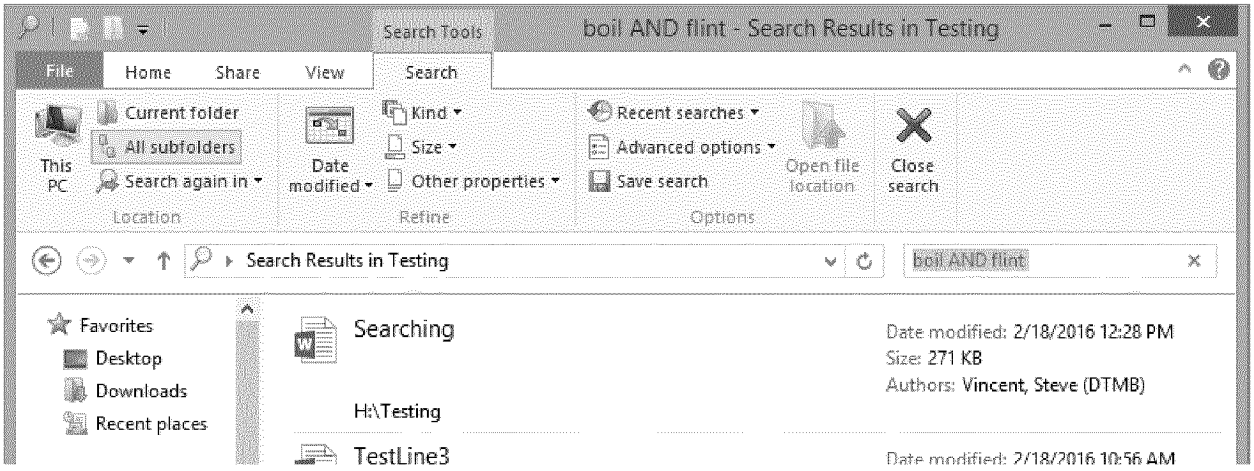


4. The **Folder options** window opens. Click the **Search** tab.
5. Check **all three boxes** under **When searching non-indexed locations**. (Make your screen match the picture shown below.



6. Click **Apply**.
7. Click **OK.**
8. **Double-click** the drive you want to search. That drive will open.

9. Click in the Search box and add your text. If you are searching for two specific words, and only want files that have **both** words, such as boil AND Flint, that's exactly what you enter in the Search field: boil AND Flint. (The capital letters on the AND are required.)
   In the example below, we copied these words from this document, pasted them into the Search field, and Windows Search found the files that contain both words.



10. It is a little more complicated when you want several words in a specific order, so here are some search phrases you can copy and use. Be aware that Windows 8.1 Search is **not** case sensitive.

emergency AND Flint	DWSD AND Flint
Legionnaire	Karegnondi
Legionella	"Genesee County Health Department"
"boil water order" AND Flint	Flint AND utilities
coli AND Flint	"Lead and Copper Rule"
bacteria AND Flint	"Detroit Water and Sewerage Department" AND Flint
microb AND Flint	"Flint River"
TTHM AND Flint	Pb AND water
Lead AND Flint	KWA

11.

Subject: SEOC information

Good morning,

I apologize I wasn't able to discuss this over the phone I was taking care of and SEOC request.

Any request that an agency has that they are seeking to be paid out of the Flint emergency funds must go to the agencies SEOC representative.
The SEOC representative will present the information to Captain Kelenske for approval.
If approval is given to the agency they will be able to have their request funded out of the "Flint" fund. If they do not receive approval the item that they are trying to purchase will need to be paid for out of the agencies operating budget.

If you were unaware of your SEOC representative please contact me and I will make sure that you know who they are.

Chris Christensen

Hi Kathy,

Please see the email that provides a brief description of the purpose of the meeting and invite the appropriate DTMB staff/management that will have knowledge regarding the recording, tracking and reporting of the Flint water expenditures. Also please include, Carol O' Callaghan, SBO; Lora Mikula, OFM; Lisa Shoemaker, SBO; Ryan Doll, SBO; and Bryan Weiler, SBO is optional.

As mention per our phone discussion, we have been asked to have this meeting scheduled by noon today and held by the close of business on Friday, February 19, 2016.

Thank you for your assistance.

Daphne

Subject: Flint Water Tracking and Reporting

Hello, Everyone.

I am following up to the email that Penny Burger, State Emergency Operations Center sent informing you that the Office of Internal Audit would be contacting you to discuss your department' s expenditures related to the City of Flint Water Emergency. We have reviewed the worksheets that you submitted to Penny which summarizes the total expenditures to date. We will use these worksheets as a starting point for reviewing the Flint Water expenditures recorded in MAIN. We will be contacting each of you to make arrangements for us to meet and obtain a description of purchases or services you incurred and the MAIN coding used to record the expenditures.

Our objective is to ensure that all agencies are consistent in tracking, monitoring and maintaining sufficient documentation for the Flint Water expenditures.

Carol O' Callaghan, Audit Specialist or myself, will be contacting you this week or early next week. If you have any questions or concerns you may email us or please feel free to contact me at (517) 285-8041 or Carol at (810) 348-4591.

Thank you,

Daphne Hobson
Audit Manager

Subject: Volunteers needed for water resource teams in Flint

The department is soliciting volunteers from within the department, both enlisted and civilian, to join water resource teams working to hand out bottled water, water filters, replacement cartridges, and water testing kits at homes in the city of Flint. This effort is part of the state's response to the ongoing health and safety issues caused by lead in the city of Flint's drinking water.

Volunteers will begin their assignment in Flint at 9 a.m. and end by 4 p.m. Volunteers can be available for one or both days. Lunch will be provided.

Employees chosen for this assignment are considered to be working on-duty; this assignment would be considered their scheduled work day. Overtime or compensatory time is not authorized for this assignment.

Transportation will be provided using state vehicles; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

Interested employees should obtain the approval of their supervisor. **Supervisors must forward the names of approved volunteers and their email addresses through the chain of command to bureau with the date(s) available by 1p.m. tomorrow, Wednesday, January 13.**

Confirmation of selected employees, along with additional logistical details, will be made via email by 5 p.m. on Wednesday, January 13.

For questions, please contact Insp. Scott Marier at 517-373-7761.

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

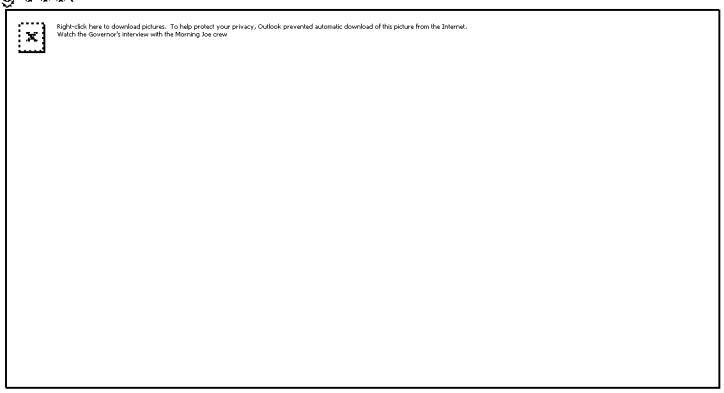
How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

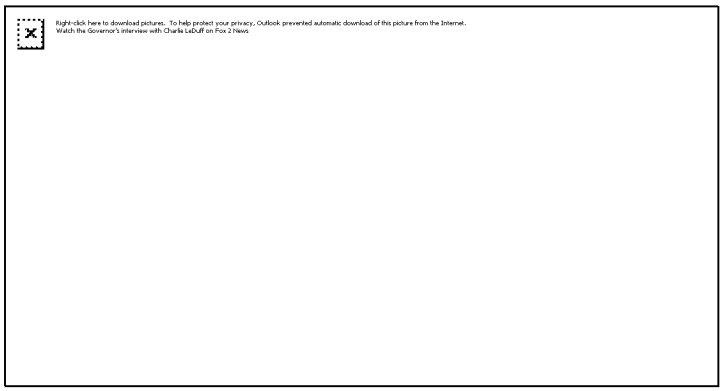
"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.



Governor Snyder with Charlie LeDuff on Fox 2 Detroit

"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

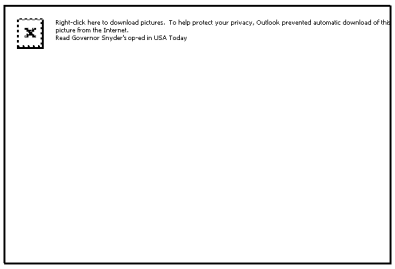
came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.

Governor in USA Today: "I will fix this, and I mean it."



"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

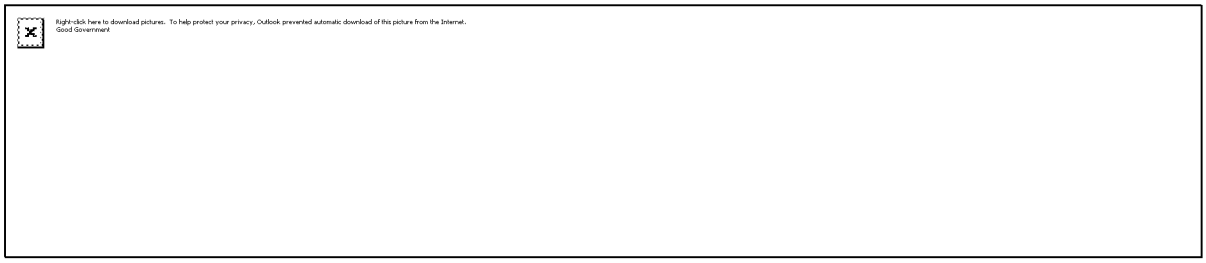
Subject: Flint Volunteer Efforts



Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

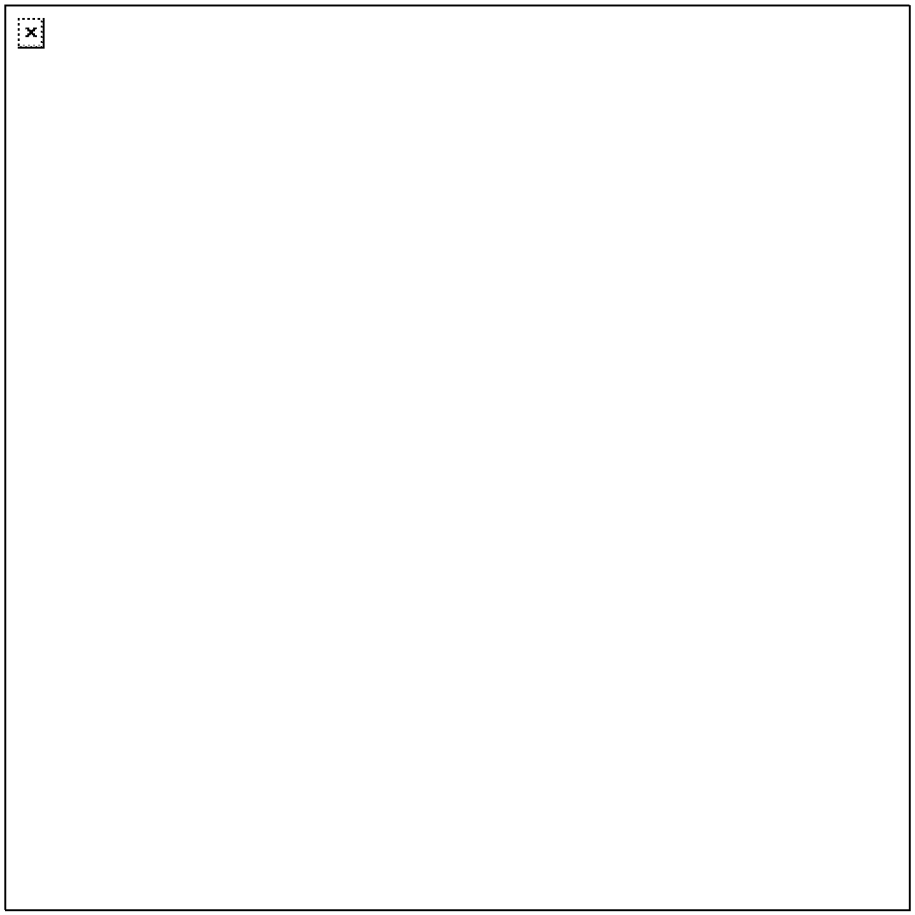
Subject: Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.



Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

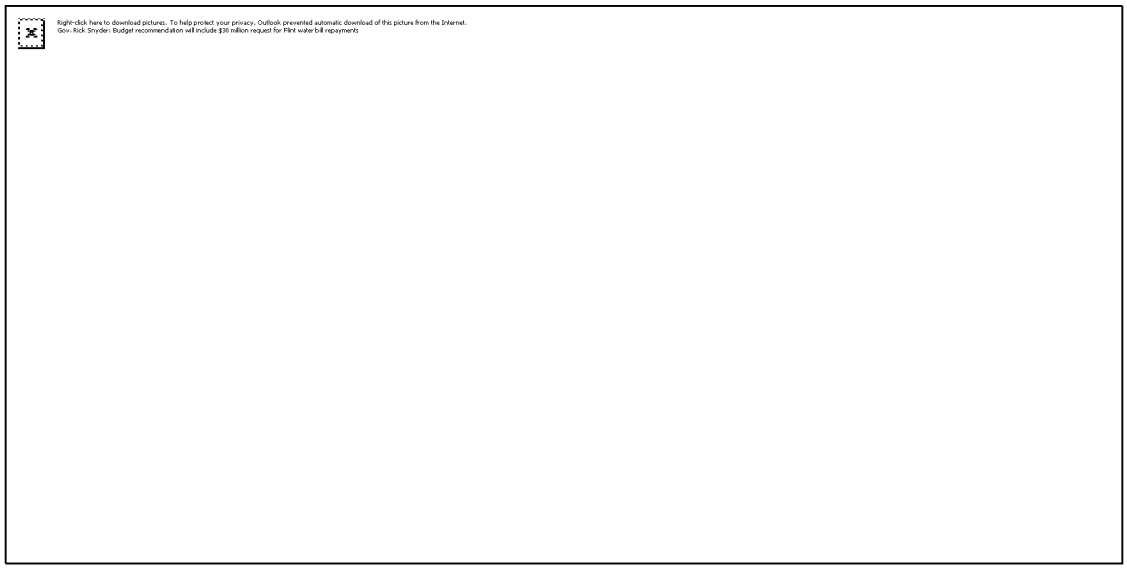
To: Gibson, Jennifer (DTMB)
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments



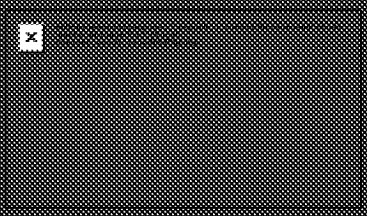
When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly 65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion

of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.



We spoke with Staff Sgt. Thomas Vega about the critical resources they're providing to Flint families every day. He also encouraged residents to pick up and return their water testing kits to Flint fire stations. Test results will be posted online at www.mi.gov/flintwater. **Click here to watch the video.**

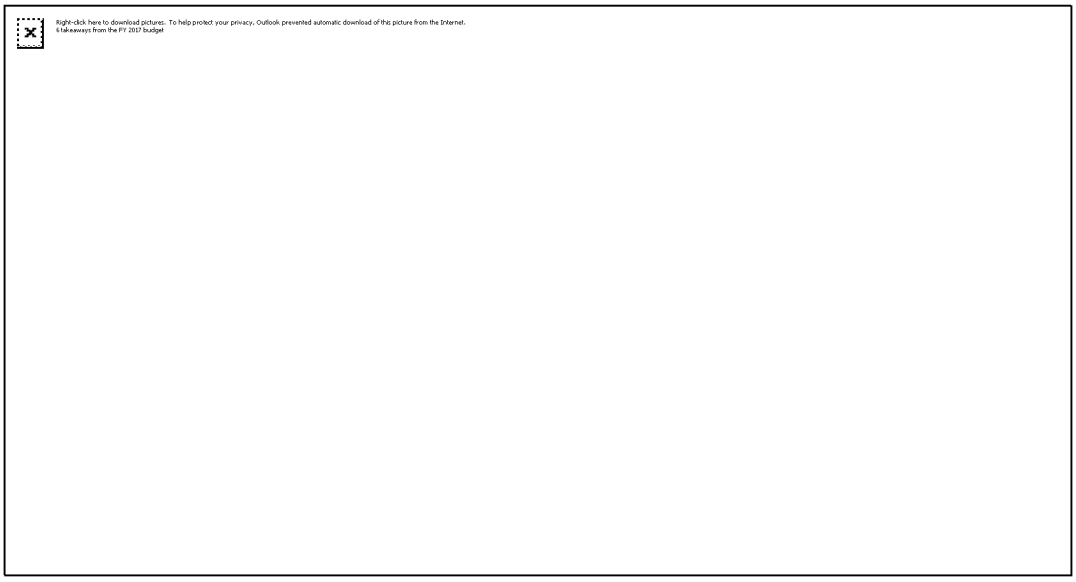
VIDEO: What Governor Snyder's FY17 budget means for Michigan



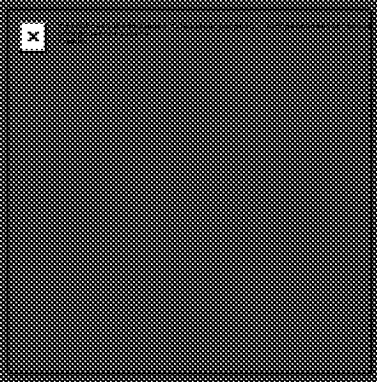
Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of

Michigan's families. Click here to learn more about the top 6 takeaways from the Governor's FY 2017 state budget.

Click a tweet to tweet it out:



The #MIBudget @OneToughNerd proposed yesterday makes key investments to strengthen Michigan for all families --> www.mi.gov/MIBudget

--> @OneToughNerd's #MIBudget includes $72 million a year for Detroit Public Schools. It is time to act now -- > www.mi.gov/MIBudget

2016 Mapes Awards Ceremony

A special award ceremony was held at the Training Academy on January 28, to present the new "Cpl. Samuel A. Mapes Criminal Patrol and Investigation Award." This award is named in honor of Corporal Mapes, one of the department's early pioneers in criminal patrol and investigation, who on May 1, 1927, stopped two suspicious vehicles at the same time.

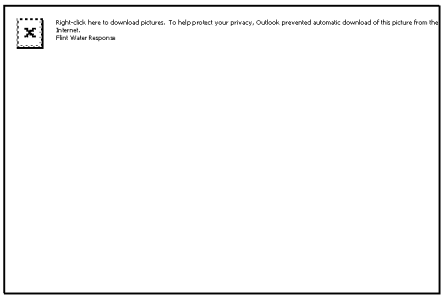
Check out the R.E. Store

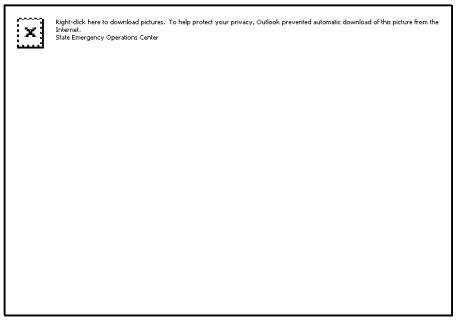
As work sites continue to move into the new MSP headquarters, don't forget to visit the Recycled Equipment (R.E.) Store to view the surplus supplies and equipment being added to the site. Items recently added include file cabinets, a recumbent exercise bike, and a Bowflex machine. This site and the items posted are available to all department members.

For more information on the



Many MSP members continue to play an active role in the state's response to the Flint water emergency.

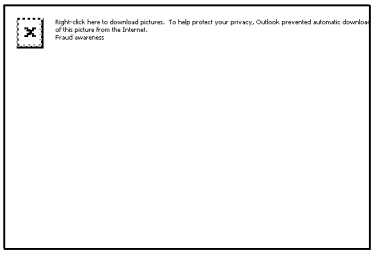
Thanks to our dedicated employees who continue to work in the activated emergency centers and in the field, we are helping to ensure residents have access to safe water.



In the midst of being activated, the State Emergency Operations Center (SEOC) successfully moved from its former location at Collins Road into our new, state-of-the-art emergency operations facility at the General Office Building. A significant amount of work went into preparing the new SEOC and completing the move, all the while maintaining SEOC operations during the transition.

For updates on the Flint water situation, visit www.michigan.gov/flintwater. To find out how you can help, visit www.helpforflint.com.

Spotlight: Fraud Investigation Section



Did you know Michigan is among the top ten states for the number of identity theft complaints reported annually, with nearly 75,000 complaints in 2014? Recognizing the growing number of fraud-related complaints, the MSP Fraud Investigation Section is dedicated to investigating criminal activity related to fraud and identity theft. This section includes nine enforcement members, who make up the east and west Fraud Investigation units.

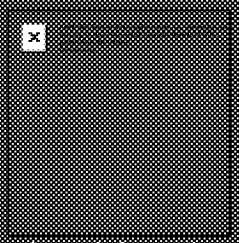
In 2015, the Fraud Investigation units initiated 151 complaints, nearly doubling the number of investigations from 2014. These investigations included credit card fraud, identity theft, bridge card fraud, organized retail crime, check fraud, mortgage fraud, embezzlement, and tax fraud. Investigations into these crimes are complex and lengthy, often taking several months to complete.

Fraud is a high-reward and low-risk crime in which the suspects can go undetected for weeks, months, and even years before they are caught. The suspects often only receive probation or minimal jail time for these crimes, because they don't involve any type of violent acts.

To help combat fraud, the Fraud Investigation Section is

headquarters move, visit the MSP Headquarters Move page.

Got news?



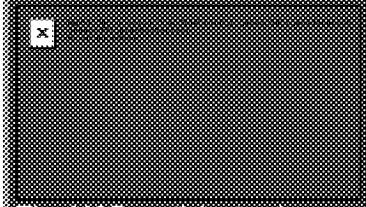
Do you have information of interest to other employees?

Possible topics include department-wide events, new initiatives, campaigns, and achievements.

Submit your ideas to the Public Affairs Section.

Submissions must be received prior to the 15th of each month to be included in the next month's newsletter.

Connect With Us Online



The MSP participates in several social media platforms to engage with citizens and relay educational and awareness messages to the public, as well as to promote department-sponsored events. Information about the history of our department, traditions, and services are featured on these sites.

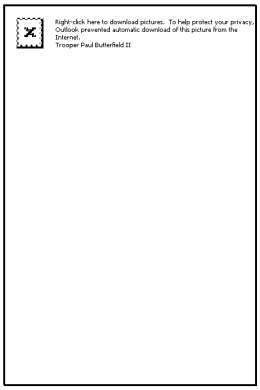
developing relationships with private stakeholders to discuss current trends and issues related to fraud. They are also working with Michigan law enforcement agencies and other state departments to develop successful partnerships and methods of sharing critical information.

Education is a critical component for citizens to protect themselves from identity theft and other fraud schemes. To help reduce your risk of falling victim to identity theft and other forms of fraud, follow these tips:

- Don't respond to unsolicited requests for personal information (i.e., your name, birth date, social security number, or bank account number) by phone, mail, or online.
- Shield the keypad when typing your passwords on computers and at ATMs to prevent "shoulder surfers" from seeing your password.
- Store personal information in a safe place at home and at work.
- Create complex passwords that identity thieves cannot guess easily. Change your passwords if a company that you do business with has a breach of its databases.
- Avoid having your credit card skimmed at the gas pump by using a pump closer to the front of the store. Thieves often place skimmers at the gas pumps farther away from the store so they aren't noticed as quickly.
- Always inspect credit card readers for anything suspicious. Avoid using it if something looks loose, crooked, damaged, or if you notice scratches or adhesive/tape residue.

You can visit the MSP Fraud Investigation website for more helpful information and tips on fraud awareness.

Tpr. Paul K. Butterfield II Memorial Scholarship Applications



Applications are now being accepted for the annual Tpr. Paul K. Butterfield II Memorial Scholarship. Applications must be submitted by March 31.

The scholarship is open to children of active or retired members of the Michigan State Police. The scholarship was awarded to three individuals in 2015.

The scholarship, created in memory of Trooper Butterfield, who was killed in the line of duty on September 9, 2013, is being administered by the Frankenmuth Community Foundation.

Additional information, including the scholarship application, is available on the Frankenmuth Community Foundation's website at www.frankenmuthfoundation.org.

Your suggestions and stories are always welcome.

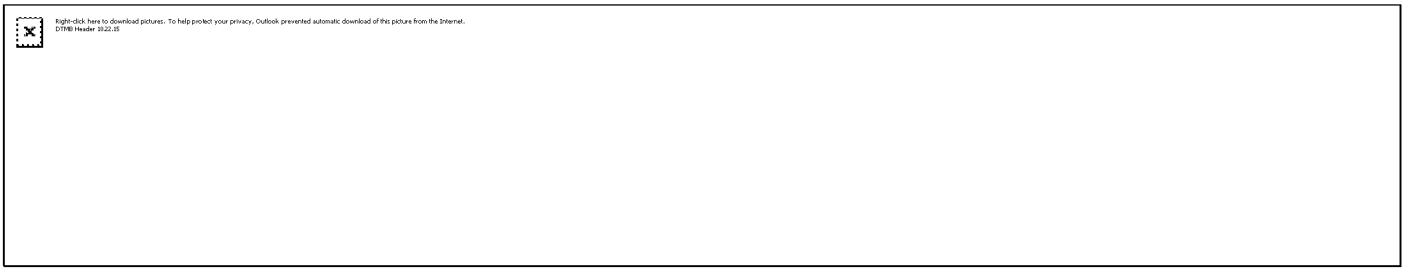
Subject: The Gov. Snyder's Budget Proposal



Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Hi Kathy,

Please see the email that provides a brief description of the purpose of the meeting and invite the appropriate DTMB staff/management that will have knowledge regarding the recording, tracking and reporting of the Flint water expenditures. Also please include, Carol O' Callaghan, SBO; Lora Mikula, OFM; Lisa Shoemaker, SBO; Ryan Doll, SBO; and Bryan Weiler, SBO is optional.

As mention per our phone discussion, we have been asked to have this meeting scheduled by noon today and held by the close of business on Friday, February 19, 2016.

Thank you for your assistance.

Daphne

Hello, Everyone.

I am following up to the email that Penny Burger, State Emergency Operations Center sent informing you that the Office of Internal Audit would be contacting you to discuss your department' s expenditures related to the City of Flint Water Emergency. We have reviewed the worksheets that you submitted to Penny which summarizes the total expenditures to date. We will use these worksheets as a starting point for reviewing the Flint Water expenditures recorded in MAIN. We will be contacting each of you to make arrangements for us to meet and obtain a description of purchases or services you incurred and the MAIN coding used to record the expenditures.

Our objective is to ensure that all agencies are consistent in tracking, monitoring and maintaining sufficient documentation for the Flint Water expenditures.

Carol O' Callaghan, Audit Specialist or myself, will be contacting you this week or early next week. If you have any questions or concerns you may email us or please feel free to contact me at (517) 285-8041 or Carol at (810) 348-4591.

Thank you,

Daphne Hobson

Flint Water Expenditure Tracking and Reporting
Agency Meeting

Agenda

I. **Introductions**

II. **Objective – Ensure proper tracking and reporting of Flint water related expenditures, outputs and outcomes.**

III. **Expenditures -Flint water expenditures to date - (Type, description, supplemental vs. non, approvals)**

IV. **Agency Coding - Flint water related expenditures – (Appn, Fund, PCA, Index, Activity Code, Multipurpose code, etc.)**

V. **Supporting Documentation – (Invoices, P-Cards, contracts, grant agreements, payroll sign in/sign out logs of times worked on Flint water activities, or other documentation).**

VI. **Grants/Contracts – signed agreements including grants with subrecipients and monitoring of the expenditures and other reporting requirements.**

VII. **Outputs/Outcomes – Establishment of output and outcomes**

VIII. **Metrics - Planned Output and Outcomes**

IX. **Tracking Template – Comments on draft tracking temp**

X. **Planned Staffing:**

a. Supervisor - Daphne Hobson
b. Staff – Carol O'Callaghan

XI. **Questions/Comments**

JANUARY 30, 2016

Welcome to a special Saturday edition of GovTech Today, where we recap our best stories of the week — just in case you missed them. Thanks for spending a little bit of your weekend with us.

Anonymous Activates #OpFlint: According to the hacker group, OpFlint promises online attacks directed toward Michigan Gov. Rick Snyder's administration in response to the Flint water emergency, which has dominated national headlines recently. Though Vocativ.com says the video doesn't explain any specifics of Anonymous' attack plan, it does assure to those affected by the water crisis that, "We will amplify your voice where the mainstream media will surely fail you, as it has in the past." See what Michigan officials had to say about the threat.

Speed Up by Slowing Down: It's becoming increasingly difficult to stay current with emerging technologies while mitigating security vulnerabilities. So what can be done to keep up? Surprisingly, it may be best to slow down, look around and catch your breath. That's right — if you want to speed up innovation, many experts suggest slowing down first.

Emerging Tech Affects Jobs: A new study has some worrisome revelations for the future of the global job market: By 2020, more than 5 million jobs could disappear in the wake of advancing technology. And those in the public sector are not immune.

SF's Startup in Residence: Building on a program from 2014, the San Francisco Mayor's Office of Civic Innovation announced during a Jan. 28 press conference the 2016 Startup in Residence program that includes a regional partnership with the neighboring cities of Oakland, San Leandro and West Sacramento. The ultimate goal? To build toward an international program.

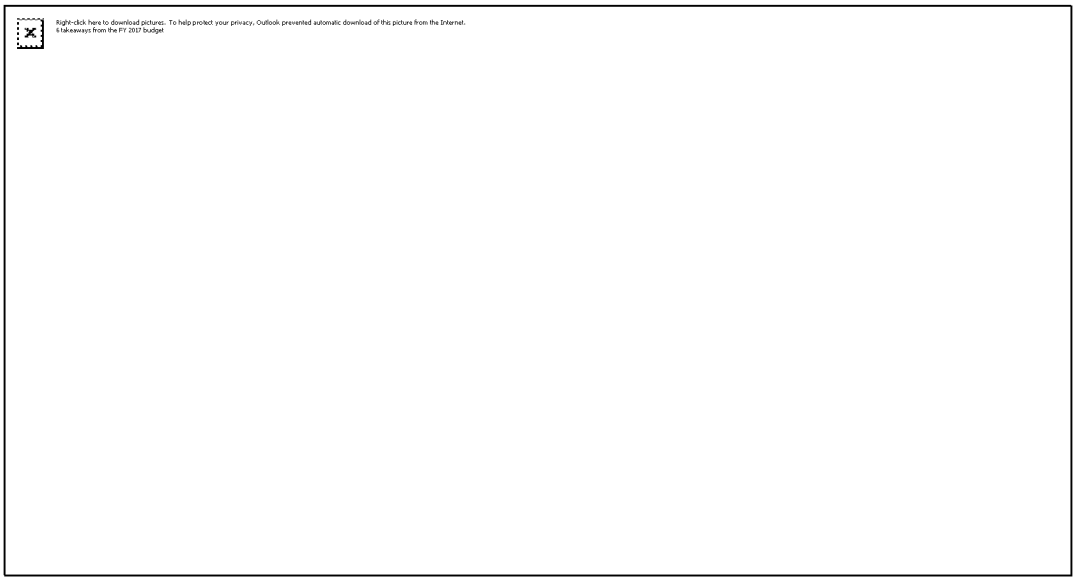
Subject: What this year's budget means for Michigan...

VIDEO: What Governor Snyder's FY17 budget means for Michigan



Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of Michigan's families. Click here to learn more about the top 6 takeaways from the

Governor's FY 2017 state budget.

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

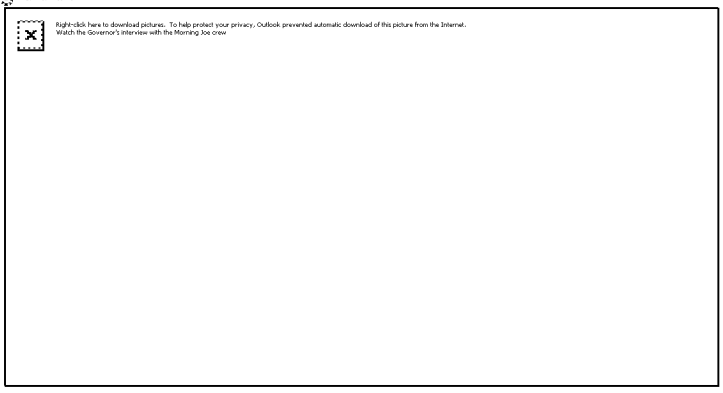
How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

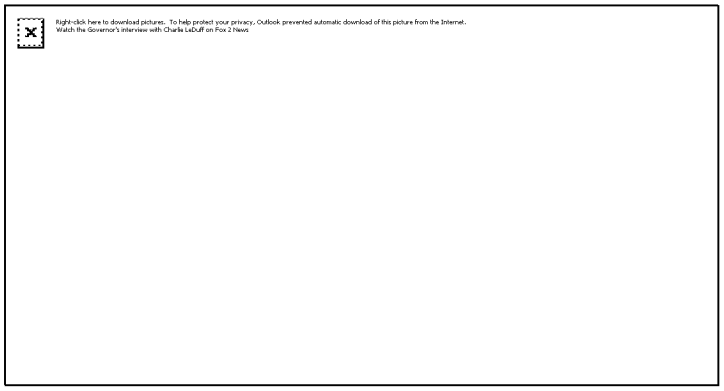
"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.



Governor Snyder with Charlie LeDuff on Fox 2 Detroit

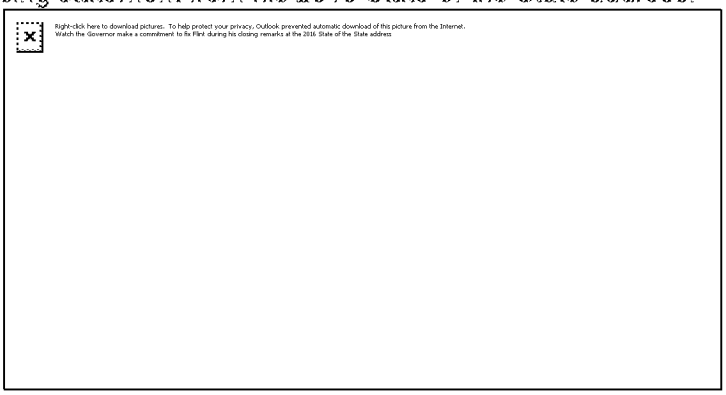
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm came from people who worked for me, and I feel responsible for that. But I am committed

to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.

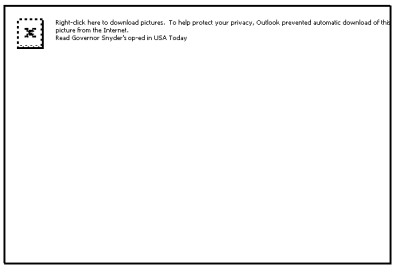


Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."



"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

To: Harmon, Paul (DTMB)
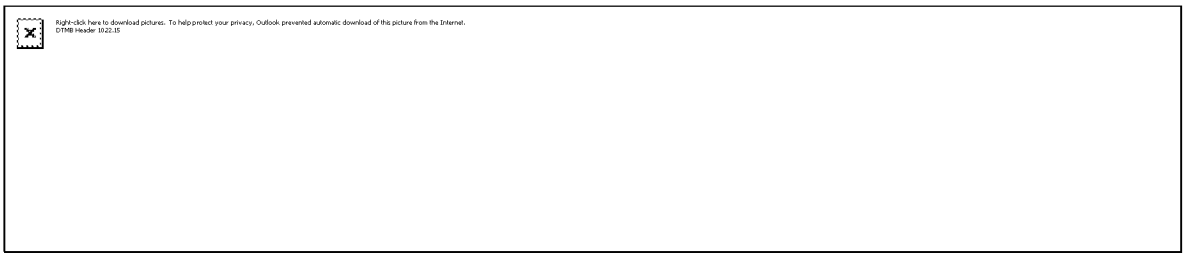
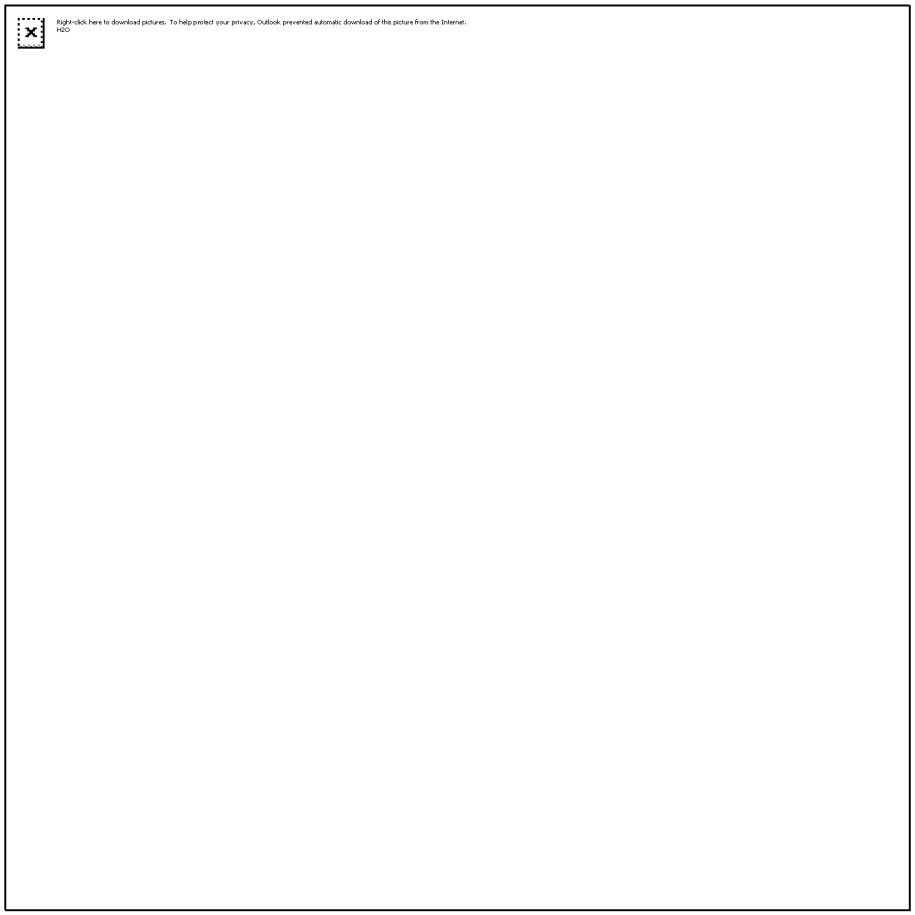
Subject: Contributing time, muscle and money



During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.



Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

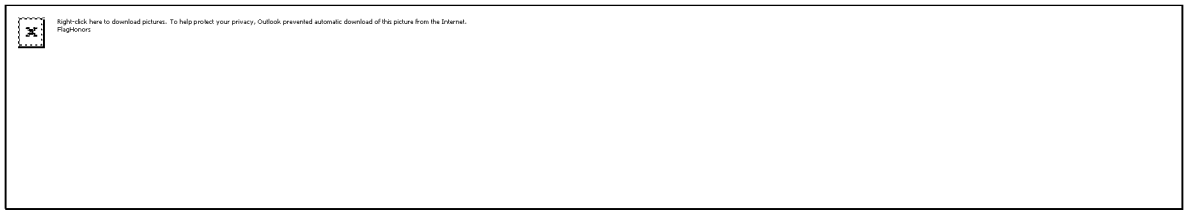
Subject: Thank you for your service



THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

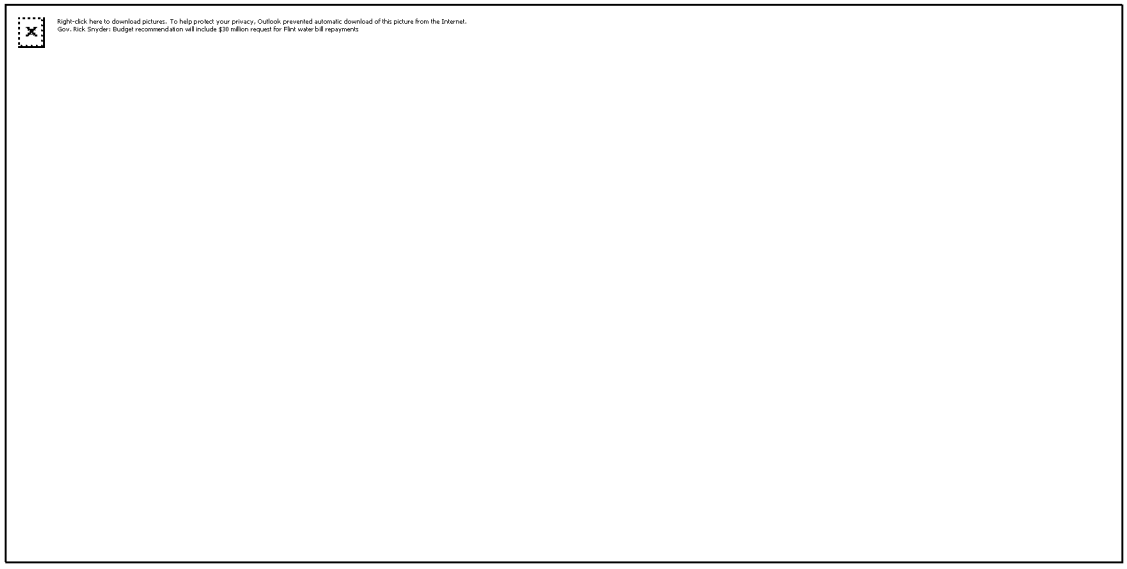
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments



When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

Subject: RE: Information Request: Michigan's Statewide Interoperable Communication Training Conference

Biography:

I have been a conservation officer with the Michigan Department of Natural Resource's Law Enforcement Division for 19 years. I was stationed in Menominee County in the Upper Peninsula as a field officer for 11 years before being promoted in 2008 to a specialist within the Law Enforcement Division's Great Lakes Enforcement Unit. In 2013, I was promoted to the rank of Lieutenant and began supervising the statewide operations of the Great Lakes Enforcement Unit.

The title of the presentation is: Michigan DNR use case – on water response.

I have attached a picture.

Also, since I am filling in for Lt. Jen Wolf do I need to contact the lodge to change room reservations or do anything additional on my end? I believe she was planning on staying for the entire conference but other commitments will not allow me to do that. I will only be staying until after my presentation on Tuesday.

Thanks,

Terry

Good afternoon.

Thank you for agreeing to speak at this year's Michigan's Statewide Interoperable Communication Training Conference at the Great Wolf Lodge in Traverse City. We are greatly appreciative to each of you for the knowledge and expertise that you bring to the table.

To ensure our conference runs smoothly and to provide the best experience for our speakers and our attendees, I would like to request the following information.

Could you please reply to this email by **Tuesday, February 16, 2015** with your:

- A short biography
- A picture of yourself
- Your presentation title

In addition, we will need the following by **Thursday, February 18, 2016**

- Your presentation

Again, thank you for agreeing to be a part of this year's conference. We look forward to seeing you.

Sincerely,

MI Statewide Interoperable Communications Training Conference Planning Committee

Good afternoon.

Thank you for agreeing to speak at this year's Michigan's Statewide Interoperable Communication Training Conference at the Great Wolf Lodge in Traverse City. We are greatly appreciative to each of you for the knowledge and expertise that you bring to the table.

As you know, the conference is a month away which means we are finalizing all the last minute details to ensure a successful event. If you have not registered as a speaker, I encourage you to do so through MI-TRAIN at https://mi.train.org. Registration closes on February 5. Step-by-step registration instructions are attached to register as a speaker. After you complete the registration portion, you will be asked for a code. Please enter [redacted] which is case sensitive.

Accommodations: A block of rooms has been reserved at the Great Wolf Lodge (231-941-3600) for Monday, February 22, to Thursday, February 25. To receive the conference rate, reference group code [redacted] After February 1, the rooms will be released, and the conference rate will not be available. You must reserve your hotel room separately from the conference registration in MI-TRAIN.

***You are responsible for making your own hotel reservations.** You will be asked to hold your room with a credit card but the conference will pay for your room.

Key dates:

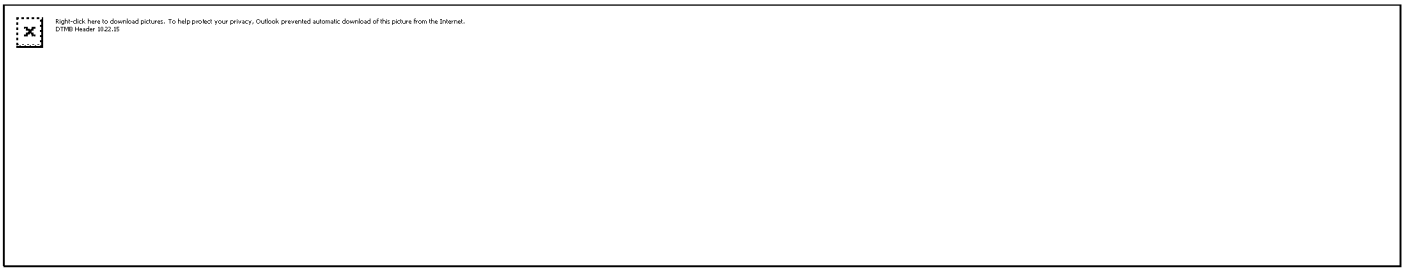
- Monday, February 2nd- Please email a short bio, a picture of yourself, your presentation title and a short summary of your presentation to simonj5@michigan.gov
- Tuesday, February 12th- Please email your presentation to simonj5@michigan.gov

In terms of the technical logistics of the conference, we will provide a laptop, projector (using a 4:3 screen format), microphone, presenter and internet access. Be sure to alert me if you have videos embedded in your presentation. Also, if you do not want your presentation duplicated for distribution, let me know prior to February 12th along with any other additional needs you may have.

Again, thank you for agreeing to be a part of this year's conference. I look forward to seeing you.

-Brad

From: DTMB Director and CIO David Behen <dtmb@govsubscriptions.michigan.gov>
Sent: Wednesday, February 17, 2016 10:10 AM
To: Harmon, Paul (DTMB)
Subject: The Gov. Snyder's Budget Proposal



Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for

14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.

- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

We are currently experiencing problems sending mail from Office 365 / Exchange online mailboxes to on prem mailboxes (such as GOV and MSP). We are opening a case with Microsoft to help work the situation. This is particular concern due to the activation of the SEOC, which is responding to the Flint State of Emergency.

We have no further details at this time.

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

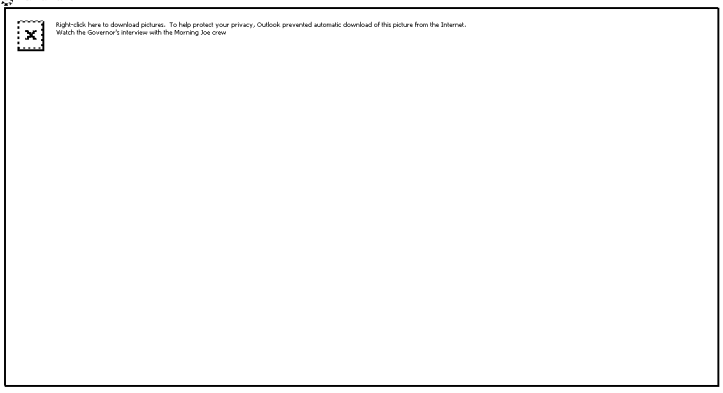
How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

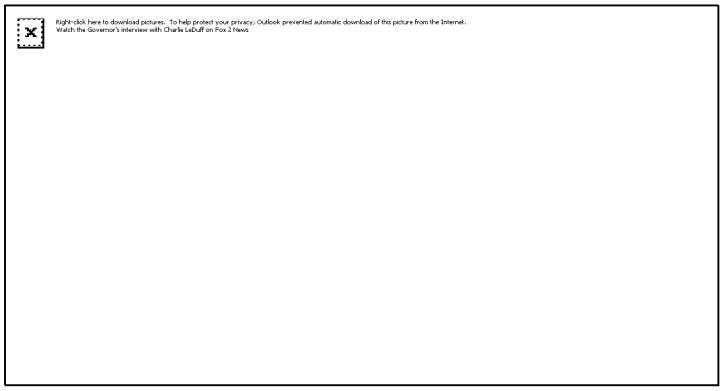
"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.



Governor Snyder with Charlie LeDuff on Fox 2 Detroit

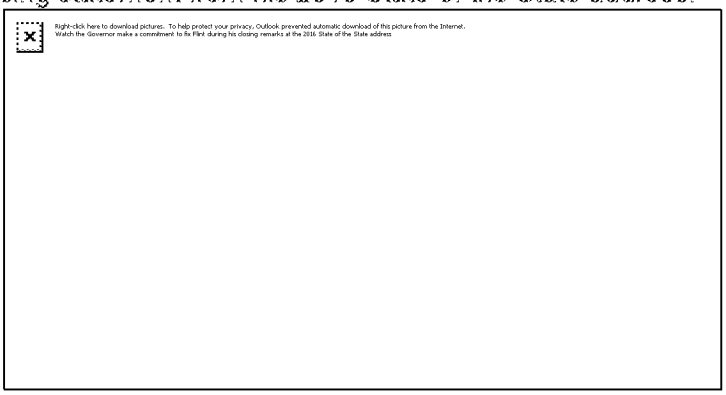
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm came from people who worked for me, and I feel responsible for that. But I am committed

to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.

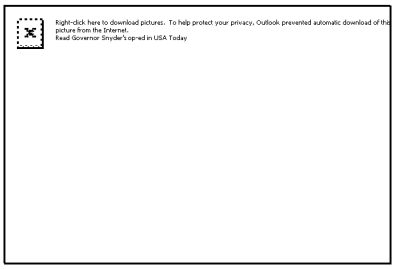


Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."



"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

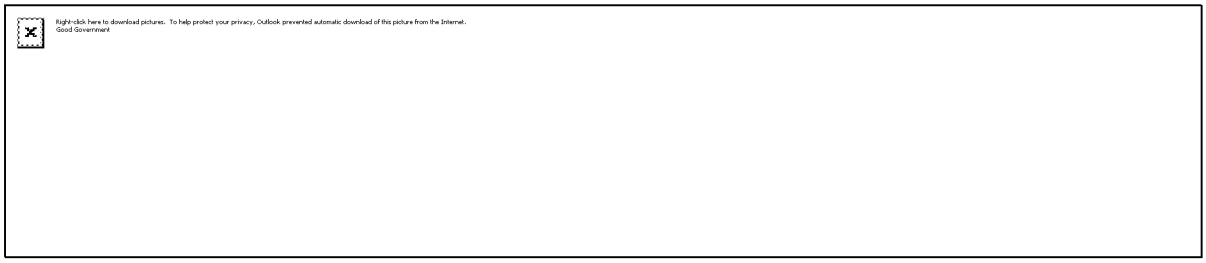
Subject: Flint Volunteer Efforts



Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

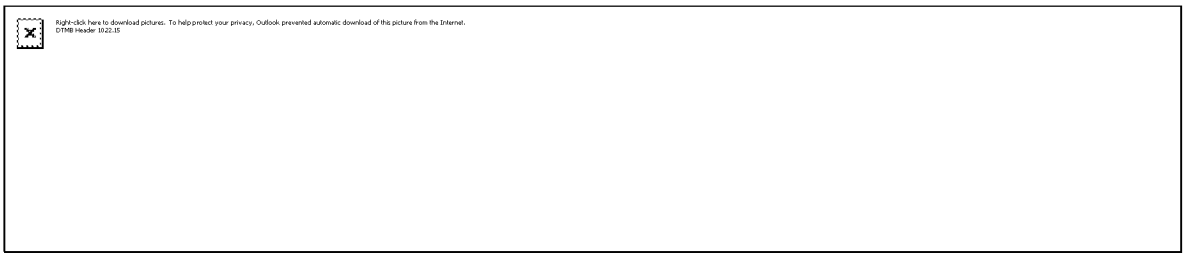
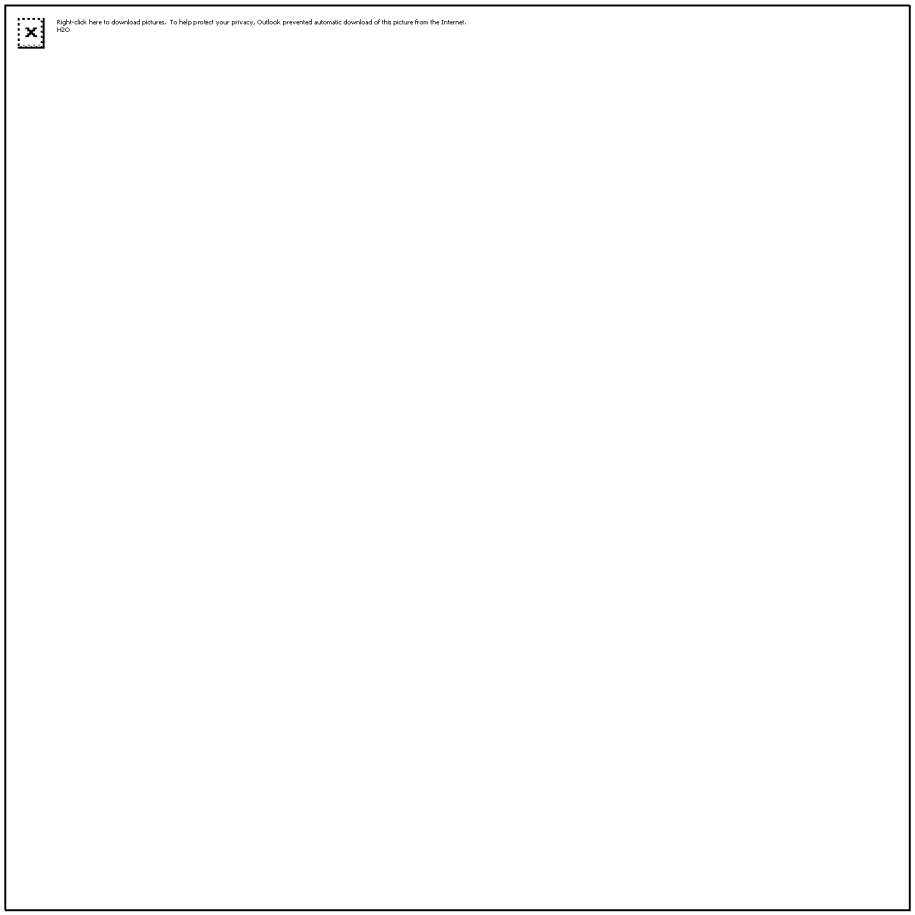
Subject: Contributing time, muscle and money



During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.



Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

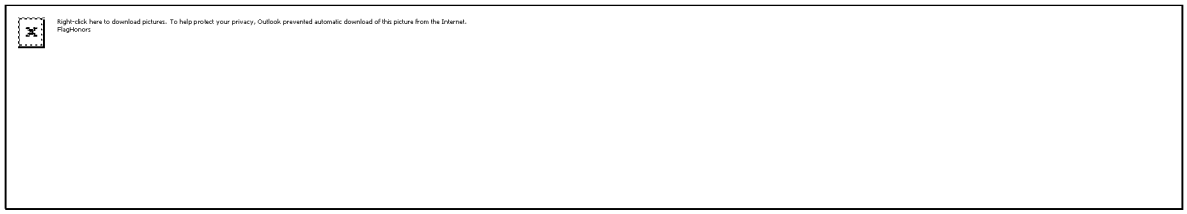
Subject: Thank you for your service



THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

Subject: RE: Expediting DEQ "BRS" Software Upgrade - CRQ000000556241

Sorry, I thought I included all of this info in the CRQ.

It appears that the APP package needs to be upgraded to the new version. We are assuming the current package is version 2013 (no description, but that is what the clients have from the last time it was pushed to them), and they need the package to be the new version, 2015, and then installed.

Rachelle will have to answer to the Flint Water question.

Thanks.

Subject: RE: Expediting DEQ "BRS" Software Upgrade - CRQ000000556241

I've asked Shirley to process this request when she is back from lunch.

Is this a regular escalation or one for the Flint water crisis? If it is for Flint I was instructed this morning that we are to have Chris Christensen's approval before escalating.

It appears that this software has been packaged in the past – is this request asking for a package or just to have the software installed.

I've cc'd the Delivery Services team so they have a heads up.

It seems our processes are holding up progress. This is EPA software that requires regular updates. In the past we got DTMB to log in and update the software without requiring EUSC approval.

See the note from the user that we received this morning.

"Good morning all – Idea as to when it will be installed? The program wants to escalate the issue to the office chief. I know Rachelle said the original ticket was processed without understanding this was a new version of the software, but they are on the verge of losing money if they don't get these reports ran. It really is just an update to the existing software that someone from DTMB just came over and installed last time. If we can grant Bonita the power to use her admin rights it would be huge to get this done this morning. I appreciate the help."

I need someone to log in and update the software for the client today or I need approval to let the agency APU to log in and do it.

Can someone help us get this done today?

Subject: RE: Expediting DEQ "BRS" Software Upgrade - CRQ000000556241

Sorry, I thought I included all of this info in the CRQ.

It appears that the APP package needs to be upgraded to the new version. We are assuming the current package is version 2013 (no description, but that is what the clients have from the last time it was pushed to them), and they need the package to be the new version, 2015, and then installed.

Rachelle will have to answer to the Flint Water question.

Thanks.

It seems our processes are holding up progress. This is EPA software that requires regular updates. In the past we got DTMB to log in and update the software without requiring EUSC approval.

See the note from the user that we received this morning.

"Good morning all – Idea as to when it will be installed? The program wants to escalate the issue to the office chief. I know Rachelle said the original ticket was processed without understanding this was a new version of the software, but they are on the verge of losing money if they don't get these reports ran. It really is just an update to the existing software that someone from DTMB just came over and installed last time. If we can grant Bonita the power to use her admin rights it would be huge to get this done this morning. I appreciate the help."

I need someone to log in and update the software for the client today or I need approval to let the agency APU to log in and do it.

Can someone help us get this done today?

All,

The EUSC is granting the installation of this new version of software. The submitted SXR will continue through the process so that it is on record.

In the future, the exception request for the next version (2017, I'm thinking) should be submitted with enough time to go through the process correctly and not negatively impact our clients.

Thank you.

Subject: RE: Expediting DEQ "BRS" Software Upgrade - CRQ000000556241

Thanks Nick. Bryan Hamilton has been assigned the Software Eval Task and will be performing manual installs to the 3 systems.

Jennifer – The CRM Task is awaiting your approval.

Delaine – This will need package build Tasks so we can get this software title into our delivery system. Bryan will enter notes into the ticket regarding the manual installation. There won't be any machines to deliver this to when the package build is complete. Please make sure that information makes it through to the package build Tasks.

Thanks all,
Joe

Subject: RE: Expediting DEQ "BRS" Software Upgrade - CRQ000000556241

All,

The EUSC is granting the installation of this new version of software. The submitted SXR will continue through the process so that it is on record.

In the future, the exception request for the next version (2017, I'm thinking) should be submitted with enough time to go through the process correctly and not negatively impact our clients.

Thank you.

Subject: RE: Expediting DEQ "BRS" Software Upgrade - CRQ000000556241
Importance: High

It seems our processes are holding up progress. This is EPA software that requires regular updates. In the past we got DTMB to log in and update the software without requiring EUSC approval.

See the note from the user that we received this morning.

"Good morning all – Idea as to when it will be installed? The program wants to escalate the issue to the office chief. I know Rachelle said the original ticket was processed without understanding this was a new version of the software, but they are on the verge of losing money if they don't get these reports ran. It really is just an update to the existing software that someone from DTMB just came over and installed last time. If we can grant Bonita the power to use her admin rights it would be huge to get this done this morning. I appreciate the help."

I need someone to log in and update the software for the client today or I need approval to let the agency APU to log in and do it.

Can someone help us get this done today?

No. . it's still both. I verified the current version we have is 2013, so 2015 will need a 139 and it will need a build package.

Gary

This request is currently with Randy Cox. It does appear that this is an upgrade request to the 2015 version. This is currently deployed to only 4 people so I assume this would be a replacement for the 2013 version. Please mention that in the CRM approval.

Subject: RE: Expediting DEQ "BRS" Software Upgrade - CRQ000000556241

Sorry, I thought I included all of this info in the CRQ.

It appears that the APP package needs to be upgraded to the new version. We are assuming the current package is version 2013 (no description, but that is what the clients have from the last time it was pushed to them), and they need the package to be the new version, 2015, and then installed.

Rachelle will have to answer to the Flint Water question.

Thanks.

I've asked Shirley to process this request when she is back from lunch.

Is this a regular escalation or one for the Flint water crisis? If it is for Flint I was instructed this morning that we are to have Chris Christensen's approval before escalating.

It appears that this software has been packaged in the past – is this request asking for a package or just to have the software installed.

I've cc'd the Delivery Services team so they have a heads up.

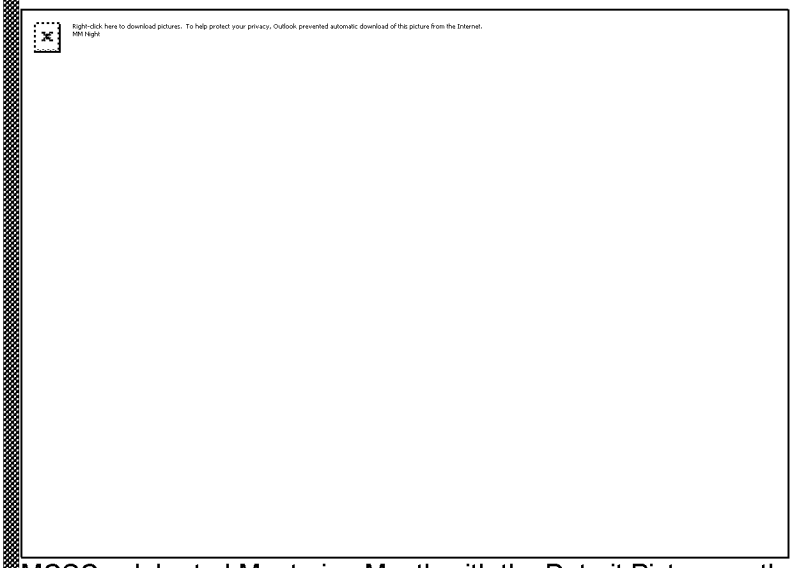
MCSC celebrates Mentoring Month with the Detroit Pistons



MCSC celebrated Mentoring Month with the Detroit Pistons as the two organizations teamed up to host Mentor Michigan Night at the Palace of Auburn Hills. More than 100 people involved with mentoring programs attended the event.

Mentor Michigan redevelops Quality Based Mentoring Standards

In September 2015, MENTOR: the National Mentoring Partnership released the 4th edition of the Elements of Effective Practice for Mentoring. In response, Mentor Michigan has redeveloped Quality Based Mentoring Standards in order to reflect the most up-to-date research in the mentoring field. This new and improved system will enable us to increase our level of engagement with mentoring programs, ensuring that all youth in Michigan receive the level of support they need. Quality Rated Programs will receive special offers and opportunities for national exposure.

Governor's Service Awards nominations now open

MCSC is now accepting nominations for the 2016 Governor's Service Awards. The form can now be filled out online. Nominate a volunteer, organization or national service program today!

Michigan's AmeriCorps

National service agency deploys AmeriCorps team to assist with Flint water emergency

The Corporation for National and Community Service (CNCS) announced it is deploying an AmeriCorps team to Flint, to support state and local efforts to protect the public health of residents facing challenges from increased lead levels in the Flint water supply.

"National service is all about getting things done to solve local problems, and we are committed to supporting Flint at this time of need," said Wendy Spencer, CEO of CNCS.

Funding Alerts

Scotts Miracle-Gro GRO1000 Grassroots Grants

The Scotts Miracle-Gro Company's GRO1000 Grassroots Grants help foster the development of gardens and green spaces in the United States. Grants of up to $1,500 are awarded to local communities throughout the country to help bring edible gardens, flower gardens and public green spaces to more neighborhoods.

Teacher Vision Grants

American Electric Power will combine your teaching talents and creativity with our resources and desire to help you make a difference in your students' lives. Available for teachers of pre-k through grade 12 with projects that have an academic focus and a goal to improve student achievement. Grants range from $100 to $500.

Kars4Kids Grants

Kars4Kids is constantly on the lookout for like-minded charities which share our values and are working hard to make a difference

in the areas of education and youth development. Grants typically range from $500-$2,000, depending on mission alignment and availability of funds.

Walmart Foundation State Giving Program
Applications will be accepted for programs within the scope of one of the following focused giving areas: career opportunity, hunger and healthy eating or disaster preparedness. Grants range from $25,000 to $250,000.

National Arts and Humanities Youth Program Awards
The National Arts and Humanities Youth Program Awards, sponsored by the President's Committee on the Arts and the Humanities, recognizes excellence in after-school and out-of-school arts and humanities programs for underserved children and youth. Twelve winners will receive a $10,000 award and an invitation to accept their award at a White House ceremony.

Volunteer opportunities

Junior Achievement of Mid-Michigan
Junior Achievement offers programs to teach young people career and life skills. JA programs are five to seven sessions usually taught over the course of several weeks to students in K-12th grade.

Willow Farm Therapeutic Riding
Willow Farm Therapeutic Riding serves as a center for continual development, implementation and evaluation of a therapeutic riding program for children and young adults between the ages of 4 and 26, all of whom have a physician-diagnosed disability. Volunteer opportunities include sidewalkers and horse leaders.

Feeding America West Michigan
Feeding America West Michigan Food Bank provides food to 492,100 people in need each year. In one hour, volunteers can help distribute 150 meals.

About the MCSC

The Michigan Community Service Commission utilizes service as a strategy to address the state's most pressing issues and empowers volunteers to strengthen communities. In 2015-2016, the MCSC is granting more than $7 million in federal funds to local communities for volunteer programs and activities. The MCSC is funding 29 AmeriCorps programs and four My Brothers Keeper grantees. The Governor's Service Awards and Mentor Michigan are also premier programs of the MCSC. www.michigan.gov/volunteer

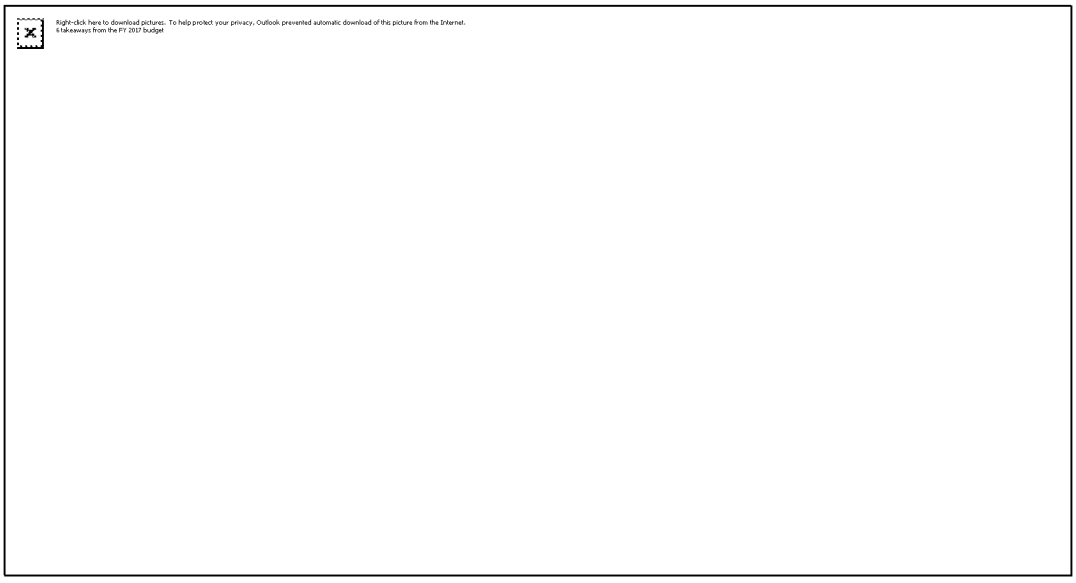
From: Governor's Office <governorsoffice@govsubscriptions.michigan.gov>
Sent: Thursday, February 11, 2016 5:52 PM
To: Hartsuff, Lisa (DTMB)
Subject: What this year's budget means for Michigan...

VIDEO: What Governor Snyder's FY17 budget means for Michigan



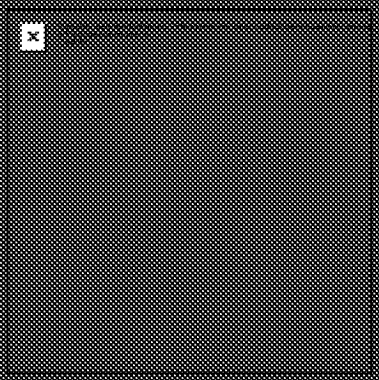
Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of Michigan's families. Click here to learn more about the top 6 takeaways from the

Governor's FY 2017 state budget.

Click a tweet to tweet it out:



The #MIBudget @OneToughNerd proposed yesterday makes key investments to strengthen Michigan for all families --> www.mi.gov/MIBudget

--> @OneToughNerd's #MIBudget includes $72 million a year for Detroit Public Schools. It is time to act now --> www.mi.gov/MIBudget

--> @onetoughnerd's significant investment in #Flint families is the right thing to do. #FlintFWD #MIBudget www.mi.gov/MIBudget

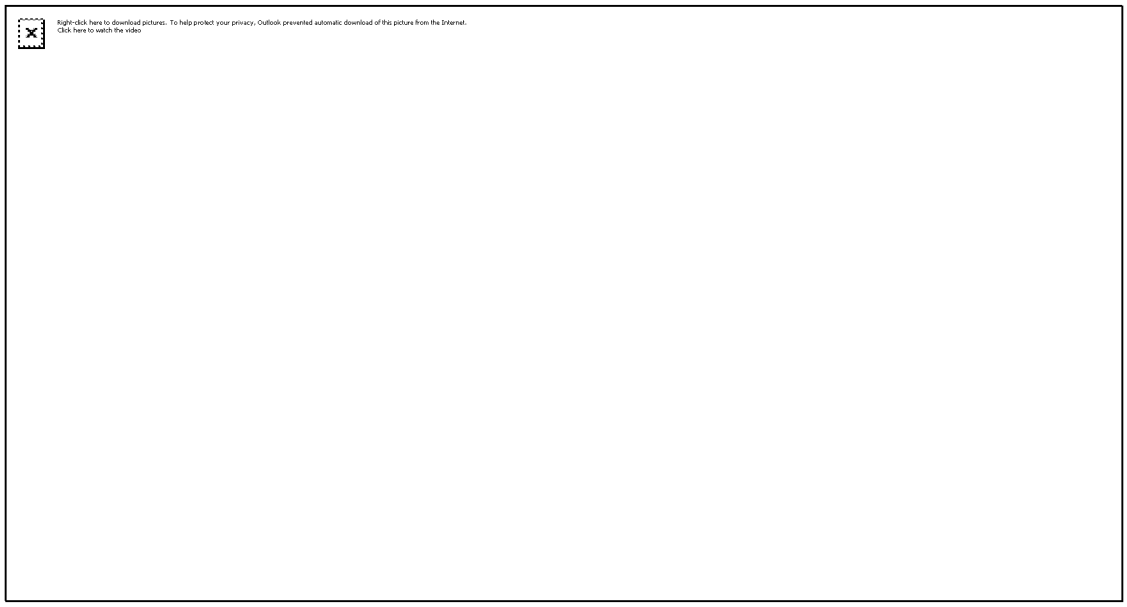
Subject: VIDEO: Volunteering in Flint

VIDEO: How volunteers are helping Flint



Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

Click here to watch the video and learn more about how the Food Bank of Eastern Michigan is helping Flint's families.

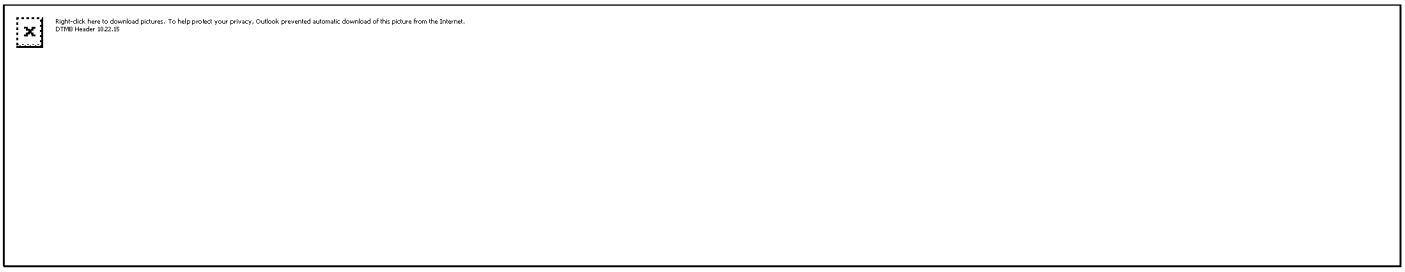
Subject: The Gov. Snyder's Budget Proposal



Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for

14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.

- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Subject: RE: Mandatory Meeting - DTMB Custodians of Correspondence Related to Flint
Importance: High

Please note the attached document has been updated. Please discard the previous version. A paper copy will be provided to you at the meeting.

-----Original Appointment-----
From: Longanbach, Janelle (DTMB) **On Behalf Of** DTMB-Directors-Office
Sent: Wednesday, February 17, 2016 1:21 PM
Subject: Mandatory Meeting - DTMB Custodians of Correspondence Related to Flint
When: Thursday, February 18, 2016 2:00 PM-3:00 PM (UTC-05:00) Eastern Time (US & Canada).
Where: Ottawa Builidng - Upper Level – Conference Room 4 OR Call-in: 866-390-1828 access code: 1842654

Please note this meeting can be attended in person or via conference call-in. Location and Dial in information are provided below.

<< File: All DTMB Custodians of Correspondence Related to Flint.pdf >>
***This attachment was updated 2/18/16**

*See agenda below

Requested By:
DTMB Executive Staff

Location:
Ottawa Building
Upper Level – Conference Room 4
611 W. Ottawa Street
Lansing, MI 48933

Call-in: 866-390-1828
Access code: 1842654

Security:
Please have your State Employee ID showing at all times.

Parking:
Metered parking is available along Ottawa and Pine street.

Briefing:

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to produce, by a certain date, any documents containing certain search terms. In this meeting we will review instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Agenda

1. Kickoff – Brom Stibitz, Chief Deputy Director
2. Why you are here – Jean Ingersoll, Interim Chief of Staff
3. What you need to do (February 22, 2016 deadline) – Jean
4. What will be done for you – Jean
5. What's next – Jean
6. Public Information Reminder – Caleb Buhs, Public Information Officer
7. Questions and Answers - Group

Subject: Fwd: Mandatory Meeting - DTMB Custodians of Correspondence Related to Flint

This is a result of the Flint Water Crisis answer I gave you :-(This conflicts with training and I see Dave C is on it as well, which seems silly for him since he will be gone soon.

Please note this meeting can be attended in person or via conference call-in. Location and Dial in information are provided below.

*please see agenda below

Requested By:
DTMB Executive Staff

Location:
Ottawa Building
Upper Level – Conference Room 4
611 W. Ottawa Street
Lansing, MI 48933

[redacted]

Security:
Please have your State Employee ID showing at all times.

Parking:
Metered parking is available along Ottawa and Pine street.

Briefing:
In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to produce, by a certain date, any documents containing certain search terms. In this meeting we will review instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Agenda

1. Kickoff – Brom Stibitz, Chief Deputy Director
2. Why you are here – Jean Ingersoll, Interim Chief of Staff
3. What you need to do (February 22, 2016 deadline) – Jean
4. What will be done for you – Jean
5. What's next – Jean
6. Public Information Reminder – Caleb Buhs, Public Information Officer

7. Questions and Answers - Group

Hello Lisa/Curt,

Can you guys please get someone assigned who is working the Software Queue today? This request is being escalated as it pertains to the Flint Water crisis and is of urgent nature.

Please provide me with an update, when able.

Thanks,
Rachelle

Subject: RE: Expediting DEQ "BRS" Software Upgrade - CRQ000000556241

Sorry, I thought I included all of this info in the CRQ.

It appears that the APP package needs to be upgraded to the new version. We are assuming the current package is version 2013 (no description, but that is what the clients have from the last time it was pushed to them), and they need the package to be the new version, 2015, and then installed.

Rachelle will have to answer to the Flint Water question.

Thanks.

Subject: RE: Expediting DEQ "BRS" Software Upgrade - CRQ000000556241

I've asked Shirley to process this request when she is back from lunch.

Is this a regular escalation or one for the Flint water crisis? If it is for Flint I was instructed this morning that we are to have Chris Christensen's approval before escalating.

It appears that this software has been packaged in the past – is this request asking for a package or just to have the software installed.

I've cc'd the Delivery Services team so they have a heads up.

No. . it's still both. I verified the current version we have is 2013, so 2015 will need a 139 and it will need a build package.

Gary

Gary, I'm working on an exception request for this and once approved I was going to create a build package request. Are you saying that, in this case, I can just approve the change request with a note that this is an upgrade and skip the exception and build request?

This request is currently with Randy Cox. It does appear that this is an upgrade request to the 2015 version. This is currently deployed to only 4 people so I assume this would be a replacement for the 2013 version. Please mention that in the CRM approval.

I've asked Shirley to process this request when she is back from lunch.

Is this a regular escalation or one for the Flint water crisis? If it is for Flint I was instructed this morning that we are to have Chris Christensen's approval before escalating.

It appears that this software has been packaged in the past – is this request asking for a package or just to have the software installed.

I've cc'd the Delivery Services team so they have a heads up.

This is a result of the Flint Water Crisis answer I gave you :-(This conflicts with training and I see Dave C is on it as well, which seems silly for him since he will be gone soon.

*please see agenda below

Requested By:
DTMB Executive Staff

Location:
Ottawa Building
Upper Level – Conference Room 4
611 W. Ottawa Street
Lansing, MI 48933

[redacted]

Security:
Please have your State Employee ID showing at all times.

Parking:
Metered parking is available along Ottawa and Pine street.

Briefing:
In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to produce, by a certain date, any documents containing certain search terms. In this meeting we will review instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Agenda

1. Kickoff – Brom Stibitz, Chief Deputy Director
2. Why you are here – Jean Ingersoll, Interim Chief of Staff
3. What you need to do (February 22, 2016 deadline) – Jean
4. What will be done for you – Jean
5. What's next – Jean
6. Public Information Reminder – Caleb Buhs, Public Information Officer
7. Questions and Answers - Group

STATE OF MICHIGAN

RICK SNYDER
GOVERNOR

DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET
LANSING

DAVID B. BEHEN
DIRECTOR

February 17, 2016

TO: All DTMB Custodians of Correspondence Related to Flint

FROM: Jean Ingersoll, Interim Chief of Staff to David B. Behen, Director and CIO

SUBJECT: Flint Document Production – Search Terms and Guidance

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. **As a custodian, you are required to produce any documents containing the search terms listed below, no later than Monday, February 22, 2016.** This memorandum contains detailed instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Microsoft 365 – Outlook (*includes emails, calendar items) and OneDrive*

DTMB staff will centrally coordinate the Microsoft 365 search for all of DTMB's custodians. Therefore, DTMB's custodians *do not need to independently search any of their Microsoft 365 applications* for the search terms listed below.

Network Drives

Similar to the approach outlined above, DTMB staff will centrally coordinate the network drive search effort for all DTMB custodians. Custodians do *not* need to independently conduct a network drive search for the search terms below.

Non-Network Drives – *includes hard drives, desktop, and thumb/flash drives*

For all non-network drive types, ***each custodian will need to search every search term listed below in every non-network format, and move all relevant/related documents in to a network drive for collection. In order to move items to the network, you must be connected to the network.***

Start by conducting the search of all non-network drives, filling out the attached search term checklist as you go. If you need guidance as to how to perform this search, a step-by-step guide is included below in Appendix 1.

All relevant/responsive items that are produced as a result of your search need to be moved to a network drive. You can move your relevant/related documents to a network drive in whatever format the document is currently in. After the February 22, 2016, deadline, DTMB staff will access the network drives to collect the files.

Paper Files

Review all applicable paper files. Scan any relevant/related documents, and save them to a network drive, as described above. If this is not possible, you may provide hard copies of documents to Jean Ingersoll in the Director's Office. These documents must be received in the Director's Office by February 22, 2016, and will not be returned to you.

Home Computer

Any relevant e-mails or other documents on a personal computer also are subject to this request. Please check your personal computer for any e-mails or other documents relating to this search. If you discover any relevant/related documents, please include the phrase "personal computer" in the file name, and save them to the aforementioned network drive.

Conclusion

Thank you for your cooperation in complying with this request. Should you have any questions, please contact Jean Ingersoll at 1-8844.

Search Term Checklist

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to search and copy all items that you identify to a DTMB network drive, as described above.

Please complete your search no later than close of business on Monday, February 22, 2016. Relevant/related items from the past 10 years should be included.

You should search for *each term exactly as it is shown below, and include quotation marks around each separate word.* For example, "Legionnaire", "Legionella", or "Flint" would all go into search fields. After you complete a search term, check the box beside the term.

Search Terms:

- ☐ "Legionnaire"
- ☐ "Legionella"
- ☐ "boil water order" & "Flint"
- ☐ "coli" & "Flint"
- ☐ "bacteria" & "Flint"
- ☐ "microb" & "Flint"
- ☐ "TTHM" & "Flint"
- ☐ "Lead" & "Flint"
- ☐ "emergency" & "Flint"
- ☐ "Karegnondi"
- ☐ "Genesee County Health Department"
- ☐ "Flint" & "utilities"
- ☐ "Lead and Copper Rule"
- ☐ "Detroit Water and Sewerage Department" & "Flint"
- ☐ "DWSD" & "Flint"
- ☐ "Flint River"
- ☐ "Pb" & "water"
- ☐ "KWA"

Search conducted on the email account of: _____

By (your name): _____

Date completed: _____

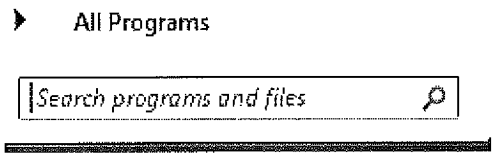
Please return this completed Checklist to DTMB Director's Office staff by February 22, 2016, at DTMB@michigan.gov, or
Directors Office, Cass Building, Second Floor

APPENDIX 1 – Search Guidance

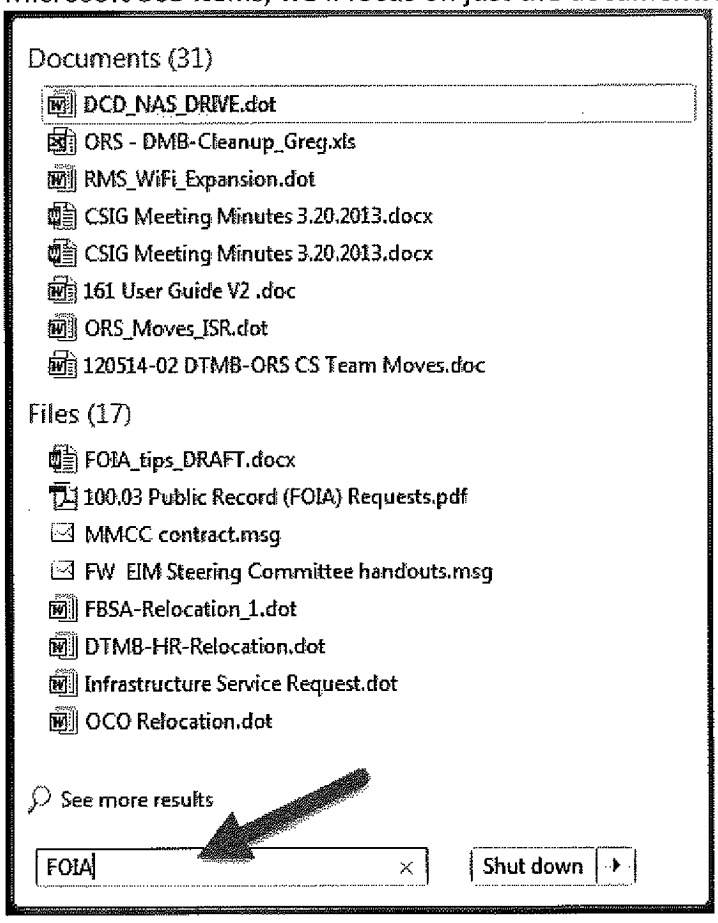
Regardless of what version of Windows you're using, each of them has a search feature built in called "Windows Explorer," you see it every time you open up a folder on a network drive, or on your own computer.

Using the search function in windows 7

Since the majority of DTMB is on Windows 7, the examples below are on that operating system. If you click on windows Start button, you'll see the search box right next to it

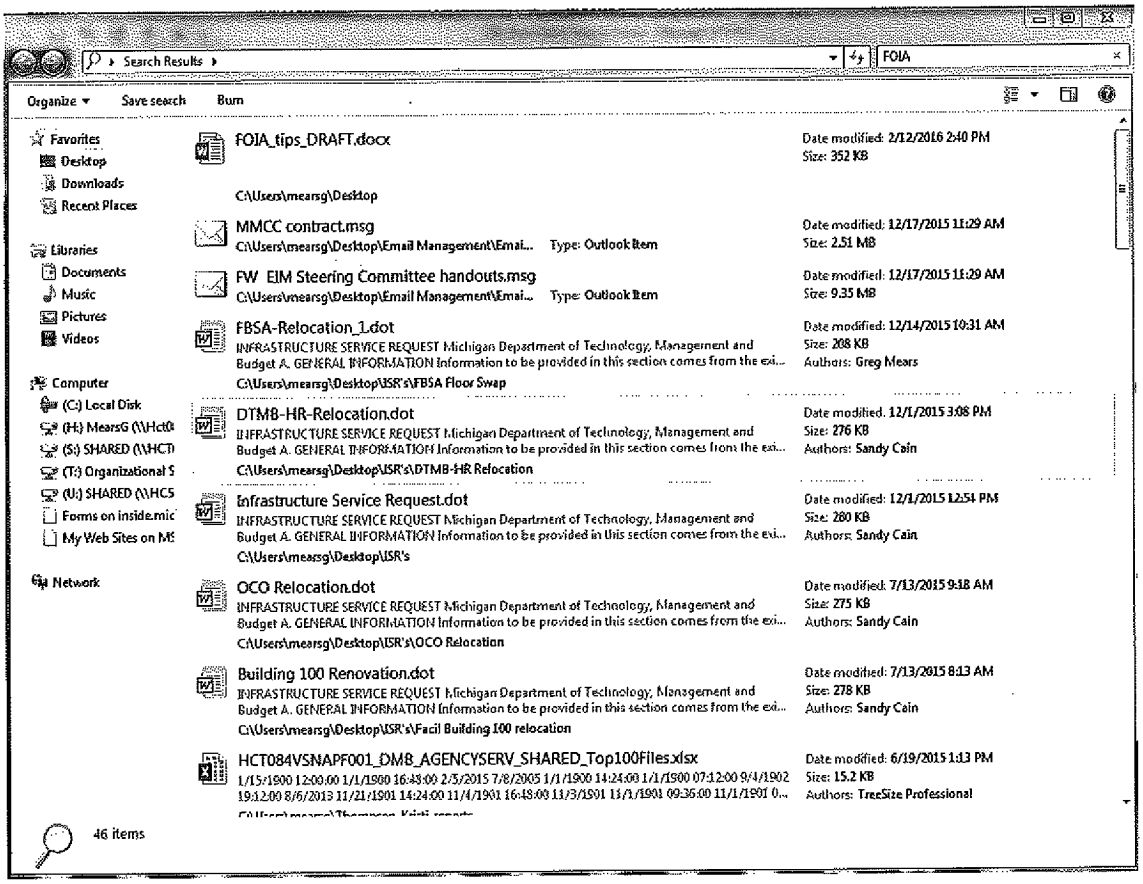


This example searches for the word FOIA. As you can see, the search yielded numerous documents including emails. Since DTMB is centrally collecting relevant emails and other Microsoft 365 items, we'll focus on just the documents.



You need to open each document to make sure that it's relevant. In this instance, the search brought up a DTMB Move form, but only because it has the word FOIA in the form.
You'll notice that the words "See more results" appears at the bottom of the list. This means that the search turned up a lot more documents than what can easily be displayed. You must

click on the link to open Windows Explorer and reveal a comprehensive list, along with their locations.



As you can see from this example the search found 46 items. We can now select them all using the "Ctrl-A method", and copy them to a network drive.

STATE OF MICHIGAN

RICK SNYDER
GOVERNOR

DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET
LANSING

DAVID B. BEHEN
DIRECTOR

February 18, 2016

TO: All DTMB Custodians of Correspondence Related to Flint

FROM: Jean Ingersoll, Interim Chief of Staff to David B. Behen, Director and CIO

SUBJECT: Flint Document Production – Search Terms and Guidance

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. **As a custodian, you are required to produce any documents containing the search terms listed below, no later than Monday, February 22, 2016.** This memorandum contains detailed instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Microsoft 365 – Outlook (*includes emails, calendar items) and OneDrive*

DTMB staff will centrally coordinate the Microsoft 365 search for all of DTMB's custodians. Therefore, DTMB's custodians *do not need to independently search any of their Microsoft 365 applications* for the search terms listed below.

Network Drives

Similar to the approach outlined above, DTMB staff will centrally coordinate the network drive search effort for all DTMB custodians. Custodians do *not* need to independently conduct a network drive search for the search terms below.

Non-Network Drives – *includes hard drives, desktop, and thumb/flash drives*

For all non-network drive types, ***each custodian will need to search every search term listed below in every non-network format, and move all relevant/related documents in to a network drive for collection. In order to move items to the network, you must be connected to the network.***

Start by conducting the search of all non-network drives, filling out the attached search term checklist as you go. If you need guidance as to how to perform this search, a step-by-step guide is included below in Appendix 1.

All relevant/responsive items that are produced as a result of your search need to be moved to a network drive. You can move your relevant/related documents to a network drive in whatever format the document is currently in. After the February 22, 2016, deadline, DTMB staff will access the network drives to collect the files.

Paper Files

Review all applicable paper files. Scan any relevant/related documents, and save them to a network drive, as described above. If this is not possible, you may provide hard copies of documents to Jean Ingersoll in the Director's Office. These documents must be received in the Director's Office by February 22, 2016, and will not be returned to you.

Home Computer

Any relevant e-mails or other documents on a personal computer also are subject to this request. Please check your personal computer for any e-mails or other documents relating to this search. If you discover any relevant/related documents, please include the phrase "personal computer" in the file name, and save them to the aforementioned network drive.

Conclusion

Thank you for your cooperation in complying with this request. Should you have any questions, please contact Jean Ingersoll at 1-8844.

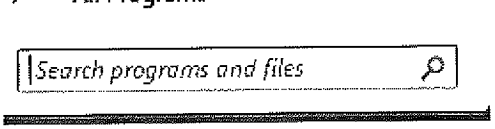
Please return this completed Checklist to DTMB Director's Office staff by Monday, February 22, 2016, at DTMB@michigan.gov, or Directors Office, Cass Building, Second Floor

APPENDIX 1 – Search Guidance

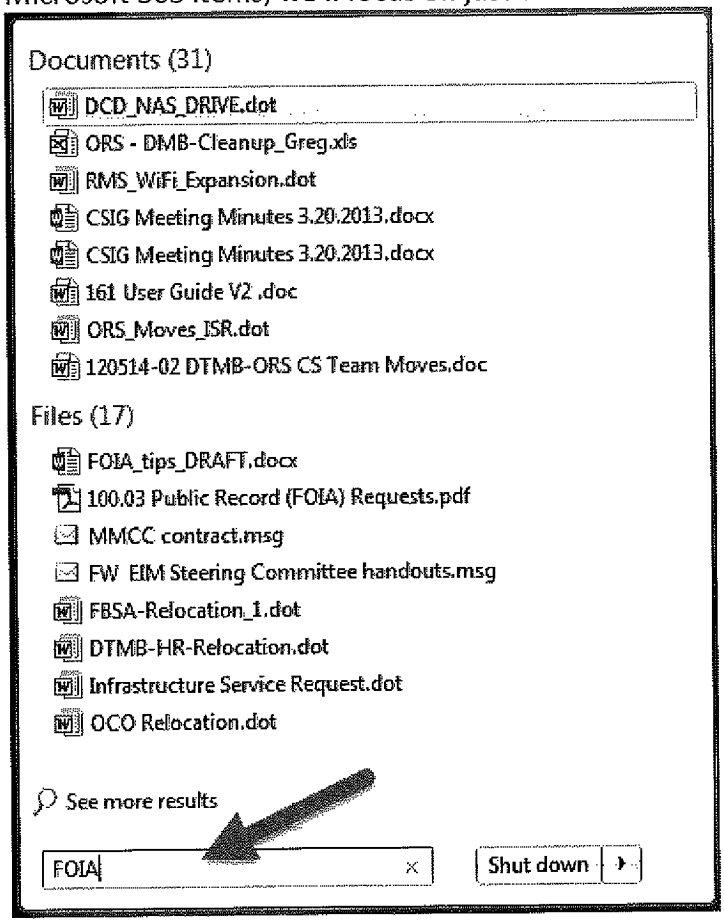
Regardless of what version of Windows you're using, each of them has a search feature built in called "Windows Explorer," you see it every time you open up a folder on a network drive, or on your own computer.

Using the search function in windows 7

Since the majority of DTMB is on Windows 7, the examples below are on that operating system. If you click on windows Start button, you'll see the search box right next to it

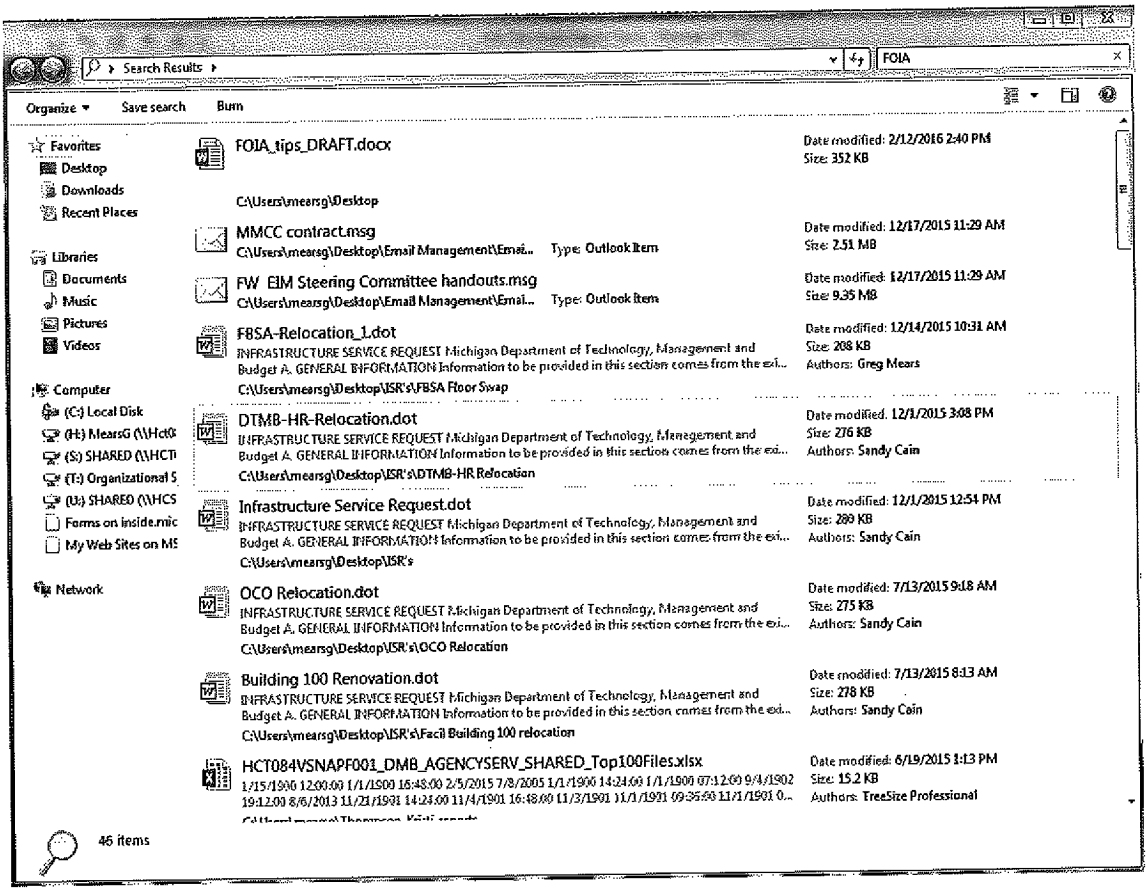


This example searches for the word FOIA. As you can see, the search yielded numerous documents including emails. Since DTMB is centrally collecting relevant emails and other Microsoft 365 items, we'll focus on just the documents.



You need to open each document to make sure that it's relevant. In this instance, the search brought up a DTMB Move form, but only because it has the word FOIA in the form.
You'll notice that the words "See more results" appears at the bottom of the list. This means that the search turned up a lot more documents than what can easily be displayed. You must

click on the link to open Windows Explorer and reveal a comprehensive list, along with their locations.



As you can see from this example the search found 46 items. We can now select them all using the "Ctrl-A method", and copy them to a network drive.

Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

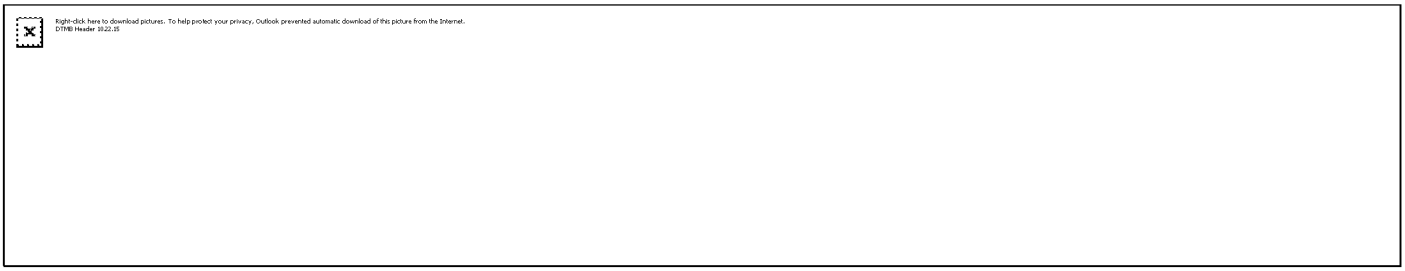
From: DTMB Director and CIO David Behen <dtmb@govsubscriptions.michigan.gov>
Sent: Wednesday, February 17, 2016 10:10 AM
To: Hummel, Mindy (DTMB)
Subject: The Gov. Snyder's Budget Proposal



Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

Subject: FW: Order Contacts - Laboratory Water Testing Bottles and Supplies Need for Flint

FYI – no action needed.

Just wanted to share we have a second staffer stepping up and delivering great customer service related to Flint. Melissa has volunteered to take phone questions related to water sampling bottles during the SEOC hours of 8 am to 8 pm. Or whenever the phone rings.

Subject: Order Contacts - Laboratory Water Testing Bottles and Supplies Need for Flint

Hi Jen,

As we discussed in our conference call, Melissa Sambiagio and I are the points of contact to order water testing bottles or any supplies necessary for the laboratory related to Flint. All individuals listed above are to copied on any order request. In the event of an after office hours need, we can be reached as follows:

Tara Premoe [redacted] Office hours 7:30 am to 4:00 pm

Melissa Sambiagio [redacted] Office hours 7:30 am to 4:00 pm

After office hours contact by phone will be necessary, as neither of us have a state issued phone for which we receive email communications. Once we receive a phone alert, we can access email to determine the course of action.

In order to avoid the enormous shipping costs for overnight delivery of water testing bottles, please keep us apprised on the status of inventory and anticipated need.

Thank you.

Hi Jen,

This is opposite from the phone conversation I just had with Jeanette Doll and emails that FEMA will be taking over the water bottles. We have several orders pending with VWR for bottles, some shipping Friday and another shipment next week. Should these bottles be put on hold pending discussion with FEMA?

Thank you.

Subject: Conference Call ref. Purchases

Can we have a conference call today to discuss? As far as purchasing goes. The lab is still making all of their purchases. This includes test bottles, labels, etc. as this is an activity being conducted for DEQ, not a provision of life services to the public. At times the SEOC rep is involved because it is after hours, on a weekend or like this week, a holiday where shipping needed to be expedited. We should not run into this problem again from here on out as we have provided clearer direction to Command Staff in the SEOC on our target numbers per George Krisztian.

All billing should still be going through the laboratory or RRD as always. If we need resources that our vendors cannot supply then we get with DTMB and possibly FEMA. We should be getting more direction here today on what and when FEMA will be integrating.

Flint Curbs Snyder's Future

Although it's premature to call him a lame duck, Michigan Gov. Rick Snyder's political capital has clearly been diminished by the Flint water crisis. During his State of the State address on Tuesday, Snyder offered lots of apologies: "You did not create this crisis;" "Government failed you;" and, "I'm sorry."

Since winning re-election in 2014, Snyder had been mentioned as a potential presidential or vice presidential pick on the Republican side. That kind of talk, however, has abruptly ended. "Even some Michigan Republicans concede that Snyder's national prospects are toast, at least in the short term," reports *Politico*. **KEEP READING >>**

How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

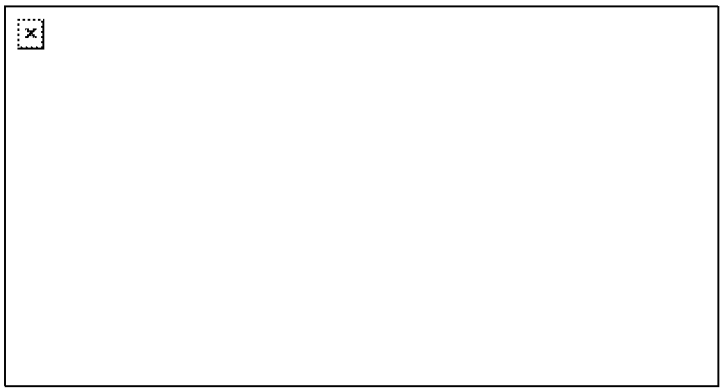
Governor Snyder on Morning Joe

"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.

Governor Snyder with Charlie LeDuff on Fox 2 Detroit

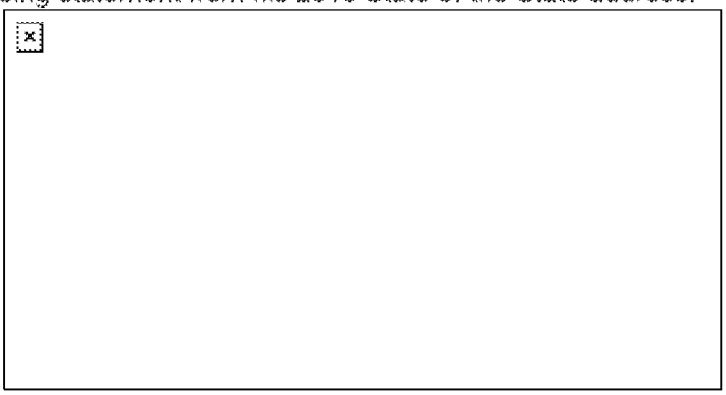
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.

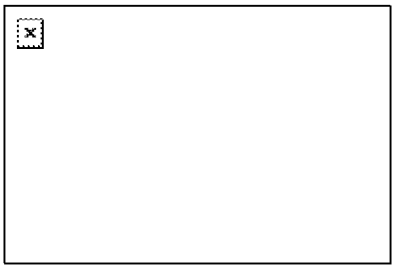


Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."



"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

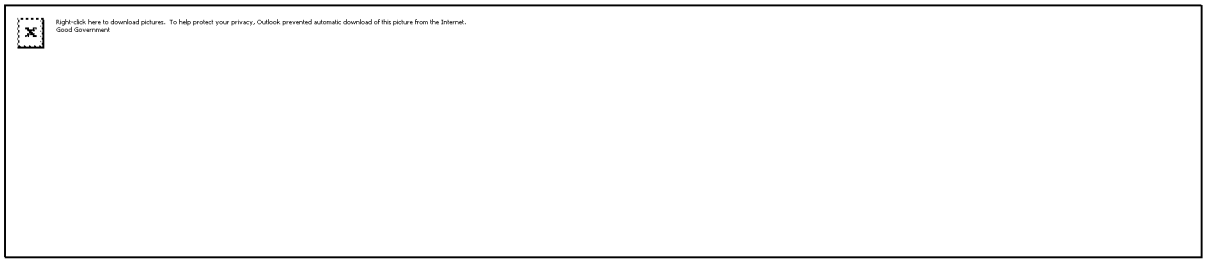
Subject: Flint Volunteer Efforts



Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

Subject: Flint Water Project iPad Orders

Attached are the e-mails I've received for everything I've purchased from Verizon. The order total is listed directly under the User Name. This also includes the cost of service. Because Verizon bills a month in advance, the service costs will include the number of days it is active for the current billing period and a month in advance. The last e-mail is for the phones we ordered. I can't remember if you sent you that, so I included it in case I didn't.

The billing period ends on the 23rd. The invoice should generate sometime early to mid-next week. It will have any promotional credits and it will also have the new service costs for the iPads we purchased from Apple and then added Verizon service. I'll get you that information as soon as I have it available to me.

Let me know if you have any questions.

Subject: Order Contacts - Laboratory Water Testing Bottles and Supplies Need for Flint

Hi Jen,

As we discussed in our conference call, Melissa Sambiagio and I are the points of contact to order water testing bottles or any supplies necessary for the laboratory related to Flint. All individuals listed above are to copied on any order request. In the event of an after office hours need, we can be reached as follows:

Tara Premoe	[redacted]	Office hours 7:30 am to 4:00 pm
Melissa Sambiagio	[redacted]	Office hours 7:30 am to 4:00 pm

After office hours contact by phone will be necessary, as neither of us have a state issued phone for which we receive email communications. Once we receive a phone alert, we can access email to determine the course of action.

In order to avoid the enormous shipping costs for overnight delivery of water testing bottles, please keep us apprised on the status of inventory and anticipated need.

Thank you.

To: Premoe, Tara (DEQ); Lundy, Anastasia (DEQ); Shane, Kirby (DEQ); Adelman, Mitch (DEQ)
Subject: Conference Call ref. Purchases

Can we have a conference call today to discuss? As far as purchasing goes. The lab is still making all of their purchases. This includes test bottles, labels, etc. as this is an activity being conducted for DEQ, not a provision of life services to the public. At times the SEOC rep is involved because it is after hours, on a weekend or like this week, a holiday where shipping needed to be expedited. We should not run into this problem again from here on out as we have provided clearer direction to Command Staff in the SEOC on our target numbers per George Krisztian.

All billing should still be going through the laboratory or RRD as always. If we need resources that our vendors cannot supply then we get with DTMB and possibly FEMA. We should be getting more direction here today on what and when FEMA will be integrating.

Melissa Sambiagio [redacted] Office hours 7:30 am to 4:00 pm

After office hours contact by phone will be necessary, as neither of us have a state issued phone for which we receive email communications. Once we receive a phone alert, we can access email to determine the course of action.

In order to avoid the enormous shipping costs for overnight delivery of water testing bottles, please keep us apprised on the status of inventory and anticipated need.

Thank you.

Follow up to today's conference call:

Bottle orders may be requested by Mitch Adelman & Jen Wolf via their state email address or the MSP-EOC-MDEQ address to Tara Premoe & Melissa Sambiagio with a copy to Kirby.

The address for the warehouse is Dell Warehouse, 4315 N Clio Rd, Flint, MI 48504

Please see the email from yesterday afternoon, response from Jeanette Doll. FEMA is listed as taking over "collection bottles for water testing." This was also discussed in my phone discussion with her this morning.

Hi Jen,

This is opposite from the phone conversation I just had with Jeanette Doll and emails that FEMA will be taking over the water bottles. We have several orders pending with VWR for bottles, some shipping Friday and another shipment next week. Should these bottles be put on hold pending discussion with FEMA?

Thank you.

Subject: Conference Call ref. Purchases

Can we have a conference call today to discuss? As far as purchasing goes. The lab is still making all of their purchases. This includes test bottles, labels, etc. as this is an activity being conducted for DEQ, not a provision of life services to the public. At times the SEOC rep is involved because it is after hours, on a weekend or like this week, a holiday where shipping needed to be expedited. We should not run into this problem again from here on out as we have provided clearer direction to Command Staff in the SEOC on our target numbers per George Krisztian.

All billing should still be going through the laboratory or RRD as always. If we need resources that our vendors cannot supply then we get with DTMB and possibly FEMA. We should be getting more direction here today on what and when FEMA will be integrating.

Sent: Tuesday, January 26, 2016 8:39 AM
To: Hummel, Mindy (DTMB)
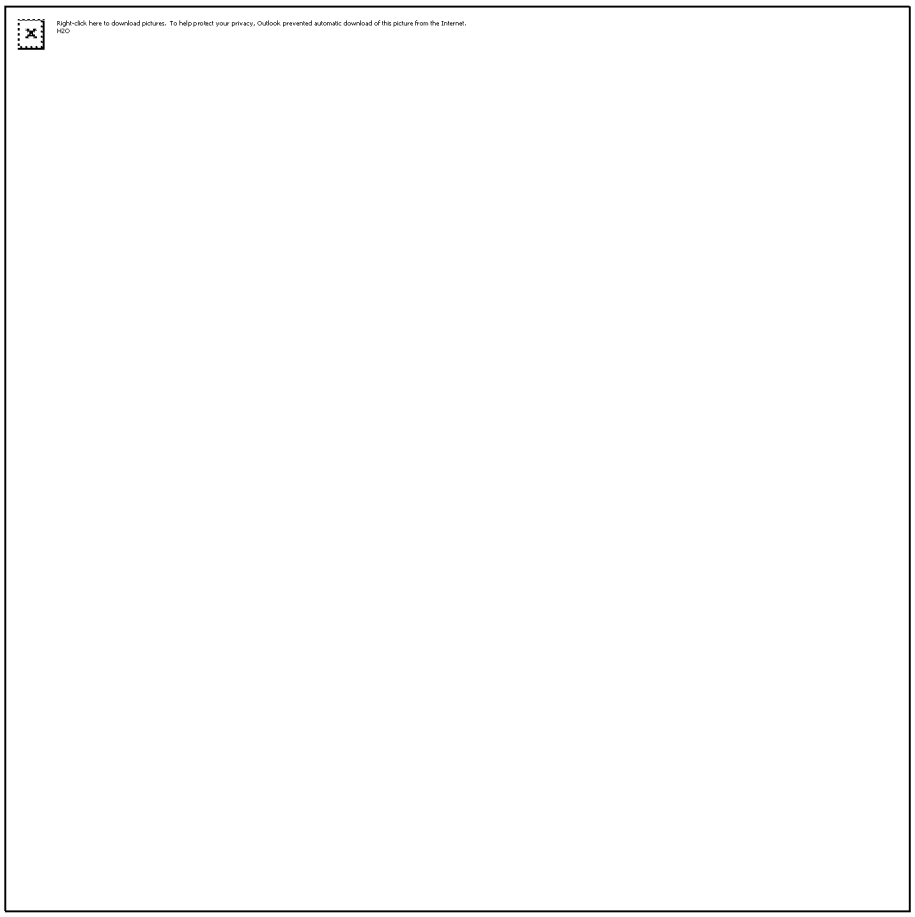
Subject: Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.



Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

Subject: Thank you for your service

THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

Welcome to a special Saturday edition of GovTech Today, where we recap our best stories of the week — just in case you missed them. Thanks for spending a little bit of your weekend with us.

Anonymous Activates #OpFlint: According to the hacker group, OpFlint promises online attacks directed toward Michigan Gov. Rick Snyder's administration in response to the Flint water emergency, which has dominated national headlines recently. Though Vocativ.com says the video doesn't explain any specifics of Anonymous' attack plan, it does assure to those affected by the water crisis that, "We will amplify your voice where the mainstream media will surely fail you, as it has in the past." See what Michigan officials had to say about the threat.

Speed Up by Slowing Down: It's becoming increasingly difficult to stay current with emerging technologies while mitigating security vulnerabilities. So what can be done to keep up? Surprisingly, it may be best to slow down, look around and catch your breath. That's right — if you want to speed up innovation, many experts suggest slowing down first.

Emerging Tech Affects Jobs: A new study has some worrisome revelations for the future of the global job market: By 2020, more than 5 million jobs could disappear in the wake of advancing technology. And those in the public sector are not immune.

SF's Startup in Residence: Building on a program from 2014, the San Francisco Mayor's Office of Civic Innovation announced during a Jan. 28 press conference the 2016 Startup in Residence program that includes a regional partnership with the neighboring cities of Oakland, San Leandro and West Sacramento. The ultimate goal? To build

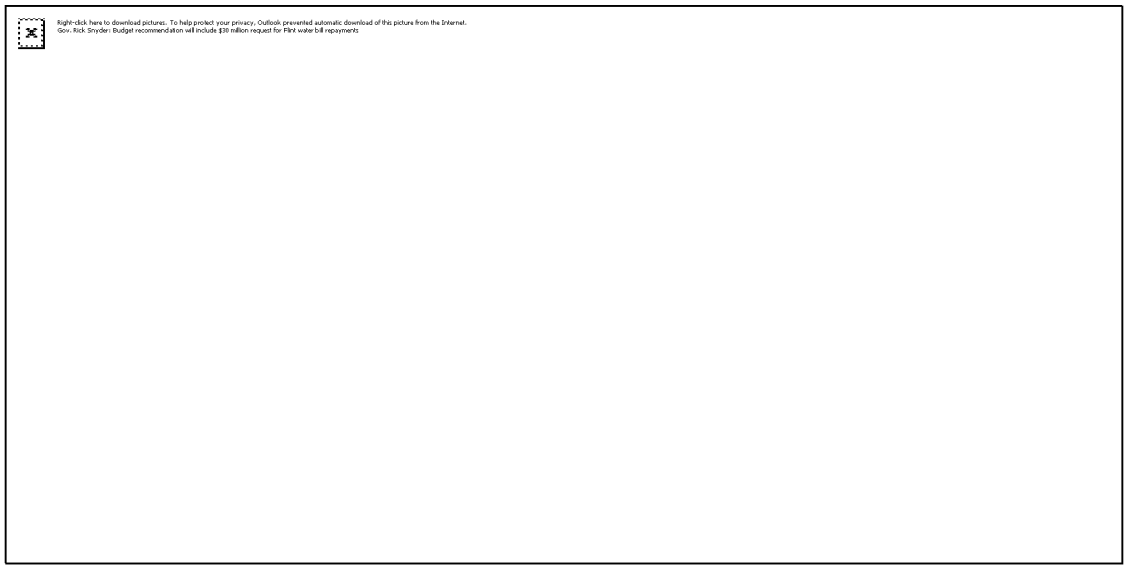
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments



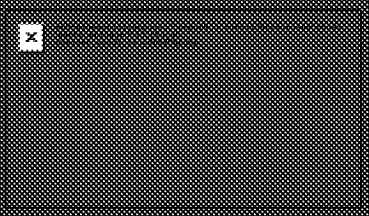
When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly 65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion

of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.



We spoke with Staff Sgt. Thomas Vega about the critical resources they're providing to Flint families every day. He also encouraged residents to pick up and return their water testing kits to Flint fire stations. Test results will be posted online at www.mi.gov/flintwater. **Click here to watch the video.**

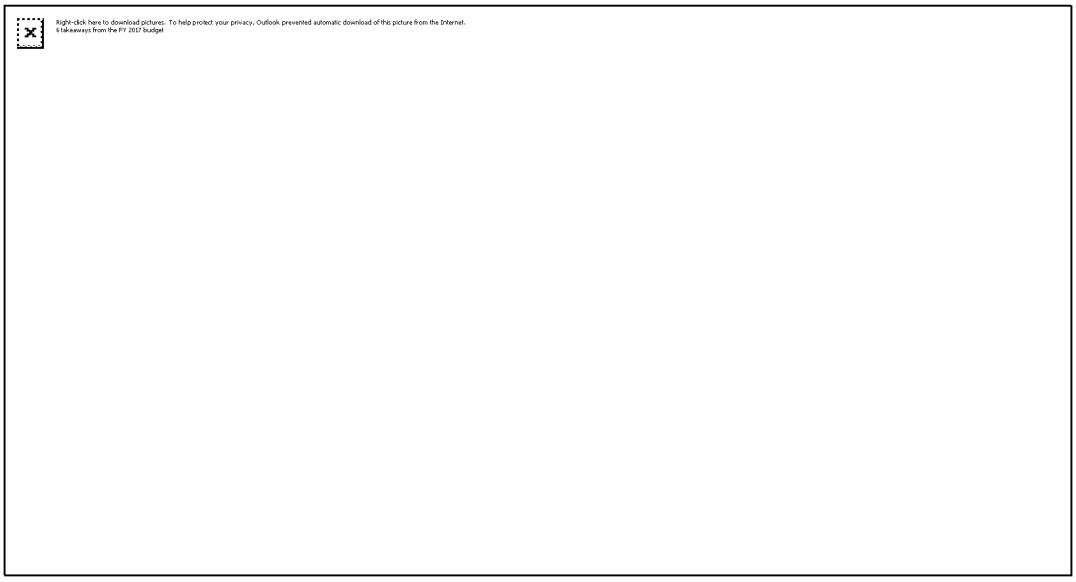
VIDEO: What Governor Snyder's FY17 budget means for Michigan



Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of

Michigan's families. Click here to learn more about the top 6 takeaways from the Governor's FY 2017 state budget.

Mindy

Our cell phone coordinator Kelly is out sick today. Jeff Wellman asked me to check into getting two of our buyers State phones while they are involved in supporting the Emergency Ops Center/Flint.

Can you help me through basics to get rough numbers? Appreciate any assistance you can provide.

Subject: Order Contacts - Laboratory Water Testing Bottles and Supplies Need for Flint

Hi Jen,

As we discussed in our conference call, Melissa Sambiagio and I are the points of contact to order water testing bottles or any supplies necessary for the laboratory related to Flint. All individuals listed above are to copied on any order request. In the event of an after office hours need, we can be reached as follows:

Tara Premoe [redacted] Office hours 7:30 am to 4:00 pm

Melissa Sambiagio [redacted] Office hours 7:30 am to 4:00 pm

After office hours contact by phone will be necessary, as neither of us have a state issued phone for which we receive email communications. Once we receive a phone alert, we can access email to determine the course of action.

In order to avoid the enormous shipping costs for overnight delivery of water testing bottles, please keep us apprised on the status of inventory and anticipated need.

Thank you.

Subject: Conference Call ref. Purchases

Can we have a conference call today to discuss? As far as purchasing goes. The lab is still making all of their purchases. This includes test bottles, labels, etc. as this is an activity being conducted for DEQ, not a provision of life services to the public. At times the SEOC rep is involved because it is after hours, on a weekend or like this week, a holiday where shipping needed to be expedited. We should not run into this problem again from here on out as we have provided clearer direction to Command Staff in the SEOC on our target numbers per George Krisztian.

All billing should still be going through the laboratory or RRD as always. If we need resources that our vendors cannot supply then we get with DTMB and possibly FEMA. We should be getting more direction here today on what and when FEMA will be integrating.

Attached are the e-mails I've received for everything I've purchased from Verizon. The order total is listed directly under the User Name. This also includes the cost of service. Because Verizon bills a month in advance, the service costs will include the number of days it is active for the current billing period and a month in advance. The last e-mail is for the phones we ordered. I can't remember if you sent you that, so I included it in case I didn't.

The billing period ends on the 23rd. The invoice should generate sometime early to mid-next week. It will have any promotional credits and it will also have the new service costs for the iPads we purchased from Apple and then added Verizon service. I'll get you that information as soon as I have it available to me.

Let me know if you have any questions.

It also depends on what promotions they're running when they're ordered which I don't see until the invoice comes.

> Attached are the e-mails I've received for everything I've purchased from Verizon. The order total is listed directly under the User Name. This also includes the cost of service. Because Verizon bills a month in advance, the service costs will include the number of days it is active for the current billing period and a month in advance. The last e-mail is for the phones we ordered. I can't remember if you sent you that, so I included it in case I didn't.

Attached is the form that will need to be completed for both users. The devices available are:

iPhone 5S - $0.99

iPhone 6 - $99.99

Samsung Galaxy S5 - $99.99

Once it has signed approval, please e-mail the form to me and I'll get them ordered.

Subject: Order Contacts - Laboratory Water Testing Bottles and Supplies Need for Flint

Hi Jen,

As we discussed in our conference call, Melissa Sambiagio and I are the points of contact to order water testing bottles or any supplies necessary for the laboratory related to Flint. All individuals listed above are to copied on any order request. In the event of an after office hours need, we can be reached as follows:

Tara Premoe [redacted] Office hours 7:30 am to 4:00 pm

Melissa Sambiagio [redacted] Office hours 7:30 am to 4:00 pm

After office hours contact by phone will be necessary, as neither of us have a state issued phone for which we receive email communications. Once we receive a phone alert, we can access email to determine the course of action.

In order to avoid the enormous shipping costs for overnight delivery of water testing bottles, please keep us apprised on the status of inventory and anticipated need.

Thank you.

Hi Jen,

This is opposite from the phone conversation I just had with Jeanette Doll and emails that FEMA will be taking over the water bottles. We have several orders pending with VWR for bottles, some shipping Friday and another shipment next week. Should these bottles be put on hold pending discussion with FEMA?

Thank you.

Subject: Conference Call ref. Purchases

Can we have a conference call today to discuss? As far as purchasing goes. The lab is still making all of their purchases. This includes test bottles, labels, etc. as this is an activity being conducted for DEQ, not a provision of life services to the public. At times the SEOC rep is involved because it is after hours, on a weekend or like this week, a holiday where shipping needed to be expedited. We should not run into this problem again from here on out as we have provided clearer direction to Command Staff in the SEOC on our target numbers per George Krisztian.

All billing should still be going through the laboratory or RRD as always. If we need resources that our vendors cannot supply then we get with DTMB and possibly FEMA. We should be getting more direction here today on what and when FEMA will be integrating.

Typically something like this is up to the user. If she doesn't want to do it and you don't have anyone that can do it, she can take it to any Verizon store. All she has to do is tell them it is a state issued device and she needs the screen protector applied.

Subject: iPad Receipts

Hi Mindy –

I am working on receipts for the iPads purchased for the Flint water emergency and do not have a receipt for 30 purchased on January 22, 2016 from Verizon Wireless. Would you have a copy of the receipt you could share?

Thank you -

LOCAL GOVERNMENT REFORM AND SERVICES

M1 group to city, state and federal leaders: Light rail both 'feasible and essential' for Detroit (Mlive)
Light rail is both "feasible and essential" for Detroit, according to a group of business leaders and philanthropists looking to build a privately-funded $137 million line along Woodward Avenue.

Gateway Marketplace to break ground next month with plans for Detroit's first Meijer store (Mlive)
Developers of the long-planned Gateway Marketplace are expected to break ground next month near Woodward and 8 Mile in Detroit, launching construction on a retail hub slated to include the city's first Meijer grocery store.

Unfunded mandates hurt local units of government (The Mining Journal)
We support the Marquette County Board's ongoing efforts to hold Lansing lawmakers accountable for requiring services without providing funding.

Lansing police consolidation could cost up to $19.8 million, study says (LSJ)
Report offers options for Lansing's consolidation

DETROIT

Dillon gives his verdict: Detroit must want more (Freep)
Six weeks ago, in the middle of negotiating a financial consent agreement for Detroit, state Treasurer Andy Dillon was tapped for an urgent task elsewhere: jury duty.

EDUCATION

Michigan's Education Funding Up For Debate (WLNS)
Funding for Michigan's K-12 education could look very different come 2013 depending on which plan is agreed upon come November.

School district could be looking at a budget deficit next year (Observer & Eccentric)
A preliminary budget South Lyon Schools officials are presenting for the 2012-13 school year calls for a $756,444, or 1.3 percent, operating deficit.

Gov. Rick Snyder is more hostile to K-12 education than former Gov. John Engler, Kalamazoo County school officials say (Mlive)
For more than a decade, John Engler has been seen as Enemy No. 1 in some circles of Michigan educators.

NEW INTERNATIONAL TRADE CROSSING

Michigan needs new bridge project (Freep)
Morouns' monopoly hurts other businesses

Petition format for statewide vote on new Detroit bridge OK'd (Detnews)
The state Board of State Canvassers on Thursday morning approved the form of petitions in circulation seeking to put the issue of a new bridge to Canada up for a statewide vote in November.
COLUMN: Rick Snyder gets outsmarted by the Ambassador Bridge Co. – again (Mlive)
You lost. Unless Matty Moroun, his Detroit International Bridge Co. and his $1 billion in the bank are bluffing, they seem almost assured of winning the latest round in the fight over building a new bridge from Detroit to Windsor, Canada.

EMERGENCY FINANCIAL MANAGER

Petitions To Repeal Michigan Emergency Manager Law, Public Act 4, Recommended For Certification (Huffington Post)
It looks like Michigan voters will decide whether or not to keep the state's controversial emergency manager law.

Emergency manager ballot issue rejected, now it's headed for the courts (Freep)
Opponents of Michigan's beefed-up emergency manager law are headed for the state Court of Appeals after a state elections panel declined by deadlock Thursday to place a referendum on the law before voters in November.

Flint emergency manager's upcoming public safety plan to include stronger Michigan State Police partnership (Mlive)
As the city of Flint, one of the nation's most hard-hit cities for violent crime, braces for possible police layoffs, city officials say they're working behind the scenes on a new strategy to bolster public safety.

EM referendum off Nov. ballot, opponents vow appeal (Detnews)
Angry shouts broke out Thursday at a Board of State Canvassers meeting when members failed to allow a repeal of the emergency manager law to make the ballot based on the type size on the petitions.

LEGISLATURE

Lawmakers debate future of "fracking" in Michigan (Michigan Radio)
Hydraulic fracturing is getting some attention this week in Lansing. You've probably heard it called fracking. It's a method of drilling for natural gas.

Split over guns and prison reform, voters unite over water quality

LANSING, Mich. -- In the wake of the Flint water crisis, how concerned are voters about the safety of the water in their home? Enough to agree with each other, according to the latest Michigan's Pulse poll, a partnership of Public Sector Consultants and Michigan Radio.

From November 3 to November 5, 2015, Denno Research surveyed 600 likely voters on a range of topics, including water quality, concealed pistols, prison reform and autonomous vehicles. Beyond increased attention to urban water quality, these highly politicized topics yielded little agreement, with stark differences by political affiliation, race and age.

Water Safety

Ninety-one percent of respondents agree that the State of Michigan should examine the water systems in densely populated areas for signs of failing infrastructure. The vast majority (84 percent) also feel that water should be tested in Michigan's K-12 school buildings at least once a year.

About half of respondents (46 percent) are concerned about the safety of their water, but there are clear differences by subgroups:

- African-American voters (71 percent) are more concerned than white voters (40 percent).
- Democrats (52 percent) are more concerned than Republicans (36 percent).
- Wayne County respondents (61 percent) have higher concerns than those in other parts of the state, with 81 percent of voters in Detroit expressing concern about the safety of their water.

Concealed Pistols and Prison Reform

With the recent coverage of high-profile shootings on college and K-12 school campuses, allowing concealed pistols in these places has become a major topic for the upcoming presidential election. Under state law, those licensed to carry concealed pistols still cannot carry their weapons at schools; at day care centers, sports arenas or stadiums; at entertainment facilities that seat 2,500 or more; at bars, churches, hospitals, casinos and dormitories or classrooms of colleges or universities.

About half of voters (46 percent) support lifting the ban in some or all of these places, while (49 percent) oppose that.

- Of the Republicans polled, 65 percent support lifting the ban in some or all of these places, compared to Democrats, at 33 percent.

Less than half of respondents (40 percent) support lifting the ban in day care centers, K-12 schools and college dormitories and classrooms, with a little over half (55 percent) opposed.

- Almost half of all men polled (47 percent) and almost two-thirds of Republicans polled (62 percent) support lifting the ban; while women (34 percent), Democrats (27 percent) and Independents (34 percent) oppose doing so.

Slightly more than half of Michigan voters (53 percent) support presumptive parole, legislation recently passed by the Michigan House that automatically paroles low-risk felons after they serve their minimum sentence.

- African-Americans (74 percent) and Democrats (67 percent) are more supportive than whites (49 percent) and Republicans (40 percent).

Finally, we asked voters if they think offenders who were convicted of violent crimes under the age of 18 should be eligible for parole. The jury is clearly still out on this issue, with opinion split between yes (41 percent) and no (39 percent), with nearly a quarter (20 percent) saying they don't know or are unsure.

Robot Cars

Autonomous vehicles are currently being developed in Michigan, and some (like the Google Self-Driving Car) are already being road tested in other states. We wondered if people were comfortable with the idea of robots driving cars on Michigan's roads, and more to the point, if people thought they would make our roads safer.

- A solid majority (68 percent) are not comfortable with the idea of having driverless cars on Michigan's roads, with half (51 percent) saying they were very uncomfortable.
- A little more than half of voters (56 percent) feel that driverless cars would be more dangerous than the humans currently driving on Michigan's roads.

Despite this opposition, voters accept that this will be how people get around in the near future. Most respondents (57 percent) think that driverless cars will be common in Michigan sometime in the next five to 20 years. That buys humanity at least a few years to figure out how to prevent the cyborg invasion that is sure to follow.

Legislative Reform

In a previous PSC poll after the failure of Proposal 1, road funding was identified as a critical priority, with voters saying the legislature should work over the summer to resolve the issue. While the poll did not specifically address the merits of the $1.2 billion package recently signed by Gov. Rick Snyder, voters clearly do not approve of the way this issue was handled, with the vast majority rating the legislature as bad (21 percent) or terrible (58 percent).

We followed this question with a couple of options on how to improve the effectiveness of the Michigan Legislature. All of the ideas appear to have similar appeal, which seems to indicate that voters are ready for a change -- even if they don't know exactly what the change should look like:

- Stricter campaign finance and/or ethics laws (25 percent)
- Switch to a part-time legislature (21 percent)
- Do nothing because legislators can always be voted out of office if they are doing a poor job (21 percent)
- Change the length of term limits by allowing members to serve up to 12 years in either chamber (18 percent)
- Don't know/unsure (15 percent)

Goodbye Halloween

On the heels of the Halloween season, we wondered what had scared voters the most so far in 2015. While a quarter (25 percent) were not willing to express their fears out loud, those that did were scared most by the presidential debates (42 percent), followed by the Detroit Lions (22 percent).

About the Survey

Michigan Radio, an NPR News Station and the state's most listened-to public radio service, and Public Sector Consultants (PSC), the state's premier nonpartisan think tank, are partnering on a yearlong initiative studying Michiganders' attitudes toward policy issues affecting their lives in a series called Michigan's Pulse. Michigan's Pulse will release quarterly in weeklong segments on Michigan Radio's Stateside with Cynthia Canty with in-depth analysis by PSC researchers and other thought leaders.

The Michigan Radio/PSC survey of the Michigan electorate was conducted by Lansing-based Denno Research. Six-hundred respondents, 450 by landline and 150 by cell phone, in the state of Michigan were surveyed from November 3 to 5, 2015, with a margin of error of plus/minus 4 percent. A screen was employed to include only those participants who said they would vote, either at the polls or by absentee ballot, in the November 2016 general election.

Full survey results are available here.

Public Sector Consultants is Michigan's most respected, connected, and dedicated research and program management firm, with specialties in governance and regulation, health care, education, energy, and environmental policy. PSC is committed to providing objective research and sound solutions to the public and private sector.

Michigan Radio is an NPR News Station, and the state's most listened-to public radio service, attracting more than 500,000 listeners each week across Michigan. Licensed to the University of Michigan, Michigan Radio broadcasts at 91.7 FM in southeastern Michigan, 91.1 FM in Flint, and 104.1 in western Michigan, and is available online at michiganradio.org.

Move Is on to Make End-of-Year Pardons Less Random

Are too many Americans behind bars? Some states have recently made the clemency process easier and pardons more frequent.

5 Stories We're Reading Now

Michigan governor declares emergency over Flint water problems

ap.org

Republican Gov. Rick Snyder declared a state of emergency over problems with lead in the Michigan city's drinking water, as federal officials confirmed they're investigating the matter.

New Mexico governor emphasizes policing, teachers in new budget

abqjournal.com

Republican Gov. Susana Martinez unveiled a $6.5 billion budget proposal that includes more money for New Mexico public schools and Medicaid, but no across-the-board salary increases for state workers.

Alaska's credit rating downgraded by Standard

and Poor's

reuters.com
S&P has lowered Alaska's general obligation debt to AA+ from AAA, reflecting the state's ongoing budget crisis caused by low oil prices. Independent Gov. Bill Walker called the downgrade "concerning and premature," but said he hopes it will serve as a wake-up call to lawmakers.

Poor adults in Missouri could soon receive dental benefits

stltoday.com
Low-income Missourians could receive dental care by April thanks to money collected from delinquent taxpayers this fall. The state will collect about $35 million through the one-time tax amnesty, enough for Medicaid dental care coverage.

A tax loophole for Hawaii's medical marijuana dispensaries?

miamiherald.com
Hawaii lawmakers may have inadvertently made medical marijuana dispensaries eligible for tax breaks if they set up in economically depressed areas. Democratic Rep. Della Au Bellati plans to introduce legislation that would close the loophole.

Helping Drug-Addicted Inmates Break the Cycle

Most inmates start using drugs again as soon as they're released. If they don't die of an overdose, they often get arrested again for drug-related crimes. The challenge is breaking that cycle.

5 Stories We're Reading Now

Massachusetts wins bidding war for GE

bostonglobe.com

General Electric Co. will relocate its global headquarters to Boston. The decision marks the end of a high-stakes competition to woo GE from its longtime campus in suburban Connecticut, where the state raised corporate taxes. City and state officials in Massachusetts offered incentives valued at as much as $145 million.

Bill lets businesses refuse services to gay couples in Georgia

ajc.com

Florists, bakers or any other private business owner could refuse service to gay couples getting married in Georgia, under proposed legislation that is likely to inflame the battle over religious freedom and gay rights.

Michigan governor activates National Guard to help in Flint

freep.com
Republican Gov. Rick Snyder activated the Michigan National Guard to assist with the ongoing crisis of lead contamination of Flint's drinking water. Members of the National Guard are expected to staff fire stations and distribute bottles of water and water filters.

Kansas governor's proposed budget fix calls for tapping highway, children's funds

kansas.com
Republican Gov. Sam Brownback will pursue a combination of budget cuts and transfers from dedicated highway and early childhood funds to help fill Kansas's projected $190 million budget hole.

New Jersey lawmakers eye takeover of Atlantic City

bloomberg.com
Legislators have agreed to ask voters to expand gambling to northern New Jersey and share that revenue with long-struggling Atlantic City. They're also considering taking over the resort town's finances for 15 years.

To: Jeffery, Phillip (DTMB)
Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

THIS WEEK IN POLITICS

Flint Fallout, Corruption in Court and One State's New Supermajority

BY ALAN GREENBLATT

This was a busy week in politics -- but then, practically every week is. That's why *Governing* is offering this new weekly newsletter.

We won't cover the presidential campaign -- you can find plenty of that elsewhere. Instead, we aim to share with you the most interesting and important developments in state and local politics each week.

You can sign up for a free subscription here.

ADVERTISEMENT ... Content continues below

Flint Curbs Snyder's Future

Although it's premature to call him a lame duck, Michigan Gov. Rick Snyder's political capital has clearly been diminished by the Flint water crisis. During his State of the State address on Tuesday, Snyder offered lots of apologies: "You did not create this crisis;" "Government failed you;" and, "I'm sorry."

Since winning re-election in 2014, Snyder had been mentioned as a potential presidential or vice presidential pick on the Republican side. That kind of talk, however, has abruptly ended. "Even some Michigan Republicans concede that Snyder's national prospects are toast, at least in the short term," reports *Politico*. **KEEP READING >>**

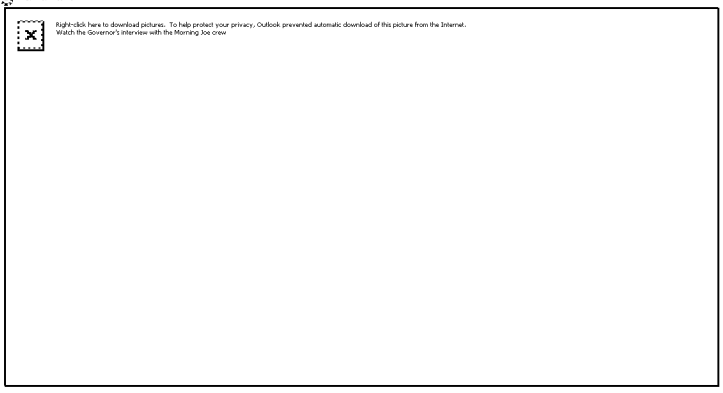
How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

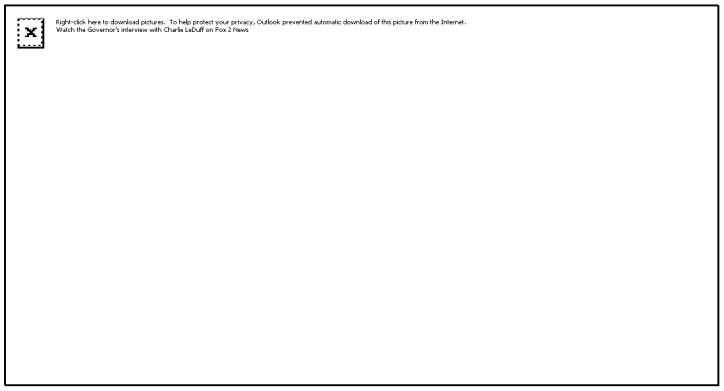
"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.



Governor Snyder with Charlie LeDuff on Fox 2 Detroit

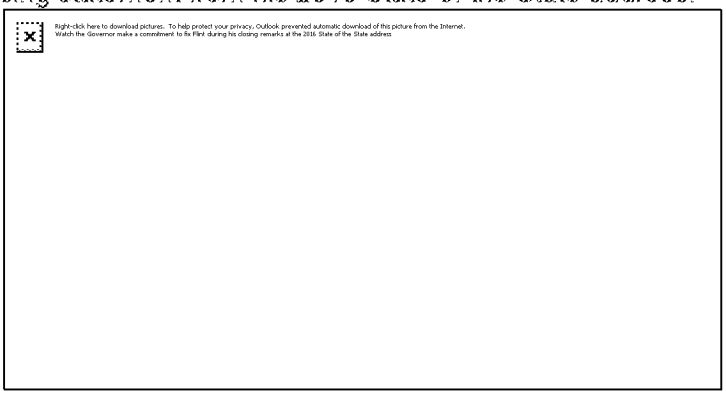
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm came from people who worked for me, and I feel responsible for that. But I am committed

to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.

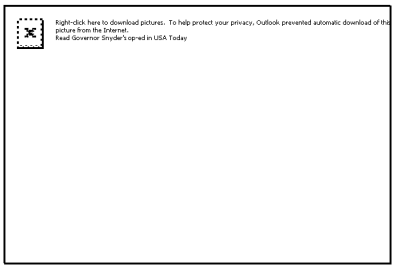


Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."



"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

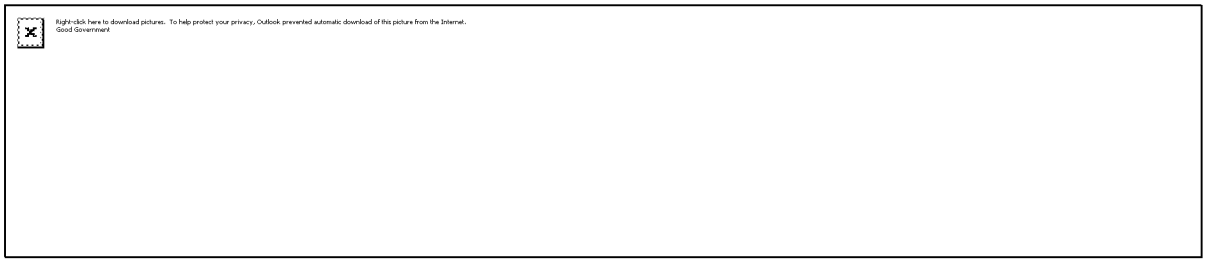
Subject: Flint Volunteer Efforts



Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.

Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

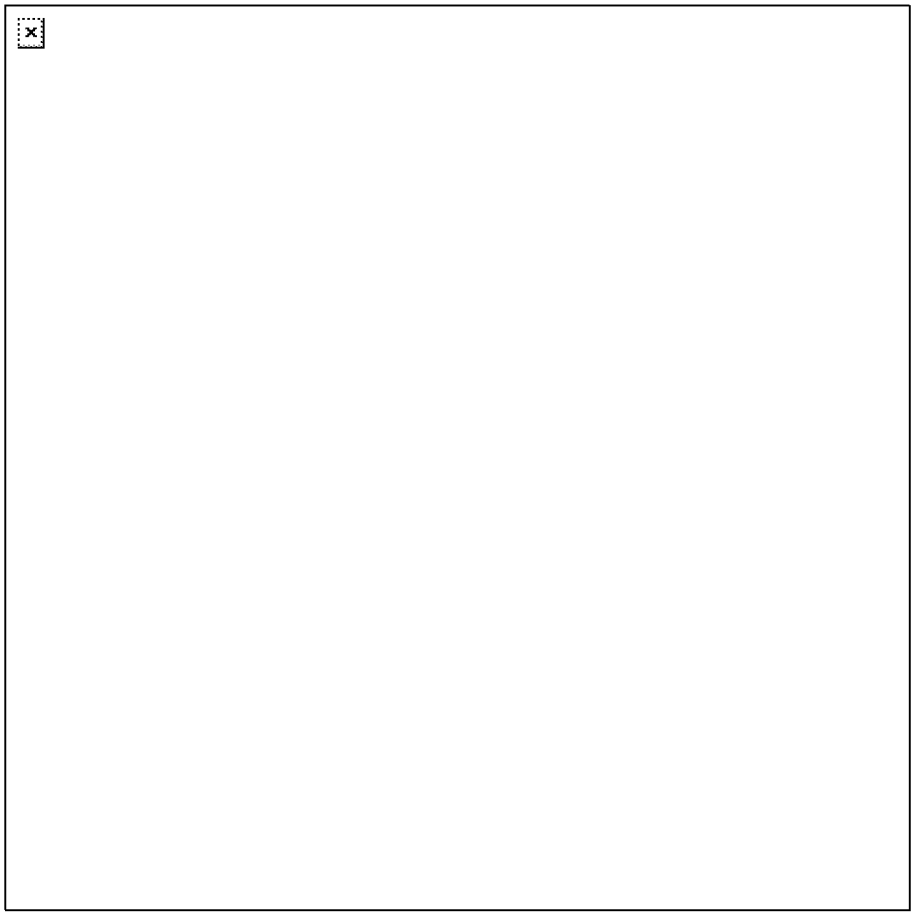
Sent: Tuesday, January 26, 2016 8:39 AM
To: Jeffery, Phillip (DTMB)
Subject: Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.



Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

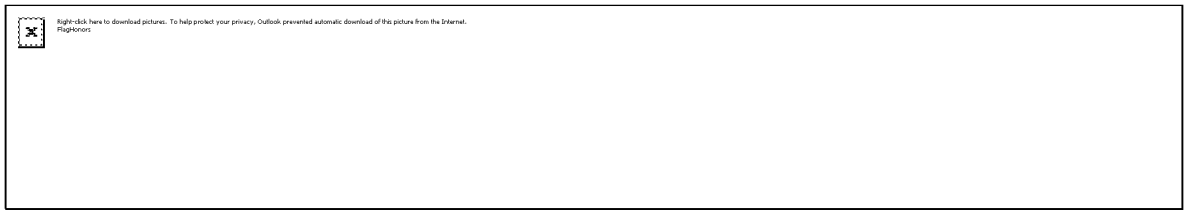
Subject: Thank you for your service



THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

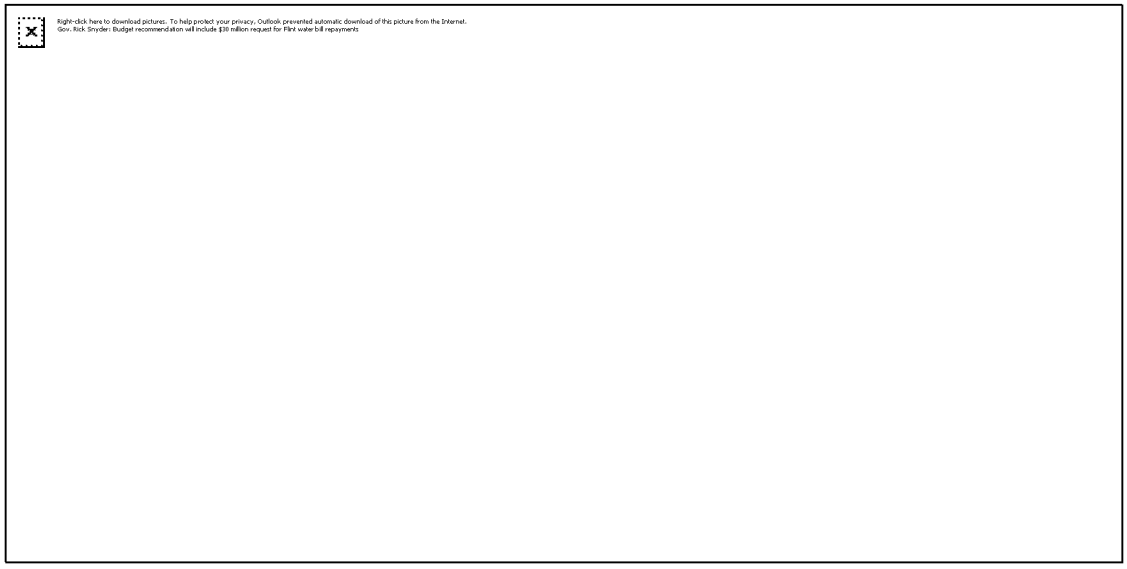
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments



When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

Released February 5, 2016

Alabama's governor called for increasing pre-K funding by 50 percent, as well as tearing down old prisons and building new ones, in his State of the State address. Also, in his budget proposal, the governor called for moving $181 million from the Education Trust Fund to the General Fund to help address a shortfall in the General Fund for next year.

Alaska's governor emphasized the need to address the state's nearly $4 billion budget deficit by approving comprehensive financial reforms in his State of the State address. Lawmakers have begun to hold hearings to consider proposed gasoline tax increases, as well as the governor's plan to overhaul the state's Permanent Fund and use fund earnings to finance government spending.

Arizona's governor released a $9.5 billion budget proposal, which recommends $105 million in new spending for the current fiscal year and $284 million for fiscal 2017, and includes spending increases for higher education, K-12 education, child welfare, and private prisons. The governor has asked lawmakers for unilateral authority to make mid-year budget reductions in the event of an unexpected revenue shortfall.

Arkansas announced that revenues are expected to grow 2 percent next year, and the state is forecasted to end this year with a $35.9 million surplus. The governor recently announced a plan that would increase highway funding $750 million over the next 10 years, and also announced details of a $6 million public-private partnership aimed at increasing the number of teachers.

California's governor proposed a budget calling for $170.6 billion in total spending and $122.6 billion in general fund spending. The plan would increase funding for K-12 education, Medicaid and other key services, while diverting several billion dollars in revenue into budget reserves and allocating additional dollars for one-time spending projects as opposed to permanent spending increases.

Colorado's governor called on lawmakers to identify a way to finance necessary investments in transportation and K-12 education, and requested that they reexamine the state's constitutional spending limit in his State of the State address. A number of stakeholders have joined forces to oppose a ballot initiative that would create a tax-funded single-payer health care system.

Connecticut's governor proposed midterm budget adjustments for fiscal 2017 that include $569 million

in reductions from previously enacted appropriation levels and across-the-board reductions of 5.75 percent in general fund operating accounts; the budget would also restructure state employee and teachers' pensions to avoid future fiscal cliffs. The state's comptroller estimates that the current budget has a $7.1 million shortfall.

Delaware's governor proposed a $4.1 billion budget for fiscal 2017, an increase of 5.24 percent over the prior year which invests in schools, maintains current commitments in education, health care, and public safety and fully funds the rainy day fund; the legislature has begun examining the budget proposal and its changes to state employees' health insurance. The governor also recently signed legislation overhauling the state's corporate tax.

Florida's governor, in his State of the State speech, called for $1 billion in tax cuts and $250 million in business incentives to help lead towards greater job growth. The House and Senate recently released budget proposals with differing amounts for education and economic development among other issues; the legislature also continues to examine the size of any tax cut.

Georgia's governor called for 3 percent raises for state employees and teachers in his State of the State address as well as calling for merit pay for teachers; the governor also discussed the need to control health care spending and that he remains opposed to Medicaid expansion. Additionally, the governor proposed a 10-year, $10 billion transportation proposal and additional steps for criminal justice reform.

Hawaii's governor promised in his State of the State address to make repairs and improvements to public school classrooms, as well as to invest in water and sewer infrastructure. The state collected $16.3 million less in income tax revenue last year due to a longstanding exemption for real estate investment trusts that is currently facing criticism.

Idaho's governor unveiled a budget proposal recommending $3.29 billion in general fund spending; the plan calls for a 7.9 percent education spending increase, including more funding for teacher pay increases, STEM and literacy programs, and higher education institutions. Lawmakers convened for a hearing to consider legislation that would expand Medicaid coverage.

Illinois continues to operate without a budget for fiscal 2016 and the comptroller said the state is projected to end the year with a $6.2 billion deficit due to expired tax increases and additional spending. The governor is calling for changes in purchasing practices to save the state over $500 million a year, and also said that he will veto a higher education bill due to the lack of funds to pay for it; additionally, in his State of the State speech, he called for pension reform and freezing property taxes.

Indiana's House approved increases in the cigarette and gas tax while also slightly reducing personal income taxes in order to provide additional funds for roads; the cigarette tax would be increased by $1 a pack and the gas tax raised by four cents a gallon, and then adjusted for inflation moving forward. Earlier, in his State of the State speech, the governor called for changes in education testing, new anti-drug measures, and a separate transportation funding plan.

Iowa's governor released a $7.4 billion fiscal 2017 budget that calls for increased investments in education and health care, maintains funding for a number of areas, and continues to call for privately managed Medicaid. In addition, in his Condition of the State speech, the governor called for more predictable school funding, home grown energy, and a more fair and equitable Iowa.

Kansas' governor's administration earlier announced a plan to address the state's budget shortfall that includes reduced spending and fund transfers; since then, the legislature has begun considering the governor's proposal, while January revenues were again below projections, and a consulting firm announced ways the state could save $2 billion over 5 years through greater efficiencies. In his State of the State address, the governor called for more funding for classroom instruction.

Kentucky's new governor proposed a $21 billion, two-year budget that includes $650 million in spending cuts to areas such as higher education while protecting certain categories such as K-12

public safety and social workers; the budget also calls for an additional $1.1 billion for the state's pension system. Earlier the governor announced that he plans to dismantle the state's health exchange.

Louisiana's governor presented a number of budget options for the state's current budget gap and its projected shortfall for next year including various possible tax increases, using the state's rainy day fund, redirecting some BP oil spill funds, and permanent tax credit rollbacks. The state is looking at a potential $1.9 billion shortfall and the administration has stated that dramatic changes will be needed to address it.

Maine's governor recently signed an anti-drug bill after the legislature was able to find a new founding source for the proposal. The governor has called for a pay raise for state law enforcement personnel.

Maryland's governor proposed a $42 billion fiscal 2017 budget that includes $36 million in tax and fee deductions, state employee pay raises, additional education funds, and placing more money into savings; the state is projected to have a $450 million surplus. Earlier, the governor discussed the need for spending restraints and not resorting to budget gimmicks.

Massachusetts' governor proposed a $39.56 billion budget for fiscal 2017 that increases spending by 3.5 percent, has no new taxes or fees, and would make a $200 million deposit into the rainy day fund; spending in Medicaid would increase by 5 percent over the prior year in the proposed budget. The governor also proposed an economic development bill of nearly $1 billion over five years.

Michigan's governor focused on the water crisis in Flint during his State of the State and called for $28 million in immediate state aid for Flint and has sought different ways to bring in additional federal aid after FEMA denied disaster aid. The state is optimistic that it will have additional revenue available for the next budget, but does not yet know the full cost of the Flint water crisis.

Minnesota's governor announced plans to borrow $1.4 billion to finance infrastructure projects across the state including ones dealing with the rail system and water quality; the governor has also called for a special session to deal with other issues including closing racial disparities and the implementation of Real ID. Revenues in November and December combined were $43 million above projections.

Mississippi's governor announced $40 million in spending cuts and taking $35 million from the rainy day fund in order to address a $75 million shortfall for fiscal 2016. In his State of the State address, the governor called for increased spending on foster care, greater school choice, and tax cuts for the working class.

Missouri's governor called for increased education funding, Medicaid expansion, and discussed his support for a fuel tax bill in his final State of the State address; additionally, his fiscal 2017 budget proposal called for increased funding for developmental disabilities, mental illness and drug abuse, more performance funding for higher education, and an increase in employee wages. The legislature is currently examining transportation proposals and the director of the department of transportation has discussed the poor condition of the state's infrastructure.

Montana officials managed to avoid a $12 million projected deficit in the state's employee health plan due to wider use of state-run health clinics and other cost-saving actions. The state will soon open a new mental health facility for criminal patients.

Nebraska's governor called for additional property tax relief, increased transportation funding, and prison reform, while continuing to be opposed to Medicaid expansion, in his State of the State address; earlier the governor called for using some money from the rainy day fund for infrastructure projects. The governor also announced his mid-biennium budget which addresses a projected budget shortfall.

Nevada's attorney general filed an appeal with the state Supreme Court after a judge decided to halt the state's education savings accounts, which opponents argue will drain necessary resources from

public schools. State officials are exploring the possibility of privatizing certain Medicaid services for the elderly, blind and disabled.

New Hampshire's legislature has been considering two anti-drug bills focused on expanding drug courts and providing additional law enforcement grants with questions regarding funding for the bills. The legislature is also debating whether or not to reauthorize Medicaid expansion in the state with some new revisions such as work requirements and co-payments.

New Jersey's governor, in his State of the State address, called for expanding addiction services, abolishing the estate tax, and loosening regulations for charter schools in the state; the governor also spoke out against a proposed constitutional amendment calling for quarterly pension payments. Additionally, the governor announced plans to have the state takeover much control of Atlantic City's government.

New Mexico lawmakers are rewriting the budget based on significant downward revisions to the state's revenue forecast due to declining oil and natural gas prices. The revised spending plan includes a small spending increase for pay raises, but reductions for higher education and behavioral health programs.

New York's governor proposed a fiscal 2017 budget of $154 billion that includes a $2.1 billion increase in school funding over two years and additional building construction projects; state spending would increase 1.7 percent under the proposed budget. Additionally, in his State of the State speech, the governor proposed a $20 billion housing plan.

North Carolina's governor continues to promote his $2 billion bond proposal for various projects which will be voted on by the public on March 15; earlier the treasurer released a report praising the state's current fiscal condition and saying it is in a good position to issue additional debt. The legislature is considering expanding the state's sales tax and making further changes to its income taxes.

North Dakota's governor ordered state agencies to reduce spending by 4.05 percent, while also using nearly $500 million from the budget stabilization fund, to address a projected shortfall of $1.074 billion for the current biennium; an education rainy day fund will be used to help offset the education cuts. Some legislators believe that a portion of the oil tax trust fund may need to be used for the next budget.

Ohio continues to consider the appropriate level of funding for public schools and charters with charter school leaders calling for additional funding, while some school districts have sent the state a bill for lost tax dollars used to help subsidize charter schools. The state is also looking into charging premiums for Medicaid recipients.

Oklahoma's governor called for increasing the cigarette tax by a $1.50, expanding the sales tax base, and cutting most state agencies 6 percent in response to declining revenue from low oil prices. In her State of the State address, the governor also called for criminal justice reform and pay raises for teachers.

Oregon's governor announced her policy agenda for this year's short legislative session, including increasing the minimum wage, helping to reduce regulation and paperwork for small businesses, expanding affordable housing, and improving graduation rates. Senate lawmakers unveiled a new corporate tax plan that would raise an extra $1 billion for the next biennium.

Pennsylvania's governor is expected to propose a fiscal 2017 budget calling for an additional $200 million for schools even though the fiscal 2016 budget is still not complete. The state's casinos collected more than $3.1 billion from gaming last calendar year, the highest annual total collected.

Rhode Island's governor proposed a $9 billion budget for fiscal 2017 that includes increased funding for education, reduces unemployment taxes, and would change the school aid formula. The governor also proposed $35 million in bonds to extend bike paths, preserve open space, and reduce water pollution that would have to be approved by voters in the November general election.

South Carolina's governor proposed her $7.5 billion fiscal 2017 budget which calls for fully funding the local government fund and additional money to be spent on roads. Additionally, in her State of the State speech, the governor called for the dedication of bond money for poor schools and additional prosecutors to handle domestic violence cases.

South Dakota's governor, in his State of the State address, called for raising the state's sales tax a half-cent in order to fund teacher pay increases with any surplus going to property tax relief; the legislature is currently considering the proposal along with several other education related bills. The governor also continues to push for Medicaid expansion which may benefit Native Americans in additional ways.

Tennessee's governor proposed a $34.8 billion fiscal 2017 budget that includes increased funding for K-12, higher education, healthcare, and employee salaries, while also increasing the size of the state's reserves; the state is expected to have revenues exceed original projections both this year and next. The legislature is expected to consider a number of issues this year including a possible alternative to Medicaid expansion and increasing the state's gas tax.

Texas' sales tax revenue declined 4 percent in January, its fourth straight monthly decline, including a 45 percent reduction in sales tax from oil and natural gas production. The state has announced increased funding for various transportation projects.

Utah's governor set a goal to raise the state's high school graduation rate to 90 percent in the next four years, and again asked lawmakers to identify a way to expand health coverage to more low-income residents. State business leaders are calling on the state to increase income taxes to bring in an estimated $519 million in additional funding for education.

Vermont's governor proposed a $5.8 billion overall budget for fiscal 2017 that includes an increase of 3.1 percent in general fund spending. The budget includes a provider tax on physicians and dentists to generate additional funds for Medicaid, and increased taxes on mutual funds to help close a $68 million budget gap.

Virginia's governor, in his State of the Commonwealth speech, called for cooperation with the legislature on issues such as helping the state's economy, diversifying its workforce, and training students for good jobs. The legislature has begun examining the governor's budget proposal, reviewing economic development incentives, and calling for greater school choice.

Washington's governor called on lawmakers to develop a framework to finance basic education during this year's session. A Senate committee approved a plan to fix how the state funds public schools by 2018, after the House passed a similar bill with a shorter timetable (calling for a fix by 2017); both bills would set up another task force to identify a solution to the state's overreliance on local school taxes to fund K-12 education.

West Virginia's governor released a budget proposal that helps solves a budget shortfall by reducing spending 3 percent, increasing tobacco taxes, creating a new tax on telecommunications, and redirecting some revenue; the governor is also proposing using approximately $52 million from the rainy day fund to help balance the current budget. In his State of the State speech, the governor touted progress in economic development, workforce training, education, juvenile justice, and addressing the drug abuse problem.

Wisconsin's governor, in his State of the State speech, discussed the need for continued job creation, changes to state employees' health insurance, and ways to make college more affordable; his college affordability plan includes increased tax breaks on student loans and additional aid for students at technical colleges. Democrats in the legislature recently proposed an economic development reform bill aimed at preventing state funds from being able to be used to reduce employment or move jobs out of the state.

Wyoming appropriators revised the state's two-year budget plan to only use $206 million from the state's rainy day fund, down from $450 million recommended for use by the governor, and instead

make more significant spending cuts. A legislative committee voted to remove the governor's proposal to expand Medicaid from the state health agency budget.

VIDEO: What Governor Snyder's FY17 budget means for Michigan

Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of

Michigan's families. Click here to learn more about the top 6 takeaways from the Governor's FY 2017 state budget.

Click a tweet to tweet it out:

The #MIBudget @OneToughNerd proposed yesterday makes key investments to strengthen Michigan for all families --> www.mi.gov/MIBudget

--> @OneToughNerd's #MIBudget includes $72 million a year for Detroit Public Schools. It is time to act now -- > www.mi.gov/MIBudget

--> @onetoughnerd's significant investment in #Flint families is the right thing to do. #FlintFWD #MIBudget www.mi.gov/MIBudget

THIS WEEK IN POLITICS

Top Officials at Risk and Unresolved 2016 Election Maps

BY ALAN GREENBLATT

Statewide Officials Find Themselves at Risk

Executive branch jobs are generally more stable than legislative positions. But some didn't seem too secure this week.

In Michigan, the drumbeat of complaints about Republican Gov. Rick Snyder just keep getting louder. On Monday, the Board of State Canvassers approved one of many recall petitions, which gives Snyder's critics a green light to collect signatures to put a recall measure on the November ballot. The approved petition has to do with education, but any recall campaign will focus squarely on how Snyder has handled the Flint water crisis.

In Indiana, Republican Gov. Mike Pence, who is up for re-election this fall, picked a new running mate this week after his quit. Lt. Gov. Sue Ellspermann is up for a job running a community college system, so Pence turned to Eric Holcomb, a former chair of the state GOP, to shore up his ties with party activists.

"By selecting Holcomb as his running mate, Pence sent a clear message about how endangered his political career is," wrote Matthew Tully, a columnist with the *Indianapolis Star*.

Pence is being challenged by Democrat John Gregg, a former House speaker.

States Gear Up for Driverless Cars

Change is commonplace and expected in the auto industry. In recent years, however, talk has been not only about body styles but also about whether or not a body is needed at all--a human body, that is. More than a dozen states introduced legislation related to autonomous vehicles in 2015. Already this year has produced much news about autonomous vehicles, and testing projects have become more prevalent across the country.

I Do Solemnly Swear ...

An oath is the bridge that carries newly elected leaders from the grueling campaign trail to the daily grind of a public servant. In January, men and women across the country raised their right hands and promised to support constitutions and do their jobs to the best of their abilities. Here is a look at a variety of state oaths of office and oath-taking traditions through history.

President Obama Sends His Final Budget to Congress

America has seen its way through the Great Recession and, through sacrifice and hard work, has turned its economy around. That was President Obama's message when he submitted his proposed budget to Congress Feb. 9, requesting $4.23 trillion in spending authority for the 2017 fiscal year, which starts on Oct. 1.

Lessons and Trends in Product Stewardship Laws

While Americans' recycling of paper goods, cans and bottles is up in recent years, recycling rates for products such as batteries and electronics are lagging behind. But states are ramping up efforts to change that. That's according to Chaz Miller, director of policy and advocacy for the National Association of Waste and Recycling, who discussed emerging issues in product stewardship laws in the states at a Feb. 2 CSG eCademy webcast, "Managing Solid Waste through Product Stewardship Laws."

Leaving Home for the White House

With the election season well underway, all eyes are focused on the road to the White House. Last week, on the anniversary of his presidential campaign announcement, President Obama returned to the Illinois State Capitol to remark, in part, on his journey from the Prairie State to Washington, D.C. On this Presidents Day, CSG takes a look at the states where U.S. presidents lived when they were elected to the country's highest office.

Top Federal Affairs Issues in 2016

Congress finished 2015 on an unusually productive streak by passing a variety of legislation important to state governments, including funding the Highway Trust Fund, reforming the Elementary and Secondary Education Act, reauthorizing the Export-Import Bank and funding the federal government through September 2016. In 2016, state leaders will be closely monitoring congressional and executive actions to ensure they do not preempt individual state laws or add any new unfunded expenses.

SCOTUS Halts Clean Power Plan: What Does this Mean for States?

On Feb. 9, the U.S. Supreme Court granted a stay that stops implementation of the Environmental Protection Agency's Clean Power Plan until the ongoing legal challenges to the rule are resolved by the courts. The 5-4 decision came in response to a request for stay to the Supreme Court by more than two dozen states, utilities and other industry advocates after the U.S. Court of Appeals for the D.C. Circuit denied previous requests to halt implementation of the rule last month.

LEGISLATIVE UPDATE

February 11, 2016: Senate Committee Advances Comprehensive Opioid Bill The Senate Judiciary Committee approved the Comprehensive Addiction and Recovery Act (S. 524), which authorizes a number of grant programs to address prescription and heroin drug abuse.

February 11, 2016: House Committee Advances FAA Reauthorization Proposal TheHouse Transportation and Infrastructure Committee approved the Aviation Innovation, Reform, and Reauthorization Act (AIRR, H.R. 4441), a six-year reauthorization of Federal Aviation Administration (FAA) programs that would privatize air traffic control operations while maintaining FAA's role as the nation's aviation safety regulator. The bill would increase funding for the Airport Improvement Program to $3.42 billion in FY 2017, and $3.82 billion in FY 2022: http://transportation.house.gov/news/documentsingle.aspx?DocumentID=399872

February 11, 2016: Congress Passes Legislation to Make Internet Tax Moratorium Permanent The Senate passed H.R. 644, the Trade Facilitation and Trade Enforcement Act. The legislation includes a provision making permanent the Internet Tax Freedom Act moratorium on state and local taxes on internet service. States with grandfathered internet taxes will have until July 2020 to comply.

February 10, 2016: House Passes Lead Notification Bill The House passed the Safe Drinking Water Improved Compliance Awareness Act (H.R. 4470), which would require the Environmental Protection Agency (EPA) to immediately notify the public when lead levels in drinking water exceed the federal limit if a state fails to do so.

February 9, 2016: Senate Ends Consideration of Comprehensive Energy Bill A cloture motion on S. 2012, the Energy Policy Modernization Act, was defeated after disagreements over amendments providing financial assistance to mitigate the Flint, Michigan, water crisis.

GENERAL

February 9, 2016: OMB Releases FY 2017 Sequestration Report The Office of Management and Budget (OMB) is responsible for calculating the across-the-board percentage reductions for non-exempt mandatory programs subject to sequestration under the Budget Control Act. In FY 2017, the reductions are as follows: -6.9% for non-defense mandatory programs and -9.1% for defense mandatory programs. Click here for the report:

FFIS Weekly Update–February 16, 2016

LEGISLATIVE UPDATE

February 11, 2016: Senate Committee Advances Comprehensive Opioid Bill The Senate Judiciary Committee approved the Comprehensive Addiction and Recovery Act (S. 524), which authorizes a number of grant programs to address prescription and heroin drug abuse.

February 11, 2016: House Committee Advances FAA Reauthorization Proposal The House Transportation and Infrastructure Committee approved the Aviation Innovation, Reform, and Reauthorization Act (AIRR, H.R. 4441), a six-year reauthorization of Federal Aviation Administration (FAA) programs that would privatize air traffic control operations while maintaining FAA's role as the nation's aviation safety regulator. The bill would increase funding for the Airport Improvement Program to $3.42 billion in FY 2017, and $3.82 billion in FY 2022:
http://transportation.house.gov/news/documentsingle.aspx?DocumentID=399872

February 11, 2016: Congress Passes Legislation to Make Internet Tax Moratorium Permanent The Senate passed H.R. 644, the Trade Facilitation and Trade Enforcement Act. The legislation includes a provision making permanent the Internet Tax Freedom Act moratorium on state and local taxes on internet service. States with grandfathered internet taxes will have until July 2020 to comply.

February 10, 2016: House Passes Lead Notification Bill The House passed the Safe Drinking Water Improved Compliance Awareness Act (H.R. 4470), which would require the Environmental Protection Agency (EPA) to immediately notify the public when lead levels in drinking water exceed the federal limit if a state fails to do so.

February 9, 2016: Senate Ends Consideration of Comprehensive Energy Bill A cloture motion on S. 2012, the Energy Policy Modernization Act, was defeated after disagreements over amendments providing financial assistance to mitigate the Flint, Michigan, water crisis.

GENERAL

February 9, 2016: OMB Releases FY 2017 Sequestration Report The Office of Management and Budget (OMB) is responsible for calculating the across-the-board percentage reductions for non-exempt mandatory programs subject to sequestration under the Budget Control Act. From: DTMB Director and CIO David Behen <dtmb@govsubscriptions.michigan.gov>
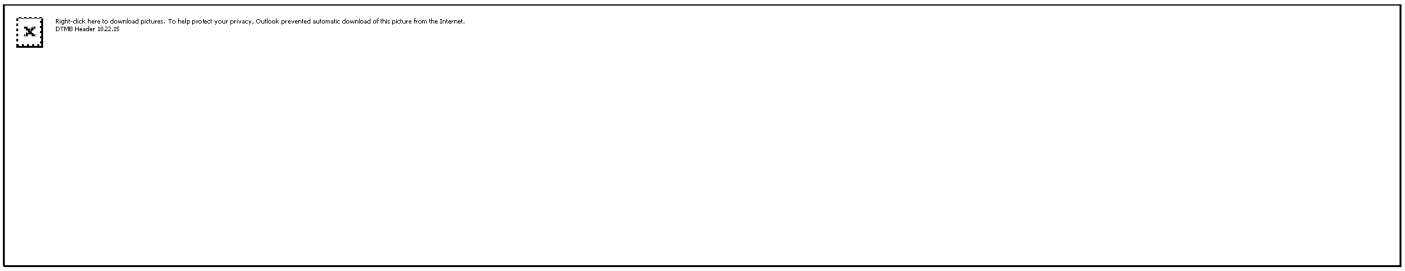
Sent: Wednesday, February 17, 2016 10:10 AM
To: Jeffery, Phillip (DTMB)
Subject: The Gov. Snyder's Budget Proposal



Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

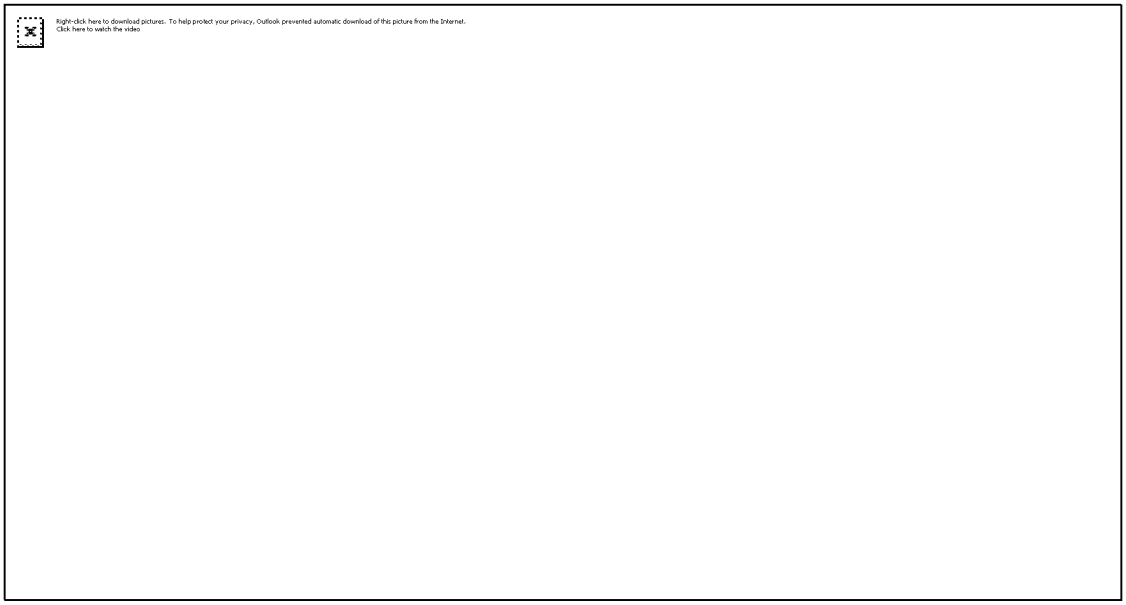
VIDEO: How volunteers are helping Flint

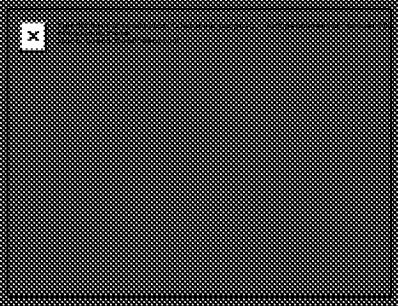


Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

Click here to watch the video and learn more about how the Food Bank of Eastern Michigan is helping Flint's families.

LISTEN IN: Governor Snyder's tele-town hall with Flint residents



Governor Snyder hosted his third town hall with Flint residents on Thursday, Feb. 11, answering their questions directly. *Click here to listen to the call.*

Cc: Jeffery, Phillip (DTMB)
Subject: RE: Flint Water Emergency

Sherri – I heard you timed that cruise really well. I talked to Rob and actually Nancy Duncan was involved a little. The issue was the request that DTMB cut a PO for $4.2 million of water filters, water, etc. I didn't really have a line that I could pull that from without blowing up payroll. It ended with Nancy Duncan determining that DHHS should cut the PO in order to keep the supplemental down to a few agencies. We are tracking all cost so will have that for reimbursement at some point (including approx. 90 iPads). Thanks for getting back and hope you had a great time. May the force be with you.

Sorry Greg, I was on the Star Wars Disney Cruise . . Sounds like a lot happened regarding the disaster while I was gone.

Can you give me a call Tuesday unless you already spoke with someone. The expectation is that you would get reimbursed provided funding was allocated to MSP. As you know we have the disaster contingency fund so it's reasonable that you would be reimbursed. Call me Tuesday and I can give you and update.

On Jan 12, 2016, at 8:59 AM, DeCamp, Greg (DTMB) <DeCampG1@michigan.gov> wrote:

> Sherri – As in the past, DTMB is being required to spend its own appropriation to support the emergency management declaration in Flint. We have previously discussed that it does not make sense and that this should be MSP/EMD directly funding this. DTMB does not have these types of costs built into any appropriation line within the department and would like some form of assurance that the expenditures incurred will be reimbursed. Thanks.

Subject: SEOC Jan 15 update

Evening update WITH QUESTIONS!

- Lt. Governor Calley visited the SEOC during today's briefing to thank everyone for their efforts and said that tension levels in Flint have lowered, this allows the state to start working on long term recovery efforts
- Red Cross will begin providing food Saturday to all volunteers beginning Saturday
- 3,208 homes have been visited as of this note
- DHHS conducted a short presentation on stress relief at the SEOC
- At time of briefing the following numbers are available for state employee volunteers: 64 Saturday, 84 Sunday and 100 Monday
- DTMB security coordinator notified that traffic at the state laboratory will increase beginning Saturday
- Guard has 34 soldiers are on active duty in the City of Flint
- DTMB assisted in procuring another 30,000 water filters and faucet units for Saturday delivery
- Capt. reminded key agencies (DTMB is one) that personnel must be present at SEOC during operation hours

DTMB resource requests include:

- Leased warehouse space for supply distribution
- Credentialing badges for volunteers
- Located JIC in Flint State Office Building with equipment
- SMART devices for water response teams (60)
- Procurement of trucks, water, water filters, cartridges and plumbing supplies for pilot water program
- Printing and delivery of water analysis test forms and informational palm cards
- Seven drivers with trucks transporting supplies throughout the city through Tuesday, January 19
- Temporary fuel cards
- 500 rain ponchos
- 40 yard dumpster for use at the warehouse
- Survey Monkey 1-month subscription for employee volunteer survey

DEQ asked DTMB about purchasing of water kit supplies once the allotted funding they received in October is reached. Who in finance do I need to reach out to to discuss?

I also need to understand if there any problems with DTMB purchasing things for Flint.

Thanks Chris

Hello Chris. I am cc Jeff Wellman and Jeff Brownlee on this email as well.

I will have an answer for you today.

My short answer is no problem - we need to make sure we purchase the necessary items for Flint. That said, I would like Phil, Jeff, Jeff and Brom to work with you to ensure we are doing everything the right way from the right funds.

Thoughts?

David

> > · DTMB security coordinator notified that traffic at the state laboratory will increase beginning Saturday
> > · Guard has 34 soldiers are on active duty in the City of Flint

· DTMB assisted in procuring another 30,000 water filters and faucet units for Saturday delivery
· Capt. reminded key agencies (DTMB is one) that personnel must be present at SEOC during operation hours

DTMB resource requests include:

· Leased warehouse space for supply distribution
· Credentialing badges for volunteers
· Located JIC in Flint State Office Building with equipment
· SMART devices for water response teams (60)
· Procurement of trucks, water, water filters, cartridges and plumbing supplies for pilot water program
· Printing and delivery of water analysis test forms and informational palm cards
· Seven drivers with trucks transporting supplies throughout the city through Tuesday, January 19
· Temporary fuel cards
· 500 rain ponchos
· 40 yard dumpster for use at the warehouse
· Survey Monkey 1-month subscription for employee volunteer survey

DEQ asked DTMB about purchasing of water kit supplies once the allotted funding they received in October is reached. Who in finance do I need to reach out to to discuss?

I also need to understand if there any problems with DTMB purchasing things for Flint.

Thanks Chris

Subject: Re: SEOC Jan 15 update

I am under the impression that agencies were given a certain amount of money to take care of the Flint situation.
I'm not aware that our agency received any of those funds. My concern is that those specific agencies who have the additional funds should be using the money that was allocated for Flint before we start kicking in to pay for things.

Also I was not part of the discussion with Nancy Duncan the other day on requesting the additional money for the water -- was there something that I should know based off of that discussion? Perhaps she said it's easier for DHHS to request additional funds then it is for DTMB?
Information like that would be very helpful.

Thanks Chris

Subject: Re: SEOC Jan 15 update

This is very helpful thank you. We will try to continue to encourage the agencies to work with our procurement area and purchase items off of their index codes.

As you are aware there have been times where they have asked DTMB to find the contract and purchase off of the contract, like the 60 iPads this week.

We are using a different index code for this emergency like we have for other emergencies in the past.

If there is a large purchase like the one we discussed the other day I will make sure to give Greg a call.

Thank you for your help.

Thanks Chris

· SMART devices for water response teams (60)
· Procurement of trucks, water, water filters, cartridges and plumbing supplies for pilot water program
· Printing and delivery of water analysis test forms and informational palm cards
· Seven drivers with trucks transporting supplies throughout the city through Tuesday, January 19
· Temporary fuel cards
· 500 rain ponchos
· 40 yard dumpster for use at the warehouse
· Survey Monkey 1-month subscription for employee volunteer survey

DEQ asked DTMB about purchasing of water kit supplies once the allotted funding they received in October is reached. Who in finance do I need to reach out to to discuss?

I also need to understand if there any problems with DTMB purchasing things for Flint.

Thanks Chris

As you are aware there have been times where they have asked DTMB to find the contract and purchase off of the contract, like the 60 iPads this week.
We are using a different index code for this emergency like we have for other emergencies in the past.
If there is a large purchase like the one we discussed the other day I will make sure to give Greg a call.
Thank you for your help.

Thanks Chris

Synopsis

Highlights:

- ❑ NASCIO 2010 Best Practice Award - Risk Management
- ❑ COOP/COG has requested to participate in L-10 DR project
- ❑ Working with designated agencies to design and build DR Plans.
- ❑ Have trained 389 State & Federal employees on Sungard fundamentals.
- ❑ Integration of HRMN, CMDB & Location data into LDRPS
- ❑ Web site now available for combined information regarding BCP & DR Services site on inside.michigan.gov.

Accomplishments this Reporting Cycle:

- ❑ Continued to refresh Location, Employee & CMDB data into LDRPS.
- ❑ Six additional SME/BRM (total of 39) surveys have been distributed for the Red Card (Application) Business Functions. We are receiving completed BRM surveys and have started the transfer process of Overview information to several of the Red Card Disaster Recovery Plans.
- ❑ Sungard CMS server refresh RFCs were created and Server Team 8 and VCoE teams are deploying the servers.
- ❑ Presented 8 Impact Analysis Summaries to DTMB BRM & GM as well as user agency senior management.
- ❑ Upgraded Production and Disaster Recovery Systems to latest release of Sungard CMS (10.8.141.26.0).

Disaster Recovery Analysis Resolution

Impact Analysis Summary (IAS)	Apps	Comp	%
Michigan Gaming Control Board	8	8	100%
Totals	8	8	100%
Total Plans In MiCMS	341		

Data Triggers: RTO/RPO	Apps	%
Documentation Distribution	8	100%
Data Analysis	8	100%
RPO / RTO Analysis	8	100%
Data Presentation BRM	8	100%
Data Presentation GM	8	100%
Agency Sign-off of IAS	0	0%

Planned accomplishments next reporting cycle:

- ❑ Continue to work on Disaster Recovery Strategic Plan for Critical Applications.
- ❑ Continue work on completing GAP Analysis for all Red Card applications.
- ❑ Continue to promote LDRPS Advanced Workshops with Agency and Technical Services management to complete their respective DR plans.
- ❑ Update and reconcile Red Card Application Plans between DTMB 208 forms, CMDB, LDRPS and Red Card publication.
- ❑ Distribute additional surveys to begin Application and Hardware Disaster Recovery Plan data collection for current Red Card functions.
